White, FCC president. Photo by Ken Ruth

Bungalows Replace Campus Landmark Officials Go To Confab

New bungalows are scheduled to replace the old wooden annex building which was part of the campus for 35 years. The annex was razed this fall.

The building was condemned by the State Division of Architecture for school use.

Final Tryouts Are Scheduled

Today at 3 PM in A-154 is the last opportunity for students to tryout for the stage production of "Bus Stop." Tryouts will be terminated tomorrow after recalls from the two previous days have been heard.

Clyde G. Sumpter, drama coach, reported that only a few students have checked out scripts, and that most of these are women students. He said he is looking for men students who have the suppressed desire to be a cowboy to play the male lead, a Montana cowboy.

Sumpter said he wanted original character personalities, not imitations of Marilyn Monroe or Don Murry from the movie, which was playing at a local theater last week.

The play, differing from the movie, will take place and remain inside the bus stop for the entire performance.

CALENDAR OF THE WEEK

- Oct. 15
3 PM—Play tryouts, auditorium.
- Oct. 16
3 PM—Play tryouts, auditorium.
San Jose College football game, there.
- Oct. 17
9 AM—Central California Junior College Student Government Association Conference at Santa Maria.
- Oct. 20
Noon — Student Council, B-6.
- Oct. 21
Noon — California Student Teachers Association, B-3.

President Stuart M. White said, "We have long range plans for the use of the area where the old annex stood. The plans for the present is to move in more bungalows when needed."

"We may move two more bungalows on campus within the next couple of months."

White said, "The master plan for the college includes the construction of a two story building on the site if future enrollment continues to rise. However, it may be 10 years or more before this is a reality."

Dr. Andrew Rippey, principal in 1926, said, "The annex, constructed for the Fresno State College teacher training, was to be used temporarily. This is a case of temporary permanency."

In 1946-47 the Parent Teachers Association wanted the school to put in a cafeteria so the elementary school children could have a warm lunch.

The PTA raised the money in 1948 to purchase materials to build the cafeteria addition.

Albert Pratt, Principal of the Franklin School, a student of the college in 1948, built the additional room for the cafeteria. Pratt did all the work himself, without charge.

In 1953, the FSC elementary school was moved and the building was used to house the city college business division.

Rally Club Gives Noon Dance Today

A noon dance has been scheduled for today in the student center social hall.

Fred Randall, dance chairman, said popular music will be played on tape.

"The meaning of quality and economy in education" will be the theme of the annual fall conference of the California Junior College Association at the Ahwahnee Hotel, Yosemite National Park, Oct. 27-29.

Delegates from FCC will be Stuart M. White, the president, and John S. Hansen, administrative dean. Erwin A. Dann, an assistant superintendent of the Fresno city schools, will also attend.

White, CJCA vice president, said major addresses will be made by Director Harold L. Enarson, of the Western Interstate Commission for Higher Education; Assemblyman Gordon H. Winton, Jr., of the 31st district; John Carr, state director of finance; Roy E. Simpson, the state superintendent of public instruction, and State Senator Donald L. Grunsky of the 23rd district.

Enarson will speak on the conference theme on Oct. 27. Winton, Carr, and Simpson will speak Oct. 28 on "Legislation and Education," "Financing," and "The Need for State College-Junior College Cooperation," respectively. "The Legislator's Dilemma," will be the subject of Grunsky's address the morning of Oct. 29.

Junior Colleges Hold Conference

The annual fall conference of the Central California Junior College Association was held Oct. 8 on the Fresno City College campus.

Nine junior colleges were represented at the first of two such meetings held this year.

Two reports were made on the master plan survey of higher education in California. They were by Dr. Hugh Price, the chief of the state department of education's bureau of junior college education, and FCC President Stuart M. White, the vice president of the state junior college association.

Junior College Benefits

Emil Towes, the department's consultant for the National Defense Education Act, told how junior colleges are participating in the benefits of the legislation on a matching fund basis. FCC qualified for the new \$14,000 foreign language laboratory under the act.

William Niland, Coalinga College director, reported on a cooperative study of junior college, high school, and college representatives of pre-admission counseling practices. Niland is the CCJCA vice president.

Athletic Rezoning

Vernon Warkentine, Reedley College dean of students, spoke on the recent state athletic committee meeting in Fresno. He explained three tentative proposals for rezoning the state junior college athletic conferences. The 28 administrators from the nine colleges approved a motion for the CCJCA executive committee to appoint a committee to study proposed changes in the association's conference.

Garlyn Basham, Taft College president, was elected a member of the state affiliations committee. White is also a member of this committee. A committee was appointed to help arrange the association's annual faculty workshop; its members include William McKinney, College of the Sequoias' dean of instruction, chairman; Robert Kelly, FCC evening division dean, and Carl Karasek, Reedley College dean of instruction.

Colleges represented included Fresno, Reedley, Taft, Bakersfield, Porterville, Coalinga, Allan Hancock of Santa Maria, Antelope Valley of Lancaster, and COS of Visalia.

Delegates To Attend Conference

Twenty seven members of the FCC student council will travel to Santa Maria to attend the Central California Junior College Student Government Association Saturday.

Joseph King, an advisor of the student council, said the group will leave FCC at 5 AM in three station wagons.

The highlight of the conference will be the two workshop sessions to be held before and after lunch. There will be an introductory general assembly which will initiate the schedule of activities.

A second general assembly will be held in the afternoon at which the workshop chairmen will report on the activities of their respective workshops.

Allen Graves, FCC student body representative, will be chairman of the public relations workshop. The other workshops will be in the fields of athletics, finance, student government, campus activities, and secretarial duties.

The colleges participating in the conference include Fresno, Reedley, Taft, Bakersfield, Porterville, Coalinga, Allan Hancock of Santa Maria, Antelope Valley of Lancaster, and College of Sequoias of Visalia.

The FCC delegates will be Graves, Barbara Anderson, Eric Radanovich, Jenice Potere, Eleanor Patton, Robert Roe, Fred Randall, Angie Casaras, Barbara Warrington, Rodger Dunham, Dave Hanna, Florence Harper, Bud Murchison, Lawrence Cobb, Doris Daniels, Tom Westerfield, Sid Craighead, Roger Dupzyk, Pete Farmer, Shirley White, Lladona Miller, Diane Nixon, Carrol Jacobsen, Rollin Scott, Daniel Opperman, and King.

Younge Wins Class Office

Leonard Younge, Edison High School graduate, was elected to carry out the duties of freshman class president at the Tuesday election.

Despite all the enthusiasm and campaigning, only 75 ballots were cast for the class officers.

The other officers are Carol Dias, vice president; Linda Carol Miller, secretary; Phyllis Copely, treasurer, and Barbara Sharp, inter club council representative.

The executive officers have not had time to plan the semester's activities, but Floyd Quiek, class sponsor, said the class will sponsor a dance Nov. 20.

ALPHA GAMMA SIGMA — Club officers, left to right, are Florence Harper, president; Naomi Hobbs, vice president; Catherine Morison, secretary, and Shirley Pacheco, treasurer.

Freshman Spirit Strong; Could It Be Contagious?

Cheers for the freshman class!

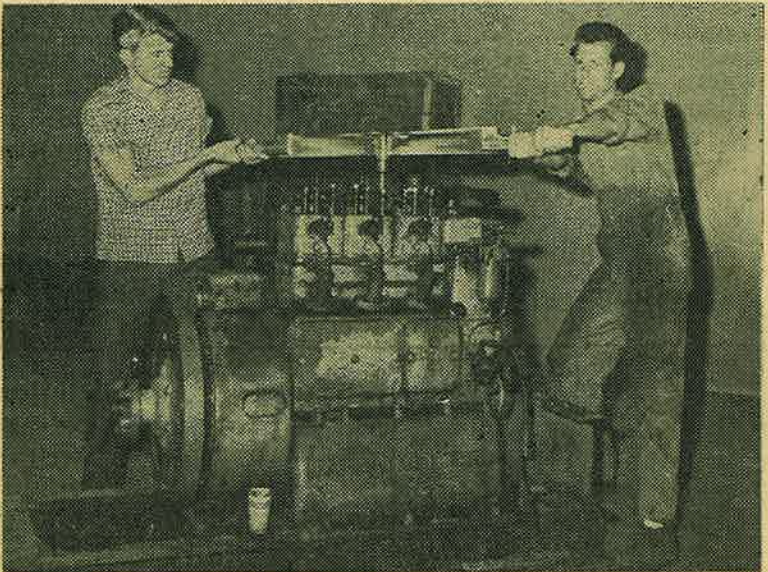

For the first time in as long as anyone can remember, a class has really campaigned for the election of its officers. If this spirit is infectious, Fresno City College may be on the upswing as far as spirit goes.

The freshmen had 15 candidates for the five offices. These candidates conducted a very active campaign. This brings to mind the student body elections last spring, where there were 18 candidates for the 16 offices. Little campaigning was done. This also brings to mind a certain sophomore class meeting last year when a large gathering of one student attended.

This increase in school spirit was evident at the football game Saturday night. A large crowd of students attended despite the home game by Fresno State College and the opening of the Fresno District Fair. This new-found school spirit was also manifested in the fine crowd which attended the Ramburger Roundup.

This college has been given a tremendous boost by the freshman class' carrying of the "spirit-ball" for a large gain. Let's hope they don't have to carry it all the way.

DIESEL ENGINE — Darel Cornelsen, right, and Art Peckham are torquing down head bolts on the diesel engine.

Complex Diesel Engines Unbolted In New Shops

The heavy duty diesel and mechanics class taught by Walter S. Conkey has as its objective learning the basic fundamentals and theories of diesel engines.

This objective is being carried out in both the apprentice and journeyman programs. There are 21 men in the apprenticeship class held for four hours one night a week. This course requires 144 hours per year for four years. When the apprenticeship course is completed the student has an 8th period apprentice status.

The journeyman program has eight students enrolled in the day class and 14 in the night class. This is a 15 hour a week, two year course, with the students graded in 7th or 8th apprentice period upon completion of the study. The student is then within six months of journeyman status.

The shop is well equipped as far as tools and machinery is concerned, Conkey said, although a little short on models to work on at the present time. He expects to have plenty to work on in the near future as Robert P. Hansler, the dean of technical-industrial division, is working on a program to get more diesel engines here for the students to work with.

At the present time there is no job placement service, but Con-

key said they are working on the problem. He said, "We are close to the trades and placement boards in this industry, and will be able to give assistance to the students who need it when they are ready to seek employment."

The first class to be completed will be two years from now, as all the students enrolled in the courses started with no previous training.

Exchange Notes

Club Rooters Boosts Spirit

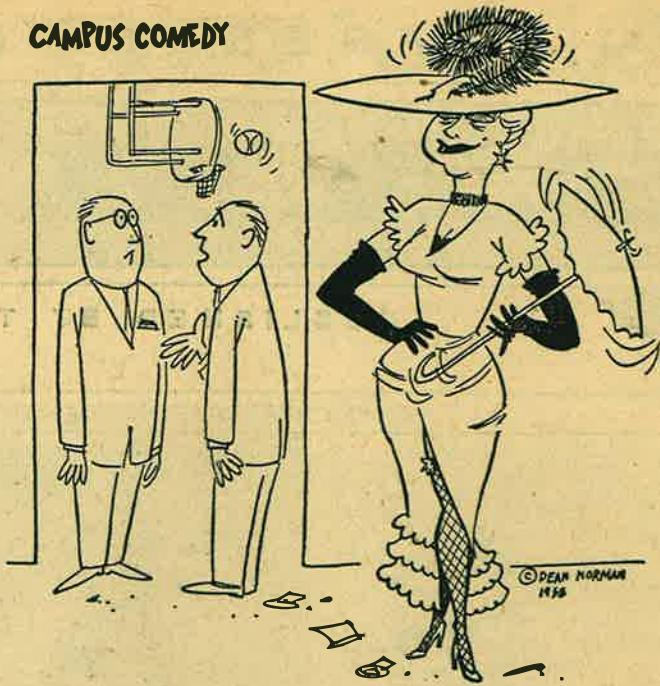

Los Angeles Collegian RALLY COMMITTEE ANNOUNCES PLAN TO BOOST SCHOOL SPIRIT

A new addition to the rally committee this semester is a Club Rooter group which is intended to stimulate better school spirit, according to Paul Henkin, rally committee chairman.

The group will attend all football games and will be discernable by their red and blue rooter caps and white blouses and shirts.

Clubs will play a large part in the games this semester, stated Henkin, for the one with the highest membership at the games throughout the semester will receive an award.

CAMPUS COMEDY

"SHE CLAIMS SHE'S BEEN HIRED TO ENTERTAIN AT HALFTIME."

From Ocean To Mountains In Two Million Years!

By JOE MCGEEHEE

Two hundred million years ago, the area which is now the Sierra Nevada mountain range was the bottom of an ocean. This was the subject of the field trip taken by FCC geology students Saturday.

Francis Leyden, the geology instructor, took a group of geology students up the Kings River. The purpose of this trip was two fold. First, it gave the students a chance to gather rocks for their required collection; and secondly, it illustrated the emergence of the Sierra Nevada mountain range.

Mountains Formed

Before the Sierra Nevada mountain range was formed, tremendous internal and lateral pressures were straining against the earth's thin shell. This pressure forced the thin crust upward, wrinkling it, forming the mountains, and draining a sea that once was there.

The mountains which were formed were the first of two ranges to precede the present Sierra Nevada range. They were from eight to ten thousand feet high, and consisted principally of sediment deposited there by the sea.

Evidence of this first mountain range has been supplied by the fossils found on top of some mountains.

Shifting Pressures

After years of erosion by the Kings River, the mountains slowly melted away into the valley. With this shift of weight, the same pressures were formed. This time they formed a mountain range 6,000 feet high. This one also eroded away, causing a third unbalance in weight and pressure, and forming the present Sierra Nevada mountain range.

Great fissures were made and the granite baserock was elevated from two miles below the surface, to 14,000 feet above sea level. These faults were filled with molten rock which, with its heat and pressure, distorted the sedimentary rock through which it coursed.

The Kings river flowed through

all three ranges, cutting a canyon through each of them, and depositing its waste in the lower lands. The river is now cutting a canyon two miles deep, through the Sierra Nevada range.

The students had several opportunities to observe cross sections of the intrusions of once molten material which had now cooled and solidified into columns or dikes of granite.

Students Observe Dam

At Pine Flat Dam Lyden explained the rock formations on both sides of the dam were of permanent rock. He pointed out the stratifications of rock which were buckled and faulted to form the mountains.

Later in the trip at Big Creek, the students were allowed to sit around, enjoy the scenery and collect the rock samples.

The next field trip for geology student will be Nov. 14 and 15 when the Minerology class will travel to the hills beyond Coalinga. Teh area they will be in is a metamorphic zone where they will be able to collect various minerals common to that area.

Guard Teaches Boating Class

The Fresno County Sheriff's Power Boat Squadron and the Coast Guard Auxiliary unit are now conducting a boating class at Fresno City College.

Instructor Bob Yates indicated that he would turn this subject inside out, for he knows as statistics show, that boating in California is one of the fastest growing sports. For example, over 2,500 boats were in operation at Pine Flat Reservoir during Labor Day holiday.

With Millerton, Bass, Shaver, and Hunting Lakes also available to the boaters of the valley, it appears that there will be much traffic on the waterways for the summers to come. This alone shows the necessity of knowing how to navigate a boat under the regulations governed by federal laws and the coast guard.

Yates pointed out that many people who operate their boats in lakes usually have future intentions of taking their boats to larger waterways, such as the lower San Joaquin and Sacramento Rivers, or to the coast. Knowing how to lay out courses and being able to read a compass will be required. This course will handle these essentials and many more. The class is held each Thursday night at 7 P.M.

What Is New?

By ANDREW FEDERICO

Roy Jimenez, an accounting major at FCC, has a broken down room in the back of his home where he keeps his piano. There's not much to Roy's room; it has curtainless windows, and with his piano and stool there is a half alive chair that is used at one time or another by the members of the neighborhood tribe.

At His Piano

Whenever he can Roy is at his piano, and he was playing his latest composition when his sister Gingie came in to have a peaceful smoke. She took the molested chair and in stillness listened as Roy played his song, "A Slow Walk to Samara." Roy always puts crazy titles on his music.

When Roy's younger cousin, Ronnie Lopez, came in he said, "Play something fast, Roy, I feel like dancing." And he went over to Gingie and asked her to dance. "Go away," Gingie said coldly.

A Classy Dance

So Ronnie started dancing by himself. And he danced as if he were in a very classy joint in New York.

Roy slowed the tempo to his song, playing it as if he had a second in between each of his fingers. And there was a meaning to his song, an unsayable or forgotten meaning that went something like this:

Crosby At Home

Imagine, for instance, the critic Bob Crosby sitting in his living room with pen and paper while watching television.

Or take the same man in a cafe in Spain with Ernest Hemingway talking about the bullfights. Two aficianados.

Take Albert Schweitzer playing Bach while his cats and monkeys listened.

Take the mathematician John Van Neumann reciting Proust from memory on his death bed.

Imagine Herb Caen's column on top of the FCC switch board operator's desk.

Remember Ernie Pyle. He once wrote about July 25, 1944, and threw what he had written into the waste basket. Bob Considine, another columnist, picked it out of the basket and mailed it to the New York Tribune. The next day the Tribune had the front page headline, ERNIE PYLE WRITES, and underneath was the story from the waste basket. It had to do with the death of an officer and how his men were unable to understand his death.

Writer Is A Bum

Take William Saroyan. He once said, "I'm a great writer, but I also know I'm a bum." A few months ago he left the country broke and owing income taxes.

Take the poet who every once in awhile takes a walk down Stupidity Street. And he is forever trying to put Apple into ant, Pegs into pillows, Orphans into otherwises, and Nears into nevers. Oh, of these unsaying and unspeakable zones.

Finished His Song

Gingie squashed her cigarette in an ashtray as Roy finished his song. Then Ronnie, who was in the middle of a very fancy step, went over and banged his ten fingers on the piano keys, and said, "Come on, Roy; play something with speed."

Roy stumped hard on the floor; drew back as if to swing, and said, "Beat it, you pest!"

Ronnie almost went through the door trying to get out.

"O.K., O.K., you animal," Ronnie said and left.

Outside Groups Use FCC Campus Facilities

By ROBERT L. VOSS

The Fresno City College campus facilities are used by more than 20 cultural and educational groups that are not part of the college.

Miss Sharon Wallen, secretary to the administrative dean, said, "The groups range from Fresno State College 'after game dances' to the University of California extension courses in economics and politics.

"There is no charge for the use of the campus facilities," Miss Wallen said, "unless the group using the facility charges admission."

Civic Center Act

The college participates in this program under the Civic Center Act which permits and encourages cultural and educational organizations to use public education facilities in the city.

The University of California is sponsoring an extension service project every Monday evening on the college campus.

J. E. Haesey, a local attorney, is the discussion leader. He said, "This is a non unit course in economics and politics with the emphasis on economics. The course is presented in 10 two hour sessions in the fall and spring. We hope to have credit given for the course next year."

The purpose of the course is to give students a better understanding of economics through participation in guided discussion of problems. The University of California Extension Service makes a text available to the students.

Water Safety Class

The Fresno County Sheriff's Power-boat Squadron, in cooperation with the United States Coast Guard, offers a thirteen week course in water safety every Thursday night from 7-9 PM which started Sept. 24 and will continue through Feb. 4.

A program will be presented by the "Sweet Adelines" in the college auditorium Nov. 14 at 8 PM. There is to be an admission charge of \$1.25.

Show chairman Myrna Langan said, "The Sweet Adelines are a singing group and will present several skits, including a barber shop quartet. The show is called 'Down Memory Lane'."

The money will be used to purchase music and costumes.

James Ward, a student at Fresno State College, is the director.

The State of California uses the campus facilities to give competitive examinations.

Jackson C. Carty, head librarian, monitors the civil and professional engineers written examination given twice yearly by the State Department of Professional and Vocational Engineers.

Dance Facilities

Fresno State College uses the campus for school dances after their college games.

The campus at Fresno State does not have the facility to hold the dances.

Some of the other organizations that use the campus are the Natural History Society and the Licensed Vocational Nurses Alumni Association.

Enrollment Includes 84 Foreigners

Eighty four foreign students are enrolled at FCC this year, as compared to only six enrolled in 1953.

A total of 25 nations are represented by these foreign students. There are 51 from the Middle East, 18 from the Far East, 13 from the Western Hemisphere, and one from the Netherlands in Europe.

Of the 51 from the Middle East, 24 are Iranians, six are from Lebanon, four each from Jordan, Syria, and Turkey, and three each from Egypt, Iraq, and Kuwait.

Far East

Students from the Far East include five from India, four from Japan, two each from Korea and the Philippine Islands, and one each from Hong Kong, Malaya, Pakistan, Singapore, and Thailand.

Countries in the western hemisphere which are represented include five from Panama, three from Canada, and one each from Brazil, Jamaica, Mexico, Peru, and Venezuela.

William A. Reynolds, an advisor for the International Club, said the foreign students are generally financed by parents, relatives, foreign government scholarships, American companies, and scholarships from United Nations Educational, Scientific and Cultural Organization.

Inadequate Resources

Sometimes these resources prove inadequate when the student's family is sending him money from his home country, and alterations in government policy put restrictions on the amount of money sent out of the country, which reduces the student's monthly allowance.

Many students have financial difficulties upon encountering unforeseen high costs of living in the United States, forcing them to get part time jobs.

In addition to the financial problems encountered by the foreign students, they are faced by social problems caused by the language barrier, and the change in social atmosphere.

In order to help the students adjust to their new environment and to create a better understanding of both our students and theirs, clubs such as the International Club have been organized.

The International Club welcomes foreign students as well as American students. Reynolds said the foreign student program is most important to an international understanding.

TWO TIME WINNER — Beverlee Jo Boyes, FCC student, displays two first place trophies she won in speech competition.

Coed Takes First Place In Contest

Beverlee Jo Boyes, a FCC student, won first place in the California state speech contest for junior colleges held last spring in Santa Cruz. The contest, sponsored by the Native Daughters of the Golden West, concluded a three day convention of the organization.

There were four competitors in the contest representing northern, central and southern California. San Francisco won second place, Los Angeles was third and San Bernardino fourth.

Mrs. Boyes' ten minute speech, "Early California Mail Service," won a trophy and an expense paid weekend in Santa Cruz. Another trophy was presented to FCC, representing the first prize ever won by the speech arts department.

Mrs. Boyes and her husband Jerry are both members of the argumentation and debate class conducted by Franz Weinschenk, speech instructor. She placed first in the speech contest held last March at FCC, and her husband placed third.

When his wife was presented with the trophy in Santa Cruz, Jerry Boyes commented, "I always knew my wife had the biggest mouth in California and now she has a cup to prove it."

Both Jerry and Beverlee are taking the debate class again this semester. They practice speeches on their eight year old daughter.

Club News

CCF Elects Fall Leaders

By MARY GULKE

Newly elected officers of the Campus Christian Fellowship are Gary Fuller, president; Marjorie Neufeld, vice president; Clara Sherrod, secretary, and Willie Wheaton, treasurer. These officers will appoint committee chairmen sometime this week.

An interesting program, stated Marjorie Neufeld, has been planned for CCF's next meeting which will be held in B-6 on Oct. 22.

Forensics Club

The Forensics Club is sponsoring its second annual student speech contest which will be held Nov. 24 at 11 AM in B-7.

All officially enrolled FCC students are eligible.

Speeches, not more than six minutes in length, may cover any subject, but must be original.

All students who want to participate are asked to sign up with Franz Weinschenk, club sponsor, in M-128.

Associated Men Students

The newly elected AMS officers are Bill Radditz, vice president; Don Dill, secretary; Robert Roe, treasurer; Ed Moorehead, publicity chairman; Allen Graves, social affairs chairman, and Lawrence Cobb, recreation chairman.

Pete Farmer, the club president, was elected in a student body election in spring.

Library Book Volume Grows

Since being inherited from the Fresno Technical High School in 1948, the Fresno City College library has increased to a total of 10,000 volumes.

Jackson Carty, librarian, says it also contains approximately 1,000 bound volumes of magazines, more than 2,000 pamphlets, and hundreds of other miscellaneous sources of reading material.

New Books

Last year 1,598 books were added to the shelves, while this year the library staff expects to add at least 1,500 additional books to the FCC collection.

Last year a total of 13,893 books, pamphlets, and magazines were circulated. The library receives 234 magazines and a number of daily and weekly newspapers.

"Lending books is not the only service the FCC library offers," stated Carty. "It is also a student learning center." In 1953-54 the total hours of attendance were 35,953. In 1955-56, he total was 51,408. Last year the total was 128,350.

Library Staff

The library is also equipped with a staff of six, headed by Carty. The other full-time employees are Mrs. Marjorie Louise Cahn, assistant librarian; Darlene Horch, chief library assistant; Mrs. Louis Scarborough, reserve reading room, and Mrs. Vernelle Pate, audio-visual clerk.

Shops Hold Open House

Open house in Fresno City College's new shop buildings will be held Oct. 21 for the Fresno City Industrial Education Club, and Nov. 6 for the Central California Industrial Education Administrators Council.

Robert P. Hansler, dean of the technical-industrial education division at FCC, said that the new shops are the best equipped in central California, if not in the whole state.

Rams Humble Taft 32-12 For Season's First Win

The Fresno City College Rams, sparked by fullback Harry Miller, edged their way back into the Central California Junior College Athletic Association race Saturday night when they punctured the Taft College Cougars line to take a decisive 34-12 win. It was the first victory for the Rams, against one tie and two defeats.

Miller, the leading ground gainer for the Rams, tallied two of the five Ram touchdowns,

HARRY MILLER

Water Polo Team Loses In Stockton

The Fresno City College water polo team opened their 1959 season by dropping two meets to Stockton schools last weekend in Stockton.

The twelve man squad met Stockton College in its opening contest and were soundly trounced, 22-9. College of the Pacific, the Rams next opponent, smashed the Fresno team again, 24-12.

The water polo team will meet Stockton College in a return match Oct. 23 at the Fresno High School pool at 4 PM in their next meet.

On Nov. 6 they travel to the north again to meet the San Jose State College Frosh. The members of the team that met Stockton College and COP were Ave Minasian, Steve Brooks, Chuck Polley, Frank Franco, Dave Denny, Jerry Opperman, Mike Satterburg, Eddie Fitzgerald, Skip Seagle, Larry Psaltis, Lane Hatcher, and Roy Havenhill.

Harriers Win Over Tigers In Reedley

The undefeated Fresno City College cross country team added the Reedley College Tigers to their list as they scored a 25-30 victory on the 2.75 mile course in Reedley.

The Ram runners captured second, third, and fourth places with Reedley's Tom Miner taking first place honors with a time of 15:22.

Following Miner were Jim Barnes, Ernie Montenez, and Jim Hart of the Rams. Dewey Baker of Reedley took fifth place. Art Cardova and Bill Hall of the Rams finished sixth and tenth, respectively.

Modesto JC is next on the Fresno harrier schedule in Modesto. The schedule is below.

Oct. 30—ModestoHere
Nov. 6—Sequoiasin Visalia
Nov. 13—League Meetin Reedley
Nov. 20—Northern
Calif.in Sacramento

with Ron Leimbach getting two more. The other score came from the efforts of reserve back Abe Kimble, who turned in one of the finest runs of the evening, going 43 yards for the Rams' final score.

Miller and Kimble accounted for 142 yards of the Rams' 212 yard total. Miller now has gained 250 yards in four games for an overall average of 6.8 yards per carry. Kimble, in his first appearance of the season, now holds an 18 yard per carry average.

Willie Turner and Gene Bamburg starting halfbacks, turned in good performances but had to yield the limelight to Miller, Leimbach and Kimble.

For the first time this season the FCC line gave a fairly good account of themselves. Led by Jerry Nimmo, Willie Wheaton, Dennis Scott, and Ray Merrill the Ram forward wall kept pressure on Taft's quarterback, Roger Kelly.

Rams Start Scoring
The Rams took no time in putting Taft on the defensive. Gene Bamburg intercepted a pass from Kelly, and Fresno took over on their own 40. On the second play, Miller, with a key block from Wheaton, ran up the center for 58 yards and the score. He kicked the extra point, giving the Rams a 7-0 lead with three minutes out of the first quarter.

The Rams started another drive minutes later but were stopped when Taft's Ron Farr recovered a fumble by Bob Guzzo on the Taft one. The Rams, however, refused to give up the initiative.

On the third down, Taft tried a reverse play, but Kelly fumbled the ball, and Merrill recovered the fumble in the end zone, giving the Rams six more points. Miller ran over for the two point conversion, making the score 15-0, at the end of the first quarter. The score remained the same until the half.

FCC Adds Insurance
The Rams showed that they dominated the game by scoring again with only four minutes out of the third quarter. With Miller leading the way the Rams moved from their own 40 to a score in eight plays.

A pair of passes from quarterback Jim Murphy, along with Miller's running, brought the ball to rest on the Taft 22. From there Murphy threw to Leimbach for the score, giving the Rams a 21-0 lead.

Taft tallied their first score with five minutes left in the third quarter. Led by Kely, Taft came from their own 42 to the Ram one. From there Kelly went over for the score.

With seconds left in the third quarter the Rams scored again. A pass from Murphy to Willie Wheaton was good for 50 yards. Wheaton lacked but one block of going all the way. Bamburg went to the one, where Miller took it over, giving the Rams a third quarter lead of 27-6.

Final Scores In Fourth		
Early in the final quarter Kimble made his 43 yard touchdown gallop. Bud Martin kicked the extra point for the final Ram tally. Taft scored their final touchdown with five minutes left in the game with fullback Ron Kramer climaxing a 36 yard drive by driving over from the two.

Ram Baseballers Meet FSC Frosh In Fourth Game

The Fresno City College Winter League baseball team will attempt to get back in the win column Sunday when they play the Fresno State College Frosh at Holmes Playground. Game time is 2:00 PM.

Selma used a four run first inning to edge the FCC Rams, 6-5, in the third winter league baseball game for both teams. It was the first loss for the Rams.

The win vaulted the Selma club into a first place tie with the FSC Varsity, and dropped the Rams into a second place tie with the Army Recruiting team.

Bucky Hoover started for the Rams, but was lifted after one-third of an inning because of wildness. Hoover walked six and allowed one hit in the first inning.

Thad Tillotson and Mike Garrison limited the professional laden team to two runs over the final eight and two-third innings.

Fresno outthit Selma, 7-6, but the many walks and four errors proved costly.

Earl Cozart led the Rams with a perfect two-for-two. One of his hits was a long triple which Selma centerfielder Joe Monis lost in the sun.

Summary:
R H E
FCC000 002 210—5 7 4
Selma400 100 10x—6 6 2
Hoover, Tillotson 1, Garrison 6, and Hobbs; Dopeker, Doig 4, Anderson 6, Corona 8, and White.

FCC TO TRAVEL FOR SJCC GAME

By RICHARD KRIKAVA
The light and speedy Fresno City College Ram football team will travel tomorrow night to meet the beefy San Jose City College Jaguars in a non-league affair in Spartan Stadium, San Jose.

This will mark the first time that these two teams have met on the gridiron. The Jaguars, from the Coast Conference, boast a heavy line and backfield along with a well balanced attack. The Jaguars starting line will average 200 pounds as compared to the Rams' line of 190.

The hosts possess two pile driving backs in Mike Ruiz and Ken Buram, who tip the scales at 210 and 195 respectively. The backfield averages 189 pounds. This is a great deal larger than the Rams who have an average weight of 163.

The Rams will be going for their second consecutive win of the season as well as their second win under Head Coach Clare Slaughter. The Rams brought victory to their camp Saturday night when they blasted Taft College, 34-12, in a league game.

Slaughter uncovered a new and exciting running attack in the Taft game along with a fine passing attack. Slaughter definitely feels that the team is coming along better than they were in the previous games.

San Jose will go into the game with a 2-1 record. The Jaguars dumped Sierra College, 8-6, and Monterey Peninsula College, 20-18. They were beaten by San Mateo College, 24-6.

San Jose finished the 1958 season second behind Hartnell in their league. The Rams, on the other hand, finished first in their league. But the records will not mean a thing in this contest because the Rams appear to be starting the season slowly with only one win. The Jaguars have started fast and have only lost one game.

The starting line ups for both teams are below.

At last, I've found a place to meditate.

Michael O'Shanessy, a Greek Statue, has long searched for a place to study. He has discovered the Coin-O-Matic Laundro-Mat.

Here there are well-lighted, comfortable study desks for your convenience. Of course we would appreciate it, if you found time to do your laundry while you study. At These prices you can't afford not to.
