

CHRISTMAS FORMAL PLANS are being made here by Miss Doris Deakins, dean of women, and Jackie Riley, associated women student's president. The formal dance will be held on Friday, Dec. 16.

AWS, AMS Pick Theme For Christmas Formal

"Christmas in Hawaii" will be the theme of the Christmas Formal on Dec. 16.

The Associated Men Students and the Associated Women Students are sponsoring the annual event.

The dance will be held at the Hacienda Motel. Bruce Davis and his orchestra will provide music for dancing.

At 10 PM Prince Maaka Nua and his Hawaiian Review will provide the entertainment which will include authentic Polynesian music, dances and songs.

The Prince and his son will perform knife and fire ritual dances. Princess Papuli, a comedian, will give hula lessons, an act which is said to be hilarious.

Charlie K, a vocalist, will sing in his falsetto voice.

Members of the dance committee are Jacqueline Riley and Clark Bridgeman, publicity chairmen, and Brenda Daum and Jon Johnson, decoration chairmen.

Others are Deloris Dickson and Gene Johnson, invitations and bids chairmen.

Dance bids are to be distributed beginning Dec. 7.

Student Council Attends Confab

Plans have been made for some members of the FCC student council to attend the California Junior College Student Government Association conference in San Francisco. The council left this morning, and will return Saturday.

The group and the workshops they will represent are: Bob Roe, finance, Don Walker, student government; Linda Miller, problems of a junior college; Jon Johnson, athletics; and Nancy Tamura, publications.

Sixty-five junior colleges will attend this meeting which is held twice a year. FCC will host the spring meeting.

Talent Gets Support Of Clubs

Ten campus organizations sponsored talent entered in today's talent show presented at 11 AM in the FCC auditorium.

The Associated Men Students sponsored the "Debs Trio," the Associated Women Students sponsored a choral group from the FCC choir, and the Campus Christian Fellowship sponsored a German band.

The International club presented a singing group, the Latin American Club presented a dance entitled "La Jota," and the Phalanx Club presented an interpretative dance.

The Technical and Industrial Club sponsored a baton dance and another dance, the Ski Club sponsored the "Balliders" singing folk songs, the California Student Teacher's Association sponsored a vocalist and the Freshmen class sponsored a pantomime.

The judges of the talent show were Gary Gilbert and Sam Schwan, announcers for radio station KYNO.

FCC head yell leader, Donald Jadoon was master of ceremonies.

The talent show was sponsored by the FCC assembly committee and the Inter-club Council. Miss Doris Deakins, committee chairman, said that each organization was limited to five minutes, but could do more than one number.

The club sponsoring the winning number will receive a \$25 award.

CALENDAR OF THE WEEK

- Nov. 11 Veteran's Day Holiday.
- Nov. 12 Football, FCC vs. Allan Hancock of Santa Maria in Fresno.
- Nov. 15 CCF, 12 noon, B-7.
- Nov. 16 Band Party, 7-11 PM, Social Hall.

State's JC's Get Enrollment High

"Over 100,000 students are enrolled in junior colleges in graded classes for the first time in California's history," stated Hugh G. Price, the chief of the Bureau of Junior College Education.

As of Oct. 3, 1960, there are 103,331 students enrolled in public junior colleges. A contrast of 89,596 enrolled on Oct. 31, 1959. Fresno City College has 3,047 part-time students enrolled. Los Angeles City College leads with 9,106. Pasadena City College with 5,083 and City College of San Francisco with 4,464 students follow second and third, respectively.

The total enrollment for FCC is 4,989. Long Beach City College has the most full and part-time enrollment of 23,094. LACC comes second with 18,524 and 11,506 brings San Diego Junior College in third.

A total of 183,833 part-time students are enrolled as of Oct. 3, 1960. A grand total of 286,164 is the enrollment for full and part-time classes.

"The decreases from last year have halted and a great 'tidal wave' of students have begun to engulf the junior colleges," said Price.

The Bureau of Junior College Education will soon release their study on probation and disqualification actions. It may indicate partly, the 1959 drop in enrollments caused by college standards being raised with an increase in the number of disqualified students.

Club To Organize Language Class

The Esperanto Club will organize a class in international languages Thursday from 7:30 to 9:30 PM in Room 123 of the administration building.

David R. Motzler, Fresno area representative, will be the instructor.

Esperanto, an international language, is being used to communicate with those in other lands, it has become popular in Fresno and throughout the world.

Torch Rally To Be Held

A torch light rally will be held Saturday night in the McLane Stadium.

The lighting of the torch will take place at 6:45 PM, although the rally won't start until 7 PM.

"The purpose of the rally is to engender rooster enthusiasm for the football game with Allan Hancock College of Santa Maria," said William Giese, the rally committee chairman.

Donates Butane

A local butane company is donating the butane and the torch, which was used by the Fresno United Givers Plan.

Giese, Robert Roe and Donald Jadoon are in charge of the arrangements for the rally.

Talent Presented

The band, majorettes, pep girls and yell leaders will participate in the rally. Skits from the talent show will also be presented.

Interested students are asked by the three in charge to come to the stadium at noon Saturday to help with the decorations.

The FCC prize-winning float celebrating FCC's 50th anniversary and the city of Fresno's 75th anniversary will circle the field during the halftime activities.

Panel Will Give Views On JC's

Will all students someday enter state colleges through a junior college? How do junior colleges fit into the master plan of higher education? Are there dangers of lowering the educational standards by meeting the needs of the community?

These and other questions concerning the role of junior colleges will be discussed by a panel of representatives from education and the press on "Why, Teacher?" on KFRE radio Saturday at 10:30 AM.

Dr. L. Medsker, chairman of the Institute for the Study of Higher Education at the University of California at Berkeley, and Dr. Courtland L. Washburn, professor of mathematics at the American River Junior College at Sacramento will represent education.

Roy Rosenberg, editor of the Englewood Daily News and Alexander Bodi, editor of Palo Alto Times will represent the press on the panel. Tom Mullahey, director of public affairs at KROM-TV in San Francisco, will act as moderator of the discussion.

"Why, Teacher?" is a weekly series of panel discussions about the problems in education and is sponsored by the California Teachers Association.

Hancock Favored By Three TD's Over Fresno City College In Championship Grid Battle

The 1960 Central California Junior College Athletic Association will come to a close Saturday night when the undefeated Allan Hancock College Bulldogs battle the once beaten Fresno City College Rams.

Kick-off time will be at 8 PM at the McLane Stadium, and will mark the end of the Rams' home season of 1960.

The league leading Bulldogs will be looking for their ninth straight victory of the campaign and will attempt to avenge last year's 40-38 loss to the Rams.

The league crown and an invitation to a bowl game will be at stake for both teams. A victory for the Rams would insure them of a tie for the league title with Hancock and an opportunity to play in the Olive Bowl at Lindsey.

For the highly rated Bulldogs, a win would make them undisputed champions of the CCJCAA, and would give them a bid to play in the Potato Bowl, a highly respectable junior college bowl.

The Bulldogs from Santa Maria have successfully beaten eight opponents in a row and are hanging on to first place in the league standings with a 5-0 record. Hancock possess a high scoring offense which has averaged more than 45 points a game.

In order, they have defeated Oceanside JC, 30-12; Santa Barbara City College, 51-0; Taft College, 42-16; College of Sequoias, 39-27; Porterville College, 30-6; UC at Santa Barbara by forfeit; Coalinga College, 54-16; and Reedley College, 60-8.

Head Football Coach Al Baldock

COACH SLAUGHTER

of Hancock will throw a big, fast, and high scoring team against Fresno. Past records show that the Bulldogs strike fast and hard.

The visitors employ the multiple offense which features a speedy backfield consisting of Nat Whitmyer, 5-10, 170; Jim Ramos, 5-9, 160; and Vince Antonio, 5-9, 185. The quarterback will be Milo Lizalde, 5-8, 170.

Scouting reports point out that Hancock has a very strong and fast line. Their probable starting line will consist of ends, Mickey Baker, 6-2, 170, and Ernie Miller, 6-0, 170; guards, Rudy Duarte, 5-10, 180, and Howard Davis, 5-10, 165; tackles, Dwayne Collins, 5-11, 200, and Jim Wamkum, 5-11, 190; and center Herb Lizalde, 5-10, 220.

Head Football Coach Clare

New President Needs Everyone's Support

Well, it's all over.
After months of yelling, parading, arm waving, arguing, and all the rest of the campaign "ingredients," the country has chosen a new president.
There will, without a doubt, be many voters who will scream and shout that "the wrong man was elected." This always happens. Remember, if you are one of those persons, that the new president was elected because he received the majority of the votes — because more people thought he could do the best job as the head of the country.
Therefore let's accept the positive viewpoint. Let's get behind our new president and give him our whole-hearted support. Whether we are Democrats or Republicans we are still Americans. As such, we can't settle back and grumble for the next four years, we can't close our minds to other viewpoints. The ensuing four years may not only prove whether or not the president is the best man, but it may prove whether or not America is the best country. As one well-known American put it — "United we stand, divided we fall."
Remember that now that he is elected he must be the best man or this country might slip right down the international drain.
Let's hope that when someone asks us what we think of the election's outcome we can say "I'm for America!"
Gary Cooke

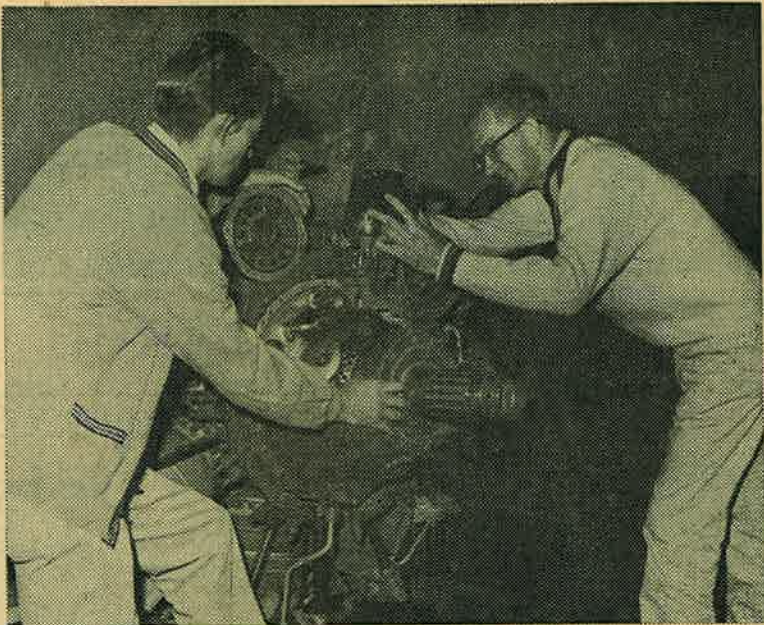

FCC Rooters Display 'High' Spirits At Football Games

What is school spirit? Does Fresno City College have any? Where do you find school spirit?
The 95 Fresno City College rooters that attended the FCC-Porterville football game Saturday know what school spirit is. It was the opinion of many students that attended that if the team is willing to bang heads in the cold rain and mud, at least the student body can do is to watch them.
As any football player and coach will tell you, school spirit is one of those important assets a team needs when they face a big game. The attitude of the students and the atmosphere on the campus is reflected upon the players.
The effect has been so strong lately concerning the championship game with Allan Hancock, that if it gets much stronger the students along with the gridders are going to tear the roof off the school.
But the most important thing is to carry this strong spirit to the game. The students must do their part. They must join the band (which attended the wet game last Saturday) and the high spirited group of cheer leaders in helping the team win.
You might wonder how school spirit at a game could help a team win. Head Football Coach Clare Slaughter puts it this way: "The team and I don't notice the loud cheering and yelling during the game. But when there isn't any, we sure notice that it's missing, and that hurts."
The team is doing their part . . . if they give their all for the full 60 minutes (and that's what it is going to take to beat Hancock) . . . the band and cheer leaders are by far doing their part . . . HOW ABOUT YOU? HELP DEFEAT HANCOCK.

Richard Krikava

Speaking Of Elections—What Happened To Sophomores?

Room 200, in McLane Hall on Oct. 27, was the sight of the sophomore class meeting that didn't take place.
At noon of that day a sophomore class meeting for the nomination of class officers was supposed to be held, but only one lone sophomore girl arrived on the scene. She entered the room and sat down. Finally, after waiting long enough to see that she was going to be the only person at what was supposed to be a meeting, she got up and in disappointment left.
She was the only person to show enough concern about her class to attend the meeting. She was the only one to represent the entire FCC sophomore class.
"For this reason," said dean of women Miss Doris Deakins, "the election of sophomore officers has been postponed until the spring semester."
If there are any sophomores who are interested in securing representation for their class for next semester, petitions for office may be obtained at the dean of women's office, A-128.
Tommy Barfield and Mary Gulke

AIRCRAFT STUDENTS Fred Wofford, left, and George Day, are shown here examining an R18-30 aircraft engine. The engine is part of much equipment available to the students.

Aviation Class Builds Sound Proof Cell To Test Engines

By RODNEY OLDFIELD

The students in the aviation class at FCC have just about completed their sound proof cell. This cell is actually a booth that will enable the students to test airplane engines.
Harmon Allen, the instructor, said the cell is equipped with an instrument called a consol. It has all the airplane instruments on it. The students will put the engines outside the cell and test them with the consol. The shop has engines ranging from 65 to 1000 horsepower and also has two jet engines.

Students Check For Defects

The apprentices completely overhaul these engines. They have an instrument called a magniflux. This instrument enables them to test the defects in airplane parts. It magnifies the metal of the engine making it possible for the students to check for defective parts.

Allen said with the vast amount of equipment the shop has they can run checks on all the planes in the shop, everything from landing gear on up. The students can completely manufacture the lighter airplanes. At present they are manufacturing a Taylor Aircraft. The students start from blue prints, and build the plane from scratch.

Two Phases of Building

There are two phases of building an airplane. The first phase of building a plane is to learn electricity and instruments, wood and fabric working, hydraulics,

sheet metal and welding, and assembly methods.

The second is the engine phase; it includes engine overhaul, carburetion, electricity, ignition, fuels and lubrication, and propellers.

In regard to the painting equipment the class has a spray booth in which the entire fuselage can be placed. Allen said, "It is probably the only paint booth in Fresno in which doping can be carried out in the rainy weather."

Guest Speaker Addresses Health Education Classes

Joseph Rich of the Fresno Sanitation Department was guest speaker yesterday in the hygiene classes of Morgan E. Shelley.

Rich discussed the county health regulations and health codes used in checking foods in all public eating places.

Shelley said although he spoke to two of the health education classes, his talk was taped.

Inspector A. B. Cone of the Fire Department will give a lecture on fire safety Monday, Nov. 14, to the classes.

FLASH: Scientists say the earth will explode at midnight; but first a word from our sponsor.

Tour For Foreign Students

FIS Sponsors Tour Of Fresno Bee Saturday

Friends of International Students will sponsor a tour of the Fresno Bee for all interested foreign students who would like an opportunity to see how an American daily newspaper operates.

Mrs. Joan Jabin, chairman of FIS, stated that this tour directed by Clyde F. Jabin, a reporter for United Press International, will be held at 10 AM this Saturday.

New Community Organization

Friends of International Students is a new community organization composed of families wishing to act as community hosts, individually and collectively, to students enrolled at FCC and Fresno State College.

This group is composed of 40 Fresno families which take active part in making these foreign students feel comfortable in their new environment in addition to acquainting them with what the community offers.

This tour of the Bee is the second of a series of tours sponsored by the FIS, which is part of a plan to acquaint students from other countries with our community.

Transportation Provided

Any foreign students who are interested in going on the tour of the Fresno Bee should sign the paper posted on the bulletin board in front of Mrs. Louise Murphy's office which is located in Room 110 of the Administration Building. Transportation will also be provided to and from the students home by members of FIS.

Mrs. Jabin added that FIS sponsored an earlier tour for foreign students through the Roma Winery. She added that future plans for foreign students will include a tour of the public schools, a trip through the Fresno County Courts, and a tour of the Producer's Cotton Oil Company.

Holiday Tomorrow

FCC Observes Armistice Day

Maybe a bomb has fallen, hall ways stilled, class rooms emptied, campus by-ways cleared.

Down town banks are cleared, stores' doors locked, merchandise left to gather dust — why all this vacancy?

Tomorrow is Veterans Day — in the homes fires will be glowing and rooms will be filled with a resting humanity, and FCC students will be out of school to honor this great holiday.

'Hot' Cars Displayed By T And I

The Technical and Industrial club of Fresno City College successfully plunged into their "Autorama" show Wednesday, Nov. 9. The display was under the direction of Richard H. Handley and Richard L. Cleland, club sponsors.

Featured at the display were a number of 1961 automobiles.

The show also exhibited custom cars and dragsters.

The standout of the day was a Class A Lakester that runs 236 miles per hour (one run). The car was driven and built by John Edmonds. The car ran in the 1960 Bonneville Nations.

The body is from an aircraft wing tank, and the frame is made of seamless tubing. All of the running gear is from early Ford passenger cars. Both the brake and clutch are actuated hydraulically.

The car required approximately six months of spare time to build.

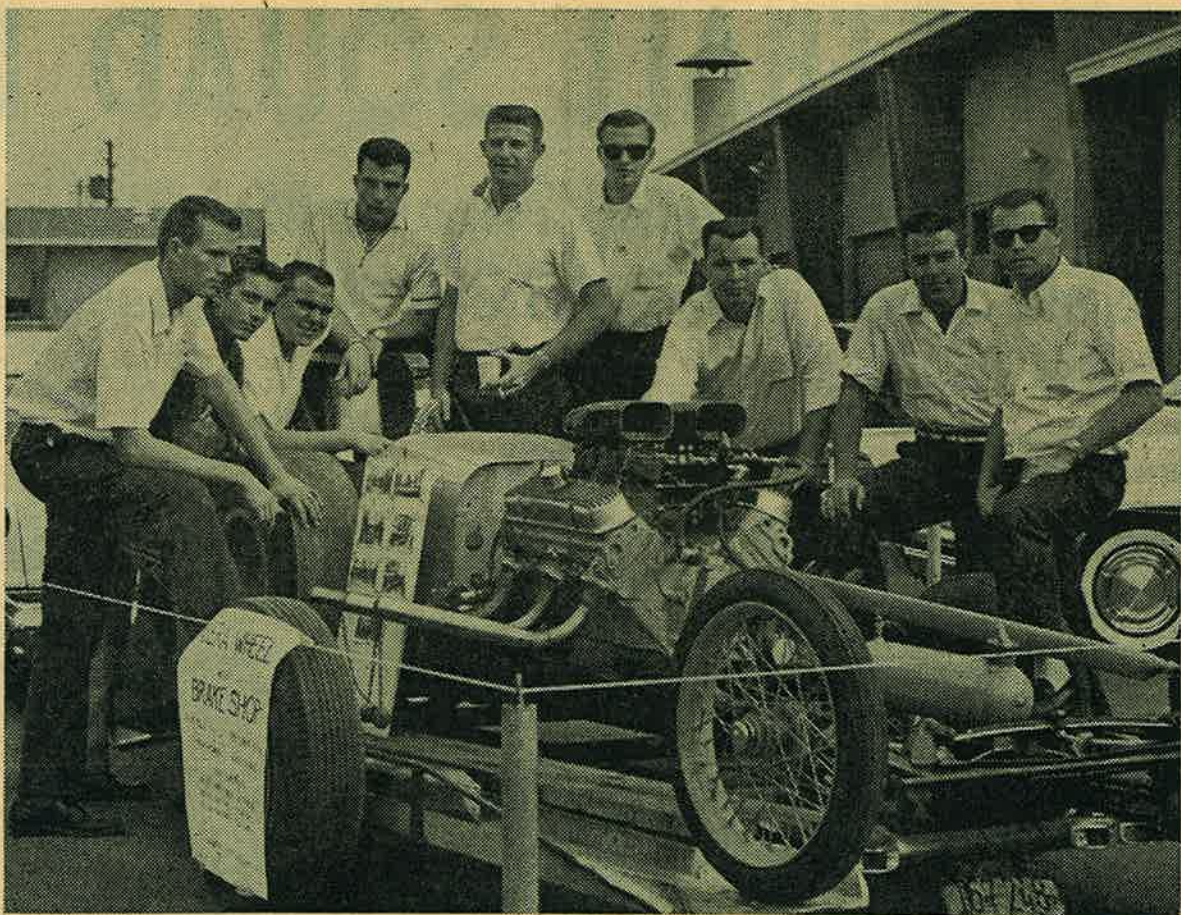

Exhibited at the show was a 1957 DeSoto—bored and stroked to give it 401 cubic inches. It is equipped with front mounted 671 G.C. supercharger with Hilborn injectors, Grant forged pistons, boxed rods, and Herbert cams.

The DeSoto mill is owned and was built by Bob Steinman, of Fresno.

A 1957 Chrysler was also displayed with 392 cubic inches, equipped with front mounted 671 G.M.C. supercharger, with Hilborn injectors, forged - true pistons, boxed rods, Iskenderian cam and a scintillo magnetto.

The Chrysler is owned and was built by Stan Steffen of Fresno.

Helping with the arrangements of the show were Art Peckham, Ron Horsch, Bob Protzman, Roubik Markaryan, Ken Willett, Larry Wilkenson, Jerry Chitjian, and Dick Scott.

ONE OF THE CARS put on display in the technical and industrial car show was this one, owned by Lou Toskey, Bob McFarland, and Luther Wheat. Standing around the car are T and I students who aided in putting on the display, left to right they are Art Peckham, Ron Horsch, Bob Protzman, Roubik Markaryan, Ken Willett, Larry Wilkenson, unidentified, Jerry Chitjian, and Dick Scott. Another helper, Art Verret, is not shown.

Club News

Various Campus Clubs Have Plans For Films, Dances, Debates, Sports

A colored film on Argentina will be shown at the regular meeting of the Latin American Club at noon on Nov. 18 in room A-158. All students interested in seeing this film are invited to attend. These films are part of the Latin American Club's program to promote the understanding of the culture and background of the Latin American countries.

The Latin American Club will have a party on Nov. 18 at the student lounge in the

Student Center from 9 PM to midnight. The members of the Newman Club and the Delta Psi Omega are invited to attend.

International Club

The International Club members will sponsor a debate on Nov. 17. Arab-Israel relations will be the subject discussed. Anyone interested in the debate may contact William Reynolds in L-201 or Ray Cramer in M-102.

This year the club will be sponsoring a basketball, soccer, volleyball and a wrestling team. All interested students should contact Fred Bayati, the president of the club.

The club is also sponsoring a noon dance from noon to 1 PM in the social hall on Jan. 11.

California Student Teachers Association

"The California Student Teachers Association is an organization for those students who are studying in the field of professional education," said Morgan Shelley, the CSTA advisor.

He also said, "The association believes in aiding the student to become an effective member of the teaching profession."

The club supports co-operation among groups of many teacher preparing institutions. It also serves the members through local meetings, regional conferences, state wide councils and a variety of projects and publications. Through the CSTA a member may learn much to his benefit about teaching.

United Givers Meet Faculty

FCC faculty and members and employees will attend meetings concerning their contributions to the United Givers Plan and the problems of cancer.

Mrs. Seymour Mathiesen, a vice chairman of Fresno's UGP and member of the state board of education, will solicit contributions Nov. 15 at 4 PM in Room 200 of McLane Hall. Gervase Eckenrod, the contribution chairman of the Fresno Teachers Association, will preside.

Design Wins Scholarship

Eddie Wax will receive a \$25 scholarship in art for submitting the best float design in a contest sponsored by a faculty committee.

His design was used for FCC's float entered in Fresno's Diamond Jubilee parade which won first place in its division.

The float is now being stored behind the aircraft building, reports Merle L. Sons, who arranged for the building of the float, but will be displayed during halftime activities at the Saturday night game with Allan Hancock College.

Fall Math Conference Held At CC

Further improvements in the teaching of mathematics and related sciences plus engineering were discussed at the annual fall conference which was held last Saturday at FCC.

Organizers of the workshops were Paul Hofeditz, Fresno City College, Paul Cayori, Fresno High School and Mrs. Beatrice Hagens, Denair Union High School. Speakers selected by this group were Carl Morgan, instructor at FCC, Daniel Ewy, Fresno State College, assistant professor of mathematics and Henry Osner, Modesto Junior College mathematics and engineering teacher.

Geometry History Traced

Taking the subject of "Modern Approaches to Geometry," Ewy traced the historical development of geometry. Next he pointed out the dangers of any re-organization that does not include this historical perspective.

"Research in science and math during the last fifty years has resulted in demands for re-evaluating and reorganizing the teaching of geometry."

"Satellite Mathematics," Morgan's topic, developed three formulas for satellites.

Escape Velocity Proposed

He proposed first of all the escape velocity of the satellite then followed it up with the velocity of a satellite to remain in orbit. He closed with his proposal with the radius at which a satellite would remain over the same spot on earth.

A further recommendation by Morgan included more extensive use of the slide rule in the lower grades.

Osner's speech stressed the importance of plane geometry.

RAM BASKETBALL SQUAD PICKED

'60-'61 Basketball Team Players Are Selected

Fresno Throws Much Mud; Porterville Buried 32-0 As Rams Win Number Six

The Fresno City College basketball squad has been cut to 16 men in preparation for the 1960-61 season by Coach Joe Kelly.

Five returning lettermen and 11 newcomers were picked by Kelly from a field of 30 candidates. Among the returning veterans are Tom Jacobsen, 6-4, who was placed on the all-conference second team and was the team's third highest scorer last season; Russ O'Leary, 6-5½, who was picked as the most improved player of last year's team; Johnny Hampton, the Ram's high scorer of a few seasons back; and guards Joe Lee, 5-10, and Cleo Johnson, 6-0.

Among the newcomers are John Malone, 6-9, from Madera; Bob Martin, 6-5, of Louisiana; and Al Uriarte, 5-10, of Roosevelt High. This trio is making a strong bid to crack the starting line-up.

Other outstanding performers on the Ram squad are guards Bob Byrd, 5-11; Phil Parrish, 6-1; Gene Johnson, 6-0; Herb Daniels, 5-11; Charles Craig, 5-10; and Ralph Bessard, 5-9.

The forwards that survived the cut are Armando Redondo, 6-3; and Jim Walls, 6-2.

The Ram's first opponent of the 1960 season will be Bakersfield College at the McLane High Gym on Nov. 28.

Under a heavy blanket of cold, wind-swept rain, the Fresno City College Rams slashed their way to a 32 to 0 victory over the Porterville Pirates in McLane Stadium, Saturday. The Rams ran, skidded and slipped their way for 345 yards on the ground and 19 yards in the air, while holding the hapless Pirates to a net yardage of 63 yards.

Capitalizing on a Porterville fumble, the Rams moved the ball to the Pirate 31 yard line

where George Ward slid around left end for the score.

Ward also got the two extra points by crashing through the middle of the line.

FCC scored in the second quarter on a 46 yard drive, with half-back Levi Owens setting up the touchdown on a 22 yard gallop. Ward then carried it over from the two yard line.

The high point of the game came on a 67 yard run around left end by Owens, who plowed his way through the Pirate defenders for the score. Three plays later, Tom Ahajanian cut across right tackle, picked up blockers and raced 86 yards for another score.

The Rams added the final two points of the game by pushing the Pirates back to their own two yard line, where the Pirates tried to go around the end, only to be met in the end zone by Ray Farmer for a safety.

Scoring:
Fresno 8 14 0 10—32
Porterville 0 0 0 0—0
Touchdowns: Fresno - Ward, 15 yard run, 2 yard run; Owens, 67 yard run, Ahajanian, 86 yard run. PAT: Ward, run; Ahajanian, pass from Stockton; Hickman, pass from Stockton. Safety: Farmer tackled Hard in the end zone.

THE STORY OF THE GAME — This is the scene of last Saturday's rain soaked battle at the McLane Stadium between Fresno and Porterville. (Photo by Mike Spolini)

ED AUBUCHON—The Ram's leading ground gainer, Ed Aubuchon, has added tremendous power to the Fresno backfield. He is 5-6 and weighs 155. Currently he has a six yard average per carry and has netted 316 yards on the ground.

CLARENCE JARRETT — One of the toughest linemen on the Ram team is tackle Clarence Jarrett. Jarrett is 5-9, and weighs 215. He is strong and likes to hit and tackle hard. He will see plenty of action against Hancock.

Bulldogs Vs. Rams

(Continued from Page 1)

Slaughter of the Rams have a season record of 6-1 and a league record of 4-1. They suffered their only loss to Taft 28-20. The Rams have defeated Fullerton 15-0; Stockton College 33-6, College of Sequoias 19-14, Coalinga College 30-12, Reedley College 36-29, and Porterville 32-0, in that order.

The Rams will start Joe Williams, 178, and Dewey Belli, 170, at the ends; Cliff Beagle, 240, and Clarence Jarrett, 215, at the tackles; Ed Gomes, 175, and Ron Cernokus, 185 at the guards. The center will be Bob Voorhees weighing 215.

The starting backfield will consist of halfbacks Ed Aubuchon, 155, and Glenn Schmidt, 175. The fullback will be George Ward at 175 and Chuck Caldera will direct the team at quarterback.

In the games played last Saturday, Allan Hancock defeated Reedley 60-8; COS beat San Francisco JV's 40-14; and Taft slugged Coalinga 20-2. If the Rams lose, and COS wins, Fresno and COS will be tied for second place. This is a must game for the Rams if they want a bowl bid and a league championship.

FCC Cross Country Squad Wins; Remains Undefeated

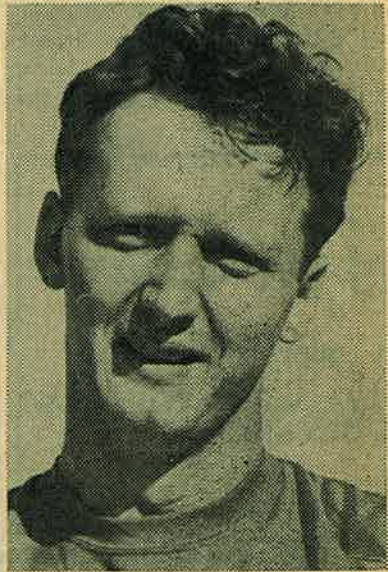

Fresno City College's cross country team continued to roll as they beat host Modesto College and College of Sequoias last Friday. Fresno won with a score of 22 points to Modesto's 38 and College of Sequoia's 62. This win gives Fresno a 5-0 season mark.

Today Fresno will host the Central California Association meet in Roeding Park. For the first time Fresno will be favorites and have a good chance of winning. On Friday, Nov. 18, Fresno will travel to Reedley to take part in the Northern California Junior College meet.

Fernie Montanez streaked to his second straight win in the record breaking time of 15:49. Don Griffith of Modesto was second with the time of 15:55 and Fresno's DeWayne Peterson was third with a time of 15:59, just four seconds behind Griffith.

The other finishers in top 10 from Fresno were Jim Barnes, Jarvis Crocker and Ted Cox.

Coach Erwin Ginsburg has named these men to run today: Montanez, Peterson, Barnes, Crocker, Cox, Ken Baker, Arthur Clardy, Bill Hall, Lee Harris and Jim Watchempino.

CLIFF BEAGLE — Tough, hard nose football is what this big 6-6, 240 pounder is made of. Beagle has been on the starting unit since the beginning of the season.

DEWEY BELLI — The team's leading pass receiver, as far as total yards is concerned, is Dewey Belli. Belli is small but very fast and has good hands.
