# **Attitude Toward Student Election Termed Apathetic**

Needless to say, we are apalled at the apathetic attitude taken by FCC students in the governing of their student body.

It isn't enough that people gripe about the way the student body is run, but they should seek to do something about it. Now, before, a suggestion that all turn out at the poles was a worthy solution to the problem; but this semester it is insufficient as there is nothing to vote for except representatives at large.

There is only one candidate for each of the offices of president, vice-president, secretary and treasurer. This, rather than an election, has all the aspects of a ridiculous fiasco.

If the nominations assembly was indicative of all the spirit the students can offer, then there was not much need for such an assembly except to those few who were nominated or gave speeches. And that, plus a handful or so more, was all that were there.

If this is all the interest the students are going to take in student body affairs, then perhaps the duties of the student government should be turned over to the Interclub Council or the administration. But then listen to the roar of the crowd. Nobody would like it. So why don't we do something about it now?

We suggest that perhaps a new type ballot be presented for the consideration of those at the poles—a yes and no box should be supplied for the first four candidates.

Thereby the students are given more freedom of choice. As it is now it takes only one vote to put each of the solo runners in office without any regard as to their true ability and capabilities to handle the offices in question.

# New Year's Resolutions: Resolved, Involved, Dissolved

Jan. 1, 1959, was—as every New Year's Day has been a day of reckoning. The first morning of each new year (besides being the morning after) is a time when all redblooded Americans decide to "really turn over a new leaf" and begin to improve themselves.

College students-that is, those college students who are not too run down by breakfast deficiency anemia to call themselves red-blooded—are not immune to this critical thought. In fact, almost every one of them, at one time or another during the holidays, has thought, "This year I'm going to study. Three hours every night—seven to ten— I'll do nothing but study." The idea is the same no matter what words are used to express it.

To Fresno City College students New Year's Day probabily also meant what it did to this writer. For even though I enjoy the spirit(s), partying, and pageantry of seeing the new year in and waving goodby to the old, one gloomy thought persists.

Jan. 1 means that the long, lovely Christmas holiday is almost over. Too soon we'll be back where we started in September-school. Four more days until classes, then two weeks of frantic cramming for those killing finals, and then -oh happy day!-one free week between semesters. Then we'll start a new routine and it'll be only a couple of months Easter vacation, and then

I'm buying tonight, fellas! Dad sent me five bucks for a study lamp.

USERS OF THE STUDENT LOUNGE in the student center as shown in the picture are observing the rules of good conduct as laid down by the student council. The lounge primarily was established as a place to rest and a place where students may met socially. Music piped in furnishes a background for conversation or meditation. Voices are not confined as in the confines of the library. The lounge is further used as an evening meeting place for organizations. The rules drawn up by the student council restrict the use of the lounge for relaxation purposes and exclude all drinking, eating, and card playing within the room.

# Guide To Summer Work Available

By DICK BRUUN

No matter what your inclination-a free trip to a faraway. place, or a stay-at-home moneymaker this summer-every teacher, college student and professor will have a choice from over 12,000 summer earning opportunities described in the new and expanded 1959 World-Wide Summer Placement Directory.

The directory lists specific jobs in 20 foreign countries and all 49 United States. They range from steam ships to dude ranches, from work-travel trips overseas to summer theatres, from study projects to research, from camps to national and state parks.

#### **Description Available**

Each listing includes a description of the job, the necessary qualifications, the salary, and the name and address of the employer. Information is also given on how to apply for positions with a sample resume to assist applicants. The best summer jobs are filled early in 1959, so job seekers should apply as soon as possible.

#### How To Obtain

Copies of the directory may be examined at most University placement or dean's offices, libraries and school superintendent's office, or may be obtained for \$3.00 each by writing to The Advancement and Placement Institute, Box 99K, Station G, Brooklyn 22, New York.

A current up-to-date Summer Placement Directory is published each year by the Institute, a noncommercial advisory service for the field of education since 1952. The Institute also publishes the monthly Crusade journal, which lists positions for educators, and the annual World-Wide Graduate Award Directory.

#### Job Placement Important All Aliens Must Submit Address **Function Of Fresno CC**

Any alien living in the United States on Jan. 1 of any year must fill a requirement of the Emigration and Nationality Act by reporting his address during the month of January to the post office or immigration office.

In addition to filing his address, the alien must report his entry date and place of entry into the United States, dates and place of birth, nationality, and his alien registration number, advises the immigration and naturalization service office.

Any alien who fails to report to the rost office and fill out the proper form will be taken into

Job placement is one of the important functions of the Fresno City College business department and the technical and industrial division.

Gervase Eckenrod, the placement officer for the business division, and Paul Starr, the dean of men, work in conjunction with each other in finding employment opportunities. The technical and industrial placement is handled by Robert Hansler, the dean of the technical and industrial division, through the office of the director of industrial education in cooperation with the instructors in each area.

for placement in industry as ademployment? Do you know where , vanced apprentices. Many trades or occupations require that students have pre-employment training in each area before they will be admitted into apprenticeship training. Credit is given for the work taken at the college as partial completion of their apprenticeship period toward journeymen status.

"In the pre-employment trade classes, there were twice as many students placed as completed the course and received certificates of proficiency, which indicates that industry requires more students than can complete training. In the engineering field, nearly 100 per cent of those who have completed the curriculum have been placed," stated Hansler.

# Fall Veteran Enrollment Drops Off, But Is Still High

"The veteran is still leaving his mark on the American college campus, according to the fall enrollments of veterans under the Korean GI Bill, Enrollments are 14 per cent under last year," the Veterans Administration said this week.

VA estimates that some 600,-000 Korean veterans were in training this fall, a drop of 100,-000 under the 1957 fall enrollment figure of 703,000.

In the VA's San Francisco regional office it is estimated that the fall enroliments have dropped 17 per cent from 25,000 last year to 21,000 this year.

Of the 600,000, more than 400,-000 are in the nation's colleges and universities, where they make up one out of every six males getting a higher education these days.

GI college enrollments almost held their own this year, dropping only a few percentage points below last year's 446,000.

The big drop in Korean GI Bill enrollment occurred in on-the-job training and on-the-farm training. VA said that its 1958 enrollment figures are estimates, since reports from schools and training establishments all over the country are not quite all in as yet.

custody and deported. Each alien may be fined or imprisoned betore being deported.

The alien must report to any United States Post Office or any immigration and naturalization service office and ask for the address report card form 1-53.

#### RAMPAGE OPENINGS ARE ANNOUNCED

Anyone interested in the various aspects of journalism or working for the spring semester on the Fresno City College Rampage should contact Phil Smith, FCC journalism instructor, before final registration begins.

Smith stated there will be openings on the Rampage staff in an assortment of capacities, such as reporting, copyreading, features, sports, business, clerical and photography.

Students will earn two or more units according to the course taken.

#### Christmas Jobs

Before the Christmas vacation, the business division's job placement service provided several odd jobs of clerking in the downtown department stores and the college also sent out students to be Santa Claus.

"Students should sign up now and when the placement comes, they can start right in on the job," stated Eckenrod.

Eckenrod further commented that few people showed any interest in the babysitting jobs, due to a lack of transportation or the pay was not what they wanted.

#### **Requests Made**

In the technical and industrial division requests are made by the employers and employees for students trained in a specific field

Hansler added that applications are also kept on file for students who desire partial employment in industrial occupations during their training at the Fresno City College.

# **Vocational Nursing Awards** Are Given To Graduates

By DIANE NIXON

Certificates of completion will be awarded to members of Fresno City College's graduating class in vocational nursing January 30 in the student center social hall.

The 16 members of the class are completing a three semester program which enables them to take the state examination to become vocational nurses. The program is sponsored by the city college and the local hospitals.

Monsignor Francis X. Singleton, the rector of St. John's Cathedral, will give the benediction. Miss Campbell, inservice coordinator for the Fresno County Hospital, will be the speaker.

FCC Fresident Stuart M. White the technical and industrial division, will also speak at the ceremony.

"There will be a reception following the graduation and the hostesses will be the junior vocational nurses," stated Mrs. June Pool, a vocational nursing instructor.

The graduates will include Noritta Boggs, Louise Bray, Johnnie Mae Chase, Evelyn Dean, Irene Dorow, Jean Duty, Inez Lee, Carrie Mock, Melba Mansfield, Hermine Martin, Sarah Munoz, Mary Nakata, Beryl Nichols, Mabel Ross, Ruth Scott, and Gladys Watson.

The vocational nursing instructors at FCC are Mrs. Josephine Hostetler, Mrs. June Pool, Mrs. Mildred Bosteder, and Mrs. Mary Zanathy.

### General Will Lead During Campaign

General Alfred M. Gruenther, president of the American National Red Cross, is speaking in Fresno today. He will kick-off the three day statewide meeting of California Red Cross volunteers and staff members in the Hacienda Motel.

He will address the conference delegates at 11 AM. This afternoon he will leave for Utah where he will speak Friday at two similar meetings.

"Any person living in the Fresno area desiring to hear the general's speech are invited to attend today's meeting in the Yosemite Room of the Hacienda," Shannon M. Jones, the chairman of the Fresno County Red Cross chapter said. Those attending need not be registered

A loan program for needy college students by which they could finance their education on a long range installment plan has been proposed by Seymour E. Harris, a Harvard economist.

Harris made the proposal at the annual meeting of the Harvard University college entrance examination board. He suggested that the instaliments be spread over periods ranging from 20 to 60 and Robert P. Hansler, the dean of years with an insurance policy possibly covering deaths.

> The loans under this program would average about \$500 a year to students in public institutions. The lenders, according to Harris, would be financial institutions or, if they are not willing, the governments should cooperate through providing loan funds and guarantees.

An adequate lending program could enable colleges to make necessary increases in tuition rates, and this increased revenue would allow them to finance a doubling of faculty pay at 1970 enrollment.

#### Joote Notes By RUSS FOOTE SPORTS EDITOR

I guess most of you sports fans spent New Year's Day watching the various football bowl games on television. Probably a lot of you got pretty disgusted with all the commercials they kept sticking in between quarters, plays, and even handoffs. (It didn't bother me, 'cause I didn't wake up until all the games were over.)

It sure wrecked my cousin Melvin, though. He likes to sit in front of the TV and use each sponsored product, live, as it is advertised. Did you know all seven bowl sames were sponsored by beer monufacturers this year?

Anyhow, this sports advertising is getting out of hand.

Called On Account Of

I bet if baseball hero Mickey Mantle said he used a certain brand of laxative, every kid on my block would eat them (laxatives) like candy-hoping it would make them good little baseball players. This would be great for the laxative manufacturers, but a lot of little league games would be In Tourney called, and not on the account of darkness.

The advertising would not be so bad if it were half-way related to the sport. But there's not much connection between gargling with Listerine after eating Auntie Palantnik's stewed rootabagas, and running a 9.5 hundred. (There's about as much connection as there is between this column and sports.)

The commercial ought to fit the sport. Like for instance:

BASEBALL TYPE AD: Be the best hit and run man in baseball. Have those incriminating dents and paint scratches removed by the Poobah Garage. We guarantee perfect work or we'pay your bail.

BASKETBALL TYPE AD: Not going high enough on those jump shots? Drink Baegle Rale Bourbon with Axytol. 86 proof! Nothing makes you go higher. Even the cork tastes good. FOOTBALL TYPE AD: You, too, can be a great ball carrier. Easily avoid tacklers; in fact tacklers will avoid you if you use It's Been Dead A Week Perfume. Our price cheap!

BOXING TYPE AD: When close fights can be decided by low blows, High Water Gym Shorts are the best. High Waters buckle two inches above the head.

TRACK TYPE AD: Have you lost that zest for running Can't make yourself go on in the big races any more? Use Klod Kleenex with Pepper On It and at least part of you will always be running.

GOLF TYPE AD: Want that ole in one? Eat Mother I lose's

CHAMPION PLAYERS make champion teams and this year Fresno City College has had both. Seven members of this year's Ram league champion football squad have been awarded positions on the Central California Junior College Athletic Association All Star Team. From left to right above are Mac Meachem, Bill Pritchard, big Pete Mehas, and Walt Miller. All four of these boys made first string. Vestee Jeckson, not pictured because we couldn't get hold of a Jackson picture anywhere, also made the starting five. Fresno has been able to turn out league champion teams the past two seasons by recruiting their top talent primarily from local talent. Meachem is a Clovis High graduate. Pritchard is from Sanger High, Mehas is a big Fresno High graduate, and Miller and Jackson are Edison High boys. Two members of the Ram squad made second string all conference this year. They are Chet Rooters and Don Oberg.

# **Rams** Lose

The Fresno City College Rams basketball squad was eliminated from the ninth annual Sam Barry Memorial tournament in Glendale as they lost their two games.

Los Angeles City College defeated the Rams 68-64 in the first round, and Compton Junior College beat the Rains 50-42 in the second round.

Charles Lowe led the Rams' scoring with 22 points, while Frank point man for LACC and the game was Charles Dugan with 30 points.

### Rams End Losing Ram Basketballers Streak; Win 81-65 In Modesto Tourney

The Fresno City College Rams hoopsters, enjoying their hottest shooting night of the year, ended a four game losing streak at the College Panthers by scoring an 81-65 triumph.

The win was all the more gratifying to the Rams since the regular center, Frank Johnson, was unable to make the trip.

Sacramento tried hard to make a game of it, closing the gap to and 11 points respectively. High quickly pulled away again after the intermission.

### **Ram Gridders** Make All League

Seven members of the Fresno City College football champions of the Central California Junior Athletic Association have been named to the all-league team for the 1958 football campaign.

Tackle, Mac Meachem; center Pete Mehas; back, Vestee Jackson; guard, Bill Pritchard; and tackle Walt Miller made the first team.

End Don Oberg and guard Che Rooters have both been awarded places on the second team.

Pritchard received an All-Ameri can rating for his fine play this season.

Rooters will return to FCC to play next season.
