Ace of the FJC fast-breaking crew is ex-Edison star Harvey Green, who has poured in 116 points in league action and has averaged 23.2 points per contest.

The Rams as a whole have collected 378 points in the five contests for an average of 75.6 points per game.

Fresno Center Ray Williams has been improving his scoring in the past few games, as have Odell Johnson and Don Steitz.

Newcomer Cody Landers has added strength to Kelly's bench. Other strong bench stars are Gerald Bender and Ernie Slade.

# Americans Pay Tribute To Abraham Lincoln

Four score and nine years ago, Abraham Lincoln brought forth to this continent a nation conceived in liberty and dedicated to the proposition that all men are created equal.

Born of humble parents, he lived a noble life, dedicated to the things he loved most, people, and the United States of America. Abraham Lincoln is now dead, but the struggles he went through to secure a government of the people, by the people, and for the people, shall not be forgotten.

This is our heritage, given to us by a great man, born on February 12, 1809.

**QUALIFIED APPLICANTS WIN WINGS AS AIR FORCE LIEUTENANTS, EARN OVER \$5,000 A YEAR!**

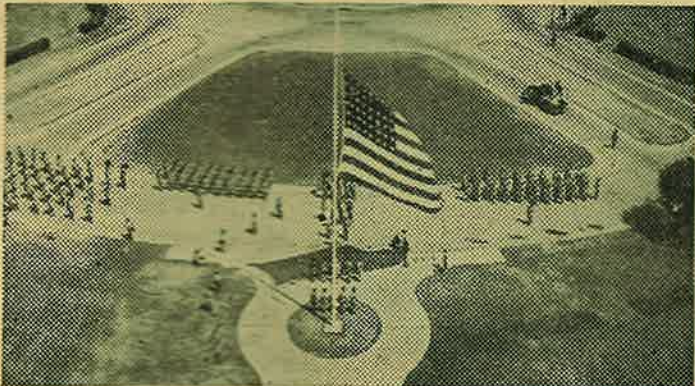

● For a fast, exciting and rewarding career, make your future in the sky as an Air Force pilot. As a college student, you are now able to join that small, select band of young men who race the wind in Air Force jets. You'll have the same opportunities to learn, advance and establish yourself in the growing new world of jet aviation.

**Fly as one of the best**

The pilot training you get in the Air Force is the best in the world —the kind that makes jet aces. You'll learn to fly the fastest, latest planes in the air—and fly them safely and well. Those who look to the skies will look to you for leadership and confidence.

**Into a brilliant future**

You'll graduate as an Air Force lieutenant, earning over \$5,000 a year. Your Air Force wings will serve as credentials for important positions both in military and commercial aviation. Air Force wings mark you as the very best in the flying profession.

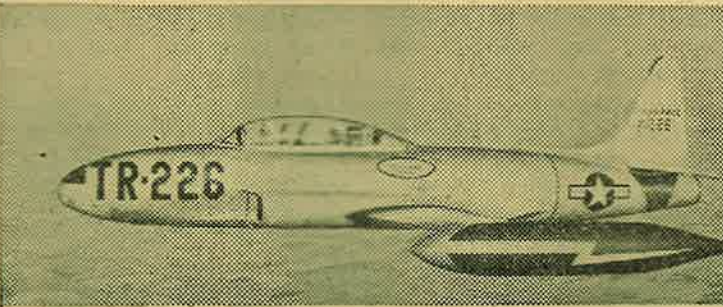

1. Pilot training begins at Lackland Air Force Base, where Aviation Cadets get 3 months of officer indoctrination.

2. It's a hard grind, but Cadets also find time to relax.

3. In primary training the Cadet flies his first planes, a Piper Cub, and this T-6. Later he will fly the more advanced T-28.

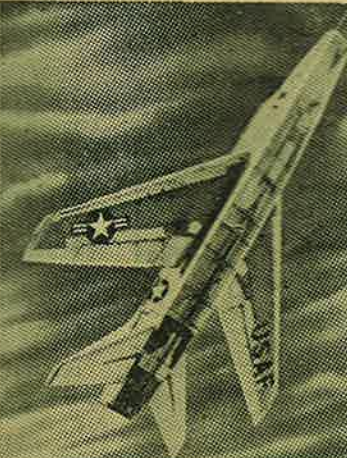

4. After flying conventional planes, he moves on to jets... going up with an instructor in this T-33 trainer.

5. He wins his wings as an Air Force officer, earning over \$5,000 a year.

### How to qualify for Pilot Training as an Aviation Cadet!

To qualify, you must be at least a high school graduate. However, you will be of more value to the Air Force if you stay in college, graduate, and then volunteer for training. In addition, you must be between the ages of 19 and 26½, and in top physical condition. If you think you are eligible, here's what you do: Take your high school diploma or certificate of graduation together with a copy of your birth certificate down to your nearest Air Force base or recruiting station. Fill out the application they give you. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet Training Class.

6. Then winds up his training with the latest and fastest planes in the air.

7. He's tested those silver wings... And won the respect and admiration that go to every jet pilot in the United States Air Force! From now on he'll rule the skies in an Air Force jet.

# Rams Top Reedley, Lead CCJCA

## Kelly's 1954 Cagers Drive For First CCJCA League Title

By DONALD N. SHROYER

The Fresno Junior College Rams rounded out a very successful first half of Central Junior College Athletic Association basketball league play by downing the Reedley Tigers Friday night in the Yosemite Junior High gym by a 65 to 60 margin.

This victory gave the Rams five straight league victories against no losses.

A standing crowd composed of many Fresno and Reedley rooters witnessed Friday night's contest, as the Rams used their free throw line scoring ability to gain a fifth league victory.

Although the Tigers towered over the Rams and scored more field goals during the contest, the free tosses were the deciding factor. The Rams scored only 19 goals from the court, while Reedley dropped in 24. The Rams, however, netted 27 points on 26 Tiger fouls. Reedley, on the other hand, made only 12 points on free tosses, with 15 fouls called against the Rams.

The only time the Tigers held an advantage over the Rams was during the first two minutes of play. However, they threatened in the final period, when there were six and a half minutes remaining to play and the score was knotted 57 all.

Fresno forward Harvey Green thrilled Fresno fans as he led the Rams to a 31 to 23 halftime lead. Green was the high scorer for the evening, as he turned in a 22 point performance.

The Fresno Rams did a fine job of keeping 6 foot 11 inch Lowell Waylander, 6 foot 6 inch Jerome Goade and 6 foot 6 inch Dan Heinrichs in check during the first half; they were limited to seven points between the three of them.

However, during the second half the skyscrapers used their height to their advantage, as they slowly chopped the Rams' lead down to a 57 all tie in the fourth stanza.

Following a foul toss made good by Odell Johnson at the six and one-half minute mark of the fourth

quarter, the Rams started freezing the ball. The Tigers committed many fouls in striving to obtain possession of the ball.

In the final two minutes the Tigers had five two-shot fouls called against them. Out of the 10 free throws the Rams collected six points.

Second high scorer for the Rams was Ray Williams, who bagged 15. The Tigers' high scorer was forward Bob Fusch, who connected for 14 points.

## FJC Cagers Win Five - Lose None In First Half Of League Action

By DONALD N. SHROYER

It certainly looks like the Fresno Junior College Rams, under the guidance of their new coach, Joe Kelly, are really on their way to gaining the first Central California Junior College Athletic Association cage title.

Friday night they ended their first round of league action undefeated in five contests. The Rams had a couple of close calls as they just squeaked by College of Sequoias by two points and by Reedley Junior College Friday night by five points.

The COS Giants, Reedley and Porterville are tied in second spot with three wins and two losses each.

One of the three will be eliminated this week as the Reedley Tigers and COS Giants clash in Visalia. The Giants won an easy victory over the Tigers in the first round, however, Reedley Coach

Sam Ortiz has added a couple of giant transfers to his lineup and now has the tallest team in the league.

Following the COS contest the Reedley outfit will meet the Porterville Pirates on Saturday night.

Fresno will host the Taft Cougars

tomorrow night in the Yosemite Junior High gym. This one should be an easy one for the Rams, as they roared through to a 71 to 49 victory over the same outfit on January 15. The Cougars managed only one victory in first round of league action.

### COLLEGE SMOKERS PREFER LUCKIES

A comprehensive survey—based on 31,000 student interviews and supervised by college professors—shows that smokers in colleges from coast to coast prefer Luckies to all other brands! The No. 1 reason: Luckies' better taste!

When you come right down to it, you smoke for one simple reason . . . enjoyment. And smoking enjoyment is all a matter of taste. Yes, taste is what counts in a cigarette. And Luckies taste better.

Two facts explain why Luckies taste better. First, L.S./M.F.T.—Lucky Strike means fine tobacco . . . light, mild, good-tasting tobacco. Second, Luckies are actually made better to taste better . . . always round, firm, fully packed to draw freely and smoke evenly.

One of the three will be eliminated this week as the Reedley Tigers and COS Giants clash in Visalia. The Giants won an easy victory over the Tigers in the first round, however, Reedley Coach

Sam Ortiz has added a couple of tomorrow night in the Yosemite Junior High gym. This one should be an easy one for the Rams, as they roared through to a 71 to 49 victory over the same outfit on January 15. The Cougars managed only one victory in first round of league action.

Following the COS contest the Reedley outfit will meet the Porterville Pirates on Saturday night. Fresno will host the Taft Cougars

## Basketball Queen Reigns At Dance

The first semester dance was held Friday evening in the Yosemite Junior High School Social Hall after a winning victory over the Reedley Junior College Tigers. Molly Williams was the chairman of the dance.

Students from both colleges danced to the music of Margaret Bettencourt's Trio. The dance was held from 9:30 to 12:30 p.m.

Frances Purroy, 1954 basketball queen, reigned over the dance. Miss Purroy was sponsored by Red Key, a student service organization, in the contest for queen.

Blanche Milhahn was in charge of arrangements for the coronation; she was assisted by Ann Nelson and Cherrell St. John.

# IT'S ALL A MATTER OF TASTE

No argument on Luckies, though—

### COLLEGE SMOKERS PREFER LUCKIES

A comprehensive survey—based on 31,000 student interviews and supervised by college professors—shows that smokers in colleges from coast to coast prefer Luckies to all other brands! The No. 1 reason: Luckies' better taste!

When you come right down to it, you smoke for one simple reason . . . enjoyment. And smoking enjoyment is all a matter of taste. Yes, taste is what counts in a cigarette. And Luckies taste better.

Two facts explain why Luckies taste better. First, L.S./M.F.T.—Lucky Strike means fine tobacco . . . light, mild, good-tasting tobacco. Second, Luckies are actually made better to taste better . . . always round, firm, fully packed to draw freely and smoke evenly.

So, for the enjoyment you get from better taste, and only from better taste, Be Happy—Go Lucky. Get a pack or a carton of better-tasting Luckies today.

You may be from a northern state;  
You may be from Kentucky;  
But, nation-wide, here's one good tip:  
Be Happy and Go Lucky!

**WORTHY CAUSE . . .** The above students with the help of little Sharon Jensen, a polio victim, collected \$120.20 during a recent March of Dimes drive at FJC. The students are, left to right, Eileen Anderson, Pat Still, Sue Sheehan, Frances Purroy, and Carole Gostanian.

## Students Work Together For March Of Dimes Drive

By BRENT FREEMAN

Students of Fresno Junior College, Roosevelt High, Edison High, and Fresno High sectioned off Fresno to promote the March of Dimes January 18 through 23.

Everywhere you went you saw balloons and students working hard for a good cause: to combat against a terrible disease known as polio.

Time passes fast when a person is up and around, but think of the many that already have polio. The time really passes slowly for them; in fact, it drags by in an iron lung.

The present plan calls for 500,000 children to receive preventive shots this year. The money the students collected will help this cause a great deal. When you give

to the March of Dimes, you give faith, courage, and aid to hundreds of small children.

Great strides have been made against polio the past few years, and with your help it will be conquered in the near future.

# Liggett & Myers Tobacco Co. says . . .

**F**OR more than thirty years we have used research day in and day out learning about tobaccos and cigarettes in the public's interest.

Continuously we and our consultants have analyzed, experimented with and smoked all kinds of tobaccos . . . especially Southern Bright, Burley, Maryland and Turkish cigarette tobaccos.

Our own cigarettes and competitive brands have been submitted to the most exacting scientific scrutiny including thousands of analyses of millions of pounds of tobaccos.

From all these thousands of analyses, and other findings reported in the leading technical journals, our Research Department has found no reason to believe that the isolation and elimination of any element native to cigarette tobaccos today would improve smoking.

For four years we have maintained in the smoker's interest an intensified larger scale diversified research program. A half-million dollar 30-ton machine, the world's most powerful source of high voltage electrons, designed solely for our use has tested tens of thousands of cigarettes. This program has already given to us direct and significant information of benefit to the smoking public.

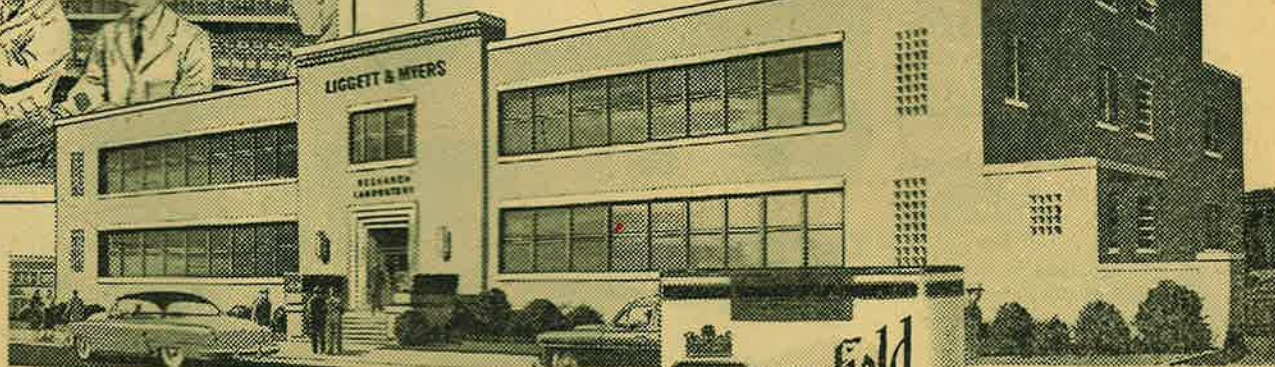

Our consultants include Arthur D. Little, Inc. of Cambridge, Massachusetts, "one of the largest and most reputable industrial research organizations in the country" (From Business Week Magazine) and eminent scientists from leading universities.

Today the public can confidently choose from a variety of brands—by far the best cigarettes ever made by the tobacco industry.
