

LAURENCE COONS, FCC counsellor, goes over some problems with student Keith Smith.

Counselors Work Under 3 Divisions

By RUTH HIKIJI

Fresno City College counseling is divided into three general divisions: general education, business administration, and technical and industrial.

The general education counselors are John R. Castine, Laurance E. Coons, and Joe R. Kelly.

Frosh Elect Fall Officers

Election of freshman class officers will take place today at noon in the auditorium. Fifteen students are running for offices.

Robert Wold and Benny Edwards are vying for the office of president.

Vice presidential nominees are Nanci Mosekian and Albert Smith. Zettie Gant, Dorothy Roza, Linda Rossi and Kay Wesse are running for class secretary.

Contenders for the position of treasurer are Regina Matthews, Deryl Jordan, Dennis Avakian and Carol Stucker.

Running for the office of Inter-Club Council representative are Patricia Condit, Jean Dudley and Ellen Ewing.

Wold is majoring in the field of electrical engineering. He is a graduate of the Roosevelt High School.

Edwards, a graduate of Madera High School is a social science major.

Miss Mosekian is a graduate of Clovis Union High School and plans to be an airline hostess.

Smith was the vice president of the freshman class last semester. He is majoring in aircraft mechanics.

CALENDAR OF THE WEEK

Oct. 13
AWS, A 128, Noon.

Oct. 18
Student Council, Noon.

Oct. 20
ICC, A 128, Noon.

Placement Service Is Successful

Helping students who desire to work is the goal of the Fresno City College employment services.

Miss Doris Deakins, dean of women, is the director for the employment of women students. There have been 30 girls placed this semester. There are still some vacancies to be filled. People call Miss Deakins and ask for girls to work and live in their homes. The girls are paid with room and board, and in some cases, a small salary.

Men Get Work

Paul H. Starr, dean of men, is the director for employment of men students. Starr has placed 20 men this semester with jobs in service stations, stock boys, janitorial work, gardening. Starr's policy is first come, first served.

Gervase A. Eckenrod, director of the business division, places students and alumni in part time and full time work. Skills, personality, and hour available, determine the students job in the business division.

There have been over 100 jobs obtained this fall in Eckenrod's service. The jobs are receptionist, accounting, bookkeeping, sales, soil analysis and general positions.

Eckenrod said, "Students interested in work, come by room A-121 and make out an application and get an appointment for an interview."

T and I Service

Robert P. Hansler, dean of the technical and industrial division helps students find jobs in the industries. Last year 200 full time jobs were obtained in the field of vocational nursing, engineering, and other industrial work.

Hansler's policy is that the student must have a C average and the recommendation of the instructor, before being placed.

JC's Meet For Fall Conference

"Tomorrow's Junior Colleges" will be the theme of the annual fall conference of the California Junior College Association in the Ahwahnee Hotel of Yosemite National Park Oct. 25-27.

Delegates from Fresno City College will be President

Stuart M. White, Vice-President John S. Hansen and Erwin A. Dann, a Fresno City Schools assistant superintendent.

Four Will Speak

White, the association's president, said major addresses will be given by Homer D. Babbidge, Jr., Assistant Commissioner of Higher Education, U. S. Department of Health, Education and Welfare; Chancellor Samuel Gould, University of California at Santa Barbara; Roy E. Simpson, Superintendent of Public Instruction and Director of Education, State of California, and Edmund J. Gleazer, Jr., Executive Director, American Association of Junior Colleges.

Babbidge's topic will be "Higher Education for the Sixties." Gould will speak on "A University View of the Junior College," Simpson on "After the Master Plan, What?" and Gleazer will discuss "Tomorrow's Junior Colleges." Gleazer's address will close the conference on Oct. 27.

President White Presides

White will preside at the Oct. 25 evening session and the Thursday morning closing session, Oct. 27.

A report on "A Proposal Concerning Educational Television in California Junior Colleges," will be given by Herman Sheffield, San Bernardino Valley College. Joseph Cosand, vice-president, will preside.

A panel discussion Oct. 26, will be a highlight of the conference, "Tomorrow's Junior College Instructors," is the topic, Miles Eaton of Orange Coast College will act as moderator.

"Planning for the 1961 Legislative Session" will be the topic in an Oct. 26 meeting.

The conference will be adjourned after Chancellor Gould's address.

STUART M. WHITE

Fall Play Rehearses

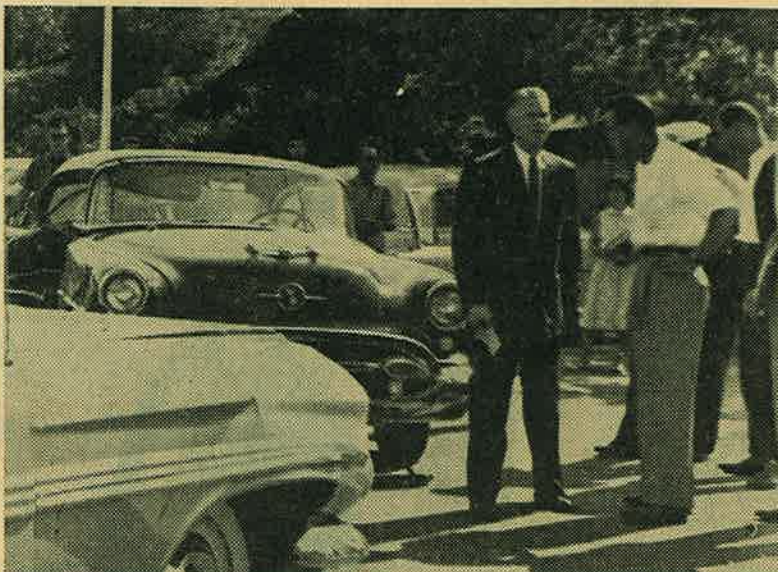

Rehearsals for the fall production "Charley's Aunt" will begin Monday, Oct. 17.

Clyde Sumpter, director, said tryouts were held for the three-act comedy Oct. 10-11-12.

Sumpter said students are needed to help on the different crews, which include costumes, lighting, properties, and stage crew.

Students interested in working on this production can talk to Sumpter in Room 154 in the administration building. He said the biggest problem in presenting this play will be the lighting and preparing the set.

Speeding On Campus Parking Area Results In Auto Accident

ADMINISTRATORS ON THE JOB. President Stuart White and Paul Starr, dean of men, discuss the accident. (Photo by James Fitzmoris)

Bob Haranaga, an FCC student who was involved in an automobile accident on the University Ave. parking area last week, was cited by the Fresno police for driving at excessive speed and for not having his operator's license.

The car driven by Haranaga collided with one operated by city college student Leon Sutton as he was turning from University Ave. onto Del Mar.

The accident occurred Wednesday, Oct. 5, around 10 AM. Neither driver received injuries, but both vehicles had to be towed away.

Paul Starr, FCC dean of men, said, "The University Ave. parking area from Van Ness to San Pablo is a restricted area, not a public thoroughfare." He also stressed the speed law which restricts speed in a school zone to 25 miles an hour.

Starr said that neither student

Student Participation Needed In Activities

Students at FCC can support their school in many ways. They can participate in sports, band, choir, a club of their choice or other activities.

A student who gives of himself can help to build toward his future and can stimulate school spirit.

We believe that group activities are important to students' growth in maturity. It gives you, the student, an opportunity to get along in groups, to develop and to learn new ideas, to be thoughtful and courteous toward others, and it also encourages leadership.

A great deal of time and effort goes into making our school what it is. If a group is willing to spend many hours planning and working to make these activities available to us, it is only fair that they get our support.

By attending the school dances, sports events, drama productions, and other activities put on for our enjoyment college can be more fun and will give us the opportunity to show our fellow students that their work is appreciated.

Groups that are willing to give their time, ideas, and who make an all out effort to encourage school spirit, should be admired and encouraged by student support.

Let's make this the best year FCC has ever had; let's all work together!

Saturday Marks Start Of 'Newspaper Week'

Next week newspapers all over America will observe "National Newspaper Week."

A newspaper is an important part of our life in these United States, although we sometimes don't realize it. There are thousands of people who would be lost without their daily paper. What would it be like if we couldn't keep up with world events? In this day and age ideas and actions change with amazing speed and frequency.

Reading a newspaper provides people with a very convenient means of keeping informed, it can be read anytime during the day or night, and gives more detailed accounts than does radio or television news.

Newspapers have many responsibilities. The slogan for "National Newspaper Week," in fact, is "Your Newspaper—Freedom's Guardian." A paper guards many kinds of freedoms, sometimes by exposing underhanded dealings, by "yelling" about actions which might jeopardize civil rights, and in many other ways which often go unnoticed by the general public.

As long as a free press is allowed in this country, as in others, subversives will not pull the wool over national eyes. The newspaper is for the public, without the public a newspaper wouldn't exist, so let us read our papers and realize that our newspaper is indeed Freedom's Guardian.

Gary Cooke

Riding Bicycles Would Cut Parking Problems

"The college should encourage more bicycle riding to help with the campus parking problem," said William A. Reynolds, English and French instructor.

Reynolds believes that riding a bicycle to school is a convenient form of transportation, good exercise, a way to cut down on traffic noises, and a possible means to help solve the parking problem.

"Students living within a one to two mile radius of the school should consider riding a bicycle."

Reynolds lives about 3½ miles from the college and rides a bicycle to and from school. It takes him about 20-25 minutes one way.

Reynolds said that students should realize that riding a bicycle is a perfectly legitimate form of transportation, especially around a university or college.

"The bicycle rider would still have week nights and weekends to drag the main," he added.

Exchange Notes

Picnic Welcomes Foreign Students

The Kings Reporter, Diablo Valley College, reports an old fashioned picnic welcoming incoming foreign students was held for all bay area campuses. The picnic was held Oct. 2 in the Greek Theater of the University of California campus at Berkeley. This outing was held to acquaint foreign students and to inaugurate UN month.

FCC NURSE Mrs. Nora Simpson checks Helen Mary Cortez's temperature in the health center. This is one of Mrs. Simpson's many duties. (Photo by Mike Spolini)

Noel Frodsham Tells About People, Education In Denmark

"The people here are tops and the friendliest and the most intellectual group I have ever known," wrote Noel Frodsham in a letter to college administrators.

Frodsham, an FCC history and cultural anthropology instructor, is teaching American history, civilization, and literature in Denmark under a Fulbright teaching fellowship.

Under this program, all recipients are appointed by the Board of Foreign Scholarships, which was chosen by President Eisenhower. Teachers are recommended for the board's consideration by the U. S. Office of Education. Frodsham will teach in several Danish gymnasiums and teacher training colleges.

While in Denmark Frodsham will be asked to give talks to study groups and other organizations, and to mingle with his Danish colleagues after school hours.

Frodsham, who is teaching in two schools in Jutland, feels the Danish schools are much closer in philosophy than to the English, although their curriculum in the high schools more resembles the British model.

"In one plant the teachers have individual refrigerated lockers where they keep their beer," he said.

"One day between classes, a

faculty member offered me a beer and I almost flipped until I found it was all above board."

"The women teachers do, however, extinguish their cigars when entering the class room, put them in the chalk rail and relight them after class," Frodsham added.

He said the graduate of the gymnasium is about 19 years old and has the equivalent of a junior college education. The student is far ahead in language, having six years of French, English and German.

"So far, most of my teaching has been English—that is American literature, where I do bring in some history," he said.

"I find myself teaching a course in American poetry (first time in my life) and enjoying it immensely."

"Over one-third of the girls wear slacks," he wrote, "yet all this does not seem to distract from the dignity of the school."

In closing Frodsham wrote, "I shall be ready to resume my old job when the time comes, but meanwhile I am in reality having one long vacation."

The Frodshams left Fresno on June 13 and will not return till late August of 1961. While abroad the Frodshams will visit Finland, Norway, and Sweden. Frodsham plans to study cultural anthropology while in Finland.

Is telling me where Disneyland is, comrade?

Health Center Is Remodeled

By ROY JIMENEZ

"With all the remodeling and redecorating that has been done to the student health center, it makes everything so simple, so efficient and so convenient that I simply shine with pride," were the words used by Mrs. Nora Simpson, student and faculty health nurse, as she happily described the remodeling which was recently done to the student health center.

Adds New Equipment

The health center was completely redone. Partitions were taken out and replaced by new ones; much of the old equipment was replaced; air conditioning was installed, which is vital to all health centers; acoustical tile was set; cabinets were custom made for storage equipment; the men's and women's cot rooms for emergency illnesses were completely redecorated; and a student laboratory and a first aid station were installed. The health center was designed for future enlargement of enrollment and provides space to take care of almost any kind of program.

Mrs. Simpson, going on her fourth year as health nurse, has visited many junior colleges throughout the country and has found that the FCC health service is by far more superior than many she has seen.

Provides First Aid

Mrs. Simpson stated that the primary purpose of the student health center is to provide the student and faculty with emergency first aid to accidents and illnesses, and provide counseling to the students. She also pointed out that she tries to build a counseling instead of a hospital atmosphere in the health center.

The health center carries on with other extracurricular activities, such as providing supply resource matter to classes where nurse education would be of value. It also sets up all first aid kits which can be found in all the shops, the large laboratories, and the physical education department.

"With all the heavy equipment and the crude machinery our students have to work with," said Mrs. Simpson, "this brings a great potential for serious accidents, but thanks to the instructors who practice safety precautions," she continued, "we do not have any."

American River College Of Sacramento Reports

Mrs. Jessie Livermore, college employment counselor, reports that 675 jobs were filled last year from the first of September to the end of June for American River Jr. College students.

The purpose of the placement counselor is to assist the students in finding part-time work, that will aid the students financially in going to college.

Home Ec Students Get New Teacher

By DIANE WOLFE

Mrs. Durlene Nall, new FCC home economics instructor, believes that foods and clothing are a science. As in any other science, she said a person must think while sewing or cooking as well as have a knowledge of the basic skills.

Mrs. Nall has a bachelor of science degree from Southwestern State College, a master of arts degree from the University of Redlands, and a bachelor of laws degree from the University of California.

Taught First Grade

Mrs. Nall has taught in San Leandro, San Bernardino and Highlands. She taught the first grade for four years and has taught home economics in a juvenile hall.

The home economics rooms have been furnished with new stoves, a new refrigerator, freezer and dishwasher. "The company replaces the large equipment every year with the new models," said Mrs. Nall, "at a low cost to the school."

Cannister sets, sink dividers, pyrex dishes, table linens and dish drainers were also purchased for the classrooms.

This semester 127 students are enrolled in home economics. The classes are as small as 18 and as large as 40.

Discusses Problems

Mrs. Nall discussed the problems to be studied in each of the courses of home economics.

In elementary foods the student learns the basic principles of nutrition, the skills of cooking and laboratory procedure. The student also learns the selection and preparation of food based on economy, nutritive value and attractiveness.

The home and family living class will learn how to establish personal and family goals. The students study the changes in the American home and the factors which brought those changes about. They also study the management of time, energy, family finance, and family housing.

Teaches Basic Principles

In clothing construction the student is taught the basic principles of color and design, and how to select the style, fabric and color most becoming to an individual. The students learn how to develop skills in both machine and hand sewing, and the importance of good grooming.

The home decoration class studies the principles of color and design, the standards of good taste, room arrangement and furniture construction.

In elementary nutrition the student develops the basic knowledge of nutrition and how to evaluate his own and his family's diet — the latter being stressed.

Auto Crash Involves 2

(Continued from Page 1)

involved in this accident had their CC parking permits on their cars. These permits are to be placed on the windshield of the car, in the lower right hand corner. He said every student who drives his car on campus must have a parking permit.

Parking permits were issued during registration. Starr said those students who have not gotten theirs and are driving a car to school should get in touch with him immediately if they are using campus parking facilities or driving on it.

If students fail to comply with these regulations, Starr stated, they may be compelled to pay a fine and may lose their campus parking rights.

Starr Urges Safe Driving

Slow and safe driving is being stressed to all students while entering and leaving the University Ave. campus parking area.

Paul H. Starr, dean of men, stated that "these kids have got to slow down before someone gets killed."

Starr stated that he hoped to get the school or the city to post 15 MPH signs on each end of the four block University Ave. parking lot.

Also he added that he has received many complaints on students parking in the University Ave. area without stickers on the windshield of the car. University Ave. is part of the college campus and students must comply with the rules or they will have to pay citations and lose their right to park.

Starr added that he is not only looking out for the college students but many elementary students cross the college campus on their way to and from school and he urged students to be on the lookout for one never knows when one might pop out.

Also there are many complaints about students who are parking in front of residents' driveways in the surrounding campus area. He added that students who do this parking are apt to receive citations or in some cases may even have their car impounded.

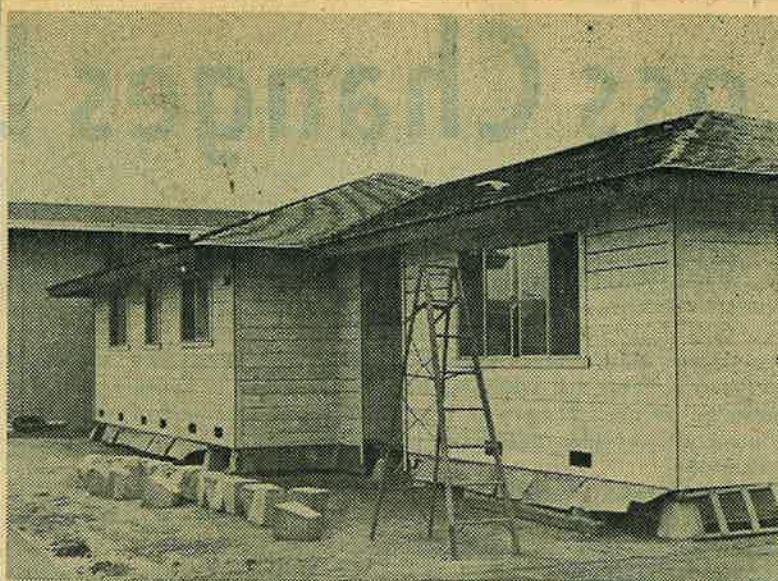

Council Gives \$750 For Float In Jubilee Parade

Fresno City College's student council has appropriated \$750 to enter a float in the Fresno Diamond Jubilee parade which will be held on Saturday, Oct. 29.

Eddie Wax, a sophomore, designed the FCC entry to resemble a huge cake, which will combine the joint themes of two anniversaries, the City of Fresno's 75th and the city college's 50th.

The float is being built by the carpentry students of Merle Sons who are building the framework, and the art students of Curtis D. Draper and William D. McLelland. Also a student and faculty committee is supervising the project.

The float is being built on an old float chassis which houses a

JUST ABOUT READY for the finishing touches, this house has been built by the combined efforts of many T and I students.

Carpentry Project To Get Finishing Touches

The house being built by the FCC carpentry students is in the final process of being painted, before completion. The house is being painted by a night industrial class.

Merle Sons, the carpentry instructor said that the house will be set up for sale the first part of November. The house

Students May Get Insured

Insurance is offered to students at FCC. It is an accident and sickness medical expense plan. This plan includes benefits for accidents, sickness, hospital board and room, surgical treatment and medical attention to name a few. A payment up to \$1,000 will be made within 52 weeks from the date of the accident.

Archie Bradshaw, dean of students, said to date 260 students have purchased insurance under this plan.

For more information, students may obtain booklets in room A-120.

will be advertised for sale by the board of education, in which they will stipulate a minimum bid. After a few weeks, it is announced that the house is open for bid, at one of the board of education meetings. The person whose bid is accepted will have ample time to move the house from its present position. Sons estimates that the house will be sold for between \$3,000 and \$3,500.

Major Project

The house is a cooperative effort of some of the other industrial classes as well as the major project for the carpentry class. The electrical shop installed the wiring, and the metal shop students installed the air condition ducts.

The house is 1,400 square feet, which has three bedrooms and one and three-quarter baths.

The house is designed so that the purchaser can easily make a few alterations if desired. For example, the wall between the kitchen and service porch can be removed to make a larger kitchen. This will not affect the structural soundness of the building, but will permit the new owner flexibility to meet his particular needs.

Built Four Houses

The FCC carpentry students have built four complete houses since 1952, Sons said. Every house built by the students has been sold, and the buyers have indicated they are satisfied with the work.

"The Big Picture" was the carpentry students project this year at the Fresno District Fair. The project was sponsored by the local schools of the Fresno area, in which the FCC students did the carpentry work. The theme dealt with the facilities of the Fresno school system.

Club News

Club Plans Six Tours

By JULIANNA RASMUSSEN

"American students as well as foreign are invited to join the International Club," said Fred Bayati, the president. "The next meeting will be held Oct. 21," he added.

Many exciting events have been planned for the members of the club. On Thursday, Oct. 20 at 1:30 PM the club is sponsoring a tour to Roma Winery. All interested persons are asked to sign up on a sheet of paper placed outside A-110.

Other sponsored tours include trips to the Underground Gardens, Wonder Valley Dude Ranch, Friant Dam, Kings Canyon National Park, and Shaver Lake. The times and dates will be announced later.

Officers elected are: Fred Bayati, president; Karen DeJong, vice president; Jeanette Arax, secretary; Ruth Hikiji, treasurer; and Karen DeJong will also be the Inter-Club Council representative.

Latin American Club

Tomorrow night at 8:00 PM the Latin American Club is sponsoring its first party of the season, held in the student lounge.

There will be dancing and refreshments will be served. Members and their guests are invited.

This semester the club is sponsoring three bowling teams. Latin American is the name of the first team consisting of Charles Encinas, Ana Marie Arzate, Fernando Montanez and Geri Garcia, team number two is the Los Toreros consisting of Chuck Castro, David Burrenda and Louis Herrera, and the Los Pallasos consisting of Tommy Johnson, Danny Lopez, Vince Santellano and Pete Santellano.

These teams are sponsored by the Associated Men Students. They practice at Cedar Lanes Bowl.

Associated Students

Would you like to take an active part in student affairs and enrich your college education? If so, then plan to attend the next meeting of the Associated Students.

Associated Students is a self-governing organization of FCC students. The executive body of this organization consists of the student body president, vice president, secretary, treasurer, and one representative for every 150 students.

The president of the Associated Women Students, Associated Men Students, freshman class, and sophomore class also are members of the Student Council.

Opportunities for participation in both social and service activities are open to men and women.

Teachers Association

Attention all students interested in becoming teachers! There will be an organizational meeting for all students interested in joining the California Student Teachers Association at 11 AM tomorrow in A-211. Refreshments will be served.

Yearbook Wants Picture Signups

Gary Oberti, co-editor of the FCC Ram, announced that signups for sophomore yearbook pictures will be taken in the foyer of the Student Center from Oct. 18-21. He said appointments to take the pictures will be made on those days, and without an appointment, no picture would be taken. Signups can be made from 9 AM to 1 PM on these days.

Rams' Loss Changes League Picture

FCC's Defeat Shows Balance In League

The once beaten Fresno City College Ram football will be idle this weekend and will not swing back into league action until Oct. 22 when they meet the defending league champion Coalinga College Falcons.

Before being knocked from the ranks of the unbeaten by Taft College 28-20 last weekend, the Ram football squad was ranked eighth national by L. B. Champman's All American Index for Junior Colleges.

The pre-season favorites, College of Sequoias and FCC, have been beaten. This throws a different light on the Central California

Junior College race. League leading Allan Hancock put on a high scoring offensive show in defeating COS last Saturday 39-27. In four games, Hancock has averaged 40 points a game and possesses an unbeaten record. They will meet winless Porterville Saturday in Porterville.

Coalinga, with a record of 3-1, will meet COS this Saturday. In league action they have one win and no losses. They smashed Porterville 30-6, and defeated Antelope Valley last Saturday 30-14.

Reedley College is also unbeaten in league play as they finally hit the win column after dropping

their first three games. They dumped Porterville 35-0 Saturday. Reedley will entertain upset minded Taft.

After the first two weeks of league action it appears that the league has four or five teams that are on equal bases. Such balance will make things tough on everybody. If the Rams expect to win the league crown, they will have to finish the season without losing another game. The best record a Ram football team has ever compiled was back in 1951, when under coach Hans Wiedenhofer, they finished a nine game schedule with an 8-1 record.

During this two week lay-off, the Ram coaching staff will be making some changes in their offensive and defensive units. The passing attack has been outstanding to date. Little Chuck Caldera has thrown touchdown passes in four consecutive games. Caldera has thrown nine TD shots and has completed 36 passes in 67 attempts for a .537 average.

FCC's running game has been sputtering, and it appears that there might be a shake-up in the starting backfield before they meet Coalinga. George Ward, who has been their bread and butter man, has scored two touchdowns.

Ed Aubuchon, Lamont Whittle, and Ward have all ground out more than 100 yards on the ground. In the Taft game, Aubuchon picked up 95 of the 140 yards the Ram team got. The Ram backfield has plenty of speed, but they have not had the opportunities to turn it on.

The foot of Tom Ahajianian has helped the team tremendously. Many times he has either put the opposing team deep in their own territory with one of his long punts or gotten the Rams out of danger by getting the ball out of their own territory.

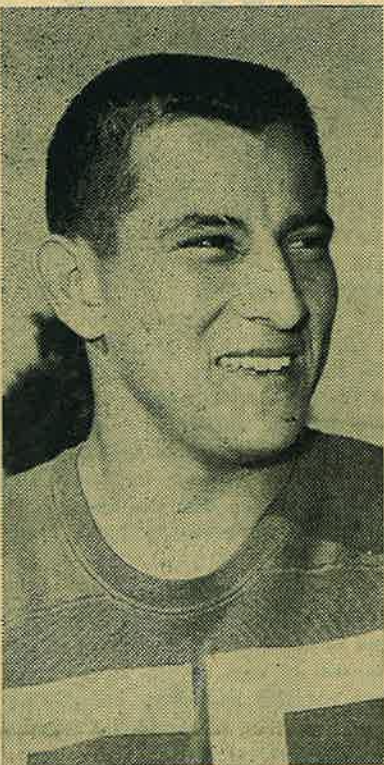

Rams Win 1, Lose 2; Face COP Today

Fresno City College will host the College of Pacific and the California Maritime Academy of Vallejo in the Fresno High School swim pool today and Friday in water polo games.

Over the weekend the Rams won one game and lost in two others while traveling to northern California. The University of Santa Clara was the only victim of the Rams, 20 to 19. The University of California Frosh and St. Mary's College took the Rams in their contests.

In the game with the College of Pacific, Coach Shelly plans to start Jerry Opperman, center forward; Mike Osborne, right forward; Mike Sattasburg, left forward; Dennis Rodgers, center back; Chuck Turl, left back; Ed Wilde, right back and goalie Chris Heil.

Coach Mickey Shelley was very satisfied with the Rams' play, and blaming "fatigue for the loss to Cal and foul play in the St. Mary's match." Shelley pointed out that Heil, Opperman, Sattasburg, and Osborne did outstanding work in all three games.

CHUCK CALDERA — One of the major factors that has brought the Ram football along as far as it has come is the passing and ball handling of freshman Chuck Caldera from Sanger. Caldera has started all the FCC games to date and has thrown nine touchdown passes in four games. He was captain of two teams in all star games during the summer.

JOE WILLIAMS — The other end of the Caldera to Williams passing combination is tall, lanky Joe Williams. Williams has been the favorite target for Chuck Caldera as he has caught four touchdown passes in four games. Williams is one of the best tacklers on the Ram team. He combines speed and toughness which have been big factors in the Rams' offensive and defensive game.

RON CERNOKUS — Without a doubt, this big guard is one of the hardest hitting line men on the Ram team. Ron has started all the Ram games to date, and plays both offense and defense. Ron played the full 60 minutes against COS, which is an outstanding accomplishment. Cernokus lettered at Monterey Peninsula College in 1956 and was an all coast guard at Monterey.

Rams Upset By Taft For First Loss

By JOHNNY NOBLE

The high flying Fresno City College Rams were finally brought to their knees by the highly underrated Taft College Cougars Saturday, on the home grounds of the Cougars by a score of 28-20.

The Cougars outplayed the Rams in every respect, even in the passing game which was supposedly the Rams' strongest threat, where Taft was surprisingly strong.

The Cougars completed 15 of 28 passes with their fine quarterback, Ron Anderson doing the aerial displays.

Chuck Caldera, Ram quarterback, did his usual bang-up job of completions, connecting 10 of 24 attempted passes.

The Cougars were given a 22 to 6 halftime lead by the slippery hands of the Ram offense. Fresno fumbled and lost the ball four times in the first half.

Fresno went scoreless through the first quarter and did not score until late in the second quarter when Caldera flipped a 40 yard pass to halfback Lamont Whittle on the 21 yard line of the Cougars. On the following play Mike Christopher snagged a pass from Caldera in the end zone for the score.

No one but the players and the coaches of the Rams know what was said in the locker rooms during the halftime, but the Rams came back on the field after the half as a very determined team.

CC Wins; SJS Next

The Fresno City College cross country team will journey north tomorrow to meet the San Jose State frosh in a duel met on the San Jose course.

The Rams captured first place honors Saturday in a three way meet with the Reedley College Tigers and the Fresno State frosh in Reedley.

The scoring of a cross country meet is just backwards from the scoring of a track and field meet. The team that comes out with the least amount of points wins the meet.

The Rams won with 27 points; Fresno State was second with 39 points, and Reedley brought up the rear with 69 points.

Tom Henry of Reedley took first place in the three mile race, but the Ram depth was too much for Reedley and the FSC frosh. Dwayne Peterson, Fernie Montanez and Jim Barnes took second, third and fourth places respectively for the Rams.

Montanez and Bill Hall are the only returning lettermen competing for the squad this season.

Hall was an outstanding sprinter last season

The Inside Out

By RICHARD KRIKAVA

AUBUCHON MAKES A BID

Those of you who missed the Fresno City College-Taft College game played in Taft last Saturday, failed to see why the Ram backfield is being shaken-up in preparation for the Coalinga game. However the Ram fans that saw the contest know why there should be a change in the starting backfield. The bruising little speedster who put on a one man running show for the Rams against Taft was Ed Aubuchon.

Ed carried the ball 11 times for 95 yards for an average of 8.6 yards per carry. In four games, Ed has piled up 169 yards in 27 carries and holds an average of 6.3 yards. The amazing fact about this halfback is that he has never started a game. But yet he is leading the team in the rushing department. Ed has also reeled off the longest run of any Ram back, which was a 36 yarder against Taft.

BAGGY PANTS

The Ram football team from Fresno City College sure looked good on paper before their game with Taft. They were ranked eighth in the nation, they were undefeated in three games, they had beaten cocky COS, they had an unstoppable passing attack, they had a strong and balanced running game, they had a big fast line with plenty of veterans, they had Taft scouted the week before, and Taft had a losing record. What happened? Somebody's pants were too big.
