

Members of The Inspector General cast go through a last minute rehearsal in preparation for tonight's performance at 8:15 PM.

## Inspector General Opening Tonight

By JORENE MILLER

The opening night performance of The Inspector General, written by Nicholai Golgol, a Russian writer, will be presented tonight at 8:15 PM in the FCC social hall.

Repeat performances of the play will be given tomorrow and Saturday at 8:15 PM.

The play takes place in a small village in the center of Russia. The village officials are informed that the inspector general is due to arrive to check on their work.

The officials mistake a government clerk for the inspector. Throughout the play the clerk takes advantage of the village officials.

Twenty-one students make up the cast. The main characters are Zorro Ohanessian, Cherie Franklin and Ken Kennedy.

Students with student body cards may obtain their free tickets in Room A-154 between 10 AM and 4 PM daily.

Admission for adults and students without student cards is 1.50 and 75 cents, respectively.

"We have an extraordinarily good cast," Frederick J. Johnson an FCC drama instructor, commented. "Each person must be an individual character, and they are."

The technical director of the play is Charles T. Wright, an FCC drama and speech instructor. Other committee heads are props, Lydia Sanchez; costumes, Linda Jones; make-up, Sandy Dralle; shop foreman, Francis Sullivan; lighting, Larry Maneely and house manager, Donna Osbon.

## Fall Meeting Set For UC

The north central region of the California Junior College Association will hold its fall meeting Sat., Dec. 4, at the University of California at Davis.

Dr. Archie Bradshaw, president of Fresno City College, is the president of the regional association and will be the presiding officer.

John McCuen, dean of instruction, will represent the administration from FCC. Donald Wren, an FCC sociology instructor, is on the board of directors.

Several faculty members are chairmen for the various section meetings. They are Fred Green, engineering; Robert Kimura, science, life and physical; Mrs. Mildred Bosteder, vocational nursing program, and Hugh Golway, social science.

Other faculty representatives will be Miss Elizabeth Balakian, Jess Baker and Mrs. Alma Parker. Thomas Marshall, Faculty Club president, is voting representative.

## Induction Procedure Explained

Serious students need not worry about the draft.

"By a serious student," said Fred Judgens, chairman of the Selective Service Local Board No. 71, "I mean a student who maintains a 2.0 grade point average while carrying over 15 units or who works over 20 hours a week and carries at least 12 units."

Judgens made the statement in an interview and also while speaking at an assembly in FCC's auditorium on Nov. 16. Richard Cleland, dean of men, estimated that over 800 students were present.

"Students with a low grade-point average and those coasting through college with a below-minimum academic load," Judgens said, "account for most of the induction notices."

### Question Arises

"What," a student asked of Judgens during a question and answer period, "if someone goes through a semester or two of college with a low grade point average and then picks up his grades? Would he be given a deferment?"

"What would you think?" Judgens asked in return.

"I think he would deserve consideration," the student said.

"That's exactly what your local board would think," Judgens said. "The Selective Service is not a monster trying to deprive you of an education. It is made up of people just like you. The only way these people can determine a student's sincerity is to look at his grades and his academic load."

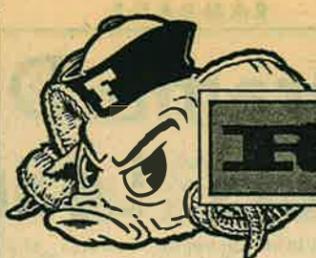

Judgens also brought out several other points concerning students and the Selective Service. They were:

### Time Period

When a student receives a classification of 1-A, he has ten days in which to appeal the classification. The appeal should be filed on Form 109, available in FCC's Admissions office. If no appeal is made, the board considers the classification accepted.

A deferment may be altered at any time due to the national

(Continued on Page 3)

## Commission Examines FCC Needs

A new instructional commission has been formed at Fresno City College to study the school's operational purposes and how they might best serve student needs.

John McCuen, dean of instruction, said the commission will operate through discussions with faculty members on any instructional problems and recommendations instructors might want to present to the commission.

McCuen explained the commission will be required to submit a report outlining the "instructional philosophy" which will make operationally clear the role of our different functions as they fit with our general purpose of meeting the needs of all our students.

### Special Design

The report is specifically designed to explain how the school's instructional program will be designed and how the instructional staff will be orientated to meet student needs. It will also recommend methods of evaluating the design of academic courses and the orientation of staff members on the campus.

McCuen said the report will be due Mar. 1, 1966.

Another report by the commission, to be completed by Mar. 1, 1967, will study the objectives of the general education classes on the campus. The purpose of this report is to offer recommendations on how these objectives be designed to aid students.

### Members Are

Faculty members selected by McCuen to serve on the commission include Frank P. Attardo, Gonzalo Estrada, Gerald J. Fries, Robert H. Kimura, Kenneth B. Owens, William A. Rumley, William F. Spry and Robert F. Winter. Rumley will be chairman of the committee.

McCuen said the value of the commission will depend on the number of faculty members participating in the discussions.

"This is a healthy process," he said, "and we should all gain strength from it. And this means our total instructional program will gain strength."

McCuen explained that most of the initial meetings will be primarily concerned with organizational matters. He added that instructors wishing to present plans or recommendations to the commission may do so by contacting chairman Rumley.

## Mower Noise To Be Cut

The disturbing drone of lawn mowers during class hours may soon become past history.

Paul Starr, dean of special services, said that in order to stop the noise of the lawn mowers during classes the administration wants to hire a custodian to do the mowing and the trimming on the weekends.

No definite decision has yet been made. Starr said a final decision will probably be reached early next spring.

## Student Council Hears Hyde Talk

By JAY YORK

"Communication is the key to successful democracy, whether on the campus or national level."

This is what Fresno's Mayor Floyd Hyde told the Student Council and others interested in student government Tuesday. Mayor Hyde reminded students that democracy is the

most difficult form of government to make work. In an apparent reference to the Viet Nam demonstrations, he said that he would defend the right to criticize. But he pointed out that with that right to criticize goes the obligation to know what one is talking about.

Using the City Council as an example, Mayor Hyde said communication is a necessity between the council and those who carry out measures enacted as well as between the members of the council.

To the one who anticipates a career at any level of government, Mayor Hyde said that student government experience is valuable. He said that his experience as student body president, both in high school and college, was of more value to him as a mayor than his 15 years of law practice.

He said student government experience is also valuable to those who do not plan a career in politics. Not only is the art of communication learned, it also teaches the student the value of involvement in government beyond criticism and protest. He said this active involvement is essential to a successful democracy.

In a question and answer session following his message, Mayor Hyde was asked how to combat student apathy. He emphasized that it was not the easy way — by stirring up controversy. He said that it takes leadership and more effort to do it correctly.

Mayor Hyde commended the members of the Student Council for the sacrifice of their time to take a part in their level of democracy.

## US Official To Speak Tuesday

By PAUL SULLIVAN

On the 24th anniversary of Pearl Harbor a Washington, D.C., state department official will speak Tuesday noon in the FCC auditorium on United States foreign policy.

John E. Horner is director of the office of public services, bureau of public affairs.

Horner's speech is being sponsored by the Fresno World Affairs Council and is part of a national series of state department community meetings on foreign policy.

### Heads Panel

He will head a panel discussion at 8 PM Tuesday at the John Muir School. This discussion is free and open to the public.

Mrs. Dorothy Naman, the council's president, said that this is the first time such a series has been conducted in California.

She said that these meetings are intended to bring together members of the community with senior Washington officials who are actively engaged in making and carrying out United States foreign policy.

### Is Accompanied

Horner is being accompanied by three other state department officials on the Northern California tour.

The state department speakers team will visit the Northern California cities of Fresno, Carmel-Monterey, San Jose, Stockton and Sacramento.

Horner, who heads the team, was born in Michigan in 1916 and

(Continued on Page 3)

## Police Force Keeps Busy

The opening weeks of the campus police program has netted an estimated total of 450 traffic citations.

A campus policeman taking care of the citations said, "We were knee deep in citations the first week."

Paid citations have totaled only 86 so far. The average citation has been for one dollar, but some have been as high as four dollars.

Mrs. Betty Anderson, financial secretary said, "This is going to be a money-making proposition if it continues at its present rate."

One thing that some don't seem to realize is that after five days the cost of the citation doubles. If there still is no action taken, the student is liable to disciplinary action," she said.

Al Fox, captain of the campus police said, "We have received excellent cooperation from the students. No problems have yet to show themselves. The students have accepted citations, admitting they were wrong and cooperated in every way to make the force a success."

Published weekly by the journalism students of Fresno City College, 1101 University, Fresno, California. Composed by the Central California Typographic Service. Unsigned editorials are the expression of the editor.

# Educational Revolution Will Aid FCC Students

An educational revolution designed to keep instructional techniques in conformity with the constant social changes is underway at Fresno City College.

The revolution began at a faculty meeting three weeks ago where John McCuen, dean of instruction, read a critical examination of the school's instructional program and gave a proposal for action. As a result of the meeting, a new instructional commission has been formed by faculty members to study the operational purposes of FCC and prepare an instructional philosophy to better serve the students.

The entire operation may be described as twofold; one plan is designed to develop an instructional program to better meet student needs, and a second plan is designed to study general education objectives and develop them to aid students.

If the committee is successful, a uniform instructional system would be developed at FCC whereby students could take a course and know they are receiving the best possible teaching methods and subject matter.

While, in general, the educational techniques and objectives at FCC are already quite excellent, it is wise that the administration and faculty continue to improve conditions and try to keep pace with the fast changing demands of today's society.

If this program succeeds, FCC will indeed have an educational revolution.

Roderick D. Ross, at right, received the queen candidate issue of the Rampage and bets were promptly placed by fellow GI's . . . outcome of FCC's homecoming is eagerly awaited in Chu Lai, South Viet Nam.

# Credit May Be Given For Study In Scandinavia

Scandinavian Seminar, a nine month period of study, is available to FCC students.

The Scandinavian Seminar was started by its present academic director, Halfdan Gregersen. The program consists of nine months of study in Denmark, Norway, Finland or Sweden. It runs from early August until the following May.

The seminar is made up of eight sections including such points as family stays, folkehjskole (folk high school), the Christmas holidays and final seminar courses.

### Scanda Home

The family stay program places a student in a Scandinavian family's home. Here he can improve his use of the language and is treated as a member of the family in order to gain an insight into Scandinavian family and community life.

### Evaluation

At the end of the seminar year the American and Scandinavian staffs examine and evaluate the

student's work. If the requirements have been met satisfactorily the staff will recommend that academic credit be granted from the participant's college or university.

Concerning scholastic credit, Eric H. Rasmussen of the FCC counseling staff said that he sees no reason why sections of the seminar should not be given credit at FCC.

Further information regarding the Scandinavian Seminar may be obtained from Rasmussen in Room B of the counseling center.

Application blanks may be obtained by writing Scandinavian Seminar in New York.

# Drama Department Builds Sets, Learns Art Of Makeup

Tonight Inspector General, the drama department's fall production, will begin, but for the play's stage crew it is the end result of their long hours of work.

"It takes about three weeks to build an adequate set," said Charles T. Wright, technical director.

Wright has taken over the technical phase of the drama department. Last year he taught drama at Hoover High School. He is a graduate of the College of the Sequoias and holds a bachelor of arts and master's degrees in drama from FSC.

### Enjoys Directing

"I like technical work because that is what I'm doing now," stated Wright, "but I also enjoy directing."

He served as set designer for Inspector General and also designed the set for FCC's touring play, Pierre Patelin.

He is assisted by his theater crafts class. They learn set building, lighting, costuming, make-up

TOM WRIGHT

and other phases of backstage work.

### Student Chairmen

"Make-up, costumes and properties are handled by student chairmen," said Wright.

Members of the costume com-

mittee are Linda Jones, chairman; Linda Omelich, Kay Posselt and Jane Firebaugh.

Those on the properties committee are Lydia Sanchez, chairman; Pamela Havenhill, Mary Ponzio, Joseph Barasi, Patricia Gregory, Susan Crossley and Kathy Ross.

### Make-Up

Students applying make-up are Sandy Dralle, chairman; Sharon Serna, Miss Crossley, Miss Ross, Miss Gregory and Miss Ponzio.

Others working backstage are Carolene Lung, stage manager; Larry Maneely, assistant stage manager; Ben Cantreras, Irv Voorheis, Maneely, Francis Sullivan, lighting, and Robert Gill, sound.

The scenery was constructed by Sullivan, chairman; Malcolm McGregor, Jerry Ratliff, Miss Havenhill, Gerald Myers, Edward Trujillo, Joe Dudukian and Miss Lung.

Evelyn Budmark designed the posters and program cover, and publicity was handled by Miss Dralle and Kathleen Bier.

Donna Osbon is house manager.

# Newspaper Stirs Interest In Viet Nam

Mary Ann Poor, Rampage exchange editor, mailed six copies of the last Rampage to Roderick D. Ross in Japan, where they will be sent to Chu Lai, South Viet Nam.

The reason for the papers being sent to Viet Nam is that bets had been made on who the FCC Homecoming Queen would be.

Vivian Johnson, club news editor, had previously sent an Oct. 7 issue of the Rampage intended for Ross, but evidently many other servicemen in Viet Nam were interested in the news from the FCC campus.

After receiving an answer from Ross, five copies of each Rampage from Oct. 7 on were sent to Viet Nam.

In a recent letter Ross said, "I received the papers two days before I left Chu Lai, so they came just in time. All the guys really dug them. I think just about everybody in camp down there has bets on who is going to be homecoming queen, so don't forget to let me know the results . . . Anyway, everyone says thanks."

# Brenninger Receives Leave Of Absence

Mrs. Flo H. Brenninger, a Fresno City College English and speech instructor, has been granted a leave of absence next semester.

She will attend the University of Munich in Germany with her husband, Dr. Ralph Brenninger, professor of German at Fresno State College.

He also has been granted a leave of absence for one semester and will attend graduate classes in German.

### Lectures In German

"The lectures will be spoken in German," said Mrs. Brenninger.

They will leave by freighter in February and return by plane in September.

Since only 40 pounds of baggage per person is allowed on the plane, they can only take a limited amount of clothing.

### Three Seasons

"This will pose a problem," said Mrs. Brenninger, "because we will have to prepare for three seasons, winter, spring and summer."

Paul, their son, will accompany them on the trip. He is a sixth grader at the FSC Laboratory School and may attend a German school.

Toto, the Brenninger's Maltese terrier, will also be allowed to go on the trip.

# Williams Hits Vote Issue

Hosea Williams, a top aide to Dr. Martin Luther King, assailed President Johnson's administration on its handling of the civil rights issue.

In his speech at the Second Baptist Church last Thursday, Williams said Johnson was "pussy-footing around with the voting rights bill."

"The federal government misled us when they passed the Negro vote bill," he alleged. "Nothing Johnson has signed is going to rid the white man of bigotry."

Williams was in Fresno to recruit students for voter registration drives and to create interest in the Summer Community Organization of Political Education (SCOPE).

# UC To Hold Annual Day

The Associated Students of the University of California will hold its annual University Day program on Dec. 11 in Berkeley.

The program is planned to acquaint prospective students to college life at the institution.

### Singers

A choral presentation by the Collegian Singers will open the welcome meeting. It will be followed by welcome addresses by Dr. Roger Heyns, chancellor of the Berkeley campus, and Jerry Goldstein, student body president.

Hour-long tours will be conducted through all the various departments by departmental heads, who will show facilities, discuss programs and answer questions.

### Cal Athletics

After a noon lunch meetings will resume, and speeches will be delivered by Jim Lemmon, crew coach, discussing Cal's athletic program, and by Acting Dean of Students Arleigh Williams.

This is how the Fresno City College cafeteria patio looked recently after students had finished eating. Students are requested to bus their dirty dishes and to keep tables clear of trash.

## FCC Cafeteria Mess Reaches Patio Area

By DENNIC McCARTHY

The campus does not seem quite so attractive these days, not since Fresno City College's destructive litterbugs have invaded the great outdoors!

An expedition through the maze of trash and litter strewn about

the cafeteria's outdoor patio should be enough to convince anyone that life does exist at FCC, particularly between the hours of 8 AM and 3 PM. But by the time the clock strikes 4, usually all that is left standing are remains. Food remains, in all sizes, shapes and forms.

Take a look sometime and you might find such choice tidbits as:

- Sandwiches sticking out of Dixie cups and hamburgers stuffed in milk cartons.
- French fries squeezed between the cracks of benches.
- Lakes of Pepsi, milk and coffee (sometimes intermixed) floating in plates, saucers and trays.
- And, on occasions, a broken down bench that has seen its better days.

Unfortunately, there is no way to exterminate bugs that litter since, in most cases, they are of the two-legged human variety. Rehabilitation may be a solution to some problems, but as of yet, nobody has come up with a sure-fire plan to rehabilitate litterbugs.

## Draft . . .

(Continued from Page 1) situation or a change in the student's status.

Ordinarily, students are given four years to complete a four-year course. Working students are exceptions.

Two years are allowed for work on a master's degree and three additional years for a doctorate.

Students enrolled in apprenticeship programs, such as FCC's Technical and Industrial Division, are allowed four years for completion of the program.

## Colleges To Offer Speakers

A first year program of community services to begin next fall has been approved by the State Center Junior College Board of Trustees.

A Sunday evening series at FCC will present four speakers in a series of talks for the community at large. Reedley College will offer speakers on four Monday nights. No admission will be charged.

"We're starting off modestly with only four speakers," Superintendent Stuart M. White told the board. "But we're going to get outstanding people."

### Campus Speakers

Tim Welch, public information officer for the State Center District, stated that each campus will select the speakers it wants to hear and that the same speakers will not necessarily speak at both campuses.

The proposal, which passed by a 7 to 0 vote, also includes plans for two Saturday morning youth concerts. The programs will be presented by the Fresno Philharmonic Orchestra.

"There will be two performances each Saturday. One will be given at 9:30 AM and the other at 11:30 AM," said Welch. "They will be patterned after the Leonard Bernstein concerts."

### Remodeling Job

White also proposed that the district consider doing some work on the acoustics and seating in the FCC auditorium in preparation for the speakers.

The total district budget for both campuses for the program, which will be financed out of the Civic Center tax, will be \$14,135.

JOHN HORNER

## Official . . .

(Continued from Page 1) has been in foreign service for 27 years.

He attended schools in China, the Philippines and graduated from Somers College in Southampton, Bermuda. He has attended Columbia University, University of Paris and Cornell Graduate School and is a graduate of the National War College.

Horner's first foreign service assignment was in Dublin, Ireland, and he has since served in Paris, Kabul, Moscow and other cities.

He speaks Russian, Arabic and French. He is married and has four children.

The speaker's team is made up of three other state department officials. They are: Edward W. Mulcahy, deputy director, office of Eastern and Southern African affairs, bureau of African affairs; Daniel W. Montenegro, advisor on youth, labor and camp worker's affairs for the bureau of Inter-American affairs; and James H. Boren, special assistant to the U.S. coordinator of the alliance for progress and director of the partners of the alliance.

## FCC Clubs Present Activities

By VIVIAN JOHNSON

Phi Beta Lambda, FCC business club, is selling chocolate Christmas candy. The prices for the candy will be \$1 and 50 cents. Purchases can be made from any club member.

The money will be used to send delegates to their state convention in Los Angeles. The club meets at noon on Wednesday in Committee Room A.

Dr. Thelma Rae, professor of education at Fresno State College, will speak Tuesday to the Student California Teachers Association and any students interested in the teaching profession. Dr. Rae will speak on What to Major in to Get an Elementary or Secondary Teaching Credential.

The meeting will be held in Committee Room B at 7:30 PM.

The Associated Men Students are sponsoring a beard-growing contest which will run until Dec. 7, the night of the Christmas formal.

Each contestant will be charged 10 cents for an entry fee. The best beard, the most comical beard and the most original beard will be awarded prizes.

AMS will meet tomorrow at noon to discuss plans for the dance and contest.

Officers are Donald Perry, president; Donald Hammond, vice president; Louis Bell, secretary, and Ronald Primavera, treasurer.

Circle K, a service club, will pass out copies of the Declaration of Independence and other material to students in honor of National Independence Week.

Bart Turner, club president, said the group will also sponsor a drive to pick up food for the Fresno Nutritional Home for the Christmas holidays.

## Final Drawings Now Underway

Final drawings for the remodeling of the Fresno City College student center are underway by the local architectural firm of Walter Wagner and Associates.

Garland Peed, assistant superintendent in charge of business for the State Center Junior College District, said that the board of trustees made the decision to proceed with the plans following a tour of the student center on Nov. 15.

### Funds

The board also authorized the expenditure of \$147,756 to be used for the remodeling. This sum represents a cut of \$31,199 from the original estimate of \$178,856.

Peed said that this cut does not mean that any major part of the remodeling project is being eliminated. He stated that the largest portion of this deletion is the development of the quad between the student center and the cafeteria. This \$18,000 development is being held off until a later date.

### Expenses

Other costs were deferred by transferring the expense of sandblasting and painting of the exterior of the building to the maintenance fund.

The architect also accounted for a \$2,000 savings by finding a new type of lighting system which will give the same luminescence as the previous, more expensive system.

COME ON, YOU TWO . . . say Marcia McFaddin and Cindy Kennedy while Stan Faretta and Steve Fuller go over the fine points of that great 1932 Rolls Royce motor, as well as enjoy the super-hot 1966 Cobra. The men's clothes come from WALTER SMITH, Fresno's downtown shop. These casuals have the rugged good looks you want for informal dates.

Stan's hopsack cotton shirt has a high-roll, button-down collar . . . 5.00. His Sta-Prest Levi's are new top-pocket style, 6.98. The all-wool Pendleton shirt is a classic he'll enjoy for a long time . . . 14.95.

Steve wears white Levi Slim-Fits (4.25) and a Byford imported British pullover, 14.95. Calfskin loafers are 15.95.

Ram players Don Slade, No. 34, and Paul White combined to pull down 31 rebounds against the Bakersfield College Renegades last Friday night.

# Wrestling Team Hosts Bakersfield

Fresno City College grapplers will host their first dual meet of the season today when they face Bakersfield College in a nonconference meet set for 5 PM in the FCC gymnasium.

With seven lettermen returning to the Ram squad, Coach Hans Wiedenhofer said the team should have a "good but difficult season."

"Right now it's hard to say how good the team is because we haven't faced anyone," he commented. "As soon as we have a couple of meets, we will know where development is needed and can start from there."

The returning lettermen are Freddie Contreras, 155; Bob Johansen and Jim Kalina, 123; George Peverill, 130; Ron Lott, 145; Bill Arthur, 191, and Ben Brase, heavyweight.

The Rams will travel to the College of San Mateo Sat. to compete in an all-day tournament in the San Mateo gym.

The mat competition will begin at 11 AM and run through 10 PM. Seventeen schools will compete.

Wiedenhofer said the tournament would be more of a season opener to test the strength of other schools.

"We know a lot of the schools are good," he said. "In this tournament we should find out just how good."

# FCC Harriers Win Northern Cal Crown

After sweeping undefeated to the Valley Conference Championship, FCC's harriers legged their way to the Northern California Cross Country Championship Nov. 19 and then placed third in the state JC championship meet last Friday.

The Rams set a new scoring record — 36 points — in the Northern California race, held at the Sacramento State College course on Nov. 19. The 36 point total broke the previous 48 point low score record set last year by American River Junior College.

Three Rams — Larry Stocks, Ben Mendiola and John Garcia — led the 130 runners for the first 3/4 mile. Then Steve Garcia moved up, putting a knot of four Rams at the head of the pack.

The mile time was 4:38. At this point Charles August,

from ARJC, sputtered past three FCC men and began to see-saw the lead position with Stocks.

At two miles the time was 9:36. Going into the final 440, Stocks was in the lead followed by August and J. Garcia. Stocks failed to cut across the grass on the last corner and lost ten yards of his 20 yard lead to August.

Russ Mahon, a Foothill College harrier left his position in the main body of runners and sprinted the last 400 yards to place an unexpected first. His time was 16:32 for the 3.4 mile course.

August passed Stocks, placing second at 16:34. Stocks crossed the finish line one second later.

John Garcia finished fourth in 16:40 and three other Rams placed in the top twelve positions to wrap up the championship. They were Steve Garcia, eighth (16:47); Ben Mendiola, ninth (16:48) and Alton Durst, 12 (16:52).

Larry Stocks again emerged as the Rams' key man in the state JC cross country championship meet held at American River Junior College on Nov. 27.

Stocks with a time of 18:11, finished ahead of all other Northern California runners.

The other four Rams responsible for FCC's third place score were Ben Mendiola, 18:44; Steve Garcia, 18:45; John Garcia, 18:47 and Alton Durst, 18:50.

  3. Fresno ..... 103
  4. Pasadena ..... 109
  5. Orange Coast ..... 116

The Fresno City College basketball team under the direction of new Head Coach John Toomasian is in Bakersfield today for the Bakersfield Invitational Tournament.

The Rams are scheduled to open the eight-team tournament against Hartnell College of Salinas at 11 AM in the Bakersfield College gymnasium. If victorious, the Rams will face the winner of the Chaffey College-Bakersfield College game at 7:30 PM tonight.

Also participating in the tournament are San Joaquin Delta College, City College of San Francisco, Monterey Peninsula College and Modesto Junior College. Delta and CCSF are the pretournament picks as the teams to beat.

Each team will play three games as the field is narrowed down to a winner's bracket and a consolation bracket for those who lose. The championship games for each bracket will be played on Friday.

### Lose To Merced

Toomasian's men lost their first game Tuesday night to Merced College, 89 to 75, after opening the season with two impressive wins last weekend on their home floor.

Merced proved to be too strong for the shorter, less experienced Rams. Four of the five Blue Devils' starters hit in double figures.

Veteran Bobby Lee, moved to forward this year for the Rams,

was the big man for FCC. Lee pumped for 28 points.

Coach Toomasian stated that he wasn't too dismayed over the loss: "Our boys were beaten by a bigger, more experienced team that showed a lot of finesse for this early in the season. They're tough without a doubt!"

Hartnell (FCC's opponent in the opening game of the Bakersfield Tournament) was the victim Friday of Merced's prowess on the court. The Blue Devils thumped the Salinas-based team 119 to 89.

### Season Opener

The Rams made their 1965-66 season opener against Bakersfield an enjoyable one for the debuting Toomasian and for 1,500 FCC fans who attended the Friday night game.

The Rams made the game look

easy as they coasted by the Renegades 75 to 62. Bobby Lee and Hart Polk each flipped in 14 points for FCC while starting teammates Ken Delpit, Don Slade and Paul White hit for 13, 10 and 9 points, respectively.

Slade and White were the big men on the backboards for the Rams as they combined to pull down 31 rebounds.

### Delpit Stars

The Rams continued their unbroken string of victories on home floor of the new FCC gym Saturday night as they overcame the spirited play of Allen Hancock College to win 72 to 62.

FCC guard Ken Delpit was the man of the hour as he hit for 21 points in a game that had a tie score 10 different times.

### Toomasian Impressed

Following the two victories Toomasian said that he was impressed by the poise of his players, many of whom are yearlings. "They made the typical early-season mistakes, but they more than offset them by many mid-season plays. The team is in excellent physical condition and if their mental attitude remains as good as it is right now, we'll be tough."

# Athletes Feted

Harry Anderson, head football coach at San Jose State College, will be the guest speaker at the 1965 fall sports banquet at Fresno City College Dec. 13 in the cafeteria.

Awards will be given out to athletes in cross country, football and water polo. Parents of the players receiving awards will be invited to the banquet.

Special awards will be handed out to the top athletes in football, cross country and water polo.

The cross country team will receive special recognition for winning the Northern California championship under Coach Bob Fries.

# PERSONAL TOUCH

Provident Mutual agents are given a solid grounding in the professional approach to life insurance selling. They're trained to be thorough, to make recommendations that fit into an overall financial program tailored to the client's individual requirements.

Our brand of service is pretty personal, too, and we come by that naturally. The Company we represent, despite its size, still has a reputation for serving its policyowners in an individual way.

Let us show you how Provident Mutual professionalism goes hand in hand with personal service.
