

Bradshaw Reveals FCC Expansion Plans

FRESNO CITY COLLEGE

RAMPAGE

PUBLISHED BY THE ASSOCIATED STUDENTS

Expenditures May Top \$4.5 Million

By VIVIAN JOHNSON

The State Center Junior College District plans to spend over \$4.5 million by 1969 for future expansion plans for Fresno City College.

Dr. Archie Bradshaw, president of FCC, revealed the plans and problems to the faculty in a meeting Tuesday afternoon.

Tonight the Board of Trustees will meet to discuss the estimated calendar of financial needs and possible sources of funds for expanding FCC, Reedley College and constructing a third campus.

Bradshaw said the apportionment of federal and state voca-

Board Ponders Reconstruction Of Ball Park

A four phase-redevelopment of FCC-owned Eules Ball Park, costing a total of \$535,178, is projected by Garland Peed, assistant superintendent of business of the State Center Junior College District.

Demolition of the present wooden stadium and construction on a new concrete facility might begin this fall if the district board of trustees gives final approval tonight at the regularly scheduled board meeting.

Larger Accommodation

"We have decided to build a facility adequate for junior college baseball, the Fresno Giants and any possible future expansion to accommodate larger leagues," Peed said.

Peed added that the present usage fee of \$4,050 charged the Greater Youth Foundation for the Fresno Giants would probably remain the same with their use of the new ball park.

Civic Aid

"We are also looking into the possibility of a civic group in Fresno raising \$50,000 to begin phase one of the construction," Peed said.

Phase one, costing \$209,829, would begin this fall with construction of 1,102 grandstand seats and 192 box seats.

Shower and locker room facilities, some lighting modifications, paving and fence construction would also take place.

"If this phase of construction is started on schedule," Peed said, (Continued on Page 2)

'Swing Into Spring' Tomorrow

The presently quiet Fresno City College Social Hall will be the scene of the Student Council "Swing into Spring Backwards" dance tomorrow night from 9 PM to midnight.

"Women are supposed to ask the men to this dance, or you can come stag," said Janice Mann, commissioner of publicity. Entertainment will be provided by the Vibrants.

"We have been trying to get the Vibrants for a dance for a long time, so this is the dance no one should miss," said Miss Mann. School attire will be the dress for the dance.

"Girls will not be admitted wearing capris," Miss Mann said.

Tickets may be obtained free with the student body card in the foyer in the Cafeteria from 11 AM to 1 PM tomorrow. Refreshments will be provided at the dance.

tional education funds for 1964-65 to the district exceeded \$52 thousand.

He also said the next accreditation unit will not occur until May 9-11, 1967. FCC is accredited by the Western Association of Schools and Colleges.

The recommendations made in the 1962 accreditations for FCC were:

1. Provide more adequate follow-up for students who transfer to institutions other than Fresno State College.

2. The college should consider changing its policy which presently refuses to grant credit to-

Balloons And Bikes

Special Events Set For Circle K Day

By SANDY DRALLE

When was the last time you greased a balloon or rode a sting-ray around the block?

Fresno City College students will have the opportunity to enter a sting-ray race, grease balloon contest and root beer drinking contest on Circle K Day.

The events will be held Monday during the noon hour between the Cafeteria and Bookstore.

"A \$5 prize will be awarded to the winner of each contest," Dennis Scott, club president, said. "Each contestant will be required to pay a 25 cent entry fee which will be given to charity."

Grease Balloons

He said the grease balloon contest will be held for coeds. The other contests are open to all students.

"We expect the other contests will draw more men than women," he said. "Some of the men's clubs are entering the contests; they are open to all students."

Scott said there will be no special dress for the day.

Officers for the spring semester are Scott, president; Bart Turner,

vice president; Bill Parks, secretary; Rick Mayer, treasurer, and Ralph Tucker, ICC representative.

Jerry Facciani has designed posters for the event.

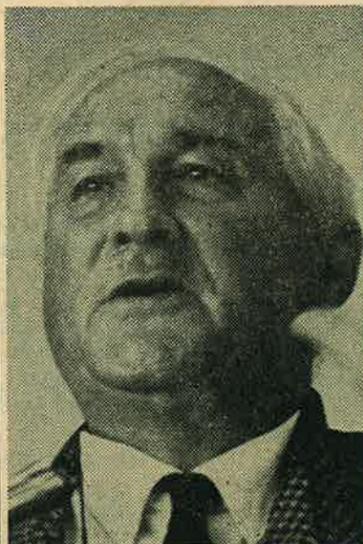

Last semester Circle K participated in the March of Dimes drive, Homecoming and the Nutritional Home food drive and assisted with the Johnny Mathis concert.

Blood Drive Planned

The club plans to hold a blood drive during the semester. Members also hope to bring some "big name" entertainment to the college this spring.

Dennis Scott and Rick Mayer will be club delegates to a convention in San Francisco in April.

Meetings are held on Friday at noon in Committee Room A of the Cafeteria.

'Fact, Not Theory'

Anthropologist Tells Of Man's Evolution

EDITOR'S NOTE: Rampage reporter Jay York was one of the 16 Fresno City College students who attended Dr. Leakey's lecture last week at Merced College. The following is an account of that speech.

Dr. Louis S. Leakey, noted British anthropologist, feels that evolution is still going on today.

"Evolution is a fact," he said, "not a theory."

Leakey spoke before a student group representing five California colleges last week on the Merced College campus. Sixteen students and one instructor from Fresno City College attended the lecture.

Evidence Of Evolution

Leakey said that Charles Darwin's theory of evolution has been misinterpreted to mean that man has evolved from apes. He did say, however, that man and monkey share a common ancestry.

"We are cousins of the apes one and a half million times removed," he said.

Leakey feels that the loss of human wisdom teeth and the improvements in livestock over the past years are definite signs of the continuing evolutionary process.

Hominid Discovery

"Husbandry makes use of and accelerates evolution," he said.

Although credited with the discovery of the hominid Zinjanthropus, a creature in the scientific family of which man is included, Dr. Leakey revealed that he was not the first person to discover a hominid.

"I didn't find the first hominid, a young man from Yale, named Louis, did in 1934," he explained. This discovery, Dr. Leakey noted, was made 25 years before he discovered Zinjanthropus.

Donald Wren, Fresno City College sociology teacher, said he will replay a tape recording of Leakey's speech for his 12 noon class today and his 9 AM class tomorrow. Wren was among the FCC delegation that attended the Merced College lecture.

Newspaper Stands On Its Policy And Ethics

A few weeks ago the Rampage carried a short story outlining the code of ethics under which it operates.

Unfortunately, there was no mention made of this newspaper's policy.

Since that time there has been some question as to this newspaper's stand on certain student matters.

To avoid any further confusion, the Rampage feels that this policy should and must be explained.

The Rampage is responsible to ALL its readers—students, faculty, and others who read the publication—to present news, features and opinion with truthfulness, accuracy, good taste and IMPARTIALITY.

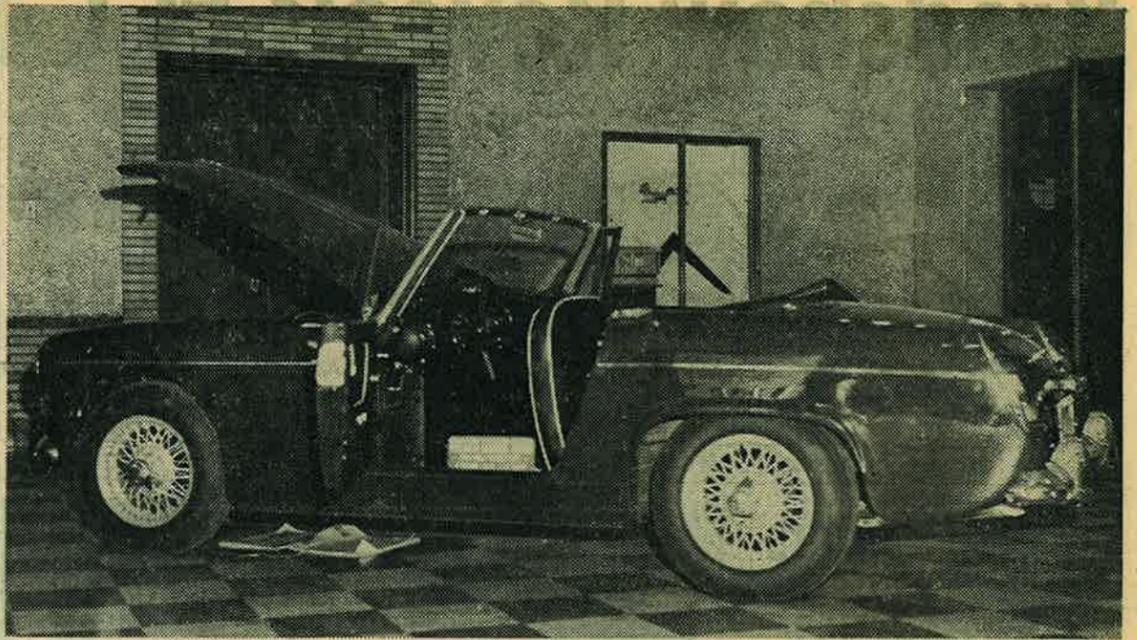

The Rampage has been operating under this policy for many years and will continue to do so as long as it remains a student publication.

How does this policy apply to FCC student affairs?

For one thing, the Rampage DOES NOT and WILL NOT cater to the wishes of any specific club or organization. This newspaper, in all fairness, can not roll out the red carpet for any one group and then turn its back on the rest of the school. To do so would result in exclusive, not inclusive coverage and as such would contradict the policy of this newspaper.

Secondly, the Rampage DOES NOT intend to be told what news to print and how to print it. The Constitutional freedom of the press conveys upon this newspaper the right to select what news it shall print. The Rampage editorial staff feels it is capable of selecting news which is of student interest and which respects the principles set forth in its policy.

The primary purpose of this publication is to keep its readers informed on what is going on in this school. The Rampage can fulfill this purpose only as long as it receives the support and cooperation of "ALL its readers—students, faculty and others who read the publication."

THIS 1966 MG Midget was on display in the Library last week.

Sports Car In FCC Library Is Part Of Two Week Exhibit

By THOMAS ARIET

The Fresno City College Technical and Industrial Division display will be featured until Tuesday in the foyers of the FCC Library.

The main attraction of the first week of the two-week display was a 1966 MG Midget.

Main Attraction

Jackson Carty, head librarian, said that the MG attracted many students and non-students.

The sports car was part of the display from the automotive mechanics program.

Books and magazines on automobiles and their maintenance are also a part of that exhibit.

Architectural Drafting

Three stages of house construction make up the architectural drafting display. It includes a floor plan, a small replica of the framework of a house and a sketch of the finished house.

The electronics program is featuring three camera tubes and an electric eye tube in its display.

A Continental A-65 65 horsepower aircraft motor is the sole attraction of the aeronautics exhibit.

Twelve welding techniques make up that program's display.

Each display has a brochure describing its program and telling of the job opportunities available to its graduates.

Sophisticated Smokers May End Up Dead

By LINDA GARRETT

According to recent surveys, the two leading causes of death, cancer and heart disease, are related to cigarette smoking.

The American Public Health Association estimates that about one million youngsters now in school will die of lung cancer before they reach the age of 70.

Only five per cent of the lung cancer patients can be cured. Cancer kills by sending its cells through the lymph system and arteries to the brain or to other vital organs.

Mrs. Margaret McBride, FCC's nurse, believes that teenagers usually start smoking to look sophis-

ticated or to fit in with the rest of their crowd during junior high or high school. She also stated that new programs, emphasizing the dangers of smoking, will be started in elementary school in the near future.

Mrs. McBride believes that many people have quit smoking and will continue to do so. It has been proven that many have discarded the habit but many more have not.

But has all the cancer information really helped? An anonymous freshman said, "Some people may have quit smoking due to the cancer scare, but I don't know of anyone personally."

Freshman Patricia Magines stated, "I don't think people will quit smoking because of the cancer warnings since they usually figure that they won't get lung cancer."

"No, I'm not really scared about lung cancer but I have cut down on my smoking. I don't believe that people will quit. According to the Wall Street Journal, people smoke more," replied Dave Bucknell, a sophomore, when questioned.

Do students really want to stop doing something that they enjoy, such as smoking? Mrs. McBride said that students know the dangers of smoking but often do not do anything about it.

Students To Meet Leaders

Students seeking fulltime employment will get a chance to meet with local business leaders and discuss future job possibilities during the third annual Occupations Day, May 17.

Application forms for participation in Occupations Day may be obtained beginning Wednesday, Mar. 30 from instructors or division deans.

The deadline for turning in the applications is Apr. 22.

The reason for "Occupations Day" is to facilitate the students process of getting a job," said Mrs. Dorothy Ediger, general chairman and employment coordinator at FCC.

"It also enables valley businessmen and industry to become acquainted with the instruction program we have at FCC and the students who have received the instruction and are now qualified for employment."

"It also helps students meet personnel men and build their confidence," she said. "Occupations Day's aim is to give students full time employment."

Freshmen Tour Campus

High school freshmen wandered about the FCC campus last Tuesday, but they weren't lost. They were members of Edison High School's College Prep Club.

The group was given a tour of FCC and introduced to its various programs and activities.

"An effort is being made to encourage and motivate these students while they are freshmen in high school," said Alvan Perkins, FCC counselor, "so that they may develop an interest in college."

FSC

Fresno State College initially started working with the club. Their program with this group mainly involves counseling, special tutoring, group sessions and visits to the campus.

The whole program is under the supervision of William G. Pollock, the FSC admissions officer, and Robert G. Knudsen, FSC's activities adviser.

"Our reason for participating," said Perkins, "is that our college feels responsible to work with and assist groups of students within our district to become aware of the opportunities of college."

The group, consisting of approximately 100 students, were greeted by Perkins in the auditorium. Student handbooks were distributed at the orientation session.

Film

After lunch the group met in McLane Hall 200 to see a film and narration entitled, "The State Center Story." The film introduced the students to the various programs and opportunities that exist on both the FCC and Reedley Junior College campuses.

A question and answer period was then conducted by FCC counselor Loren Gaither.

The students then were led on a tour of the business, technical and industrial and science areas.

"We hope to continue to cooperate with groups of this type," Perkins said, "who are interested in finding out more about college."

Burros Will Be Used At San Jose

By LYNNE OKAMOTO

BAKERSFIELD COLLEGE claims the first junior college in California to have a nun complete her training as a nurse. "Sister Roberta Marie is the first nun to enter nursing in the state of California," said the Renegade Rip.

Sister Roberta of Los Angeles is from the Daughters of Mary and Joseph.

After graduation Sister Roberta plans to work in a hospital and later become a missionary.

SAN JOSE STATE COLLEGE—

Ever think riding horses is hard, try riding a burro. "Fifteen San Jose State College students are riding burros as a source for transportation during a one-unit pack trip and campout at Los Padres National Forest." This all takes place during the Easter vacation.

The trip is made possible by the recreation department. The first 15 people who sign up will be able to make the trip.

Dr. Falk Talks On Yugoslavia

By ANN COX

Yugoslavia is unique among Communist countries because of its independence from Moscow and because of its partly Communist, partly capitalist system of economics, according to Dr. Karl L. Falk, director of international affairs for the California state colleges.

In a Tuesday speech, sponsored by the World Affairs Council of Fresno, Dr. Falk contrasted the Yugoslavian economic system with the systems of Russia and East Germany. He has made several trips to Yugoslavia, including one last summer.

Instead of concentrating on heavy machinery and state controlled industry, he said Yugoslavia is concentrating on light industry and agriculture. Management includes groups of the workers who make policy and pricing decisions. The workers share in the profits.

Farmers

Dr. Falk said agriculture is under more direct control and ownership of the farmers in Yugoslavia as opposed to the state control in Russia and East Germany. Farmers have a choice between working independently or joining a co-operative.

This system has resulted in inflation and low productivity however. But, according to Dr. Falk, it is difficult to tell whether this is caused by the system or the nature of the Yugoslavian peoples.

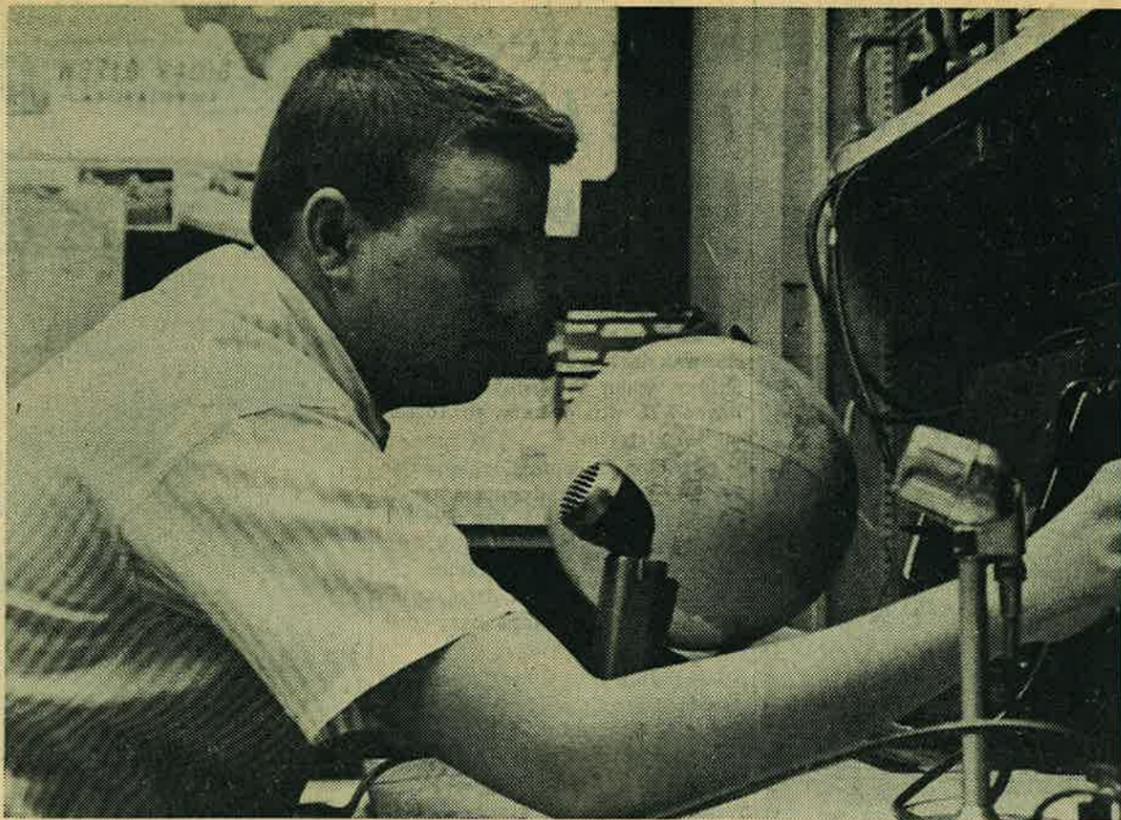

Comprised of six republics, Yugoslavia has a long history of internal warring factions. The impressions gained by Dr. Falk on his several trips to Yugoslavia are that many of the people would prefer to "fight, sing and dance" rather than work.

WW II

Dr. Falk also noted that during World War II more Yugoslavs were killed in fighting between the Yugoslav factions than by Italy and Germany.

Dr. Falk is presently on leave from his post as professor of economics at Fresno State College. He is a specialist in comparative economic systems.

Chairman of the World Affairs Council of Fresno is Mrs. Dorothy Naman, an FCC biology instructor.

RADIOMAN—Cecil Lindsey tunes one of the short wave radios used in the radio communication class. The students are able to contact stations throughout the world. Last year the group established a radio club on campus. York Photo

Business Students Attend Convention

By NEILLIE BONILLA
Rampage Club News Editor

Phi Beta Lambda, the business club, will have 13 delegates representing FCC at a state convention at the Los Angeles International Airport.

The convention, which starts tomorrow, will continue until Sunday.

Delegates to the convention are Carol Andrews, Pat Lane, Betty Jo Swartz, Carolyn Kuehn, Gloria Medina, Helen Rowe, Lupe Santiago, LaCreta Poyer, Darryll Kahn, Mike McGinnis, Jim Shipman, Wilson Abad and honorary member, Kathe Kuhn.

The club sponsors, Mary Miller

and Arthur DeManty, will also attend.

A Mr. and Miss Future Business Executive and a Mr. and Miss Future Business Teacher contest will be held at the convention. Other contests will include parliamentary procedure, extemporaneous speaking and vocabulary relay.

The Ski Club is sponsoring a trip to China Peak on Apr. 3.

Interested students can sign up in the foyer of the Cafeteria Mar. 30 to 31 and Apr. 1 from 10 AM to 2 PM.

Club members will provide free lessons to beginning skiers, however, all students will be required to bring their own equipment.

The cost for nonmembers will be \$2.50 and for members \$1.75. Transportation will be provided and leaves from in front of the Administration Building at 6:30 AM.

The Latin American Club, a social and cultural group, will attend the Community Service Organization Youth Incentive Conference at Fresno State College on Apr. 16.

The purpose of the conference is to encourage potential high school dropouts to continue their education.

College students will be available to answer any questions that the high school students might have.

The Associated Women Students will meet today at noon in the Student Lounge.

Members are looking for a contestant to compete in the Miss Fresno County Wool contest.

To qualify the student must have completed one year of school activities. She must be 5'6" tall, 18 to 25 years old and single.

The Associated Men Students will sponsor a noon dance on Mar. 30 in the Social Hall.

The Inn-Mates, a campus band, will entertain.

Sign up for the AMS softball teams will begin Monday in the foyer of the Cafeteria at noon.

FSC Fall Entrance Procedures Will Be Discussed Wednesday

William G. Pollock, Fresno State College admissions officer, will speak on FSC entrance procedures Wednesday at 11:20 AM and at noon in the FCC Auditorium.

He will discuss the proper methods for application and registration for placement testing for FSC.

Pollock will answer any questions students have concerning entrance requirements, school policy and other pertinent items after his presentation.

Students may obtain FSC appli-

cation forms in Administration 118, FCC's Counseling Center, or at FSC's Admissions Office, Administration 105.

Information regarding financial aid may be obtained at FCC's Counseling Center and FSC's Financial Aids Office.

Students can receive financial aid through FSC scholarships, National Defense Education Act loans, and work-study programs.

Any students interested in financial assistance may contact Mr. Kenneth E. Lewis, FSC financial aids coordinator.

Students May Gain Assistance

By VIVIAN JOHNSON
Rampage Copy Editor

Each year, Fresno City College offers scholarships to entering freshmen from high schools and to returning FCC students.

Merle Martin, the dean of students, said there are two types of scholarships available:

1. Those considered open (or general) to students who apply directly to FCC.
2. Those which are restricted; the student makes application directly to the donors in care of FCC.

Qualifications

The general qualifications are as follows:

Awards are made on a competitive basis. Consideration is given in the applicant's scholastic record, financial need, character and promise of future success.

Students who receive awards on the basis of two semesters will be required to maintain above-average grades in the first semester in order to receive semester awards.

Applications

Applications may be obtained from high school principals or counselors or from the Counseling Center, Administration 118, FCC. Applications must be in the office of the chairman, committee on scholarships, FCC, no later than May 1.

Students will be notified by the scholarship committee upon receiving an award.

There are 34 different types of scholarships.

Expenditures . . .

(Continued from Page 1)

dents who file for admission after the third week of each semester.

3. (a) Restudy the organization, the membership and responsibilities of the general education committee.

(b) Involve counseling and guidance services to a greater degree in the processes of curriculum development.

(c) Develop new general education courses that are specifically general education, particularly for non-transfer students.

Ram Trackmen To Host American River Beavers

By HOWARD SAIKI

Coaches Erwin Ginsburg and Bobby Fries will have the Rams out in the cinders today to meet the Beavers of American River Junior College at 3 PM in Ratcliffe Stadium.

Leading the way for the front running Rams will be freshman sprinter Sam Davis, triple jumper Harold Thompson and hurdler Ervin Hunt.

Davis, who has been the track sensation of FCC, equaled the College of Sequoias' meet record for the 100-yard dash with a 9.7 time; a 21.8 winning time for the 220-yard dash. He also won the long jump with a distance of 23 feet, 8 1/4 inches and rounded out the day by running third on the record-breaking 41.7 quarter-mile relay team. The time is the best in the state for the quarter-mile relay race.

The score of last week's dual meet with COS was overwhelming as the Rams scored 97 points to their opponents' 39.

Thompson hopped, stepped and jumped to a new school and meet record as he went 48 feet, 7 1/4 inches, beating Del Thompson and Hunt, who sailed 46 feet, 10 inches and 45 feet, 8 1/2 inches, respectively, to place second and third.

COS-FCC RESULTS
 440 Relay—Fresno (D. Thompson, Burts, Davis, Mann) 41.7 Meet record; Old record: 41.8 FCC in 1965.

GARY ROSSI

Golfers Face RJC, Delta

The Fresno City golf team will host the first of two Valley Conference matches tomorrow when they meet Reedley Junior College at 1 PM on the Riverside Golf Course.

Tuesday the Rams will face San Joaquin Delta Junior College on the home course at 1 PM.

The tentative starting lineup for the Rams will consist of Rich Richards, Tom Shropshire, Bill Parks, Roger Stiles and John Winstead.

The Ram team was given a boost recently with the addition of Parks, whom Coach Hans Weidenhoefer said, "is a welcome addition who shows great promise."

Racketeers' Title Hopes Disrupted

By LOUIS BELL

The Fresno City College tennis team's hopes of winning the Valley Conference championship this season was dealt a severe setback last Friday when the squad was informed it would have to forfeit all its victories.

In an announcement which came after the Rams had finished their league meet against the College of the Sequoias, Hans Weidenhoefer, FCC athletic director, informed tennis Coach Dan Ozier that an ineligible player was competing on the team.

According to Valley Conference standards, any student who has attended a junior college more than six semesters would be ineligible to compete for the school in any sport activities.

The decision to forfeit early season victories was made when it was discovered the Rams had a player competing who is in his seventh semester.

When asked how the decision affected team spirit, Ozier replied emphatically.

"This is the best all around team I have ever coached. The team is well balanced and the players show a lot of interest. We'll fight even harder."

The Rams' new defense will be tested this Saturday when they meet American River Junior College at 2:30 PM on the FCC courts.

The starting lineup for the Rams has not yet been decided.

Ram Nine Seeks Win

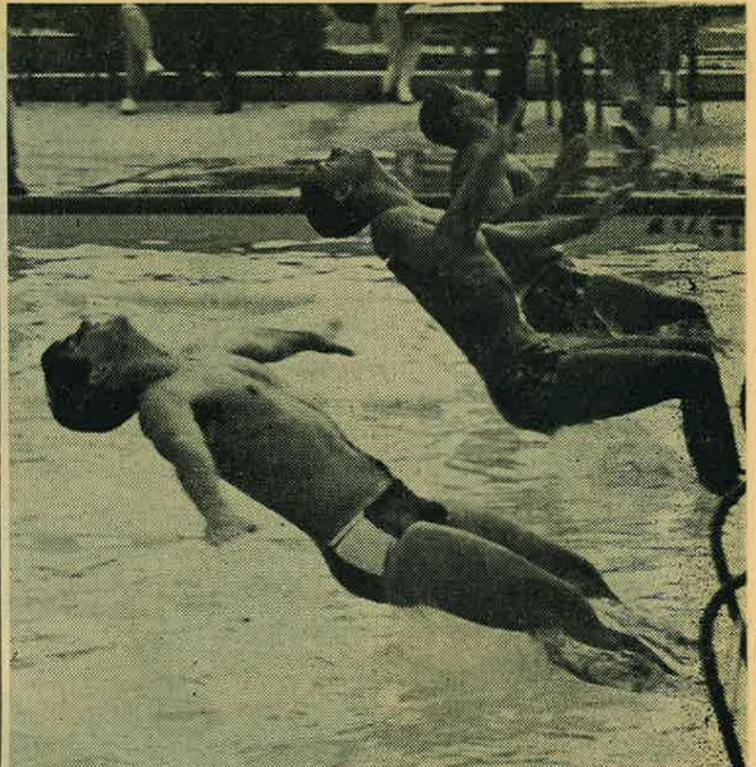

The Fresno City College baseball team is still looking for its first Valley Conference victory of the season and Coach Len Bourdet hopes his team will find it Saturday at John Eules Park.

The Rams, who currently own an 0-6 VC record, will host Modesto Junior College, also 0-6, in a double-header starting at 12:30. Both teams are currently tied for last place in the VC standings.

Bourdet will call upon Bert Bandy and either Sherman Lee or Leonard Cargill to face the Pirates.

Bourdet attributes his team's problems this season to two factors: the lack of hitting with men on bases and inability to drive in runs, and spotty pitching.

The Rams did not seem to have either of those problems last Tuesday when they bombed Reedley College, 10 to 1, in a non conference game at Eules Park. Cargill with relief help from Lee, picked up his second consecutive victory. FCC is now 7-2 in non conference action.

JIM RILEY gets off to a good start in the 100 yard backstroke competition during FCC-SCC meet.

FCC Swimmers Eye Conference Victory

Fresno City College swimmers will be seeking their first Valley Conference victory in three starts tomorrow when they host Modesto Junior College at 4 PM in the Ram pool.

The Rams have been busily preparing themselves for this meet and should, according to Coach Gene Stephens, "be in top shape for the encounter."

Paving the way for tomorrow's meet will be Terry Heller, who, in his last outing, won the 100 yard freestyle and 50 yard freestyle in 50.3 and 22.7 seconds respectively. He will receive help from Jim Riley and Bob McAlister as they too, have posted victories in their specialties, the 200 yard backstroke and the diving event.

Even though the Rams lost last Saturday's meet against COS, they did have something to be proud of as Heller, Riley and McAlister turned in good times and fine diving performances to give the Rams six first places.

Ram-Panther meet results:
 50 Freestyle: Heller F; Johnson S; Moss S; 22.7
 200 IM: Weiner S; Huneke F; Murray F; 2:19.1
 Diving: McAlister F; Stillwell S; Bruce S; 189.75
 100 Freestyle: Heller F; Yegan F; Knight S; 50.3
 200 Backstroke: Riley F; Moss S; Martin F; 2:26.2
 400 Freestyle Relay: Fresno—Heller, Yegan, Riley, Martin, 3:47.5

GOALS

Personal objectives are about as varied as viewpoints on what constitutes success.

Consciously or not, a man's goals are modified from time to time. Even so, the man who can set his sights early and stay on course is a good deal better off than the man who wavers.

Having the opportunity to work independently and develop your resources to their fullest potential may fit in with your career objectives. If so, you should investigate the field of life insurance sales and sales management. The business offers many challenges, and Provident Mutual can give you an early start by beginning your training in our Campus Internship Program for college students.

It might pay you to find out more.
