NUMBER 3

**THE RETURN OF THE RAM**—This might be another Sam the Ram if the Student Council approves the matter. Inspecting the fine set of horns on the left is Floyd Mahon while Jim Adair checks out the right side. Adair was instrumental in getting the ram for last Saturday's game with San Jose City College. For the highlights of the game see this week's sports page.

**100 Tickets Reserved**

**Speakers Program Will Be Held Here**

Fresno City College is beginning a community speakers program which will open on Nov. 13 in the FCC Cafeteria with novelist and political columnist Gore Vidal.

The Sunday evening series is open to the public and the admission is free. Tickets may be obtained in the public information office, Student Center 217, Monday through Friday from 1-5 PM.

Timothy Welch, public information officer, said that the first 100 tickets will be reserved for student body card holders. The remaining tickets will be held for telephone reservations and the public. If some tickets are not picked up by the public they will be available to FCC students the Wednesday before each lecture.

**Other Speakers**

Five other speakers scheduled for the Sunday night series are R. Buckminster Fuller, architectural innovator Feb. 19; Sir Alexander Douglas-Home, former prime minister of Great Britain Mar. 19; Harry Golden, publisher of the Carolina Israelite Apr. 16; Sir Bernard Lovell, director of the Jorndell Bank Observatory and on May 7 Jessica Mitford, author of *An American Way of Death*.

Vidal, the first speaker in FCC's forum series, published his first novel, *Willaw*, at the age of 19. It was the first novel to be published about World War II. Other books by Vidal include *The Judgment of Paris* and *Julian*.

He also wrote two Broadway plays, *Visit to a Small Planet* and *The Best Man*.

**Architectural Innovator**

Fuller, who was subject of a 1964 *Time* cover story, is the inventor of domes used in such things as radar installations and auditoriums. He has proposed a dome to cover the area of Manhattan which would use less steel than is in the steamship, *Queen Mary*.

Lord Home, Great Britain's

prime minister in 1963, is making only 10 public speaking engagements, all of which are in California.

Golden, besides being publisher of the *Carolina Israelite*, is the author of *Only in America* and *For Two Cents Plain*.

**Soviet Observer**

Sir Bernard Lovell was the first western observer to inspect the Russian space centers in the summer of 1965. He has also been instrumental in decoding the radio signals of the recent Soviet lunar probe.

Miss Mitford, aside from being the author of *The American Way of Death*, has published several articles on the freedom of the press and trial by newspaper headline.

**VISTA Aids Poverty War**

Representatives from VISTA (Volunteers in Service to America) will be at FCC Oct. 10-11.

Miss Doris N. Deakins, dean of women, said that the representatives will be in the Cafeteria foyer. They will outline the role college students can play in the war on poverty as VISTA volunteers.

VISTA volunteers are serving in urban slums, rural areas, job corps camps, migrant worker communities, Indian reservations, hospitals, schools and institutions for the mentally ill.

**Former Student Accepted Into Peace Corps**

Richard Torres, a recent graduate of FCC, has been named as a Peace Corps Volunteer to Columbia.

Twelve weeks of special training at the University of New Mexico this summer, preceded his enlistment into the Peace Corps. Special training included U. S. history, Spanish, world affairs, and Columbian history and culture.

Training in community development theory and youth development through the use of recreation and sports were also included in his indoctrination program.

**Sports Editor**

While preparing for Peace Corps service, Torres was the sports editor of a small Spanish newspaper available to the Peace Corps trainees on the campus.

Activities that he will participate in include community development, agriculture, health and physical education and literacy programs.

Volunteers are in various work sites throughout Columbia.

Mrs. Beatrice P. Torres, the mother of Richard, stated that she was very proud of her son. I know he will be very happy in his work."

**Service To Oothers**

Mrs. Torres explained that her son has always "been interested in doing something for someone." Mrs. Torres said that originally, her son was interested in going to Africa but found he was needed in South America instead.

While at FCC, Torres majored in history and a foreign language. He received his Associate in Arts degree in 1965. He was active in the track and cross country teams and took part in the State Cross Country Meeting in 1964-65. He was also voted the most improved player in 1964.

**Ramrod Is Unofficial**

**Live Ram Mascot Returns To FCC**

The unofficial FCC ram, affectionately called Ramrod, made his debut at the Ramburger Roundup and the football game which followed.

"Ramrod is an eight month old, easily handled, Dorset Horn ram," said FCC sophomore, Jim Adair.

Ramrod was loaned to Adair by Paul Briggs, an instructor at Fresno State College. FCC students, Floyd Mahon and Linda Yazizian assisted Adair in the handling of the ram.

**No Sponsors**

The possibility of having a ram as a mascot will be brought up at the next Student Council meeting Tuesday at noon. There are, as yet, no sponsors for the proposed mascot.

Merle L. Martin, dean of students, said that the ram will not be allowed to be taken to away games.

"If the ram is approved by the Student Council, and obtained for a mascot, a contest may be presented to FCC students to name the ram," said Miss Yazizian, Student Council publicity chairman.

The first ram mascot appeared in October of 1948 at FCC. The last ram mascot was in October of 1963.

The ram has been a past symbol of school spirit and if the present ram is approved by Student Council he will be FCC's eighth mascot.

**Sam The Ram**

The last mascot at FCC was called Sam the Ram, which has been the most popular name for the ram mascots. He was donated to the college by a student and appeared at all the football games.

Rally commissioner of 1963, Bill Mazzeo, in a back issue of the *Rampage* said, "We are one of the few schools in this area that has a real live mascot and by having a real ram, I feel that it generates more school spirit and enthusiasm."

An FCC student, questioned about the ram after the game said he thought it was a great idea.

RICHARD TORRES

**Counselor Outlines Procedure**

Eric H. Rasmussen, an FCC counselor, said that students who plan to transfer to a four year college or university should complete four definite steps before their transfer:

1. Pick up an application in the counseling center.
2. Fill out the application and mail it to the college of his choice as soon as possible.
3. Make arrangements to take any test, such as the American College Test and the Scholastic Aptitude Test.
4. The student then should contact the Admissions and Record Office and ask that his transcripts be sent to the college to which he is transferring.

**FSC Applications**

Application materials are now available for Fresno State College.

As described by the counseling center, the SAT is a three hour objective test designed to measure how well a student has developed verbal and mathematical skills.

The dates for the SAT for this year are Nov. 5 and Dec. 3. California is the only state that gives a November test. The deadline for applications to be in for the Nov. 5 test is Oct. 8. Information concerning these tests may be obtained in the Counseling Center anytime during business hours Monday through Friday.

**SAT Test**

The SAT will be given in the Cafeteria and Room 200 in McLane Hall and the Library at 8:30 AM on the test dates. Students should bring along three No. 2 pencils, and a pen is also suggested.

A counseling center representative said that ACT consists of tests in the areas of English, mathematics, social studies and natural sciences.

The English test is primarily a test of appropriateness and effectiveness of written expression. There are also sections for correctness and the mechanics of writing.

The mathematics test examines general mathematical reasoning ability and formal mathematical skill generally taught in high school.

**Reasoning Skill**

The social studies and the natural sciences tests are examinations of the student's ability to do the types of reasoning and problem solving in reading situations that are unique to these fields.

The questions for the ACT are of the multiple-choice type.

The test dates for the ACT test are Oct. 15 and Dec. 10.

## Board Sends Questionnaire To Draftees

The selective service will begin drafting men in the 26-34 age bracket in the near future. "This applies to childless married men and those over 26 and single," said Jay Hathaway, director of selective service.

The Fresno Selective Service office said that more young men are needed to serve in our country's armed forces as the war in Viet Nam continues.

### 100 Eligible

Hathaway further said, "Questionnaires were mailed to over 200 men and if percentage estimates hold true, about 100 men over the age of 26 who have held deferments will be eligible to be drafted."

Young men are required to register with their local boards upon reaching 18. The selective service board then issues a classification card which the individual must carry at all times. Ten days are allowed in which to appeal the classification if some just cause can be shown.

### Request 2S

Male students may request 2S classification if they are in the upper ¼ of their class and notify the selective service by means of the information cards available in the Office of Admissions at FCC.

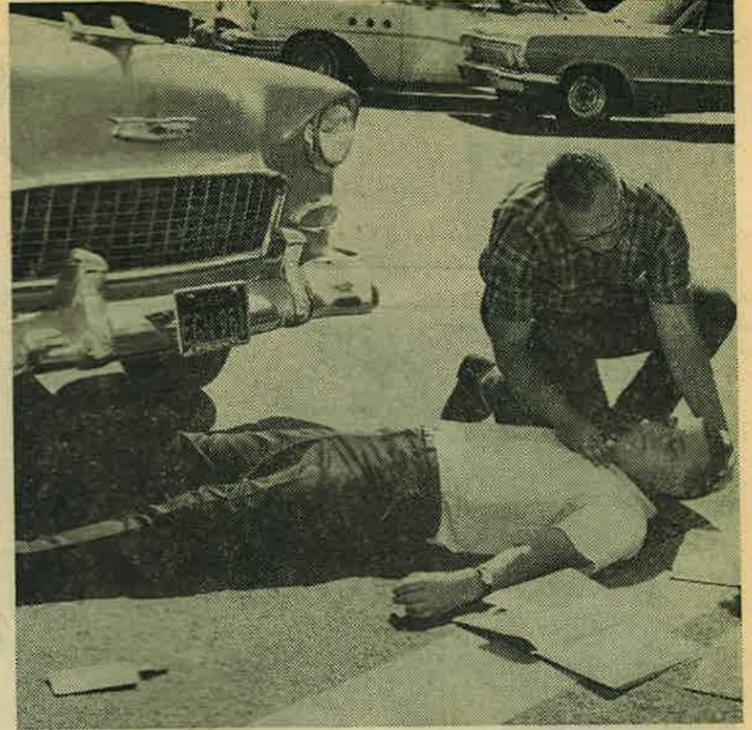

New dates have been set for student testing on Nov. 18-19. The deadline for registration for these tests is Oct. 21.

Recently the selective service has extended the draft to married men. Men who have children or who are expecting new additions to their families may request 3A classification.

### None Called

Hathaway said, "None have yet been called for their physical although this is just a guess because there is no advance warning for upcoming physicals."

Young men who wish to choose the branch of the armed forces in which they will serve may do so until notice to report for induction is received. Such notice is usually mailed shortly after the individual has taken and passed the physical examination.

HELPING HAND: In this simulation of an accident, Peter McKaich is assisting Tom Keaton. This is an example of the type of coverage available under the FCC student insurance plan. All persons interested in purchasing coverage must have their applications turned in to the dean of students by next Tuesday. Coverage is 24 hour either on or off campus. Marks Photo

## Ramrod

# FCC Spirits Spurred By Rally Club Mascot

There has been a chronic problem of student apathy on this campus for the past few semesters, and at last it is being reduced.

Members of FCC's rally club have finally gotten another mascot. We think this is great. School spirit has needed a boost for quite some time.

As with all important matters something of this nature requires responsibility on the part of the developers of the plan. At the present time the mascot has been dubbed unofficial.

To the general student body the fact that Ramrod was at the game and that he is a ram with horns and not a goat makes him seem official enough. Unfortunately, a little more officiality is needed for him.

Certain technical problems of ownership, care and feeding, responsibility and housing must be provided. With careful planning and the attention to details we may very soon have an official mascot to cavort across the field at half-time ceremonies.

## Speaker Series

FCC has succeeded in obtaining an outstanding lineup of speakers for the upcoming Sunday Evening Series. The culture of the world is being laid at our doorstep and it deserves our patronage. The price is right and it should prove to be vastly interesting. Remember to get your tickets early.

# Trustees Order Key Plan For Expanding Campus

In an interview with a Rampage reporter, Baxter K. Richardson, president of the State Center Junior College Board of Trustees, stated that an enlargement of the FCC campus is being prepared.

The expansion is being made to help keep up with the ever increasing enrollment.

David H. Horn, the architect, has been assigned the job of drafting a master plan by the State Center Junior College board of trustees. The boundaries in which he will work are McKinley, Blackstone, Yale, Weldon, Maroa, and College Avenues.

These boundaries were given to Horn by the board of trustees as aids for his plan. This does not mean, however, that all property outside the present campus will be purchased. This decision has not been discussed by the board, as explained by Robert J. Hixson, a board member.

Another board member, Alvin Quist said, "The acquisition of funds, through taxes or bonds, and property will be dealt with after the board decides on the completed plan."

Included in the proposed plan will be additional classroom facilities. It is hoped by the board that these rooms will be ready for occupancy in approximately two years.

Buildings in present use such as the Administration Building and McLane Hall will not be demolished, stated Richardson.

In a report by Wayne Taul, a structural engineer, these buildings were said to be in good enough shape for about 10 more years of use with needed repairs and alterations.

Mr. John S. Hansen, assistant superintendent of education for the district, commented on the rate of preparation for the plan.

"A preliminary presentation of the master plan may be given to the Board of Trustees at their December 15 meeting."

# Christmas Programs Announced

A Christmas program here and participation in the Christmas Festival in Reedley are the two main objectives of the FCC choir this semester.

The chorus has 75 members and all have had previous experience. It is the opinion of their director, C. Lowell Spencer, that they will do very well. They are currently working on Beethoven's Missa Solemnis in D.

In addition to the main group, the choir also has a vocal group which sings popular songs and performs for churches, service clubs and other organizations. The group also travels with the drama department when it tours the county schools.

The Christmas Festival will be in Reedley on Dec. 12. All junior colleges from the central part of the state have been invited to participate. Dr. Lee Kgelson, a choral director, will lead the various choral groups in a few numbers and give comments on the groups.

## Holland

# York's European Travels

EDITOR'S NOTE — This is the first in a series of articles by Jay York, Managing Editor, on his experiences in traveling through Europe.

For two years after I had heard about the European Seminar my motto was "If you want to do anything bad enough, it's possible, even if it does mean no car and no stereo."

The Christian student tour of Europe is sponsored by Gordon College in Wenham, Mass., and can be taken for credit. The tour traces America's Christian heritage from New England through Europe.

For many of us, Europe on \$5 a Day by Arthur Frommer would practically become our Bible.

### Weather Cold

Even before we landed in Amsterdam, Holland, our first stop, we learned about the weather which was to prevail throughout Europe. It would be either cold or damp, if not both, making it practically impossible to dry a wash.

Our home base for the next three weeks as we cruised through Dutch canals and the Rhine was to be a Dutch boat which we boarded in the canal across the street from the airport. Since the boat didn't have a shower, this was to be the first thing most of

us looked for upon arrival in a new port.

My first impressions of Holland based on Amsterdam can be summarized in two words — canals and bikes. Amsterdam is punctuated by a series of 100 canals which are used as roads as well as for garbage and sewage.

### Bikes Common

Everyone in Holland, especially in Amsterdam, rides bicycles, even nuns. There is one bike for every two people in Amsterdam.

The traditional costumes, windmills and tulips, which many people still associate with modern Holland, are mostly reserved for tourist attractions like Marken and Volendam.

Practically everyone in the Netherlands speaks English. Probably one reason for this is because much of the entertainment is in English.

All the people I met were very friendly and fanatical about cleanliness.

### Students Stand

Two of the most apparent differences in European colleges are that men wear suits to class and all students stand when the professor enters the classroom.

Probably one of the most important things to know about

Students may purchase coverage for one semester at \$12, two semesters at \$24, or for the calendar year at \$30.

### 24 Hour Coverage

Mrs. McBride explained that the policy provides a student with 24 hour coverage either on or off campus and includes vacation periods.

"Benefits include major hospital expenses, surgical benefits, emergency outpatient treatment, medical expenses, consultation fees, ambulance service, and dental treatment," Mrs. McBride said.

Notification of injury or sickness must be provided to Higham, Nelson, Whitridge & Reid, Inc. of Los Angeles, Calif., within 20 days of the mishap. The plan is underwritten by the American United Life Insurance Company.

**Loose Ends**

**Actors Have No Place To Perform**

The recent closing of FCC's Auditorium has left the drama department "at loose ends," according to J. Frederick Johnson, head of the department.

The Auditorium was closed by order of the board of trustees of the State Center Junior College District because of unsafe structural weaknesses.

Johnson said that the closing has left the department with no adequate place to perform. He mentioned that in planning for this semester he had expected the Auditorium to be in better condition than it had been in the past.

At present, the closest thing to an auditorium available is the Social Hall in the Student Center. The fall play will be performed there.

Johnson said that he expects to have problems with the construction of sets in the hall. Also, he said that the hall is generally not available for rehearsal use during the day.

The most serious problem caused by the closing involves the drama classes. "Drama classes cannot be taught adequately in ordinary classrooms," Johnson said. They require the regular use of stage facilities.

He summarized the situation by saying that there are about 60 students majoring or minoring in drama and related fields, and, without the use of the Auditorium, they are not getting the quality of instruction to which they are entitled.

**Dougherty Is New Adviser**

A new advisory position has been created to help coordinate Fresno City College clubs.

As coordinator of student activities Mrs. Sara Dougherty will be adviser to Inter Club Council, which coordinates FCC chartered clubs and other organizations.

Mrs. Dougherty said the duties of this position originally were among those assigned to Miss Doris Deakins, the dean of women. But due to the increased size of the student body it was necessary to create another position.

Mrs. Dougherty emphasized that all students are encouraged to join a club and attend the Inter Club Council meetings in the Student Lounge at noon on every first and third Thursday of the month. At these meetings, she continued, club representatives are requested to give a report of their club's upcoming activities, and they also may report any grievances their club has.

"If anyone is interested in school spirit or government," stated Mrs. Dougherty, "he should join a club and be heard."

STUDENTS AWAIT RAMBURGERS — FCC students are waiting in line to be served by the faculty members at Saturday's Ramburger Roundup which was held on the FCC lawn between the Student Center and the Cafeteria. Duke Photo

**FCC Scholarships Open To Students**

Each year FCC offers nearly 34 scholarships to entering freshmen and returning FCC students.

These awards are divided into general and restricted categories as listed by FCC's scholarship brochure. General awards are usually open to any student while restricted ones usually require a certain major. Application for the latter must be made directly to the donor in care of FCC.

Merle Martin, dean of students and chairman of the scholarship committee, said a nine member committee screens applicants and makes awards in the general category. The committee consists of eight faculty members and one student.

He said their choices are based on academic achievement, extracurricular activities, financial need, character and promise of future success.

Donors of the restricted awards are usually organizations, but Martin said the scholarship committee would accept and welcome contributions from individuals.

These donors usually screen the applicants for their awards and sometimes conduct personal interviews. But most of the scholarships are awarded from the application information and character references.

Martin said some donors like to "follow a student through school," giving him another award the second year.

For the general scholarships, Martin said the scholarship committee automatically considers a runner up for one scholarship for the next one.

"One area where we sometimes lack applicants is from our own returning students," said Martin.

Recipients of most scholarships must maintain a grade average of C or better to get the remaining balance of the scholarship. Otherwise it goes to an alternate.

Many of the restricted scholarships are channeled through the office of Gervase Eckenrod, associate dean of the business division. He reported two fairly new restricted scholarships which are listed in the scholarship brochure. Both are for transportation majors and neither has had any applicants yet.

Delta Nu Alpha, the professional transportation fraternity offers a \$50 award while the Women's Transportation Club of Fresno offers one for \$25.

Students are notified by the committee upon receiving an award.

**Debate Students To Partake In Oratory**

Ten FCC forensic students will travel to Chabot College in Hayward Saturday to participate in the original oratory and interpretative reading workshops.

The purpose of the workshops, as Franz Weinschenk, the debate coach explains, is to give students an opportunity to present material they may wish to develop as presentations in future forensic tournaments.

"The workshop will serve as a learning experience for the students," said Weinschenk. There will be no competition.

The 10 participating in the event are Donna Anderson, Ron Antoyan, Armando Beraindes, Paula Cohen, Scott Davis, Alan Decker, Jim Johnston, Spencer Kendig, Kathy Spencer and Gloria Tucay. They are all new forensics students.

Weinschenk has planned debate practices with Fresno State College. "We tried it last year and it worked out very well," he said.

**Self Evaluation**

**FCC To Be Analyzed For Accreditation**

At the Student Council, Robert Kelly, Dean of Evening Division, talked about accreditation of the college.

Schools are accredited once every five years. "The accreditation is based first on analysis of the school's strengths and opinions, and secondly on self-evaluation by the school staff," Kelly said.

Kelly stated that the college is accredited on four individual points: General information about the college; action on previous recommendations; Significant changes since the last accreditation; Significant changes expected from the college within the next interval.

**Education Is Traver's Topic At SCTA**

By GLORIA RODRIGUEZ

Peter Travers, Fresno City College exchange teacher will speak and show films on the topic, "British Undemocratic Education," to the Student California Teachers Association, which will meet in the FCC Cafeteria Tuesday at 7:30 PM.

Officers for the fall semester will be elected and programs planned at the meeting.

Club adviser Bruce Morris said that all persons interested in education are welcome to attend. Refreshments will be served.

**People To People**

The People to People and International Club have disclosed names of three of the club officers for this fall.

They are Gary Cousineau, president; Evelyn Moules, secretary and Kathy Turkot, Inter Club Council representative. The two clubs, recently united, are attempting to bring the people of various nations closer together.

Their aim is to orientate foreign students to the American way of life. They offer the American student the opportunity to meet and talk with foreign students to exchange ideas, beliefs and cultures.

Phillip S. McElroy, the adviser, encourages all students interested in travel or in helping with international relations to become active members.

**AWS**

The Associated Women Students were presented a trophy for having the most participants at the Ramburger Roundup Saturday. Club advisers are Doris N. Deakins and Sara Dougherty.

AWS will meet at noon today in Committee Room A of the Cafeteria.

**DECA**

The FCC chapter of the Distributive Education Clubs of America will hold election of officers tomorrow in Administration 121 from 8 AM to 3 PM.

The merchants' advisory committee, made up of the leading merchants in Fresno, will meet this evening in the Fresno City College Cafeteria. The merchants who have helped the merchandising and field experience classes will make plans and work with the students in tonight's meeting; Club advisers are Dr. Gilbert Peart, head sponsor, and Mrs. Leneve Leatham.

With the recent reorganization of DECA club members are looking forward to a more active year.

The Fine Arts Club will meet tomorrow at 1 PM in Administration 230. The Rally Club will also meet at noon tomorrow in Gym 101.

Kelly indicated that the students should clearly understand the process by which schools are accredited. He stated: "We believe the better informed the students are about the process of accreditation, the better school we will have."

**"Catch-up"**

Fresno City College student Spencer Thompson spoke to the Council about the tutorial program which now exists on the campuses of UCLA, San Francisco State College, and Fresno State College.

The program is operated on a volunteer basis. Thompson calls it "Operation Catch-up." It is designated to help students in underdeveloped areas.

"Operation Catch-up" is operated on a one-to-one basis. Each volunteer tutor takes one student. He becomes well-acquainted with the student, helps him with school work, and assists with other problems which might arise. He becomes, as Thompson put it, a "foster parent." Thompson stated "The only qualification is that you have the sincere wish to help."

**Publications**

The council discussed the cost of printing the Ram Magazine. If the hard cover yearbook style is reinstated, along with a supplement, the estimated cost for 2,000 copies would be \$10,000.

**Fowler Finds Two Readers**

Bob Fowler, a visually handicapped student who was featured in last week's Rampage, phoned the Rampage last Friday to say "thank you" for the responses he received.

More than 10 people answered his request for someone to read to him and he now has two people helping him.

Also, as a result of the article, Fowler said that he is on a bowling team.

## Hill 'n' Dalers Take Second In CP Meet

Coach Bob Fries and a much improved Ram cross country team will travel to the state capital Saturday to compete in the Sacramento Invitational.

All the two-year colleges in California, along with the University of California at Berkeley, Stanford University, and the UCLA frosh, have been invited.

John Hancock Junior College will be one of the favorites, along with American River Junior College and Sacramento City College. FCC should finish among the top three.

The Ram harriers took second in the Conference Preliminary Saturday, proving that they are definite contenders for the Valley Conference title.

Ram Pete Santos battled for first spot, challenging ARJC's Chuck Green throughout the three-mile course. However, Green slipped away at the finish.

There were 70 runners competing in the race, and FCC placed four men in the first 11. Santos, Andy Hansen, Frank Luna and Dan Lopez were the Ram leaders, finishing respectively with positions two, eight, ten and 11.

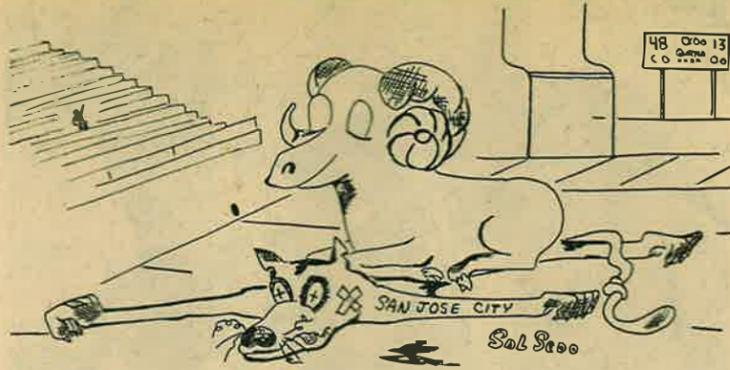

Luna and Lopez displayed the biggest improvement of the first five, with Luna slicing 55 seconds and Lopez improving 71 seconds over last week's time.

The best improvement came from the last six Rams. Phil Santoyo, Robert Espinoza, Alton Durst, Ed Carrillo, Bill Weinberg and Larry Gomez averaged an improvement of 73 seconds per man. Espinoza and Santoyo made the greatest progress, chopping off 98 and 103 seconds respectively.

Team Scores:  
ARJC—33                      COS—159  
FCC—48                        SJD—219  
SCC—49                        MJC—286

**NATIONAL RECORD HOLDER** — Cathy Catlin, 18-year-old FCC freshman, set a still-standing national record in 1965 in the girl's 880 event. Cathy ran her prize-winning time at the National Girl's and Women's Track and Field Championships held at Columbus, Ohio. Cathy, a graduate of El Camino High in Sacramento, is the only female member of the Ram cross country team. She will represent FCC at an invitational meet in Sacramento this wetekend. She does not participate in usual inter-school events, however, because there is no women's division in dual meets.

"Didn't even get a scratch!"

## Rams Win 48-13 In SJC Grid Clash

Coach Clare Slaughter's Ram football team will travel to Yuba City College Saturday for their last non-league encounter of the season.

Kick-off time for the game, to be played at the Yuba stadium, will be 8 PM.

The next home game will be played Oct. 29 against Modesto.

League action for the Ram eleven will begin Oct. 14 with American River Junior College.

The Rams proved that they are

definite contenders for the VC championship when they crushed San Jose City College 48-13 Saturday.

### First Since 1961

The SJCC victory marked the first time since 1961 that the Rams have scored 48 points in a single game. That year they shut out American River 48-0.

Going into the contest, the SJCC Jaguars were rated even with the Rams. The Rams quickly showed that a heavier and more rugged line could conquer speed, however, with a halftime lead of 21-0.

Sparked by a 23-yard pass from Ron Olson to Carlos Laney, FCC romped 93 yards on a sustained drive for the first TD.

Two short sprints were nullified before the Rams finally scored again. "Third time is a charm," and Stan Bauer proved it by plowing through the middle from one yard out to score without a penalty.

### Punt Return

Then 9.8 sprinter Del Thompson provided the excitement on a 63-yard punt return at the start of the second period.

Thompson hauled in John Souza's punt on the Ram 10, cut to the left, and, after eluding the Jag defenders, was pulled down on the 33 by Lance Calloway.

Near the end of the first half Ross Bauer swiped a deflected pass off the shoulder of Jag Bob Summer on the 34-yard line.

Three plays later Olson raced 25 yards and fumbled in the end zone, but quick reflexes on the part of Howard Lewis put the Rams in front 20-0.

Mike Neely's kick was good, giving him three in a row.

### Second Half

Thompson opened the second half with a 35-yard kick return, leaving the ball on the six yard line. QB Bruce Hawkins then lofted a short pass to Willie Cox for the touchdown. Neely's kick was good and the score shot to 28-0.

SJCC finally made the scoreboard when QB Bob Perra threw a 42-yard pass to Jim Heckendorn, who then made the catch on the six yard line and ran in for the score. Doug Johnson's extra-point try was good.

## Coach Calls For Netmen

By PAUL SMITH

Rampage Sports Reporter

Where are all our tennis players? Have they all joined the CIA and become international undercover tennis bums?

Apparently so. Wherever they are, they are certainly undercover.

Coach Chuck Stark's call for team material last week was heeded by only four players.

At least ten or 15 more experienced players are needed before FCC can boast a team capable of conference participation.

Stark is interested only in experienced players. He is looking primarily for those who have already played on high school or college teams.

"I want to form a team of players who are past the beginning and intermediate stages of tennis," he said.

The four who signed up last week are all veterans, representing collectively 12 years of tennis experience.

Douglas Dearing has had one year experience; Dennis Koyanagi, three years; John Saludes, two years; and Randy Van Costen, six years.

The team must be filled by Mar. 10 when conference action begins at Modesto Junior College.

In the two months following that FCC is scheduled to play San Joaquin Delta College, College of Sequoias, Sacramento City College and American River Junior College.

Another meeting for sign-ups will be announced some time before the semester closes. Any individual with tennis experience who wants to sign up before then, however, can do so by contacting Stark in the Gymnasium.

Or we could solve the problem by recruiting Robert Culp and Bill Cosby.

## Twins Sign M. Holbrook To Play Pro

Mike Holbrook, FCC freshman, has signed a bonus contract with the Minnesota Twins.

When asked about the contract, Holbrook stated that it consisted of a "substantial" bonus and an \$8,000 scholarship.

Holbrook hopes to attend FCC for two years, and then transfer to a four-year college. His major will be either physical education or business.

His FCC education will be interrupted next semester when he leaves for spring training in Florida.

After training, Holbrook will be assigned to the Wisconsin Rapids of the Class A Mid West League for the 1967 season. He hopes to return by September to continue his schooling at FCC.

A graduate of Hoover High, Holbrook's outfielding and slugging led the Patriots to their first North Yosemite League baseball title last year.

He also blasted out 10 home runs to break a Fresno high school record, and was named All-Metro player of the year for his baseball efforts.

Holbrook also earned honors as the All-Metro player of the year for his prep football achievements. Originally drafted last June, Holbrook said he "held off signing until now because I wanted to play in some football games."

Those "football games" were the North-South Shrine game at Los Angeles and the Fresno City-County All-Star encounter last summer.

The six foot, 185 pound freshman had planned to play football for FCC this season; however, he had to turn in his uniform, to the dismay of Coach Clare Slaughter, when he signed his professional baseball contract.

Holbrook said he signed with the Twins because "they are a good organization," and he feels that there is "room for quick promotion" with the team.

## Ram Swimmers Have High Hope With 10-5 Lead

With a winning season record of 10-5, Coach Gene Stephens' water polo team will host West Valley College and College of San Mateo in non-conference action this weekend.

The WVC meet will be held tomorrow at 6 PM. The CSM action will begin at 10 AM Saturday.

In previous tournament action this year, Ram swimmers beat WVC 12-9.

FCC aquamen downed College of Sequoias 10-4 Tuesday in the home pool.

A close game with tight defense action, the COS match was tied 1-1 at the first quarter and 6-3 in the Rams' favor at halftime.

Stephens attributes the Ram win to the action of forwards Jay Huneke, Bob Grimm and Scott Holmes.
