

FCC HOMECOMING STARTS TODAY

10 Vie For Yearly CC Queen Title

Homecoming candidates were introduced at the Presentation Parade Tuesday, and again at the assembly this morning.

Robert Roe, student body treasurer, said ballot booths will be set up in the foyers of the student center and the administration building. Voting will be from 8 AM until 3 PM today.

Janice Cooper, an education major, will be a candidate for Delta Psi Omega. Miss Cooper was a lettergirl and graduate of Fresno High School.

Karen De Jong will represent the International Club. Miss De Jong comes from Germany and is a language major.

Social Welfare Major

Phalanx Valunteries is represented by queen candidate Deloris Dickson, a sophomore social welfare major. Miss Dickson is a graduate of Edison High. She was student body secretary and was active in other school functions.

Phi Beta Lambda's candidate, Charlette Falsetti, is a sophomore business major. She is a graduate of Clovis High school.

Suzanne Geradin, a freshman education major, is representing the Rally Committee. She was a majorette at San Joaquin Memorial High where she is an alumna.

Kjersti Reed, a pre-medical major, is representing the Campus Christian Fellowship. A graduate of Fresno High, Miss Reed was a member of many committees.

Other Candidates

The Latin American Club candidate is Irma Rojas, a freshman business major. Miss Rojas is a graduate of San Joaquin Memorial High School.

Sherry Smith, a freshman general education major, is a candidate for the Associated Women Students.

Associated Men Students are represented by Sherry Thomas as their queen candidate. Miss Thomas is a freshman business major.

Terry Varnum, an engineering major, is a graduate of Roosevelt High School.

"It is up to the students to vote for the queen candidate of their choice, just so they get out there and vote," Roe said.

CALENDAR OF THE WEEK

Sept. 29

12:15 PM, Homecoming Luncheon, Student Center committee room.

Ramburger Roundup and dance, 6 PM to midnight, student center.

Noon, Latin American.

Oct. 1

8 PM, Homecoming football game at Ratcliffe Stadium. Homecoming queen presented.

HOMECOMING QUEEN HOPEFULS are, seated from left to right, Jerry Varnum, Sherry Smith, Kjersti Reed, Suzanne Gerardin and Janice Cooper. Standing, from left to right, Sherry Thomas, Charlotte Falsetti, Karen DeJong, Irma Rojas and Deloris Dickson.

Council Sets New Budget

The student body of Fresno City College has grown in number this year and the school budget, approved by the Student Council Tuesday, Sept. 27, reflects this growth.

The total budget for this semester is \$30,275.

Robert Roe, student body treasurer, said money for this budget is obtained strictly through sales of student body cards; therefore this year's increased enrollment and the increase in price of student body cards has made this larger budget possible and will result in more advantages for the students.

Roe released the following breakdown of accounts: assemblies, \$350; Associated Men Students, \$550; Associated Women Students, \$575; athletic awards reserve, \$1,500; water polo, \$790; basketball, \$2,005; conference, \$500; California Junior College Student Government Association, \$225; cross country, \$480; football, \$4,175; guest fund, \$125; honor and leadership awards, \$450; insurance, \$1,500; laundry and cleaning, \$1,200.

The four groups classified as oral arts include: band, \$350; choir, \$555; debate, \$300; and drama, \$805.

Other accounts are Potpourri, \$400; publicity, \$1,500; rally, \$1,200; Ram, \$2,750; Rampage, \$2,800; secretarial help, \$100; social affairs, \$1,300; student welfare, \$75; tennis, \$125; transportation, \$2,000; undisturbed reserve, \$1,500; water polo, \$790; and wrestling, \$540.

Starr Warns Students Of School's Smoking Restrictions

NO SMOKING! Signs of this nature are seen along the corridors of the school building.

Paul H. Starr, dean of men, commented that no smoking is allowed in the closed corridors of the administration building, the first and second floors of McLane Hall, or in classrooms. The technical and industrial shops and the bungalows are also off limit areas.

Smoking on the school grounds is permitted because the students at FCC are considered adults and should know the difference between right and wrong.

Miss Doris N. Deakins, dean of women, added that students should

put their cigarette butts into the urns and ash trays provided. These containers can be found in the main corridors, lounge, and snack bars.

This consideration will keep the custodians from doing an extra tedious job of pickup up cigarette butts strewn over the campus.

Various Fresno Area Groups Use FCC Campus Grounds, Classrooms

By BILL BARNETT

The Fresno City College campus facilities are used by more than 13 different outside educational and cultural groups that are not part of this college.

Charles F. Carpenter, administrative assistant to the superintendent of Fresno City Unified School District, said, "The groups range from University of California extension courses to private clubs such as 'The Sierra Ski Club.'"

"There is no charge for the use of the school facilities," Carpenter said, "unless the group using the facility charges admission."

Civic Center Act

The college participates in this program under the Civic Center Act which permits and encourages

education and cultural organizations to use public education facilities in the city.

The University of California has two extension courses in progress at the college. These courses offer the design of small buildings, and field inspection of buildings and structures. These two courses began on Sept. 21, and will end on Jan. 18, 1961.

Also the California Board of Registration for Civil and Professional Engineers use the campus library to give competitive examinations. Jackson C. Carty, head librarian, supervises these examinations which are given twice yearly to civil and professional engineers.

The District Council of Boy

Scouts of America will hold a monthly District Committee meeting of District 2 in the Student Center Committee Room.

Sweet Adoline Show

Also the Fresno Chapter of the "Sweet Adelines" will use the college auditorium for the annual "Sweet Adoline Show" which will be on Nov. 5. The annual show will be at 7 PM and tickets for the show will be \$1.50 for regular admission, \$1.75 for reserved seats and 75 cents for children under 12.

The Council for Exceptional Children will hold a board meeting and dinner in Student Center Committee Room. This association is comprised of teachers, doctors and parents working primarily

(Continued on Page 3)

Fun, Frolic Top Annual Activities

Ramburger Roundup, a queen coronation, a football game, a dance and an alumni luncheon are the features of this weekend's annual Homecoming festivities.

The Alumni Luncheon will be held this afternoon in the student center committee room. Joseph W. King, a student council adviser, said that seven retired teachers have been invited to the luncheon.

They are Miss Willa Marsh, Miss Gertrude Stubblefield, Mrs. Hazel Pedersen, Miss Nettie Scott, Dr. Lucile Williams, Mrs. Phyllis Spencer, and John Mock.

Linda Miller, chairman of the luncheon, said there will be a table in front of the auditorium with corsages for the retired alumni.

The two events scheduled for tomorrow are the Ramburger Roundup, which will be held at 6:30 PM in front of the student center to welcome new students, and the homecoming dance at 8 PM. Jon Johnson was selected as the Ramburger Roundup chairman.

The Homecoming Queen candidate will be crowned tomorrow night.

She and her two attendants will reign over the homecoming football game Oct. 1 at 8 PM in Ratcliffe Stadium.

Tickets for the Roundup must be obtained by 3 PM today. Spouse cards will be honored and extra tickets are 50 cents.

Charles Overs, Jr., is the general chairman of the homecoming.

Linda Miller and Brenda Daum are other committee chairmen. Other members of their committee are Nancy Tamura, Kathy Kauffman, Rebecca Reed, Judy Potter, Milton Barnes, and Sherry Smith. Bob Roe is the chairman for the election of queens.

Rampage Calls For Letters On Political Scene Awareness

The televised debate between presidential candidates Nixon and Kennedy last week provided the people of this country with an unprecedented view of the American political scene.

The mass awareness of the issues at stake in the forthcoming national election should make for one of the most intelligent votes in America's history. Let us hope so at least.

This word "awareness" is what should concern us. People must be aware of facts, both pro and con, before making a judgment on anything, be it politics or buying a pair of shoes.

The editors of the Rampage want to encourage student awareness. To this end we invite FCC students to submit their views, in letter form, for publication in the Rampage. All letters, no matter what subject is dealt with, will be considered. The editors reserve the right to edit the contributions. The writer's name will be printed with the letter.

Contributions may be placed in a marked box on the counter in the Rampage office, S-211.

Industrial Plastics Class Begins Second Year At FCC

Fresno City College has begun its second year in a night industrial plastics class, which meets Thursday evenings, from 7-11 PM, in room T-301.

Edward Milewski, the instructor, said the course will include learning the four basic stages of plastics: (1) the theory of plastics; (2) the fabrication of plastics; (3) the cover sheeting of plastics; and (4) the molding of plastics.

Basics Learned First

Milewski teaches the basics of plastics first, in order that the class will have a working knowledge of it and so the student will know enough about it so he would be able to talk intelligently on the subject, and to know the background of plastic. Without this basic knowledge, no person can really work with the plant.

FCC Offers

Asked whether there are other classes of this type in the San Joaquin Valley, Milewski said, "To my knowledge, no."

The instructor has been approached to produce special materials for certain companies around the Fresno area.

The class will cover the process of plastics in the industries. Milewski said that industries today, big or small, have plastic. He also gave an illustration — if the plastic was taken out of radio tubes in a radio, you would have a radio that would not play.

Plastic In Industry

Student and sheet metal worker Jimmy Baker said, "The reason I am taking this class is that the sheet metal industry is going all plastic."

The class has students who are sheet metal workers, a geologist, a highway worker, and two men who are employed by a local sprinkler company.

The instructor emphasized that plastic was not only creating jobs, but was creating an ease in life.

Industry uses plastic for construction purposes, in clothing, packaging, and some advertising media. Its many uses are unmeasurable. The automotive industry are finding many ways of replacing automobile parts with plastic.

Milewski closed by saying, "We have never had it so good."

WILLIAM REYNOLDS, FCC Instructor, keeps his mountain climbing legs in shape. (Photo by Dick Wardlaw)

FCC Instructor Climbs Summit Of Mount Whitney

The west face of the peak of Mt. Whitney was the obstacle that confronted instructor William A. Reynolds this past August.

Reynolds and a sculptor friend took six days to climb to the top of Mt. Whitney carrying back-packs.

Reynolds stated the reason was that they just wanted to. They did take some short-cuts to save time because it is approximately 40 miles one way.

They left from Mineral King — which is 7,800 feet — and hiked to Sawtooth Pass — 11,500 feet — in the Sierras.

They proceeded to the upper reaches of the Kern River — 6,500 feet — and farther up the river they stopped at the Kern Hot Springs. Here they enjoyed a hot bath.

A day and a half later they climbed the west peak to the summit of Mt. Whitney — 14,495 feet.

Their journey down the mountain was by the trail. They stopped again at the Kern Hot Spring, enjoying another bath.

From the spring they went down Kern River to Rattlesnake Creek, then to Franklin Pass — 11,700 feet — and finally back to Mineral King.

The men carried back-packs containing their mattresses, sleeping bags, and food. Part of

their food consisted of condensed soup and packaged and boxed foods.

Reynolds said that in the daytime it was hot enough for shorts, and that it was cold and windy at night. Because of the cold and the high altitude, sleeping was difficult.

The fishing was very good, but they caught only enough fish to eat, Reynolds said.

Reynolds is a sponsor of the FCC International Club. He claims riding a bicycle aids in keeping physically fit and is a good way to beat the parking and traffic problem.

Three-Act Comedy Play 'Charlie's Aunt' Named For Fall Show

"Charlie's Aunt," the three-act comedy, is being planned for the fall semester production.

Clyde Sumpter, drama instructor, said the play has an unusual feature. It has been running for 68 years without stopping even for a day.

Sumpter said it is the story of two young Oxford men who desire to marry two young ladies.

They invite the two girls to a luncheon to meet one of the young men's aunt.

The aunt is unable to appear at this time. In order that the date can be kept another young gentleman Oxford student is asked to pose as Charlie's aunt.

A merry mix-up occurs when two gentlemen fall in love with Charlie's aunt.

Sumpter said the cast is made up of six men and four women. Tryouts will start Oct. 10-11-12. Notice of hours will be posted.

Students interested in trying out for this production are asked to contact Sumpter in Room 154 of the administration building.

Students interested in dramatics are encouraged to enroll in college theater courses. Training is offered in acting and play production techniques. These courses carry three units each of transfer credits.

Sumpter said the only prerequisites are interest and willingness to work.

T And I Division Get Refrigeration Unit As Gift

The Worthington Corporation of San Francisco has given a three-ton air conditioning unit to FCC.

Robert P. Hansler, FCC's technical and industrial dean, said, "The equipment is worth between \$800 and \$1,000." The unit has been set up in Room T-406, which is the air conditioning and refrigeration laboratory and will be used by night classes in air conditioning and refrigeration taught by Lee Mabrey and John Einhart.

Hansler said that he would like to express his appreciation to K. G. Blessing, the San Francisco zone manager for the corporation for making this gift possible, and asserted it would be put to good use as an instructional piece of equipment with the heavy enrollment of students with much interest in this area of study."

Dean Helps Find Students' Housing

Doris Deakins, dean of women, said she will help students find suitable living accommodations at reasonable rates. She can be contacted in her office at Room A-118.

RAM-GIANT TILT RATED EVEN

RAM ROLLS — Fresno City College's flashy halfback, Levi Owens, is shown here turning the corner against Stockton College. FCC won, 33-6. (Photo by Dick Wardlaw)

The Inside Out

By RICHARD KRIKAVA

There has been some discussion among the Ram gridders that this page has neglected the linemen on the Ram football squad. It is the intention of this column to give credit where credit is due. Therefore, The Knock Down has been inserted to point out who are the tough, hard nose defensive men on the team. The Ram defense accounted for 32 tackles against Stockton last week. The Rams' next opponent, the College of the Sequoias, have a tremendous running game. This column only hopes that the defense comes through well enough to mention their actions. The Knock Down after one game:

Larry Sasashima, C	7	Joe Williams, E	5
Ron Cernokus, G	6	Clarence Jarrett, T	4
Ed Aubuchon, HB	6	Levi Owens, HB	4

RUNNING GAME FIZZLES OUT

Stockton College, without much doubt, was completely outclassed last weekend when they dropped their first game to the Rams in four years. Fresno's highly praised backfield, however, proved to be no problem to the Mustang's defense. It was quite obvious that the Stockton group was well drilled for the running attack of the Rams, but they fell apart at the seams in the pass-defense department. The Mustangs held the Rams to a total of 21 yards on the ground.

The Rams' problem was just the opposite . . . they gave up 174 yards to Stockton . . . and allowed only 20 yards through the air as compared to 191 yards that the Rams piled up.

COS was dumped by the powerful Mt. San Antonio College team last weekend, 20-6, and was also beaten through the air. It is no secret that the Rams possess a powerful air attack, and if COS manages to bring it to a halt, and if the Rams' running attack doesn't jell . . . the CCJCAA title might be lost to the Rams.

Season Nears

Water Polo Team Begins Tough Season

Coach Morgan Shelley's water polo team will swing into its tough 10 meet schedule next Friday, Oct. 7. Shelley's 17 man squad will travel to Santa Clara for their opener.

The squad includes Jim Baum, Kleth Bush, Mike Campbell, Ed Charvia, Larry Giullano, Jack Globenfelt, Chris Hall, Bob Koonce, Jerry Opperman, Mike Osborne, Al Pratt, Dennis Rogers, Mike Sattasburg, John Thomas, Chuck Turl, Loren Vandeventer, and Ed Wilde.

The first home match will be on Oct. 13 against the College of the Pacific. Following Friday's opener, the Rams will meet the California Frosh on the following Saturday, and St. Mary's that afternoon.

First Time In Four Years

Air-Minded Rams Sock Mustangs; COS Next

By JOHNNY NOBLE

The College of the Sequoias Giants will invade Ratcliffe Stadium Saturday night to open the 1960 Central California Junior College Athletic Association season against the unbeaten Fresno City College Rams.

The Giants, who have beaten Monterey Peninsula, 34-26,

and lost last week to Mt. San Antonio College, 20-6, will be out to end the Rams' winning streak of two games. The league title may be decided in this opener, as both teams are rated as the top teams in the league this season. The Rams were dumped 20-12 last year in Visalia by the Giants.

Rams Roll On

Chuck Caldera, with his eagle eye and magic passing arm, sparked the Fresno City College Rams to a smashing 33-6 aerial victory over the Stockton College Mustangs in McLane Stadium, Saturday.

Stockton was unable to cope with this tremendous passing attack put out by Caldera and his shifty receivers. FCC scored three touchdowns and set up two others on a series of passes.

From the very start of the game, FCC found it almost impossible to penetrate and move the ball on the ground against the powerful forward wall of the Stockton defenders.

Caldera Moves Team

Caldera caught the Mustangs totally off guard when, on his own 32 yard line, tossed the pigskin to his favorite end, Dewey Belli. Belli outran the Stockton defenders to the goal line for the first FCC touchdown.

George Ward, FCC fullback, scored the second touchdown on a three yard plunge off tackle. Caldera, with passes to Joe Williams and Belli provided the set-up yardage that enabled Ward to score.

Mike Martin, Ram place-kicker, added one point to each touchdown, leaving the halftime score at 14-0.

Second Half

In the beginning of the second half of play, FCC again found it difficult to move the ball through the Stockton line. Once again the Rams took to the air with Caldera at the pilot seat.

After connecting passes to halfbacks Bill Knocke and Levi Owens for needed yardage, Caldera flipped a 15 yard pass to Williams for the Ram third touchdown. Martin failed to put the ball through the uprights on the conversion attempt.

Stockton Scores

The Mustangs finally countered with long runs by halfbacks Carl Agbulos and George Cohen to move the ball to the Fresno nine yard line. Mustang end Tom Parker scored on a nine yard pass from quarterback Bob Mattos. The conversion attempt, an end run, failed.

Knocke provided the fourth touchdown for the Rams on a one yard plunge up the middle of the Stockton line. This score was set-up on a Stockton fumble that was recovered by Ram guard Ron Cernokus. Cernokus was outstanding on offense as well as being in on seven tackles.

Defensive Stars

Tom Hickman also showed his fine defensive ability by intercepting a Stockton pass and running it into the end zone for the final FCC score.

Larry Sasashima, Joe Williams, Ed Aubuchon and Levi Owens were the outstanding defensive men for the Rams.

The Scorecard

Rushing	Yds.	Avg.
