AMS, AWS To Hold Barn Dance

News Analyst Speaks At Assembly

The Soviet Union constantly has to consult Communist China before it takes important steps internationally, and Russia is more worried about Red China than it is the United States.

The United States could exploit the tension between the two countries if Communist China were admitted to the United Nations.

These assertions were made Friday morning by Howard P. Davis, a world affairs analyst and former Columbia Broadcasting System correspondent, in an address on "The United Nations — Balance Sheet, 1958" in a Fresno City College assembly.

Two Predictions

Davis also predicted that one or two spectacular things may happen soon. In a year or so, he said, the United States probably will put men on the moon, but the other possibility is that "we may blow ourselves off this planet."

"If we do both," he declared, "let's hope the first one is accomplished first."

He called the United Nations the most daring concerted action in the history of mankind. He said its secretary general said that if the UN would fold up today, it would be reborn the following day.

UN A Success

Davis said if the UN fails completely in settling disputes—which, he said, it had not—he still thinks it will be a success because of its long-term powers to set the stage for peace through its social, economic and technical assistance to backward areas.

The citizens of the world, he said, face four important factors in their relationships: that we live in a contracting world in the air age, that we are living in the greatest period of political, economic and scientific change the world has ever known, that we live in a tension ridden world, and that we live in an unstable world full of turmoil.

He added that the last period of world stability ended in 1914. The stability, he said, had been held together by isolation and colonialism.

He said there are other facts we must face: (1) Most of the world's people are in Asia. (2) Most of the world's people are not white. (3) Most of them are undernourished. (4) More than half of them are illiterate. (5) Two-thirds of them will die before they are 30. (6) Communism uses these people against us.

Air Force Band Will Perform Tomorrow

Fresno City College students will be able to listen to the Air Force Symphonic Band at the Roosevelt High School tomorrow for the slight fee of 50 cents.

Reservations can be made by calling the Hockett-Cowan Music Company box office.

BARN DANCE SCHEDULED—The Fresno City College Associated Men Students and Associated Women Students are co-sponsoring a dance tomorrow night at 9 PM in the student center building. Seated are, left to right, Roxie Lassley, Virginia Adame, and Joan Campopiano, AWS president.

—BEE PHOTO

White Attends Meeting In Relation To JC Transfers

Fresno City College President Stuart M. White and Dr. Donald Albright, the dean of students of Fresno State College, attended a meeting at the University of California recently. The joint junior college committee studied the problems relating to the transfer of junior college students to state colleges.

Rambler Advisor Urges Signups

Attention students! Would you like your picture in the advertising section of the Rambler? There is a sign-up sheet in Room SC-212.

Peter C. Christian, Rambler advisor, urges all interested to sign up as soon as possible. When enough students have signed up, appointments will be made to have their pictures taken at the various business establishments.

CCJCA Faculty Members Meet

Business faculty members from the member colleges of the Central California Junior College Association met Friday night at Bruce's Lodge for a dinner.

Following the dinner, the business educators divided into three different groups for discussion. The four discussion groups were transcription, accounting, machine calculation, and business education clubs.

The Fresno City College faculty members who attended were William Billeter, Mrs. Dorothy Bliss, Mrs. Margaret Collier, Gervase Hall, Mrs. Edna Hartler, Jack Hill, Eckenrod, John Fenn, Harrison Lawrence Martin, Miss Ethel McCormack, Gilbert Peart, Paul Soderstrom, Francis Svlich, and Mrs. Wilma Weston.

White said the committee is studying the possibility of changes in the state's education code which would permit the transfer of more than 64 semester hours of credit and to examine other possibilities of changing the code in relation to the transfer problem.

He said the additional problems are (1) the basis upon which students may transfer from a junior college if they were not eligible for state college admission because of their high school records and (2) the question of the limitations, if any, which would be placed upon junior college courses acceptable for transfer purposes.

Dr. Donald R. Watson, the committee's chairman from San Diego State College, reported the findings of this group to the annual fall meeting at the university of liaison representatives of the university, state colleges, junior colleges, and high schools. White will attend the meeting also.

Other members of the transfer committee are Dr. George E. Dotson, Long Beach City College; Dr. Lloyd D. Luckman, San Francisco City College; Dr. Edward Simonson, Bakersfield College; Dr. Leo Wolfson, San Fernando State College; Dr. Robert R. Rhodes, Long Beach State College; and Dr. Norton Renshaw, Los Angeles State.

This meeting was held to give students an easier way in the process of transferring to four year colleges and universities.

White is on several committees to help improve the junior college as a whole.

Halloween Dance Will Be Held Tomorrow Night In Social Hall

The Halloween dance tomorrow night at 9 PM in the Fresno City College social hall will be sponsored by the FCC Associated Women Students and the Associated Men Students.

The decorations will be centered around a western theme with a covered wagon as the focal point. The entrance will be trimmed to represent a barn door, and there will be square dance silhouettes on the walls.

A pep rally for the Fresno City College-Reedley College football game will be held during the AWS and AMS Barn Dance tomorrow night in the Student Center. The pep girls and yell leaders will be there to help lead the rally.

Malcolm Bourdet, rally committee sponsor, stated there will be no rooster buses for the FCC-Reedley game Saturday night in Reedley.

Jack Rustigan's band will provide the music from 9 PM until midnight. All student body card holders and their guests will be admitted free.

"To keep with the theme," said Joan Campopiano, AWS president, "the women students should wear skirts and blouses and the men should come dressed in levis or peggers and western shirts."

Les Lusk, AMS president, is in charge of the program. The other committee heads are Roxie Lassley, refreshments; Virginia Adame and Bill Long, decorations; and Jean Koch, publicity.

2 FCC Teachers Attend Meeting

Two Fresno City College language instructors, William J. Reynolds and D. Lee Ross, conferred Saturday with members of the Stanford University Modern European Languages Department on the subject of language laboratories.

Reynolds said, "Good laboratory facilities are an essential part of any adequate language program."

FCC students now have only the facilities of the record listening room in the library. According to the Stanford instructors, this is very inadequate.

Leading schools and universities across the nation are using the laboratory method teaching. Ross and Reynolds brought back from the conference information about laboratory techniques and facilities.

They obtained the opinions of the instructors as to the best type of tape recorders and other machines, and also their methods of teaching.

As the language department of FCC expands, the knowledge that they have gained may be put to use, resulting in a laboratory for not only language students, but also for the use of those enrolled in speech and music classes.

Few Students Considered 'Litterbugs'

By MABELLE BELL

"An irrational person who scatters about carelessly" is the definition of a "litterbug" in Webster's dictionary.

A few students of this classification are enrolled in the Fresno City College, maintains N. T. Goolsby, the supervisor of buildings and grounds.

Goolsby said the area in front of the Student Center has the most paper, cups and bottles. He believes the proximity to the cafeteria explains the greater amount of debris in this section.

"We feel proud of the student body," complimented Goolsby. "We have asked for the co-operation of the students, which they have given, but have never complained of the hardship on the men in cleaning the grounds."

"Other than the papers and bottles, we have no complaints. Students are very good as a whole."

The supervisor said the men are not required to pick up the bottles. Youngsters in the neighborhood have established a business in collecting the deposits on the bottles.

"The neglect in not returning the bottles to their proper place costs the student body two cents on each one," added Paul Starr, dean of men. "The student body is cheating itself, since the proceeds from the coke machines go into the general fund of the student body."

CALENDAR OF THE WEEK

- Oct. 30
12:15 PM — Young Republicans, M-123
12 PM — Interclub Council, SC-229
12:20 PM — Fine Arts Club, Ad-141
Oct. 31
9 PM — AWS-AMS Barn Dance, Social Hall
Nov. 1
8 PM — FCC vs. Reedley, there
Nov. 3
12:15 PM — Women's Recreation Association
12 PM — Campus Christian Fellowship, Ad-113
Nov. 4
7:30 PM — Phi Theta Kappa Initiation, 507 W. San Jose Ave.

The Noble Savage Strikes Again

It is a shame that an editorial such as the following should have to appear in a college newspaper. But it has been deemed necessary at the present time.

It has been brought to our attention that the library, as well as many students, have been missing a great number of books. And it seems that it is no fault of their own.

Now, there are two possible explanations for the disappearance of books which have been missing from the library. First, they might sprout legs and walk away under their own motivation. Since this explanation is just a little far beyond the gullibility of the college student, we must have recourse to the second: they are being stolen. This reason you will find much more plausible since some have already been caught and others are known.

Of course, those who are guilty of this offense will claim that this has been a recession year or a depression year, depending upon which party you belong to. And in such a year, money being scarce, they must resort to other methods to get their books. Even though this might be the case, and we don't condone it, the books reported missing are not particularly texts, but everything from fiction to endocrinology.

And as for those who steal books from others in the guise of getting an education, these people are merely reverting back to the idea of the noble savage. They are trying to obtain a noble goal in a primitive and uncivilized way. Such people are leeches on others. If their education at the expense of others is right, then education is useless.

The library once again has been forced to check books being carried by outgoing students. If you have nothing to do with the thefts you must submit to this indignity whether you like it or not. We call it an indignity because no man likes his honor challenged. You have just a few to blame, the few who reflect upon the whole.

It is our confirmed conviction that anyone caught stealing the books or property of the library or another person should be dismissed dishonorably from school with a WF. And needless to say, the administration will not hesitate to back this up.

—Dave Ruggeri

University Seismograph Measures Earthquakes

Have you ever wondered what was in the basement of the administration building besides mice? Since October, 1947, the University of California has had a seismograph in the basement of the administration building.

Beside the station in Fresno, the university also has several other seismographs at

points throughout Northern California. The California Institute of Technology at Pasadena has taken charge of the seismographs through Southern California plus the one in Bakersfield.

Machine Described

Perhaps you are now wondering, what on earth is a seismograph? A seismograph is a machine which registers the earth's movements and records earthquakes. The one in the basement also records every time a train goes by.

Seismographs contain three components. These are for measuring the earth's movements from east to west, north to south, and vertical.

The Fresno seismograph is 6 feet by 10 feet and is mounted on a concrete beam which sinks into the earth several feet.

Earthquakes Recorded

C. E. Hammer, a retired janitor from Fresno State College, changes the photo sensitive paper on the machine every day about 4:30 PM. The seismograph has recorded 1,400 distant earthquakes stated Dr. George Standley, head of the geology department at FSC.

The seismograph is operated by the University of California

under the supervision of the geology and geography departments at Fresno State.

Stuart M. White, Fresno City College president, will present a motion on Nov. 13, to the board of education to keep the seismograph on this campus. The result of that meeting will be published at a later date.

704 ENROLL UNDER VETERAN BILL HERE

Fresno City College has 704 students enrolled under provisions of veteran's subsistence legislation, as compared to 768 in the spring semester and, 716 a year ago.

George Holstein, dean of admissions and records, said that all but 20 of the students are enrolled under provisions of Public Law 550, the Korean G.I. Bill.

Three of the students under the Korean G.I. Bill are women. They are Marylyn Jones and Frances E. Jones, who attended FCC last spring under the bill, and Virginia L. Petersen.

Boss to stenographer: "Congratulations, Miss Hipkins. This is the earliest you've been late."

Six FCC Instructors Tell How First Moon Rocket Would Affect Their Fields Of Study

By GWEN POUNDERS

If future United States rocket attempts are successful in reaching the moon, or some other planets, what do you think is likely to be the most important addition to knowledge in the field or fields in which you teach?

Six FCC science instructors were asked this week by the roving reporter. Here are their answers:

Carl Morgan, physics instructor, "If the rockets only circle the moon, we will find out about the conditions on the unseen side of the moon and will have a comparison of radiation from the side illuminated with the side in darkness."

Floyd Quick, chemistry instructor, "One very common belief is that the surface of the moon is covered with a very fine solidified dust with considerable thickness. The landing of space ships and the erection of structures on this soft dust layer will have to be accomplished and thus will be an addition to the present knowledge."

"It is also believed that noon-day temperatures on the moon approaches the boiling point of water (212 degrees Fahrenheit), while the temperature after sunset is about 243 degrees below zero. Finding out how to insulate and to live in an environment with such a temperature differ-

ential will be a great addition to our present scientific knowledge."

Walter Whitmann, biological science instructor, "Exotic moon fungi would certainly set the botanical world on fire," signed Farley Fungus.

Francis Leyden, geology instructor, "The moon landing would be of tremendous interest to geologists due to the fact that the surface is not obscured by vegetation, making interpretation easier. Such factors as the classes of rocks, surface movements, mineral wealth and geological history could be easily discerned."

"Another controversial aspect concerning the moon is the presence of very large craters covering a large part of the surface of the moon. Scientists are undecided as to their origin so a landing would solve this puzzle."

Lewis Follansbee, biological science instructor, "The most important factor is whether or not animal life will be able to survive the intense radioactive field encountered in passing through the outer atmosphere of the earth and other unknown conditions that may be encountered on the journey to the moon."

Kenneth Hald, biological science, Microbiology: "The possible revelation of primitive forms of life comparable to viruses that may give a clue to a cosmic origin of life."

Zoology: "The possibility of finding primitive and exotic forms of plant and animal life that may fill in the gaps now existing in some of our animal groups."

Physiology: "The possibility of investigating the life (metabolic) processes of forms of life comparable to those carried on by living organisms on this planet that might indicate a common universality of all living things."

Club To Host Debators

The Forensics Club has announced that it plans to host four of Fresno State College's top senior debators next week. The debators will give a demonstration debate on the national debate topic for the 1958-59 school year. The topic is "Resolved: that further development of nuclear weapons should be banned by international agreement."

Health Center Used By 1,400

Fourteen hundred Fresno City College students used the health center during the month of October.

"Health counseling, care of sudden illnesses and emergency first aid are the only services available at the health center," said Mrs. Nora Simpson, the nurse.

This is the first year the school has employed a full time nurse. The health center is in a new location in AD-136, and the hours of the health center are from 7:30 AM to 3:30 PM.

"The purpose of the health center," stated Mrs. Simpson, "is to help students assume responsibility for their own health."

Students may make individual appointments to see Mrs. Simpson if they have any health problems.

"I feel my work is very worthwhile because I am able to help the students. I would rather do this than anything else I can think of," said Mrs. Simpson.

The Futile Poet

By DICK BRUUN

If a man runs after money—he's money mad.

If he keeps it—He's a Capitalist. If he spends it—He's a Playboy. If he doesn't get it—He's a ne'er-do-well.

If he doesn't try to get it—He lacks ambition.

If he gets it without working—He's a parasite.

And if he gets it after a life of hard labor—He's a fool who got nothing from life.

YOU CAN'T WIN

MORAL: Life . . . A fool will never win, but then he never knows when he has lost.

"Johnny, stop playing games! You'll be late for class."

Club News

AGS Elects New Prexy

By KAREN McDOUGALD

Alpha Gamma Sigma, the state junior college scholastic honorary society, elected fall semester officers Oct. 23.

Douglas Eudaly was chosen president and will be assisted by Russell Foote, vice president; Mabelle Bell, secretary, and Harold Yick, treasurer.

Wednesday is the date set for the annual cake sale, which will be held from 7 to 10 PM in the student foyer. A quarter will entitle the student to a piece of cake and a cup of coffee.

The money from this project will pay for the club's page in the Rambler and for the state dues. The co-chairmen for this project are Mrs. Bell and Foote.

Dr. Rolf Ordal and Mrs. Margaret Collier are the co-sponsors
FINE ARTS CLUB

Wednesday is the date for the annual sale of student directories, sponsored by the Fine Arts Club of Fresno City College. The sale will be held in the student foyer during the day.

The meeting of the club at noon today is for the purpose of selecting a student to represent it at Interclub Council, to choose a member who will be responsible for the money from the student directory sale, and to pick a publicity committee for the forthcoming Christmas show which is held every year by the college choir.

The officers of the club are Gary Allen Sexton, president; Carol Christensen, vice president; Veloyce Rowe, secretary and Carolee Blizzard, treasurer.

The meetings are held every other week in Ad-141 at a time specified in the weekly bulletin.

The sponsors of the organization are Malcolm Belford, Lowell C. Spencer and Walter Witt.

NEWMAN CLUB

Nine Central California Colleges, including Fresno City College, will send representatives to an all day leadership convention Nov. 7 at Saint Therese's church.

Sylvia Gagle, the president of the Newman Club, the Catholic organization at FCC, will be the local representative.

The speakers at the convention for the purpose of training club leaders will be Jack Markel of Long Beach, the immediate past national president of the Catholic organization, and Frank Guinn of Fresno, the head of the Academy Library Guild Book Publishing Company.

The Newman officers are Miss Gagle, president; Marge Villalobos, vice president; Irene Torres, secretary; and Bernard Sinor, treasurer.

Newman Club meetings are conducted every other week and the time and date will be published in the bulletin.

'GOBBLE HOP' IS DANCE NAME

The Technical and Industrial Club on the Fresno City College O St. campus will sponsor an after-game dance Nov. 7. The dance is to be a "Gobble Hop." A free turkey will be given to some lucky participant.

President Is Assisting State In Education

President Stuart M. White of the Fresno City College is a member of a new state-wide advisory group to assist the state department of education in developing a plan to use federal assistance for technical education in the state.

The National Defense Education Act of 1958 has allowed approximately \$170,000 to California for technical education during the 1958-59 school year.

The purpose of the act is to provide assistance to the state so that it may improve its vocational program in training youths and adults for useful employment as technicians or skilled workers in scientific or technical fields.

The advisory group met for the first time Oct. 13 at the American River Junior College in Sacramento. The meeting was called by Wesley P. Smith, state director of vocational education.

Smith said the meeting was convened because California must have an approved plan prior to the use of these funds. The state board of education is the final approving agency.

'Teahouse' To Be Big Drama Show

"I feel 'Teahouse of the August Moon' is the type of show that has appeal both for the student body and the community as a whole. In as much as this is the first dramatic production to be presented at Fresno City College, I endeavored to find a show that could stimulate interest and I found it in 'Teahouse'."

This was the reason stated by Clyde Sumpter, the director of the play and dramatics instructor at FCC, for choosing the production.

With the selecting of Wayne Cooke as Mr. Hokaida and Pamela Harper, Linda Anderson, and Larry Ward as the children, the cast for the production is complete.

The most sought after member of the cast and the hardest to find was the only four-footed animal in the play, the goat, and with the help of Florence Harper, a member of the crew, one was located.

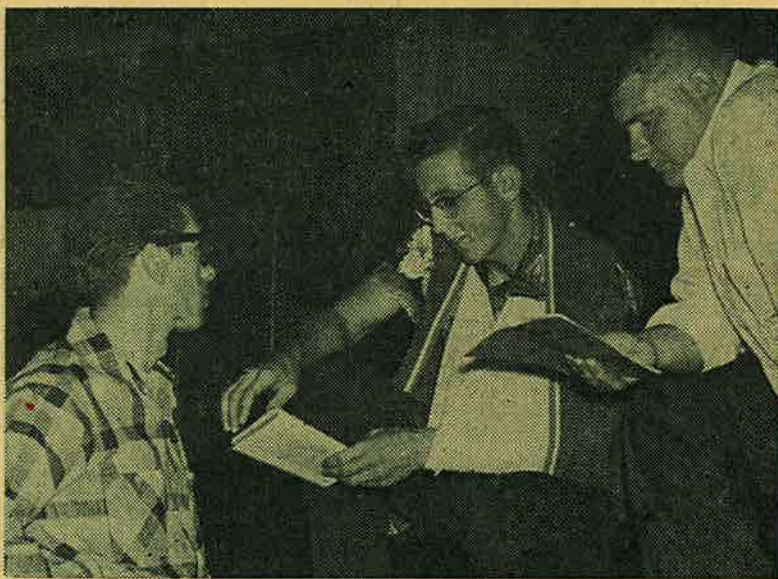

Sumpter said that "We hope we have found a gentle goat and that he will be under the management of Mrs. Harper for the duration of the play."

The crew heads are production manager, Carmen Eanni; stage manager, Ted McCaleb; stage craft, Charles Titus; costumes, Betty Ward; properties, Daleen Brumfield; publicity, Larry Vance; tickets and program, Dave Kel, and scene design and painting, Sue Brown.

Any student who is interested in working backstage for the duration of the play is asked to contact either Sumpter or McCaleb.

The date for the play will be Dec. 11 through the 13th and tickets will go on sale the latter part of November.

PATRONIZE OUR ADVERTISERS

TEA HOUSE TRYOUTS—Clyde G. Sumpter, FCC drama instructor, listens to Glenn Marshall and Dick Bratcher, right, rehearse for Tea House of the August Moon. This play will be given Dec. 11, 12, and 13 in the FCC auditorium.

Interclub Constitution Promotes Cultural, Recreational Activities

By JOE ROMERO

The Interclub Council of the Fresno City College has a constitution for the purpose of promoting the cultural and recreational potentialities of the school. All recognized campus organizations are eligible for membership in the ICC, but subsequent to adoption of this charter, all applicants must follow the procedure put down by the constitution.

Clubs Represented in ICC

Each club holding membership will be represented by its president at Interclub Council meetings. All clubs will be accorded one vote in Interclub Council meetings.

Club representatives to the ICC shall not be a voting member of the student council. Meetings by the ICC will be held once every two weeks.

The specific concerns of the council will be to investigate all questions dealing with the rights of member clubs and, in general, supervise overall activities not otherwise specified. It will decide whether a club has a purpose and is a necessity to the school in order for it to be granted a charter.

All clubs on campus will be subject to disciplinary action by the ICC. All revisions of member club constitutions must be approved by the ICC. Social events held by member clubs will be arranged in collaboration with the dean of women so that there will be a

minimum of conflict among club activities.

Fall semester officers of the ICC are president, Richard Dillon; vice president, Douglas Eudaly, and secretary, Gerry Alexander.

Club Requirements Listed

New clubs interested in forming must meet the following requirements: 1. Have had a planning conference with the dean of women. 2. Have two faculty sponsors who are approved by administration. 3. Constitution must be approved by sponsors and the dean of women. 4. Evidence of stability in membership, meetings and activities.

Lahanas Wins Tennis Title

Tom Lahanas defeated Serge Morales, on the Fresno City College courts, Oct. 28, to gain the FCC intramural men's tennis championship. The scores, in the best two of three sets, were 8-6, 7-5.

Amy Yamaguchi won the women's crown by defeating Judy Daily, 6-2, 7-5.

Exchange Notes

FSC Will Occupy Halls

The Fresno State College Collegian announced that the first three residence halls at the college will be occupied next fall.

SANTA ROSA JUNIOR COLLEGE

"Addresses of certain Joudanian, Syrian, Lebanese, Bahrainian, and Egyptian boys and girls will be available to all SRJC students who would like to write," states the Oak Leaf.

CHAFFEY COLLEGE

The Collegiate Press announced plans for foreign study scholarships for graduate study abroad.

REEDLEY COLLEGE

The Reedley College Jungle Chant states that the RC library now has 6,000 volumes of books, pamphlets, and periodicals available for college students.

Student Employment Can Be Made At Fresno CC

Students who desire part-time employment should make application through the college employment office or through the dean of men.

Placement of graduates and those students who are ready for employment in particular fields is handled through the business education division and the technical and industrial education division.

FCC Physics Instructor's Father Dies Of Bad Heart

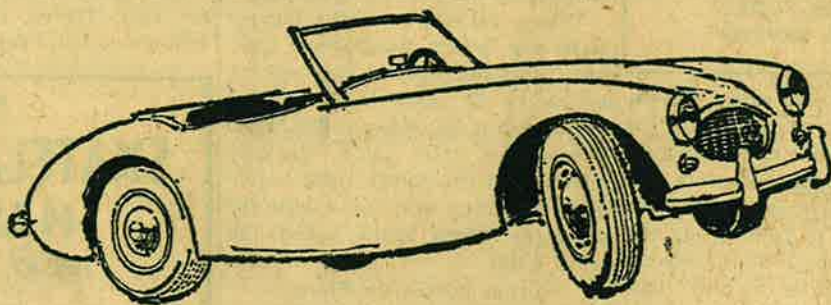

Ray Cramer, 53, the father of a Fresno City College physics instructor, Ray C. Cramer, was dead on arrival at the Fresno County General Hospital last week after he suffered a heart attack in his home at 580 East Scott Ave.

Cramer had suffered from a heart condition for several years. He was born in Oregon and had lived in California since 1953 and in Fresno for about two and a half years.

Funeral services were held last Monday in Easley's Funeral Home.

Besides his son in Fresno, he is survived by three sons and two daughters in Oregon and one daughter in San Francisco.

FCC, Tigers Will Vie At Reedley

By MONTE HORNER

The Fresno City College Rams can cinch a tie for the championship in the Central California Junior College Athletic Association race by beating the Reedley College Tigers in Reedley Saturday night. Game time is 8 PM.

PETE MEHAS
FCC Center

PETE MEHAS SPARKS RAMS

One of the unsung heroes of the grid-iron sport is the man in the middle of the line who handles the ball on every play but almost never gets in the scoring column.

The unsung hero on the Fresno City College squad is Pete Mehas, the six feet, two inches, 290 pound center from Fresno High School.

Last year he was elected by the Associated Men Students as the athlete who participated most in school activities. He was elected commissioner of athletics, and he's also a member of the school choir. He has maintained a B average.

More about Mehas:

He'll probably go to the College of Pacific next year and major in physical education.

"The football team has greatly appreciated the school spirit displayed this year, especially at the Homecoming," he said.

One of his fondest ambitions is "to snap the ball like Handley."

"The team has grown to appreciate Greek cheese," he claims.

Foot Notes

By RUSS FOOTE
SPORTS EDITOR

About the end of every December, the sports writers around the country pool their talents and select who they consider were the outstanding athletic-type-heroes for the past year. I'm pooling my talents (shallow pool) and choosing who I consider to be the best, right now.

The way I'm turning out this garbage every week, there's a fat chance I'll still be sports editor in December.

The Athletic-type-heroes:

Athletic Supporter of the Year: Mrs. Zelda Furd, who hasn't missed a night at her hometown ball park in seven straight seasons despite the fact her hometown doesn't have a baseball team.

Most Versatile Athlete: Mel Coznowski, who participated in nine varsity sports at Intoxicated State; unfortunately he was lousy in every one and spent most of his time on the bench.

Most Outstanding Performance: The fantastic triple-backflip dive off a three meter board by Bubbles LaVerne at the national aquatic championships. Bubbles couldn't swim at the time and hasn't participated since.

The Best Sport: Anybody who has the patience to read the above mess.

The Rams received some able assistance from the Taft College Cougars, who downed previously unbeaten Porterville, 19-6, last week, while Reedley took a thumping from the College of the Sequoia's Giants.

Coach Hans Weidenhoefer's charges should be in top physical shape for the contest. Reedley has been plagued by backfield injuries all year. The Tigers lost the services of three top backfield candidates early in the season.

May Be Problem

At the present time Cliff Stahl and Chuck Garrigus are the top running and passing threats for the Tigers, and along with the stellar line play of tackle Gene Ross, could pose a big problem for the Rams in the fourth league encounter for both teams.

The Rams will have the services of all their backs with the exception of Dennis Houx, who is on the injured list.

Vestee Jackson, Willie Turner and Joe Paris lead the team in rushing with 248, 138, and 135 yards, respectively.

Dick Van Galder, with a passing record of eight completions in 23 tries for 118 yards, will quarterback the team.

FCC Rams Down Coalinga 26-0

By DAV HANNA

The Fresno City College Rams whipped the Coalinga Falcons, 26-0, Saturday night in Coalinga.

The game featured the hard running of the Ram backs and the stalwart defensive play of the linemen. The Rams rolled up 363 yards rushing to only 97 for Coalinga.

Vestee Jackson was the biggest Ram gun which bombarded Coalinga. Jackson opened the scoring by racing 51 yards in the second period for a touchdown. Bill Ergo kicked the extra point. Jackson also scored the Ram's third touchdown by going over left tackle for 60 yards. Ergo again added the extra point.

Turner Scores On Plunge

Willie Turner countered for the Rams in the second quarter on a four yard plunge. The 57 yard drive was featured by a 22 yard yard run by Turner. The attempt for the PAT was missed.

The Ram's last touchdown was scored in the fourth quarter by Joe Paris an eight yard run. The drive was featured by a 25 yard run by Jackson and a 15 yard pass from Dick Van Galder to end Don O'berg.

Coach Joe Kelly's 1957-58 basketball squad which finished with an eight win, four lost record in Central California Junior College Athletic Association play.

Newcomers Form Nucleus Of FCC Ram Basketball Squad

Although the football season is still shy of its finishing stages, the Fresno City College basketball coach, Joltin' Joe Kelly, has sounded the call to his young cagers to commence practice for the 1958-59 season, which promises to be one of experimentation for the veteran Fresno mentor.

Some of the finest frosh prospects in the San Joaquin Valley will form the nucleus of the Ram squad this year. However, five lettermen are back.

Guard George Sarantos and forward Frank Johnson are the returnees who saw the most action last year. Other lettermen are

Mike Siegel, Jack Peters, and Larry Scott.

Washington Union Candidates

Three top newcomers to the Rams will be Lee Stark, Chet Bishop, and Darnell Mikel from Washington Union High School in Easton.

Again, as in the last few seasons, Kelly will lack a tall man to take charge of rebounding. He'll also face an arduous task of replacing last season's leading scorer, John Hampton.

Other candidates for the squad, which is conducting its workouts in Frank H. Ball gymnasium, are:

Sylvester Pointer, Wallace Kelly, Raymond Shaw, Chuck Lowe, Clois Dansby, Ray Johnson, Bob Roberts, Bill Martin, Dave Hunter, Everett Cowings, Bill Hodge, Willie Wheaton, Henry Hicks, Ray Allen, Mike Magdaleno, Dave Bern, Lazaro Reyes, Chuck Ellison, Dick McMahon, Fernando Macias, and Joe Marrett.

Opener on Nov. 29

FCC will open its 24 game schedule at Azusa on Nov. 29 against Citrus Junior College.

The probable starting line-up for the opening game will include Lowe, Sarantos, Mikel, Bishop, Stark, and Johnson.

Rams Meet Stockton Squad In Water Polo

Coach Paul Pastor's Rams will meet the Stockton College Mustangs tomorrow in the Fresno High School pool at 4 PM.

The Mustangs are coached by Bill Anttila, who also coaches the College of Pacific Tigers.

The tentative starting lineup for the Rams is Frankie Franco, goalie; Chuck Hitchcock, right guard; Darrell Price, right forward; Chuck Polley, center forward; Connor Sutton, left forward; Steve Brooks, center back; and Ben Tayan, left guard. Also playing will be Dick Bratcher, Jon Johnson, Ivor Hoffman, and Bill Raddatz.

The Rams last week lost an exhibition game to the COP Tigers, 18 to 2. Brooks and Sutton each scored one point for the Rams.

FCC HARRIERS LOSE IN SALINAS

The Fresno City College cross-country team, still seeking its second victory of the season, will journey to San Jose Saturday for a scheduled dual meet against the San Jose Junior College squad.

Coach Erwin Ginsburg's Ram rummers finished third in a three way meet at Salinas, Saturday. It was the second setback of the year for the FCC harriers after a win in the season's opener at Modesto.

Hartnell Junior College finished first at Salinas with 25 points; Vallejo had 50, and Fresno 71.

Buss Helm led the Ram finishers by placing seventh. Paul Richardson was eighth, Jerry McPherson, 16th, and Jess McFerren, 22nd.

Bill Tuck strode in 18th on the 2.7 mile course.

Next to Ratcliffe Stadium, Fresno
