Edison Campus Will Move Into New Shops In The Near Future

Fresno City College will take another step toward being united on one campus early during the spring semester when the shop classes held on the Edison Campus will move to the new buildings on the University Ave. campus.

"It is very doubtful that the buildings will be completed

Chapman Is Speech Champ

Wayne Chapman is the Fresno City College first all school speech champion.

Chapman, speaking on "Abolishing the Draft," outspoke three other orators last Thursday afternoon in Ad-113 in the final round of the tournament which was sponsored by the Forensics Club.

Marvin Castagna finished second to Chapman, Buss Helm was third and Richard Lubic was fourth.

Two elimination rounds were conducted earlier in the day and the two best speakers were chosen from each round for the finals.

for the beginning of the spring semester, but they should be finished soon after," said Robert P. Hansler, dean of the technical and industrial division.

FCC Leaves Edison

"This will close the Edison campus for FCC use," Hansler added. "Architects are now redesigning the buildings for the use of Edison High School."

When the other buildings are finished later on during the semester, the classes at the O St. campus will move to University Ave. By next fall, the O St. campus will also be closed.

Stuart M. White, FCC president, reported the project will provide more than 100,000 square feet of floor space.

New President

Newly Elected SB President Reveals Plans

By AL BALANON

Douglas A. Eudaly, the newly elected Associated Student Body president, has revealed his plans concerning next semester.

"I am very pleased and honored to have this opportunity to serve you as your student body president," Eudaly said, "and I am fortunate in having an outstanding group of people to work with in the student council."

"I would like to take this opportunity to express my appreciation to the students who exercised their right to vote in selecting this council."

Problems Will Receive Attention

Eudaly reminds the students that the Student Council meetings are open meetings and that any student may attend.

"As Associated Student Body president, I hope to create more school spirit and to continue to work with the problems that are always present at a two year college," commented Eudaly. "Any problem brought before me will be given the consideration it deserves. I am looking forward to what I feel will be a very successful spring semester."

Eudaly has held the office of vice president of the Interclub council, president of Alpha Gamma Gamma, president of the Young Republicans, and commissioner of elections at FCC. He was chosen by the Student Council to attend the California Junior College Student Government Association Conference in Bakersfield this semester.

A Native of Fresno

Eudaly, a native of Fresno, attended the Fresno Technical High School in 1949. After graduating, he worked for the Pacific Gas and Electric Company for two years and also for the Dale Brothers Coffee Company for a year. He was inducted into the army in 1952. Upon his discharge he worked in Oregon for three years in the plywood industry. He entered FCC in the spring of 1957.

Eudaly is married and the father of three girls. He lives at 1111 N. First St.

Eudaly, Morris, Nixon, Steffen, Martin Are Elected Unopposed

The results of the student body elections were announced at the elections dance Friday night.

The new Fresno City College spring semester student body president is Douglas Eudaly. He was uncontested in his bid for office.

Other Offices Filled

The other elected officers are King Morris, vice-president; Diane Nixon, secretary, and Carolyn Steffen, treasurer. These positions were all uncontested victories.

Of the 18 nominees for representative at large the following were elected: John Alexander, Joseph Percy Brown, James Roger Dupzyk, Russell Foote, Allen Graves, Jean Holmes, Douglas Knight, Carolyn Kruse, Darrel Rowland, and Johnny Smart.

AMS-AWS Elections

Sue Martin was elected president of the Associated Women Students and Frederick Stafford defeated Jack Whitling for president of the Associated Men Students.

Rambler Annual Will Be Larger

Rambler coeditors Joyce Ridgeway and Linda Allen have announced that this year's edition of the yearbook will contain 132 pages.

Change In Price

"The price of the annual has been \$2.50, and it will remain this until Feb. 9, when \$3.50 will be charged," said Miss Allen.

Peter Christian, Rambler adviser, warned would-be purchasers against waiting too long to buy. He added that there are now a few 1958 Ramblers for sale in the Rambler office, SC-212.

Graduate Pictures Scheduled

Graduates' pictures will be taken this year in the Rambler office. The staff will send letters to students who have filed in the admissions office for an associate of arts degree. Students eligible are urged to do this soon.

Besides the editors the Rambler staff consists of Lawrence Lutz and John Adams, art co-editors; John Baziuk, literary editor; and Arthur Miyashiro, Larry Wiley, and Earl Bradley, photography.

Political Party Differences To Be Discussed

A combined assemblage of the members of the Young Republicans and Young Democrats will convene in Room 200 of McLane Hall at noon tomorrow. Hugh Golway, instructor of history at Fresno City College, will speak on the differences that make up the Democratic and Republican parties.

"I selected this topic," Golway announced, "because many students are lacking in the knowledge of the origins, the traditional progresses, and policies which make up these two parties."

"College students," he continued, "have an important obligation to society that is to be informed and to take an active part in the political life of their country and communities."

"The public," he said, "are cordially invited to attend the informal gathering, and all interested students are urged to come and take part in the open discussion at the culmination of the meeting."

CALENDAR OF THE WEEK

- Jan. 15
12 PM—Interclub Council, SC-229
- Jan. 16
12:15 PM—Ski Club, M-200
12 PM—Young Republicans — Democrats, M-200
7 PM—Campus Christian Fellowship, Film, Auditorium
8 PM—FCC vs. Coalinga, Yosemite Junior High School
- Jan. 17
8 PM—FCC vs. College of Sequoias, Yosemite Junior High School
- Jan. 19
12 PM—Phi Theta Kappa, Ad-117

Let's Give The Teachers A Break; Russia Does

Capitalism is the scourge of the world. It is a plague on the human race.

Thus state the Russians. And yet the Russians, who so profoundly condemn the American democratic system in no uncertain terms, themselves employ capitalistic incentives in education. They have deliberately and successfully used higher salaries as a lure for teachers. They have successfully used it to improve their educational system.

We don't condemn this, even though they are not logically following the beliefs that they hold to be true. We can't condemn this, because we see where they have succeeded and we have miserably failed.

In Russia, the professor earns eight times as much as the average factory worker. In America, the average professor makes about one and a half times as much as the factory worker.

The shabby treatment of our teachers threatens to undermine not only our educational system, but the very foundation upon which our democracy is founded.

A knowing people can never be unknowingly pushed
David Ruggeri

Polio Drive Commences With Help Of Students

Have you had your polio shots yet? Do you know what it will cost to give therapy to the thousands and thousands inflicted with this disease?

The 1959 Polio Drive will commence this week on the Fresno City College campus. During the week, among the activities, noon dances will be held in the student center social hall. Donations for polio may be made and a wishing well will be provided in the center of the floor.

Another wishing well will be placed in the student center building and around campus.

This year's polio campaign is not only to help the many sufferers of infantile paralysis, but also to aid in the treatment and cure of rheumatoid arthritis and the cause and defects in the central nervous system of the new born.

Students! Let's give to help combat these dread diseases and help the afflicted ones

Exchange Notes

SJS Offers European Tour

San Jose State College

A 59 day tour of Europe this summer for \$1,549 is being offered to SJS students, announced the Spartan Daily. The tour includes visits to England, Belgium, France, Italy, Switzerland, Austria, Germany and Holland.

Ventura College

The Pirate Press reports that the traditional yearbook is being replaced with a 48 page magazine type edition. The new magazine is offered at the price of \$1.50 while the previous annual was \$4.50.

Stockton College

A committee was formed for the purpose of investigating possible fire hazards and remedies for them on the campus, stated the Collegian.

Santa Rosa Junior College

Fifty sophomores will complete their work for associate in arts degrees at SRJC at the conclusion of the first semester Jan. 23, stated the Oak Leaf.

Prof: "The exams are now in the hands of the printer. You have three days in which to review the term's work. Any questions?"

Voice from the rear: "Who's the printer?"

The Fuller Brush man's never made it yet!

Fresno City College History Walks Away

The history of Fresno City College is missing. Two summaries were the only complete written compilations that the University Ave. library had in its collection.

"The summaries seem to have just walked away," said Mrs. M. Louise Cahn, assistant librarian. "I earnestly wish that they would walk back into the library as soon as possible."

She said many abuses are done to library property; many periodicals are cut to pieces, and the result is not only expensive, but the periodical is sometimes impossible to replace.

This, she said, is the main reason why students are placed under surveillance before leaving the library and the principal motive behind inspecting all books and leaflets before they are removed.

Students are reminded that the library is not a playground and

a place to make boisterous noises or to gossip. The buildings' sole purpose is for a quiet place of study for students who are, enmeshed in studying for tests and a source of perusal of the many pamphlets that aid a student in writing his term paper.

Many students are ignorant of the fact that there are maps of the country and the world to be checked out to be used in class and for display purposes; these plus vocational pamphlets are located behind the desk in the main reading room.

Pamphlets on topics ranging from archeology through the art of playing the zylophone can be found in the files in front of the periodical rack, also located in the main room.

Service Provides Information Regarding Red Festival

A group of students and recent university graduates have announced the establishment in Cambridge, Massachusetts, of the Independent Service for Information on the Vienna Youth Festival. The purpose of the Service is to provide the American student and youth community with comprehensive and objective data regarding the Communist-sponsored VII World Youth Festival.

The Festival, to be held in Vienna next summer, is the latest in a series of mass youth events organized since World War II by national front groups: World Federation of Democratic Youth and the International Union of Students. Next summer's meeting is the first to be held outside of the Soviet orbit.

Sponsors of the Information Service, most of whom have experience in domestic and international youth and student affairs, believe that many American young people do not fully realize the political and propagandistic nature of such festivals. They point out that this, in large measure, is due to a flood of expensive and misleading literature with which the Festival organizers deluge American college campuses and youth organizations.

The Information Service, in consultation with other American youth and student groups, intends to prepare and distribute documented studies on the history and operation of past festivals. Preparations for the Vienna gathering

960 Come Direct From High School

A survey prepared by the Fresno City College admissions office reveals that of the 1,175 new students who entered Fresno City College, 693 plan to transfer to a four year college or university. 329 intend to complete their education at FCC, and 52 are undecided, reported President Stuart M. White.

The number of new students represents approximately 30 per cent of the total enrollment at FCC.

General Education Excels

The 525 new students in the the general education division include 430 planning to transfer, 69 who are terminal, and 26 who are undecided.

The 364 new students in the business division include 130 transfer students, 216 terminal, and 17 undecided. The 286 new students in the technical and industrial division include 133 transfer students, 144 terminal, and nine undecided.

Direct From High School

The survey also shows that 960 of the new students entered the city college direct from high school and 215 came from other colleges. The students direct from high school include general education division, 388; business division, 317; and technical and industrial division, 255. The students from other colleges include general education division, 137; business division, 47; and technical and industrial division, 31.

The new students include 1,062 who graduated from high school. Graduates include general education division, 482; business division, 342; and technical and industrial division, 238.

The nonhigh school graduates include general education division, 43; business division 22; and technical and industrial division, 48.

NUCLEAR DETECTING — Science students of the Fresno City College soon will be learning first hand how to operate nuclear radiation detection instruments under a program instituted by the Federal Civil Defense Administration and the California Disaster Office. Ray C. Cramer, a city college physics and engineering instructor, recently attended a two day course in Merced to become a qualified radiological instrument operator and instructor.

will be continually analyzed and periodically reported. In addition, background data on United States and world affairs, indications on what may be expected in Vienna, and practical information as to means of participation in the Festival will be available to those young Americans who decide to attend or who might visit the Festival briefly while traveling in Europe.

The organizers of the Information Service support the position of representative student and youth groups in the United States and Austria, the host country, along with those in numerous other non-Communist countries who have decided to boycott the Festival and deny it any official prestige. At the same time, they do expect that many intelligent and patriotic Americans will wish to attend in an individual and non-representative capacity.

The Information Service believes that such participation can be valuable if the individuals attending are fully informed as to the nature and purpose of such a meeting so as to lessen the exploitation of their presence for propaganda purposes. The Service further thinks that American participants should be equipped to effectively present a democratic viewpoint, dispel particular misconceptions of American society, and thus promote understanding with the young people from many countries who will be present.

MAURICE GRAVEL

Paul Revere Rides Again To Fresno

"The more given, the more bureaucracy needs. As spending increases, taxation increases." This was the statements of Maurice R. (Mike) Gravel, selected by the U. S. Junior Chamber of Commerce for the role of a modern-day Paul Revere, who spoke before Stanley M. Bennett's Economics 1A class at 11:15 AM Wednesday, Jan. 7.

Gravel, an Anchorage, Alaska real estate firm owner, was a guest of the local junior chamber of commerce.

High Goal of Signatures

He will arrive in the nation's capital on April 15 when the junior chamber of commerce will present petitions to legislators asking for a reform in the tax structure. The national chamber has set a goal of 5,280,000 signatures, one for each yard from coast to coast.

Gravel is alerting Americans to the Project Tax Reform. His talks are designed to carry to the public basic tax information and the pros and cons of proposed reforms and to encourage their interest in this problem.

Gravel asserts the taxes levied by the federal, state, and local governments are, "choking our free enterprise system." "We believe that through normal government efficiency the necessary reduction in spending can be obtained to lower taxes," he further declared.

Spoke in Generalities

"The junior chamber," he said, "is not making any specific suggestions for obtaining greater efficiency in government. We are only speaking in generalities."

Besides speaking to the economics class during his one day visit here, Gravel was a guest at meetings of the Fresno County and City Chamber of Commerce Agribusiness Committee and the junior chamber directors. He toured the California Packing Corporation, Producers Cotton Oil Company plant and the Roma Winery.

Phi Theta Kappa Plans Local By-Law Change

A consideration of the changes of the local by-laws of Phi Theta Kappa, headed by Glynda Voorneveld, was the main order of business at the Jan. 12 meeting.

Those selected, to form a fund raising campaign, were Mabelle Bell, John Red-Horse, and James Whitman.

Club News

Business Club Holds Election For Spring

Phi Beta Lambda, Fresno City College chapter of the Future Business Leaders of America held its election of officers at their Jan. 7 meeting.

Elected to the officiating posts for the spring semester are Richard Dillon, president; Lonnie Dias, first vice-president; Lladona Miller, second vice-president; Marguerite McFerrin, secretary; Linda Allen, treasurer; Eleanor Peralta, reporter and Patsy Cox, historian.

FINE ARTS

"Students who are interested in joining Fine Arts club and all members are requested to be at the Jan. 21 meeting," said Gary Sexton, president of the club. Members of the club will meet in Ad-141 for the purpose of electing officers for the spring semester.

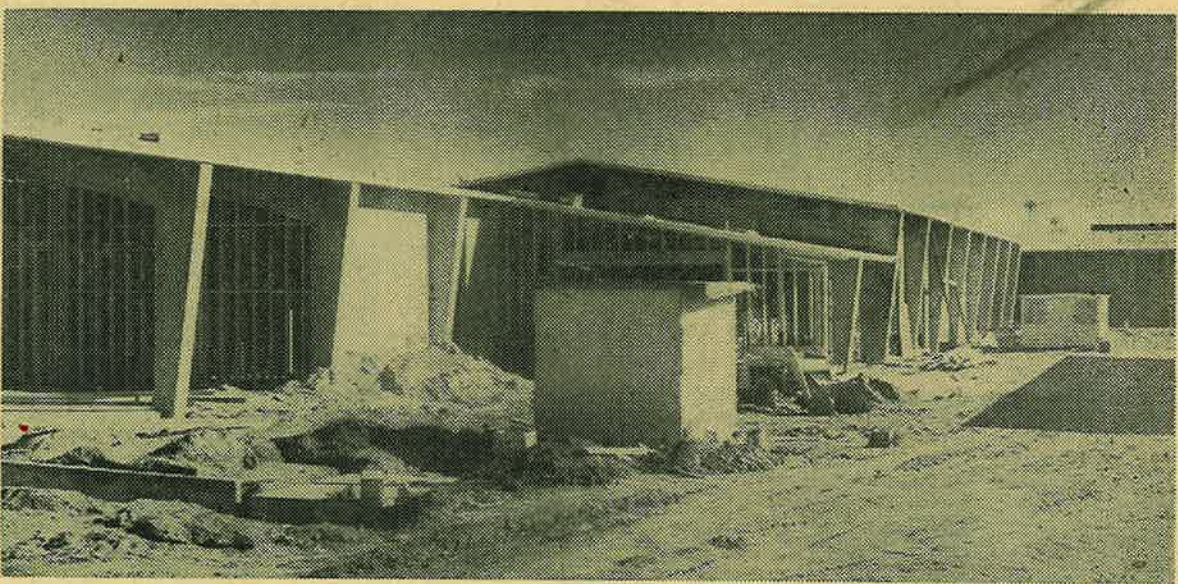

ICC

The Inter-Club Council convened at noon today in Room 229 of the student center to select the winners of the scholarships presented by ICC. Applicants for the scholarships are John Alexander, Barbara Anderson, Mabelle Bell, Douglas Eudaly, and Diane Nixon.

This organization is sponsoring a contest to find a new design for the seal to be placed in the floor in the foyer of the University Ave. campus.

FRESHMEN CLASS

Floyd J. Quick, sponsor of the Freshmen class, urges all first year students to attend the meeting Jan. 20 in M-200.

SHOP BUILDING ERECTED — The new shop buildings on the Fresno City College campus on University Ave. will not be completed in time for the beginning of the spring semester. They will house the technical and industrial division which is currently at the O St. and Edison campuses.

FCC Administrators, Three Students Attend Series Of Conferences Throughout San Joaquin Valley High Schools

By SUSAN LINDA CYR

Fresno City College administrators and three students traveled to Sanger Union High School yesterday and began a series of conferences with nearly 3,000 seniors in 17 central San Joaquin Valley high schools in regard to their plans for attending college next year.

Stuart M. White, FCC president, spoke to the freshmen and senior students in an afternoon assembly. This followed morning conferences between problems classes and Arch Bradshaw, FCC dean of students, Robert M. Kelly, the evening division dean, and students Albert Cunningham, Sylvia Gagle, and Mel Wright.

Bradshaw and Kelly are scheduled to visit Fowler High School, Feb. 16; Kingsburg, Feb. 18; Selma, Feb. 20; Chowchilla, Feb. 24; Dos Palos, Feb. 24; Kerman, Feb. 26, and Sierra Union of Auberry, March 3.

John S. Hansen, FCC's administrative dean, and the division deans will visit seniors at high schools in the Fresno area, including Roosevelt, Feb. 10; Edison, Feb. 16; Bullard, Feb. 20; San Joaquin Memorial, Feb. 24; Madera, Feb. 26; Clovis, March 3; Central Union, March 4; Washington Union, March 5, and Fresno, March 11.

In his speech yesterday, entitled

"The Need for Technical Education Beyond High School," White told the students, "there is a strong and persistent move toward training and education beyond high school."

He pointed out that a college degree is worth \$100,000 more than a high school diploma.

Some of the advantages of a junior college which White listed in his talk are that it permits a student to have low costs with no tuition or registration fees, to make up high school deficiencies, to gain occupational competence, and to earn transfer credit for four year institutions.

Student Council Votes Charge For Production

The student council voted unanimously in their meeting last Tuesday to charge for the production of "Thieves Carnival."

The prices for admission to the dramatic production have been set

at \$1.25 for the public; \$1 for general admission and 50 cents for the student body.

Clyde G. Sumpter is the sponsor of the new play to be given during the spring semester.

CLUBS PLAN AID

Alpha Gamma Sigma and Phi Theta Kappa are joint sponsors of a campaign to raise an accumulation of paper backs to be presented to the Modesto State Hospital.

Alpha Gamma Sigma To Hold Fall Banquet Soon

Members of Alpha Gamma Sigma, the state honorary society, are requested to sign up for the fall semester banquet in Ad-204.

"The sign-up sheet will be posted tomorrow and will be taken down Jan. 22," stated Dr. Rolf Ordal, sponsor of the club.

Hours for members to sign-up are 1 PM, Tuesday and Thursday, and 2 PM, Monday and Wednesday. The tentative date for the banquet is Jan. 29.

Foot Notes

By RUSS FOOTE
SPORTS EDITOR

As the first semester at FCC draws to a close I'd like to take this opportunity to express my appreciation to my fine staff of Rampage sports writers, to the co-operative athletes and coaches, but mainly to the first semester for finally drawing to a close.

I've certainly been fortunate in having a studley crew of sacrificing, enthusiastic sports reporters, and I think praise should be given where praise is due. That's why the rest of this column should really be blank.

However, that would wreck the makeup (most of you don't know what makeup is and a quick look at this sports page will show you that we don't either) of this page so thanks and good luck to the following contributors to the Rampage sports page so far this year:

Names Make News

MONTH HORNER: Who despite the fact he could have remained in town and studied, showed great sacrifice by going to Pasadena and covering the Rose Bowl for the Rampage. In fact he got so enthused with his assignment, he stayed in Pasadena a week and didn't get back in time to turn in his story.

DAV HANNA: Dav has done a remarkable job this semester covering football, basketball, wrestling, and cross country—at Fresno State College. If he would only wise up and cover FCC sports.

CONNOR SUTTON: Getting serious for a moment (after reading the above mess you're probably crying), Connor is leaving us this semester to go to COP, and we're going to lose a fine sportswriter. I am sorry to say Connor hasn't got a by-line so far this semester, so following is a by-line:

By CONNOR SUTTON

BIG PETE MEHAS: (290) Big Pete has done a gargantuan job helping to fill a very large part of the sports page this semester.

DOUG KNIGHT: I would like to thank him from the bottom of my heart for never contributing anything to this sports page. Please continue not to do so.

THE READERS: For using our sports page to wrap fish and line garbage cans.

Rams Split In Modesto Tournament

Coach Joe Kelly's Fresno City College Ram basketball squad surged into the lead with only eight minutes to play to squeeze past the Modesto Junior College Pirates 52 to 49, in an opening round battle in the Modesto Junior College invitational basketball tournament last Thursday.

The Rams were later eliminated by a high scoring West Contra Costa five 82 to 53, to be ousted from the tournament.

With only eight minutes to play the Rams dumped in seven consecutive points to assure the victory, in the Modesto game.

Stark Nets 14

Darnell Mikel, Lee Stark, and Frank Johnson led the FCC scoring with 13, 14, and 10 points respectively.

Jerry Lawrence and Karl Finch sparked a much improved Pirate scoring attack to almost upset the Rams.

The West Contra Costa Comets had things all their own way in the second contest, as they led all the way to crush the Ram hopes for an upset. The Comets had a commanding 38 to 24 lead at half time and continued to bombard the nets in the red hot second half.

Rams Lack Height

The Rams were again at a distinct height disadvantage against the towering Comets as they have been against almost every team this season.

Frank Johnson and Lee Stark were high scorers for the cold shooting Rams as they netted 23 points between them.

The Comets were sparked by Tyler Wilbon's 23 point scoring spree. Two other players hit in the double figures to assist Wilbon.

The Scoring: FCC-Modesto

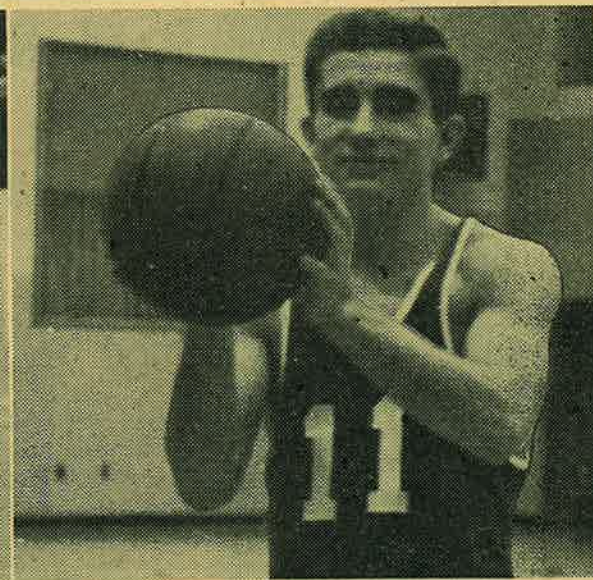

Fresno (52)—Stark 14, Johnson 10, Mikel 13, Bishop 2, Lowe 7, Sarantos 6. Modesto (49)—Benner 2, Finch 15, Lawrence 16, Greaves 5, Hoagland 11.

FCC-Contra Costa

Fresno (53)—Stark 11, Johnson 12, Mikel 8, Bishop 1, Lowe 4, Cowings 10, Scott 4, Sarantos 5. Contra Costa (82)—Wilbon 28, Johnson 13, Perkins 2, Lacey 7, Laferty 8, Washington 3, Kinsey 2, Bailey 10, Van Hook 9.

FRANK JOHNSON—Ram forward

GEORGE SARANTOS—FCC guard

Fresno CC Rams Meet COS, Coalinga This Weekend

The Ram basketballers will play two important Central California Junior College Athletic Association league games tomorrow and Saturday when they tackle the Coalinga Junior College Falcons and the College of Sequoias Giants in the Yosemite Junior High Gymnasium. Game time is 8 PM.

Coalinga is rated as one of the top six junior college teams in the state. COS, after a fast start, has had their troubles recently and does not appear to have the strength to topple Coalinga or Allan Hancock. Allan Hancock is favored to win the CCJCAA crown with Coalinga giving them a close battle.

The Rams will not be at full strength for the games. Coach Joe

Kelly said, "Darnell Mikel, Chet Bishop, and Charley Lowe are all doubtful performers. Even if they are ready for the games, they won't be able to start practicing until tonight."

On paper, COS appears to have a slightly stronger team than Fresno. Comparing scores show that Fresno beat Modesto twice, 58-43 and 52-49, while COS has beaten Modesto by a 99-61 count.

Johnson Leads Rams

Frank Johnson is the leading scorer for the Rams with an average of 14.5 points per game. Darnell Mikel is second with 12.6, followed closely by Charles Lowe with 11.0. Chet Bishop and Lee Stark round out the top five with 8.5 and 8.3 averages.

Sequoia Bowl Trophy On Display Here

The Fresno City College trophy case on the second floor of the Student Center has another trophy to declare the strength of the FCC football team of the past season.

The trophy is that of the Sequoia Bowl game in Sanger, in which the

Rams defeated the Sacramento Junior College Panthers, 27-19.

The game was held in the first annual Sequoia Bowl sponsored by the Sequoia Guild of the Valley Children's Hospital for the benefit of the Valley Children's Hospital.

CC Wrestlers In Berkeley

"The Ram wrestling team will have its hands full tomorrow and Saturday," said coach Hans Weidenhoefer.

Tomorrow the team will journey to Berkeley to meet the University of California frosh team. UC boasts the strongest frosh team they have had since before World War II.

The Rams last week met the San Jose State Frosh team in the FCC gymnasium at 3 PM, defeating them 26-2. The results were as follows:

123 pounds, Joe Polido, FCC, over Denny Adomson by decision.

130 pounds, Eddie Davies, FCC, over David Nevis by decision.

137 pounds, Dennis McCauley, FCC over Jim Whittenburg by decision.

147 pounds, James Moore, FCC, over Jeff Bryant by decision.

157 pounds, Jerry Kirkhart, FCC, over Jeff Colling by a fall.

167 pounds, Bill Moore, FCC, won by default.

177 pounds, Gomez of FCC, won by default.

Heavyweight, Wayne Cook, FCC, drew with Rupprecht.
