

FRESHMAN CLASS OFFICERS for the fall semester discuss their plans. Seated left to right they are Zettie Gant, secretary; Nanci Mosekian, vice-president; Benny Edwards, president, and Jean Dudley, ICC representative. Not shown is Dennis Avakian, treasurer.

Cast For Fall Play Is Filled

The cast for the three-act comedy, "Charley's Aunt," has been selected. Rehearsals started this week.

Clyde Sumpter, the director, said the cast includes seven freshmen and two sophomores.

Timothy Brooks will head the cast as Lord Fancourt who impersonates Charley's aunt. Brooks was seen last spring as the Chorus in the courtyard production of "Antigone."

Appeared in Spring Play

Ronald Eddington will appear as Mr. Spettigue, who romantically pursues Charley's aunt. He played Creon in "Antigone."

Newcomers to the FCC stage will include Arnold Higgins as Charley, Diana Scott as Kitty and Linda McCormick as Amy.

Others in the cast are Claudia Fullerton, Sally Fox, Sammy Ganilian and Bret Shaw.

Miss Fullerton's home is in Paso Robles and Miss McCormick is from Roseburg, Ore. Others in the cast are from Fresno.

Needs Male Actor

Nine of the 10 parts have been cast, but Sumpter said he is still searching for one of the male leads, preferably someone with a low-pitched voice.

Acting techniques and theater craft classes will assist in producing the 68 year old farce.

Sumpter would like volunteers to help on the crews. Interested students are asked to meet in room 154 in the administration building Oct. 24 at 7 P.M. Help is needed on costumes, lighting, properties and the stage.

Club Has Book Drive For Asian Countries

The FCC International Club is sponsoring a book donation drive, "Books for Asian Students," beginning Monday, that will last 12 days. William Reynolds, International Club sponsor, said they want books in good condition including university, college and secondary level, published before 1945.

Works by standard authors such as Hemingway, Dickens, Plato, etc. published before 1945 are also needed.

Reynolds said boxes will be placed in the foyer of the Administration Building and in the Student Center for the collection of the books.

This book drive is part of the project of the Asia Foundation to provide books for Asiatic countries where they are needed. The Asia Foundation is a non-profit organization founded by private American citizens. Its purpose is to strengthen Asian education, cultural and civic activities with private American assistance. Supplying books for these countries is only one of its many projects.

Reynolds said the International Club participated in this program last fall. The club had the drive in December as a Christmas project and were asking students to contribute books they no longer needed to give to Asiatic countries.

800 Spaces, 2,400 Cars = 1 Big Problem

Fresno City College has a serious parking problem. Paul H. Starr, dean of men, reports that of the 3,000 day students enrolled at Fresno City College this fall semester about 2,400 have registered their cars to park in the approximately 800 available parking spaces on and around the campus.

Starr said that all students driving cars to school must have these cars registered with him and must display, on their windshield, the parking stickers issued them upon registration. He said that University Ave. is not a public thoroughfare, but belongs to the school. The parking permits will enable officials to distinguish between students who are allowed to park there and unauthorized parkers.

The police department has been

can citizens. Its purpose is to strengthen Asian education, cultural and civic activities with private American assistance. Supplying books for these countries is only one of its many projects.

Reynolds said the International Club participated in this program last fall. The club had the drive in December as a Christmas project and were asking students to contribute books they no longer needed to give to Asiatic countries.

urged, according to Starr, to issue parking citations for cars without permits parked in spaces reserved for students. These spaces include all of the University Ave. parking lot and parking spaces within a five block radius of the campus. It is against regulations to park in driveways and failure to observe this regulation will result in the car being towed away.

Starr said, "The speed limit will be kept to a strict 15 miles per hour as soon as speed signs can be posted." Many drivers have been speeding on and around campus and accidents have resulted.

Starr is in hopes that students will abide by all driving rules, will display the parking permits and will obey the speed laws.

Freshmen Elect Class Officers

Freshman class officers were elected last Thursday in the FCC auditorium.

Benny Edwards was elected president, Nanci Mosekian elected vice-president, Zettie Gant, secretary; Dennis Avakian, treasurer; and Jean Dudley, freshman representative to the Interclub council.

The first order of business, stated President Benny Edwards is the modification of the by-laws to change the manner of elections.

Edwards said that the present method of holding elections is too complicated to be practical.

All of the other officers are in agreement with Edwards and feel that the form of balloting should be changed.

Edwards hopes to pursue a career in the field of social science after graduation.

Miss Mosekian has high hopes of becoming an air line hostess after two years of college.

Zettie Gant is majoring in clerical work.

Dennis Avakian has hopes of becoming an architect.

Jean Dudley is a home economics and elementary education major.

CC, Other JC's Ask For Funds

FCC is one of the California junior colleges needing more financial aid. The 65 junior colleges plan to ask the 1961 legislature for more state aid.

Dr. Robert A. Webber, the director of research for Fresno City Schools, said FCC, which now receives \$125 basic aid, would get \$77 more for each student from the district under the new proposal.

Webber said FCC is receiving about \$353,000 in state aid, this is about 21 per cent of the cost of operating.

Under the new proposal the college would get \$123,000, raising the annual state share of its costs to about 29 per cent.

Webber noted Fresno is levying the maximum 35 cent local property tax rate allowed by the state for junior college operations.

"If no further state aid is forthcoming," he said, "the district will have to dip into tax money which normally would go to other educational levels."

"The only alternative," he added, "would be to cut back the junior college program."

Webber said, "No local tax monies support students who live outside the district."

Class Takes Field Trips

The four physical geology classes made a field trip to Kings River on Oct. 15. It was a day long affair which lasted from 8 AM to 4 PM. Lunch was had by the group at Big Creek.

The purpose of the field trip was to acquaint the students with geology in fields, acquaint them with various rocks, point out ways in which they were formed, what part the river played in the buildings of the Pine Flat dam and the Sierra-Nevada range.

Students were given credit for attending the trip and a quiz was given on it.

There will be an overnight trip for the mineralogy class on Oct. 29. This class will go to San Benito county.

"There are about forty-two types of minerals found there which they will look for," said Francis J. Leyden, instructor.

Another field trip to Madera county by the same class will be taken on Nov. 12, where they will look for deposits of minerals and for their formations.

Rooters Get Bus Tickets

Students who would like to ride on the rooters' bus to the FCC-Coalinga football game in Coalinga this Saturday night may obtain tickets in the Student Center foyer.

Bill Giese, rally commissioner, said that the students who plan on riding the bus must pay a 25 cent deposit to reserve a seat on the bus and when returning from the game, this deposit will be refunded.

Committee Sells Tickets

Giese added that tickets are now being sold in the Student Center foyer by the rally committee and these tickets are being sold on a first-come, first-served basis.

Students interested in going to the game must purchase their tickets immediately to be sure of a seat because the two buses can hold only 104 passengers.

Bob Roe, student body treasurer, said the reason the 25 cent deposit would be refunded to students was that the money paid for the renting of these two buses was paid out of the student body fund.

Students Rent Buses

Roe added that on future away games the students will have to pay the fee for the renting of the buses and this fee will not be refunded.

The rooters' bus will leave from in front of the Administration Building at 5 PM this Saturday and will return back to the college campus following the game.

Frosh Urged To Make Counselor Appointments

"Freshmen are urged to see their counselors before the fall semester ends," said Laurance Coons, a general education counselor.

Thirty minute appointments may be made by signing up on the door of the counselor's office.

Let's Keep The Campus Free Of Litterbugs

Are you a litterbug?

Most people would say, "Of course not!" But stop and think. What happened to that candy wrapper.

Did you put it in the waste can or did you throw it on the ground? And the paper cup you just had. Where did it go?

"Please students," pleads Ralph Trosi, head gardener, "let us keep this campus clean because you spend more time here than at your own home. So please let us keep it clean like human beings."

Mr. Trosi added that school grounds reflect the habits of the student body. If the grounds appear poorly kept it is the fault of the students who do not place their debris in the proper receptacles.

If the debris is not placed in the proper containers Mr. Trosi has to spend two or three hours away from his main work to clean the grounds each morning. He explained that FCC would have to hire another man unless the students cooperated and this action would be a cost to the taxpayers.

Miss Doris Deakins, dean of women, jokingly said that she would like to put a cage in the middle of the campus in which to place litterbugs.

"Students should take more pride in the campus," added Miss Deakins. She explained that receptacles are placed in appropriate places around the campus for student use.

Miss Deakins also remarked on the wonderful way that the students have kept the area around the soft drink machines free of litter. She said that she hadn't seen a cup in the halls.

"The litterbug problem is light in the main buildings," stated George Johnson, head custodian, "but the area west of the Student Center and McLane hall is pretty bad."

All the administration members questioned agreed on the above statement.

"We have run several bulletins," said Paul H. Starr, dean of men, "but they don't seem to have helped."

He explained that the student council is planning a program to remind the students to place the debris in the proper containers.

Starr said if the student council's plan does not work, the administration will have to enforce rules and restrictions. The students would not be allowed to take food or drink out of the Student Center building.

It takes only a little thought to throw litter into a receptacle, said Starr, and the student's cooperation would be appreciated.

So litterbugs, THINK before you throw your debris on the grounds.

Diane Wolfe

Reading Technique Course Offered By English Division

By MARLENE REMY

A new reading technique program, designed to help students in any phase of learning where printed material is involved, has been set up by the English division here.

"A testing program has been incorporated into the reading laboratory to help students to know their grade level, speed, comprehension and effectiveness in reading," said Richard Sandau, an English instructor at FCC.

"The tests play an important part in determining a type of curriculum that the student follows during the time he is taking reading," he added.

The student who is an outstanding reader is placed into a rapid reading vocabulary building program. This incorporates the use of a controlled reading instrument that can be placed at any speed.

The fast reader also uses shadowscreens, reading films and the Fernald vocabulary system.

A student who is an average reader is placed in a development program where he concentrates on improving speed, comprehension and vocabulary. Most stress is placed on his comprehension and vocabulary skills.

"The time tests are then used in reading, vocabulary building and a great deal of emphasis is placed on the Fernald vocabulary system," Sandau said.

If a student is an exceptionally poor reader he works with developmental reading that will help to increase the vocabulary and comprehension level.

In this type of program the emphasis is placed on the use of the reading laboratory.

The overall goals achieved in this program are: (1) Doubling the reading speed; (2) Starting a vocabulary building program that can be continued throughout the student's lifetime; and (3) Emphasis placed on effective study methods and environment.

"Some work is being done with people who have emotional blocks in learning, but at this point only certain types of emotional problems can be effectively handled in the reading laboratory," Sandau concluded.

Frodsham Tells About Danish School System

Editor's Note: This letter is one of a series of forthcoming articles by Noel D. Frodsham, FCC instructor now on sabbatical leave teaching school in the Danish schools in Denmark on a Fulbright Scholarship.

Greetings from Denmark!

Before leaving Fresno I promised the staff of the Rampage some articles on the educational system and student activities in Denmark. I have just completed two months work in two gymnasiums in Aalborg, the leading city of North Jutland, with a population comparable to Fresno.

Begin At Age 7

The entering age of the student in the public schools is seven. Under the new system recently inaugurated, the student will go to the district or Kommune school for seven years and hence to the Real school for three years. At the end of the second year of Real, an examination for the Gymnasium may be taken. Those who do not pass but still wish to go to the Gymnasium take the exam the following year. The majority of Real students will go into employment. Those who do not, may continue their education in a commercial college, technical school or take an exam for admission to a state-seminarium, a training institution for elementary school teachers.

We might say that the Gymnasium students represent the upper six to seven percent of the secondary school population. The courses of study in this school are two, modern languages and science and math. There are no electives, once enrolled in either course the student is expected to follow it to the bitter end. This course of study is three years in duration. Subjects include Danish, English, German, French, History, Early Western Culture, Natural History, Geography, Physics, Chemistry, Religion, and Physical Education. In some schools Latin and Greek are also taught.

Graduate At 19

Students leaving the gymnasium will be about 19 years old and will have an education at least comparable to a junior college graduate. However, he will excel in the language field. Those on the language side will have seven years of English all told at graduation. The graduate is eligible for admission to the universities without any examination.

Study American Literature

During the past two months I have had classes with first, second and third year students. Third year students read novels such as Steinbeck's "Of Mice and Men," and stories of Faulkner and Hemingway. Some have made a study of American poetry from Bryant to Robinson Jeffers. First and second year students read short stories of Hawthorne, Poe, Twain, Harte, Garland, as well as such moderns as Thurber, Steinbeck, Cather, Freeman and Sherwood Anderson.

The school year begins Aug. 15 and goes until June 20. Christmas and Easter holidays are the same length as in America, however, there is a week long holiday in the fall and several days at Whitsuntide. School begins at 8 and ends at 2, except on Saturdays when the dismissal time is 1. There is a ten minute break between the 50 minute periods and a 20 minute early lunch or "frokost" break at about 10:40.

No Cars Driven

I have yet to see a student driving a car to school. They do not have them, nor can they afford them. Nearly all ride bikes with a few possessing motor bikes.

In a subsequent article I hope to be able to discuss extracurricular activities as well as perhaps a more intimate look at the Danish student.

Publications Office Has Many Papers Available

Exchange papers from neighboring cities, high school and college papers throughout the United States are available to students, faculty and personnel.

The papers are found in the publications office, A-211.

Faculty Room Remodeling Nears Finish

"The entire FCC staff is extremely proud of their remodeled faculty lounge," said Miss Doris Deakins, the dean of women.

The remodeled faculty lounge in the east wing of the administration building was started last summer and is near completion.

Lounge Is Completed

The lounge has been completely redecorated from top to bottom. The pale brown wall paneling is set off by absorbent walls and ceiling in soft white.

This color combination is enhanced by tropical furniture surrounding a small fireplace. The new bay windows overlooking the east wall and the draperies blend in with the decor.

New Kitchen Installed

A complete kitchen has been installed in a room adjoining the lounge. This kitchen includes birch wood cabinets, a new range and refrigerator.

The kitchen will enable staff members to make coffee and store lunches during coffee breaks.

The lounge will provide a homelike atmosphere for student and faculty teas and receptions. Silverware for these events will be stored in the lounge kitchen and will be available for student use.

Honesty Gets Appreciation

How many honest people are there? Diogenes, a Greek philosopher, searched the world over, with lantern in hand, to find an honest man. Recently the manager the bookstore, Mrs. Jewel Herbert, informed the Rampage of an honest student.

Two weeks ago a girl went into the bookstore to say that she had not been charged for a shorthand transcription book. She had purchased her books at the beginning of the semester and the shorthand book had been put between several larger books and overlooked. The student waited until the fourth week of school when the rush hours would be over to return and pay for the book.

"We in the bookstore most sincerely appreciate the fine attitude of students this year," said Mrs. Herbert.

"Everyone was very courteous and patient in the wait to buy their books and we particularly noticed the respect shown for property and stock in the bookstore. We would like to thank the students and to say we feel we have the best on campus this year," she added.

CLUB NEWS

Club Plans Halloween Dance For Oct. 28

By JULIANNA RASMUSSEN

"Swing your partner round and round, lift her up and spin her around." This is the way Fred Bayati, International Club president, explains the fun students have in store for them this month.

The International Club is sponsoring a Halloween Dance to be held Oct. 28 from 9 PM to midnight. All FCC students are invited to the galety.

Music will be provided by Jack Rustigan and his band. The affair will be held in the Student Center social hall.

Other dances scheduled for this semester include the freshman class dance, Dec. 2 and the Christmas Formal, Dec. 16, sponsored by the Associated Men Students and the Associated Women Students.

Inter-Club Council

Starting on Oct. 24-28, student privilege cards are being sold by Inter-Club Council.

The cost of the cards is \$1, and they may be obtained between noon and 1 PM in the foyer of the Student Center.

These cards are good at all Fox-West Coast theaters. The proceeds from the sales will go into the ICC scholarship fund.

Once the student has purchased a card, he is entitled to one free admission and admittance thereafter at junior price.

Associated Women Students

All FCC women are invited to attend the Associated Women Students banquet to be held Wednesday, Oct. 26 at 6:30 PM.

The social hall committee room will be the site of the banquet. Sign-ups will be taken on Oct. 19-25 at noon in the Social Hall.

Latin American Club

Tomorrow at noon in A-158, during the regular meeting of the Latin American Club, a motion picture, "Iberian Peninsula" will be shown.

This is a picture depicting customs and peoples of Spain and Portugal. Anyone interested is cordially invited to attend.

FCC Lettergirls Begin First Year

Girls attired in short red skirts and white bulgy sweaters can be seen at FCC football games as the letter girls begin their first year as a group.

Spelling out Fresno CC are Martha O'Rear, Janet Cambern, LaRee Palloch, Michele Semper, Helen Badasci, Betty Garner, Judy Webster, Laurie Driver and Sandy Demmon.

Students Represent FCC At CJCSCGA Conference

FCC students will take part in the Central California Junior College Student Government Association Conference which will be held at Bakersfield College Oct. 22 from 9:30 AM to 4:00 PM.

Joseph W. King, student council advisor, said student council members, a class in parliamentary law and a class in conference leadership will attend the conference. There will be about 35 students going to Bakersfield to this meeting.

King said the group will leave at 6:45 AM from in front of the administration building.

Don Walker, student council president and chairman of the delegates, has selected council members to represent FCC in the different workshops.

They are Charles Overs, workshop reporters; Judy Potter, Finance; Jackie Riley and Jon Johnson, Associated Women Students and Associated Men Students; Bill Giese, athletics; Linda

Dr. Shepard Lectures On 'Freelancing'

"Anyone who likes to work and who doesn't mind research, interviewing and preparing work can be a free lance writer," said Dr. Bernard Shepard, professor of journalism at Fresno State College.

He spoke to the Journalism I class last Thursday on free lance writing.

Dr. Shepard said, "The free lance writer must recognize the limitations of his talent. Go out in the community, interview, get a story, write and rewrite."

Lists Musts

"The free lance writer must have a command of the English language. He must have self-discipline, self-generation and self-motivation to write."

"To write and sell the free lance writer needs to read many magazines, know what the magazines want and learn the styles of different magazines," Dr. Shepard added.

"The free lance writer needs system and formula: has to do interviews, library research, revise and polish."

Dr. Shepard emphasized on learning to know the magazine market and sending stories to the magazine that will take it.

There are three kinds of materials: filler pieces that range from 50 to 250 words, shorts that range from 250 to 1,000 words and full lengths that are from 1,200 words and up. All three types can be accompanied by pictures.

Sells Articles

Dr. Shepard's special interest in free lance writing is in business and trade publications. He often sells the same revised article to different magazines.

There are publications that will be helpful to any student interested in free lance writing. There are two magazines, The Writer and Writer's Digest, and two directories, "Writer's Market" and "Newspapers and Periodicals Directory." The last two can be found in the Publications Office.

Miller, campus activities; Don Walker, student government; Eddie Wax, publications; Sharon Ebell, publicity; and Ray Pyatt, student court.

Walker said, "FCC does not have a student court, but students will have the opportunity to observe the procedure of how this court works."

King said there are eight junior colleges sending delegates to this regional conference. This conference is a prelude to the state conference which is to be held in San Francisco Nov. 17-19.

Other delegates who will attend the conference will be Betty Hughes, Clara Sherrod, Ronica Fiske, Arlynne Jacobs, Barbara Malbanian, Mildred Serrane, Bob Roe, Rebecca Reed, Kathy Kuaffman, Barbara Franklin, Cherrie Sharp, Carol Russell, Barbara Blayney, Donna Pursell, Sherry Smith, Brenda Daum, Nancy Tamura and Bill Gardner.

LLADONA MILLER, on the right, helps Asien Tozlian fill out her associate of arts degree form. Miss Tozlian is from Larisa, Greece.

1961 Graduates Must Submit AA Petitions

All Fresno City College students who plan to graduate in June of 1961 with Associate in Arts degrees must submit their petitions to the Dean of Admissions and Records.

The offices of Admissions and Records have requested that the petitions be submitted at the earliest possible date so

Float To Get Last Touches

Through the enthusiasm and co-operation of the art department, carpentry department and the work of individual students, FCC is entering a float in Fresno's Diamond Jubilee.

Curtis D. Draper, art instructor, said that the truck and frame for the float is being donated by a local decorating company. It will be approximately 40 feet long and 10 feet wide.

The entire carpentry class is now finishing the construction of the frame under the direction of Merle L. Sons, carpentry instructor.

Draper said that art student Eddie Wax designed the float, and other art students will be chosen this week for the task of decorating it. Decorating will begin Wednesday.

Retired Instructor Receives Awards

Two awards were given to Mrs. Phyllis Spencer, a retired FCC instructor in English and foreign languages, at a meeting of the San Joaquin Valley branch of the California Association of Writers and Artists.

Mrs. Spencer won a first place award for a free verse poem entitled "Life — a Garden."

She won a second place for a short entitled "A Slap in the Face."

that the appraisal of the records can be made to determine whether the student is eligible.

The requirements that must be fulfilled for an AA degree are (1) At least 60 units of college work must be completed with not less than a C or 2.0 average; (2) A major consisting of at least 20 units in a specified field. Students majoring in a trade must have four semesters completed in one trade area in the Technical and Industrial Education Division; (3) United States History 17A-17B or Political Science 1 and History 17B for transfer students. For terminal students American Institutions 50A-50B must be completed; (4) Health Education 1; (5) Four semesters of physical education; (6) English 1A and Speech 21; (1) Sixteen units and at least half a semester's work must be completed during the final semester while being a resident at FCC, and (8) Candidates are expected to participate in commencement exercises.

FCC, FSC To Have Debate

FCC and Fresno State College debate teams will meet her Monday, Oct. 24 to participate in a practice debate.

"That the United States should adopt a program of health insurance for all citizens" is the debate topic for this year's debate team, said Franz Weinschenk, the instructor.

The debate is to be held at 3 PM in Bungalows 6, 7 and 8, and will be one round of debating with three teams participating.

Forensics To Plan Speech Tournament

The FCC debate club, Forensics, will hold an organizational and planning meeting Nov. 1 in B8. Charles Overs, Jr., club president, urged all club members and students interested in public speaking to attend, as plans for the all-school speech contest will be made.

"Resolved that the United States should adopt a National Compulsory Health Insurance Program," was the National Collegiate topic in debate at the last meeting.

Debaters were Dave St. Louis, Allan Hayes, Reggie Marcellino, Bill Smith and Dennis Rogers.

Ram Pictures Taken Soon

Annual sophomore graduation pictures for the yearbook will be taken Oct. 25 and 26. They will be taken in the student publication office, S-211, free of charge.

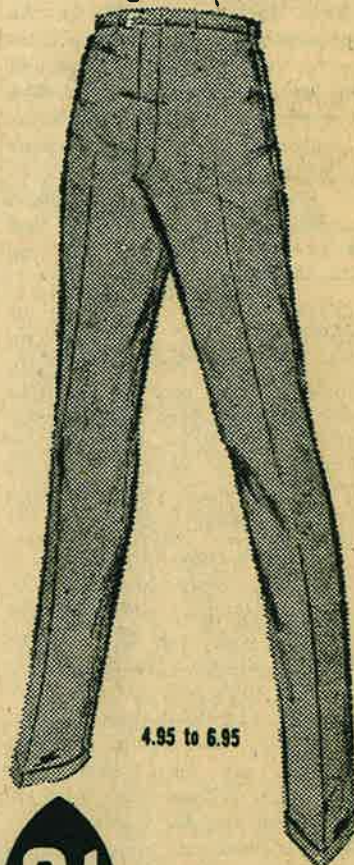

Art Margosian, the adviser, said no picture would be taken without an appointment. Tomorrow is the last day to make an appointment. Students may make appointments from 9 AM to 1 PM in the booth in the main foyer of the student center.

Women should wear dark sweaters and the men should wear dark sports coats and long ties, Margosian said.

"SHE LOVES ME FOR MY SELF"

"Not for my A-1 Tapers. Yesterday, I wore a pair of just ordinary slacks and she didn't say a word. What loyalty! 'Course, I'm back to my Tapers again. No sense taking chances."

RAMS MEET COALINGA COLLEGE

DON HUNT — One of the most dependable defensive men on the Ram defensive unit is rugged Don Hunt, a freshman from Edison High. This quick, hard moving guard was an all-city defensive tackle last year. He is one of the key men on the Ram defensive team who has been tough on the opponents running attack. He is five feet nine and weighs 175.

Basketball Team Begins Practice Monday With 30

Six year veteran Fresno City College basketball coach, Joe Kelly will welcome nearly 30 basketball candidates Monday evening in the Yosemite Junior High School gym for their first practice session on the year.

Five Veterans

With five returning lettermen and a host of prospective freshmen, coach Kelly expects to make a good showing this season. Leading the returning lettermen will be Tom Jacobsen, voted on the all-conference second team; Russ O'Leary, voted the most improved Ram last season; Joe Lee, five feet three inch former Washington Union flash and sixth scorer last year; Cleo Johnson, guard from Edison High; and John Hampton, who played the last half of the season and has one semester's eligibility left.

Making up the fine crop of newcomers will be Al Uriarte an all-city star from Roosevelt; John Malone, a six foot eight inch center from Madera who played with the U.S. Marines; Phil Parrish and Robert Byrd, two members of the last year's Fresno High championship team.

More New Faces

Armando Redondo, six foot three inch league leading scorer from Le Grande High (Merced County); Robert Martin, a six foot three inch center from Webster High (Louisiana) also from the service; and John (Henry) Robinson, six foot four inch center from Edison High just released from the Air Force.

Other newcomers include Ralph Bessard, San Joaquin Memorial; Jerry Bridges and Frank Mereno, Clovis High; Bill Carroll and Jeff Pickford, Bullard High; Alfred Garrett, Tom Johnson and Lawrence Walls, Madera High; Gene Johnson and Cal Mayo, Edison High; and Larry Zander, Roosevelt.

The once beaten Fresno City College football team will swing back into Central California Junior College league action Saturday night when they take on the defending league champion Coalinga College Falcons.

The Rams, after a two week lay-off, will be out to avenge last year's 18-13 defeat and to get back on the winning track to stay alive for the league crown.

Starting Backfield

Coach Clare Slaughter will attempt to get his running game on the road this week to go along with his outstanding passing attack. Slaughter plans to start Ed Aubuchon, who started for the first time against Taft in their last outing, at left half along with speedy Lamont Whittle at the other halfback post.

Chuck Caldera, the little man with the big arm, will direct the team at quarterback. Veteran

George Ward will start at fullback to fill out the starting backfield.

Cernokus Hurt

Ron Cernokus, who was injured in the Taft contest, is a doubtful starter and may see limited action. Slaughter plans to start Frank Villegas, a five foot ten inch, 190 pound freshman in Cernokus' position. The other guard will be Ed Gomes.

The starting ends will be Joe Williams and Dewey Belli; tackles, Clarence Jarrett and Cliff Beagle, and center Bob Voorhees.

Last weekend Coalinga dropped a 14-6 decision to the College of the Sequoias. Their only league win was over Porterville, 30-6. In non league games they have beaten Sierra JC 18-6 and Antelope Valley 30-14. They lost their season opener to Shasta JC 8-6.

Lots of Speed

Coalinga will offer plenty of speed and trouble for the Rams if

they give Coalinga too much rope. Ron Lee, of the Falcons, is considered to be the main threat to the Fresno team along with speedster Greg Baines.

The Falcons have two big tackles who will give the Rams plenty of trouble. They are Novarl Awalt, a 200 pounder and Ted Freeman, a 237 pounder. Edwin Higa, a 178 pound guard, is regarded to be the Falcons toughest defensive lineman.

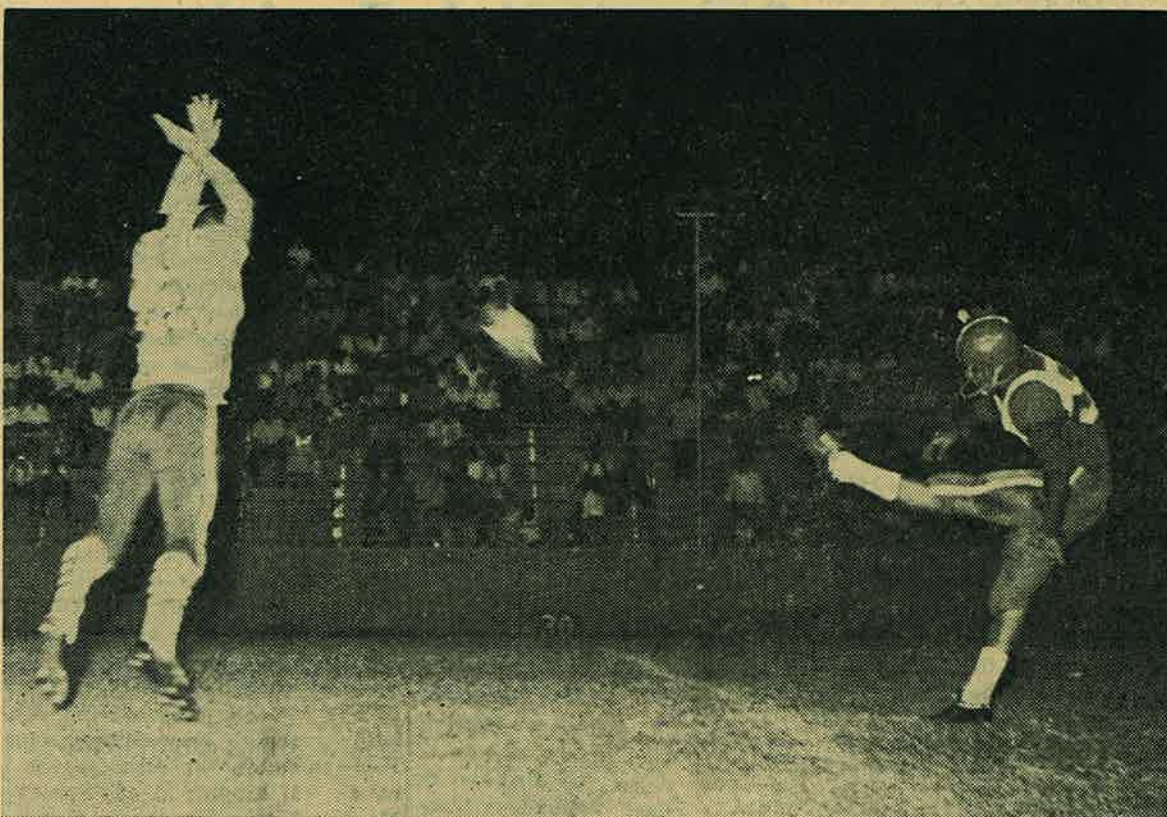

Other Scores

In last week's league action Reedley College continued to be unbeaten as they knocked off Taft College, 20-8. Reedley will put their 2-0 record on the line this Saturday when they meet the College of the Sequoias in Visalia.

League leading Allan Hancock dumped winless Porterville, 30-6, and will play host to Santa Barbara frosh. Taft and Porterville will battle in Taft.

LARRY SASASHIMA — Currently the number 1 trouble maker for all opponents is defensive center Larry Sasashima from Sanger High. This mean freshman has proven to be the Ram's hardest tackler and smartest defensive man. Last year he was the co-captain of the Fresno County All Stars and of the Northern Senior team. Sasashima is six feet tall and weighs 180 pounds.

BIG FOOT — One of the most effective weapons in position football today is a good punter. Tom Ahajanian, FCC punter, is shown getting away one of his 40 yard plus kicks against Stockton College. He will see action against Coalinga.

Harriers Top Field

The highly polished Fresno City College cross country team will be going for their third consecutive win of the season against Hartnell College and Coalinga College on the three mile Salinas course Saturday.

The Rams came out on top in their three way meet with San Jose City College and Vallejo Junior College on the San Jose Hillview Golf Club course.

DeWayne Peterson of the Rams captured first place in 16:08 ahead of San Jose's Don McClen-don.

The strong depth of the Rams came through once again with Ram runners finishing third, fourth and fifth places. Jimmy Barnes, Fernie Montanez and Jarvis Crocker finishing in that order.

FCC had 22 points to 43 for San Jose and 71 for Vallejo.

In the two meets that FCC has competed in this season, they have held their score to a small 49 points.

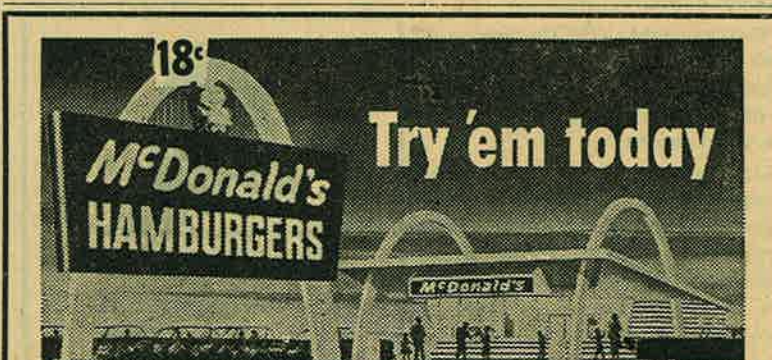

The Inside Out

By RICHARD KRIKAVA

Saturday night's contest between the Coalinga College Falcons and the Fresno City College Rams should answer a lot of questions. It is going to be quite interesting to see how well the Fresno team does after suffering their first loss of the season in their last outing two weeks ago.

The Rams made one mistake two weeks ago by not being up for their game against Taft and lost. The fact that Reedley College smashed Taft last weekend, 20-8, indicates how weak the Rams were against Taft. The Ram team cannot afford to be over confident again. If they are not hungry for victory, they could lose all their chips to Coalinga. Coalinga now holds the Rams' chances of a championship. As far as that goes so does Allan Hancock, Reedley and Porterville.

Scouting reports from Coalinga indicate that Coalinga isn't going to make things easy for the Fresno team. If the Ram team can find themselves and have that something called desire, they are capable of running Coalinga into the ground.

History Is Made, Polo Team Wins

The Fresno City College water polo team will entertain Stockton College and Sacramento City College this weekend after winning the first water polo match in the college's history at home.

The Ram team made school history last Friday as Coach Mickey Shelley's team trounced the California Maritime Academy of Vallejo 23-10 in the Fresno High pool.

Shelley's crew will meet Stockton College Friday and Sacramento City College Saturday, in an attempt to improve their two win three loss record. Both games will be at the Fresno High School pool, the first at 3 PM, the second at 10 AM.

Mike Osborne led the Ram attack by scoring 10 goals. Veterans Jerry Opperman and Mike Satterburg continued their outstanding play by assisting in the attack.

... Just our way of saying that we're firmly convinced that you haven't a hair on your head if you've passed over our superlative collection of traditionally tailored authentic button down sport shirts.
