

# 'BUS STOP' WILL OPEN FRIDAY

## Candidates Can Secure Petitions

Petitions are now available in the admissions office for student body offices. Candidates have until 3 PM Tuesday to pick up petitions and obtain the required forty signatures.

Officers to be filled are student body president, vice-president, secretary, treasurer, AMS president, AWS president, and 10 representatives at large.

The FCC constitution states that candidates for all offices must be members of the FCC Associated Student Body, and must have attended FCC one semester or more.

They must be maintaining at least 12 units during the semester of candidacy with at least a "C" average for the total college record at the close of the previous semester, and at least a "C" average for the mid-terms of the current semester.

Eligibility of first semester students will be based on mid-term grades. A student has a "C" average when he has twice as many grade points as units.

Candidates for president or vice-president of the student body must comply with the above with the exception that a 2.5 grade average be substituted for the "C" average.

Elections will be Jan. 8, from 8 AM to 3 PM in the administration and student center foyers.

## Cigarette Was Discarded—Fire Started

Firemen hunted for almost an hour for the source of smoke drifting through the administration building. A discarded cigarette in a hole in the floor of Room 154 was the cause of the scare.

Captain John Whitt of the fire prevention bureau said the three fourth inch hole in the floor of the room, bored long ago for a now forgotten purpose, later had been patched by nailing a board against the underside of the floor.

Whitt said, "When we finally found the source of the smoke, the cigarette probably discarded the day before, had burned a three inch hole completely through the one inch thick patch. The edges of the hole were still smoldering, and we are lucky it had not burst into flames."

In a message directed to the students, FCC President Stuart M. White said, "Areas which are considered hazardous for fire have been posted as restricted. Since we cannot watch every student, student cooperation in observance of these signs is needed."

"We are fortunate that this fire that occurred last week didn't break into a major one."

THAT OLD BLACK MAGIC — Shirley White does song and dance routine, That Old Black Magic, as Rodger Dunham, right, and Tom Westerfield, left, are awed by the performance.

## TV Show To Feature CC Education Division

The Central California University of the Air will present FCC's General Education Division Saturday, Dec. 12.

The 30 minute show will be on KFRE-TV, Channel 12, at 4 PM.

The series features junior colleges of the San Joaquin Valley and Fresno State College. Each school has four programs.

Guests on the program will include John S. Hansen, the administrative dean; James P. Collins, the general education division dean; Floyd J. Quick, chemistry instructor; Dr. Lewis Follansbee, biological science instructor; Carl H. Morgan, science and mathematics instructor; and G. Alex Kalistratov, William A. Reynolds, Jr., and D. Lee Ross, of the language department. Some FCC students will also appear.

## Crowbar Thieves Attempt Robbery

Two doors leading to the admissions office at FCC were opened with crowbars by thieves in an attempt to open the office's safe.

George C. Holstein, dean of admission and records, made the announcement and said that the thieves were unsuccessful with their robbery. Only minor damages were estimated with the breakage of the doors leading to the steel safe.

The thieves first broke through the gate like door guarding the entire administration building. Once inside they continued to the admission office door.

Unable to get into the safe the thieves ransacked the office, going through the secretaries' desk.

## Student Body Prexy Plays Feminine Lead

By GARY COOKE

The curtain will rise at 8:30 tomorrow night on FCC's fall production, "Bus Stop."

The plot of the three act comedy, written by William Inge, is centered around a bus out of Kansas City which stops at a roadside diner in the middle of a snowstorm. All roads are

blocked, and the travelers have to stay until the next morning. A comedy is developed from the actions of these people and the conflicts of their personalities.

Cherie, the female lead, will be played by FCC student body president Shirley White. Marilyn Monroe did this part in the movie version of "Bus Stop." Miss White was a member of the cast in last spring's presentation, "Thieve's Carnival."

The male leads will be played by Garth DeLeon and Rodger Dunham. Others in the cast include Carl Wheeler, Michael Parker, Laurel Monson, Lorraine Silfman, and Tom Westerfield.

### Ticket Reservations

Reservations for the play may be made by calling AM 4-4721. Tickets may also be purchased in the lobby of the student center between 11 AM and 2 PM today and tomorrow, or at the door. Tickets for the play cost \$1 for general admission, or 50 cents for FCC students with student body cards.

Clyde Sumpter, the play's director, expressed the hope that the FCC student body would support the relatively new drama department.

### Behind The Scenes

Many long, hard hours have been put into this year's fall production of "Bus Stop" by the unseen but integral part of the play — the crew.

Clyde Sumpter, director of the play, estimates that his stagecraft students put in from 70 to 150 hours working on a production such as this one.

Sumpter revealed that about 10 weeks elapse from the conception of the thought to the final product, the presentation itself.

### Set Designing

The sets are all designed by Sumpter, and the sawing, pounding, and painting which transfers an idea into a colorful reality on stage is done by his stagecraft class. Materials needed for productions are purchased out of a budget set up for the drama department by the Student Council.

Business Manager for "Bus Stop" is Barbara Anderson, of Madera. Mrs. Anderson participated in both productions last year, "Thieve's Carnival" and "Teahouse of the August Moon."

Stage managers are Virginio Tayan and Richard Esajian. Miss Tayan is from Halaula, Hawaii.

Costume mistress is Hallie West, from Los Angeles. Angle Casares and Beverly Phelps are in charge of properties. Claudia Andresen is chief of the make-up crew, and Carl Wheeler, who is also a member of the cast, is in charge of lighting.

## One Toy Is Admission To Dance

One toy is the admission price to the FCC Christmas formal which will be held Dec. 18 at 9 PM in the student center social hall. The Associated Men Students and Associated Women Students are sponsoring the dance.

The Lions Club will fix all toys in need of repair and distribute them to needy homes throughout the community. Robert Roe and Nancy Gray are co-chairmen of the decoration committee. Roe said included in the decorations will be a 12 foot tall snowman which will be made of tumbleweeds sprayed with imitation snow, a cabin made of cardboard and wood, and a sled in which the students will have their pictures taken.

Seven hundred and seventy-six white balloons sprayed with glitter paint will be suspended from the ceiling and behind the band stand will be a panoramic winter scene.

Music will be provided by Ernie Bender and his Rhythm Kings. Students and their guests will be admitted with their student body cards and bids.

The committee members include Roe and Miss Gray, Pete Farmer and Barbara Warrington. Larry Cobb and Dianne Carroll are chairmen of the publicity committee.

"OH BUT THIS IS A MERRY WAY TO GO TO POT" — Dr. Lyman, at left, converses with Will the Sheriff while being served by Elma the Waitress in a scene from "Bus Stop."

## FCC Elect Officers In Democratic Style

Democracy which is the basic foundation of our American way of life, is defined as a government of the people, by the people, for the people usually through elected representatives.

In the United States, the federal government, state governments, city and county governments use the democratic system.

The Fresno City College student body also uses the democratic system and this week student leaders are filing petitions for student body officers for the spring semester. So what does this have to do with you? Just this — the students who are elected to the student body office are not only representing FCC they are also representing each individual student on the campus.

Since we have this wonderful way of government it is our duty to support candidates for the forthcoming election. You can't have a successful election without candidates.

Barbara Anderson, the inter club council president, has encouraged the individual clubs to sponsor some of their members as candidates for the sixteen available student positions.

The first election this year, that of the homecoming queen, was one of the best ever held on the FCC campus. Even if it were the best it can still be improved. More students need to know the candidates and their qualifications so they can vote intelligently. That is the reason why it is important for each and every student to attend the nominations assembly Dec. 17 at 11 AM in the auditorium where all office seekers will be introduced to the student body.

Then it is important that you go to the polls on Jan. 8. The students who do not vote are the ones that complain about the way things are run. If that's the case — do something — run for office, or at least vote.

There are the student leaders who we can call the "workers." There are the students who do a little bit who we can call the "shirkers." And then there are the students who do absolutely nothing. They are the "jerkers." The "jerkers" are the downfall of the student government system at FCC which is a system of the students, by the students, for the students.

## Speech Students Are Versatile In Topics

By FLORENCE HARPER

Humor, controversy, research, information, and pathos are all experienced in FCC speech classes.

Controversial subjects, such as gambling or the legalization of prostitution, have been the basis of many interesting speeches given in Clyde G. Sumpter's speech classes.

Sumpter said young people in college have surprisingly mature ideas on these and other controversial subjects. The commercializing of Christmas has been discussed, as have inter-racial marriages, segregation, and public education.

Many students have strong opinions on whether or not the parents of juvenile delinquents should be punished.

### Variety In Biographies

A part of every semester is set aside for presenting biographies. There has been a tremendous variety in the subjects selected, although Joaquin Murietta has been a strong favorite.

To illustrate their talks students have used a wide variety of visual aids including practically everything except animals. Sumpter explained this restriction is enforced in his classes because animals are too distracting.

### Students Self As Visual Aids

Students have used themselves or other students as visual aids. They have brought antique items.

One such display was of antique cameras, which the class found very interesting.

Another popular aid is food — especially when samples are dispensed, Sumpter said.

Another part of the semester is given over to panel discussions which have included contrasting the Russian and the American education systems and unrestricted speed laws in California.

Sumpter commented that the common subjects, such as capital punishment, are often developed into fine speeches. So much depends on the way that the topic is developed and presented.

Franz Weinschenk related that the funniest thing that ever happened in one of his speech classes developed during a sales speech in which a student was attempting to demonstrate a vegetable slicer.

### Troubles With Slicer

In the midst of the demonstration something went wrong with the slicer and potato slices started soaring through the room. The student switched to carrots and the machine jammed.

In trying to extricate the vegetable and proceed with his demonstration, the young man cut his thumb. Now, this development was not funny but the student's reaction to it was.

He decided to give up the whole thing, but the slicer wasn't through with him yet. It had

## Foreign Student Relates Old Christmas Customs

By ROBERT VOSS

Christmas in Iran, the ancient land of Persia, will be celebrated by Christians in a land where the predominating religious faith is Moslem.

Nahid Hadjian, an FCC student from Tehran, Iran, said the Mos-

lem holy day similar to Christmas is the Moslem New Year, the beginning of spring on March 21.

Miss Hadjian said families get together to celebrate the birthday of the Prophet Mohammad. On this day everyone goes outside of their house, the father re-entering first, and the rest of the family following. Each person kisses the other to indicate that they are forgiven for any wrong done during the old year. Sometimes gifts are exchanged.

According to Miss Hadjian, the coming New Year in Iran will be the year 1339. The Iranian calendar is dated from the time 1339 years ago when God called upon Mohammad to teach the faith.

During Christmas the schools in Iran are closed for the holiday, Miss Hadjian said. This practice started two years ago because there are many Christians in the country. This is one of the Western customs brought to Iran. Christmas is a holiday for the Moslems, but not a holy day, she said.

Christmas trees are as common in the Christian household in Iran as in the homes of Americans.

The Western world has Santa Claus and the children of Iran have Baba-No-Noz, father of the new year, Miss Hadjian said. While the children of Iran are asleep Baba-No-Noz, a very old and wise man with a flowing white beard, puts a gift under the children's pillows.

### Poetry At FCC

## Precious Time

By ALBERT WILLIS

Of all the wonders in the world  
One that's greater than the  
Atlantic's oyster pearls  
One delicate minute in one  
common sense  
Can be worth a fortune or one  
pence

Far more bewitching than  
Carlsbad Cavern's intriguing  
walls  
Far more bewildering than  
beautiful Niagara Falls  
Time put everything on the  
French Riviera  
As it puts sand on the lifeless  
Sahara

How precious are the diamonds  
in Africa  
Time it takes to bring silk from  
China  
Men will find riches on the moon  
Ingenious astronomers know that  
it won't be soon

One foolish second can cause a  
hundred sorrows  
Wise is he who plans for  
tomorrow  
The sun rises, what will it pay?  
Cherish God's given time and  
value his day

### Suggestion Box Holds Students' Gripes, Peeves

Do you have a gripe? — A pet peeve? Now you can tell it to the world.

The best suggestions to be deposited in the suggestion boxes, located in the student lounge and the student foyer, will be printed in the Rampage, said Allen Graves, representative at large.

This summer Graves brought the boxes up to date with a new coat of paint, and by changing the lettering from FJC to FCC.

NAHID HADJIAN

## Courses Satisfy Evening Students

Evening division students appear to be satisfied with the courses offered at FCC.

In a survey taken last spring it was revealed that course offerings were adequate. No weaknesses needing immediate attention were disclosed.

Forty-two per cent of the students answering the survey were taking less than five units, 23 per cent were registered for from seven to 10 units, and 18 per cent were enrolled for five to seven units. Most of the students taking more than 10 units were enrolled in both day and evening classes.

Of the evening division students, 101 were also attending Fresno State College. These students are completing lower division requirements, repeating courses, or making up grade points.

Sixty-four per cent of the students conveyed the information that they were working toward degrees. About one half of the students said self-improvement was their main reason for going to FCC, but many of these students indicated other reasons as well. Many indicated that job upgrading was a major objective for attending. Approximately 20 per cent are planning a new occupation upon graduation from college.

About half of the evening students suggested they had no time plan for completing their college program, but are just going along as fast as possible, with allowances being made for family responsibilities, job demands, and other pressures.

Student enrollment ranges from one to eight semesters of attendance. Ten per cent of the students surveyed have been in FCC more than six semesters, and less than 11 per cent are new students.

In response to the question concerning their annual income, 408 students said they earned between \$4,000 and \$6,000 a year. Fourteen housewives said their husbands were also in this bracket. Six per cent related an income of \$8,000 and over. Each division had the greatest number of wage earners in the \$4,000 to \$6,000 bracket.

The survey showed that the largest number of students were employed in skilled occupations. Students surveyed said that 63 per cent of their employers were interested in having their employees improve themselves through education.

Robert M. Kelly, the dean of the evening division at FCC, said that this survey will be used as one factor in improving the program.

### What's New

## Zoo Viewers Find One Perfect Day

By ANDREW FEDERICO

I was at the Roeding Park Zoo with Pilon Accuna, who lives on Wishon Avenue and is 12 years old. We were watching the frolicking bears trying to stand on their hind legs and wave at us spectators.

The sign on the fence around the bears said that they were grizzly bears and that they were harmless to humans if not molested. At the bottom of the sign was the bear's scientific name, which was in Latin and which I've forgotten.

### Latin Named Animals

All of the animals at the zoo had Latin names, and we had already seen the Sea Lions, the Galapagos Tortoise, and some others, making it difficult to remember all their Latin names.

We moved over to the polar bears and found them lying in their cage, looking lazy while taking in the warm sun.

"It's an animal's world," Pilon said, looking at the yawning polar bears.

"Yes," I said, "it is in a way."

"They don't have to do anything for anything, just breathe," Pilon said in a sort of envious tone.

"And what are you going to do when you get older?" I asked him.

"I don't know, yet," he replied.

"What do you mean — yet?"

"I mean, I know only I don't know."

I laughed and he joined me and then we continued looking at the bears. When we got over to the Mandrill baboons we started to grin again.

### Wants To Be Cartoonist

"I want to be a cartoonist," Pilon said, suddenly and without provocation.

It surprised me when he said it. I always thought he'd want to be a scientist or something like that. I mean he was forever talking about jets and rockets and going to the moon from Cape Canaveral.

"What kind of cartoonist?" I asked, not even knowing he knew how to draw.

"Of animation," he said. "Do you know what that means?"

"What?"

"Well, sort of like giving something life. Like Mickey Mouse, Donald Duck or even Snow White."

"You mean, you'd like to work for Walt Disney?" I inquired.

"Well, if I could get to be that good, yes."

### They Stopped Talking

We didn't say anything more about it after that. The rest of what we hadn't already seen at the zoo was mostly monkeys. When we got to the orangutan's cage I started thinking about cartoons and about Pilon and animals that talked. About what would be better, giving animals speech, or taking it away from humans. Pilon was carried away by the orangutan; he said it looked like someone he knew.

Club News

# ICC Inaugurates Evaluation System

By MARY GULKE

A point system for evaluating the most active club and Inter Club Council member was approved by all Inter Club Council members. Florence Harper, chairman of the committee in charge of setting up a program to be used as a criterion for judging clubs and ICC members for awards, submitted the system to ICC last Thursday.

The most outstanding campus club and ICC member will be determined by the use of this system and will be presented with an award.

This system sets forth seven major areas in which points (set at a maximum) may be attained. Projects, 20 points each; social functions, 10 points each; publicity for the semester, 10 points; attendance of club members, five points; club participation in elections, three points, and homecoming events cover a total of 25 points.

Two main divisions offer a total of 200 possible points for the most outstanding ICC member. They are regularity of attendance and participation.

Barbara Anderson, ICC president, appointed Florence Harper, Timothy Brooks, and Wynn Winter as the judging committee for choosing finalists as candidates for these awards. Finalists will be voted on by all ICC members.

An ICC meeting will be held at noon today in B-6.

## Newman Club

Newman Club has several events planned for the remaining part of December. It will include a New Year's party at Bass Lake, Christmas caroling at Fresno hospitals and a clothes drive.

A New Year's party is being planned for all NC members and guests to be held at Bass Lake.

Newman Club members are going Christmas caroling Dec. 22 to various hospitals in Fresno. Their main objective is to help the patients gain the Christmas spirit. A Spanish dinner at the home of NC member Ester Lima will follow caroling.

NC is sponsoring an old clothes drive for next Thursday. Old clothes may be brought to the next NC meeting, Thursday at 11 AM in B-5.

Today is the deadline for students who wish to obtain Newman Club Federation pins. Only members who have paid their dues are eligible to receive these pins.

## Latin American Club

A talent show to be given at the Veterans Hospital is being planned by the Latin American Club. A date for this event has not yet been set.

LAC has invited Newman Club to their annual Christmas party occurring Dec. 21.

## Student Teachers

Reid Gromis conducted a mock interview with a prospective teacher at the California Student Teachers Association meeting last week.

Gromis is the director of the personnel department of the Fresno Unified School District. The interview was presented to give prospective teachers an idea of the procedure they can expect to undergo in order to be accepted for a teaching position.

Florence Harper, a sophomore English major at FCC was the candidate for employment during this demonstration. She said that even though the questioning was rigorous it had been a valuable experience for her.

Gromis said that actual interviews are conducted privately. He also stated that even though it is a teacher's market nowadays, Fresno is constantly upgrading the profession.

Bette Ward, CSTA president, urges all education majors to join CSTA as she believes this club can be of value in giving future teachers a better idea of the teaching profession.

# Debate Team Heads South

Four Fresno City College debaters are going to Bakersfield tomorrow to participate in a practice debate with Bakersfield College at 2:30 PM.

The two city college teams will include Alan Hays and Reggie Marcellino and Jim Rickets and Ronald Itskoff.

The teams will each debate the positive and negative sides of the national intercollegiate topic for the 1959-60 season which is: RESOLVED: That congress should have the power to reverse supreme court decisions.

The students will be accompanied by Franz Weinschenk, the faculty advisor.

ELECTION PROCEDURES — Arlene Vetting, left, a FCC admissions and record clerk, explains the procedure for filing a petition to Linda Carol Miller a student body office candidate.

# Students Use Variety Of Speech Topics

(Continued from Page 2)

taken a firm grip on Weinschenk's desk with its suction cup feet, and it wouldn't let go.

The student, a large young man, by the way, grasped the slicer firmly and pulled. He pulled so hard that he lifted the desk off the floor, but still the slicer would not let go.

By now the class was completely convulsed, and the salesman was through with peddling forever.

In Joseph W. King's speech classes visual aids have included with motor, which was brought in an eight foot hydroplane, complete by a racing fan.

## Brain Waves Tested

Another student brought a mattress so that the student he was using to demonstrate a brain wave diagnostic machine could be comfortably placed.

Maps and charts have been commonly used in King's classes. Drawings illustrating the age of dinosaurs; Indian symbols and other interesting drawings have been used.

Dan W. Ozler said the presentation of ideas and listening communication is two ways—from speaker to audience and the reverse. The development of good listening habits is a science.

Ozler's speech class did an "adventure of the mind" series this last semester. The class took other people's ideas and represented them.

## Students Work With Semantics

The class spent a portion of their time working with semantics. Ozler said this was a very interesting section, dealing with dropped meanings, words by implication, lack of information, and talking out of context.

His class used very few visual aids because he feels that learning to communicate effectively should be learned first.

# 'Effects Of Bad Diet' Is Experiment Theme

It has long been a belief that women and mice do not get along, but Mrs. Norma Carpenter and her nutrition class are now disproving this story.

They have launched an experiment in an attempt to analyze the results of the eating habits of many teenagers.

Two white mice are being fed sharply contrasting diets. One mouse is being given a basic nutritional diet of adequate amounts of milk products, vegetables, fruits, eggs, meats, breads and cereals.

The other mouse is getting what the class believes is a typical teenager's diet. This includes coffee, toast or sweet roll, and doughnuts for breakfast, French fries, hamburger, potato chips and coke for lunch, and meat and potatoes for dinner, with candy bars and peanuts for snacks.

There has been one major draw-

back to this experiment, however, and the experiment must be "re-launched." That drawback, Mrs. Carpenter said, is that the two mice ate through the separating cardboard and devoured each other's meals. Mrs. Carpenter added that the mouse getting the proper diet seemed to want the other mouse's "teenage" food more than his own.

Another cage was borrowed from the zoology classes and the mice were separated. Mrs. Carpenter said if the experiment is successful the class may get some idea of how advantageous a proper diet can be.

Mrs. Carpenter said she hopes the difference in the growth and health of the two mice becomes apparent by Christmas vacation for the cages are in her office and are getting to be what she described as "quite odiferous."

# FCC Cagers Will Invade Southland

The Fresno City College Rams will head for the southland tomorrow where they will play the San Bernardino Indians Friday night and then will travel to Los Angeles to meet the semi-professional Kirby Shoes basketball five, Saturday night.

The Rams will put their 4-1 season record on the block on this road trip. San Bernardino is reported to have a tall team, with a starting team that averages six feet, three inches. The Ram starting unit averages six feet, one inch.

The big hurdle for the Rams will come in form of Kirby Shoes. This team is made up of former college all-stars and some ex-professional players. They play four year colleges and have beat many of them.

The Rams are rambling along with a 66.2 points per game average while holding their opponents to a 54.4 average. Leading the scorers for the Rams is team captain Charlie Lowe. The speedy guard has tallied 78 points in five games for a 15.6 point per game average. Forwards Darnell Mikel and Tom Jacobsen follow with 58 and 34 points respectively.

Russ O'Leary, in four games, has tallied 29 points, and guard Joe Lee has netted 25 points in five games. Lee Stark and Ken Farnsworth follow with 26 and 24 points. The remainder of the team, and their points scored are: Don Nowell 18, Ray Allen 14, Cleo Johnson 9, Chet Bishop 8, and Dick Taylor 8.

The Rams will be busy from now until New Year's. They will play four games before Christmas vacation, and Dec. 26 will travel again to Los Angeles to take part in the Sam Berry Tournament.

Heading the list of coming games will be a game with the defending state champions, Long Beach City College. The game will be the next home tilt for the Rams, Dec. 19 and will be played in the McLane High School gymnasium. Other teams the Rams will meet will be Bakersfield, Chaffey and Sacramento College.

The Rams will get the 1959-60 Central California Junior College Athletic Association underway Jan. 5, when they travel to Santa Maria to meet defending CCJCAA champion, Allan Hancock.

# Cagers Win Three, Lose One, In Weekend Play

The Fresno City College basketball team came through the weekend of play with a record of three wins and one loss. Two of the wins came in the Bakersfield Tournament, along with the Rams first loss of the season. The Rams captured the consolation trophy for the second consecutive year.

The other win of the weekend came Saturday night when the Rams downed an impotent Stockton College five in McLane High School's gymnasium.

**Bakersfield Tournament**

In the opening game of the tournament the Rams had the unfortunate opportunity of meeting the Los Angeles Valley Monarchs. The FCC five came out on the short end of a 60-52 score.

The Rams and Monarchs were knotted, 14-14, at the end of the first quarter, but Valley's Tom Eggleston and his shooting put the Monarchs in front, 34-24, at the half.

The scoring — LA Valley (60) — Hirsch 14, Jensen 10, Avants 2, Eggleston 8, Fish 15, Buchanan 2, Higgins 9. FCC (52) — Jacobsen 2, Taylor 2, Mikel 16, Stark 4, O'Leary 1, Lowe 10, Lee 9, Farnsworth 2, Johnson 6.

**Modesto-FCC**

Playing in the consolation bracket Friday morning, the Rams found the Modesto College Pirates to their liking and posted a 68-50 win.

FCC, behind the shooting of Darnell Mikel, Charlie Lowe, and Russ O'Leary, built up a 23-10 first quarter lead and held a four point lead at the half. Ron Nowell paced the Rams in the fourth quarter by scoring six points.

The scoring — FCC (68) — Jacobsen 2, Mikel 15, O'Leary 14, Farnsworth 9, Lowe 10, Bishop 2, Allen 6, Nowell 8, Lee 4, Johnson 2, Modesto (50) — McDow 4, Brown 6, McElhaney 8, Overby 3, Muench 15, Walls 1, Roten 2, B. Davenport 2, R. Davenport 5, Balswick 4.

**Mesa-FCC**

In the finals for the consolation trophy the Rams met the Mesa College Mavericks from Colorado. The Fresno five managed to pull away in the final half to post a 63-57 win.

The end of the first quarter saw the score tied, 22-22, and at the end of the half the score was knotted, 28-28. In the third quarter, behind Charlie Lowe, the Rams pulled ahead, 59-50. The drive was started by Lowe, who tallied 12 points, and Lee Stark, who added eight more.

The scoring — Fresno (63) — Jacobsen 8, Mikel 2, Nowell 5, Farnsworth 7, Lowe 23, Lee 2, Stark 14, Allen 2. Mesa (57) — Campbell 8, Dow 4, Samples 12, Foulkner 7, Segura 5, Brennaman 16, Winder 3, Newton 2.

**Rams Win Second Home Game**

Returning to Fresno Saturday night the Rams used little effort in downing the Stockton College Mustangs, 87-49, in their second home appearance of the season.

The Rams built up an 11-0 lead with only half of the first quarter played. They went on to take a commanding 23-7 first quarter lead and held a 39-26 first half lead.

The win for the Rams was a team effort, with all eleven players hitting the scoring column. Lowe and Joe Lee were the spark-plugs in the first half Tom Jacobsen and Lowe kept the Rams alive in the final half.

The scoring — Fresno (87) — Jacobsen 13, Mikel 13, Lowe 20, O'Leary 5, Bishop 6, Lee 6, Stark 6, Allen 6, Taylor 6, Farnsworth 5, Johnson 1. Stockton (49) — Miller 2, Williamson 2, Wallace 5, DeLanare 7, Fox 10, Williams 14, Simpson 5, Mannee 2, Flock 2.

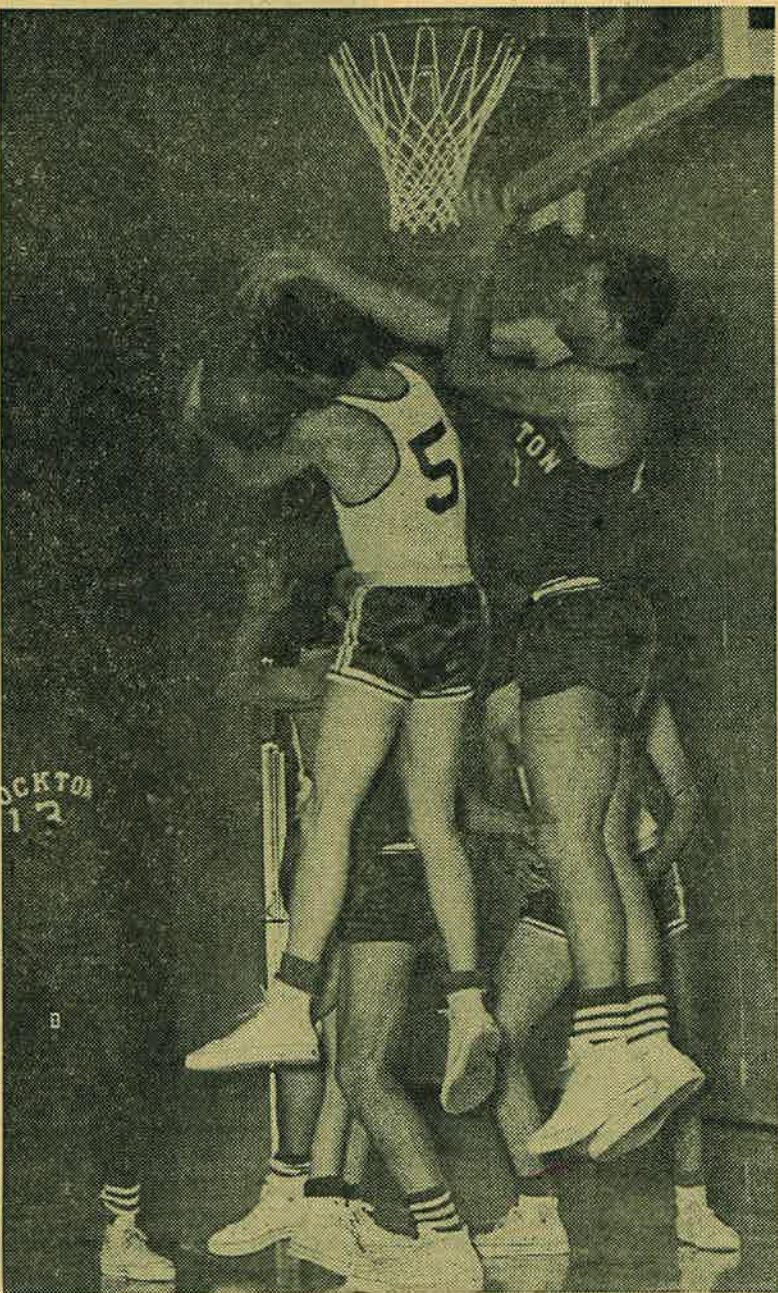

# Date Changed For Fall Sports Feed

The date for the annual fall sports banquet has been changed from Dec. 17 to Dec. 22, as announced by Hans Wiedenhofer, FCC athletic director.

Honored guests of the banquet will be the coaches and players of the football, cross-country, and water polo teams.

Guest speaker for the banquet will be Cecil Coleman, new head coach of the Fresno State College Bulldogs football team. He will speak on the relations between junior colleges and the four year institutions.

# Wrestling Team Will Meet Sequoias This Afternoon

By RICHARD KRIKAVA

The Fresno City College wrestling team will host College of the Sequoias this afternoon in their first league meet in the FCC gymnasium, starting at 4 PM. They will travel to San Jose Saturday to participate in the Northern California Open Wrestling Meet. This meet will pit the Ram wrestlers against men from four year colleges.

Coach Hans Wiedenhofer terms this meet as an "experience meet" for his team. He also said, "We're sending our boys to give them an idea what to expect when they continue wrestling in the college ranks. It will be good for them, but I'm not expecting any winners."

Friday, last year's reigning champions, FCC and San Bernardino, met in combat and the meet came out in a 16-16 tie. Last year the two teams tied for the state championship.

Wiedenhofer plans to start the same team against Sequoias. Eddie Davies won his 19th straight match without a defeat and state champion Jim Moore also posted a win.

The results: 123 pounds, Clark SB, dec. Nehring F, 6-4; 130 pounds, Davies F, dec. Combs SB, 6-1; 137 pounds, Hemphill SB, pinned Seagle F; 147 pounds, Moore F, dec. Snyder SB, 8-9; 157 pounds, Pamp SB, dec. Ortega F, 6-3; Johansen F, pinned Burke; Carriaga F, pinned Sparks SB; Olivero SB, pinned Aquino F.

# SPORTSTALK

By LARRY ADAMS

**A YEAR AGO IN SPORTS**

The FCC Ram football team won the 1st Annual Sequoia Bowl game in Sanger on Nov. 27. They jumped ahead in the first quarter and hung on for a 27-19 victory over the Sacramento Junior College Panthers.

\*\*\*

The Ram basketball team had a 4-1 record at the end of the week. (This year they have the same record.) They won the consolation trophy at the Bakersfield Tournament. Their only loss of the young season was to San Jose State, who took second place in the Tourney. (This year their only loss is to LA Valley, who also took second place in the Bakersfield Tourney.)

\*\*\*

**FIVE YEARS AGO IN SPORTS**

The Fresno Junior College Ram basketball team had a 3-1 record as of Dec. 9. Found in the starting lineup were Gary Alcorn, now playing professional basketball, and Odell Johnson, who was a basketball star at St. Mary's.

A later issue of the paper announced the All-CCJCAA team. FCC men who were chosen to the first squad were Fred Snyder, Tom Ryan, and Don Kloppenburg. Kloppenburg played for Fresno State College later.
