NUMBER 1

Increase Credited To War Situation

Viet Nam is given credit for a 13 per cent increase in day student enrollment at Fresno City College.

"Due to the war situation many more students returned to college than normally would have," explained George C. Holstein, dean of admissions. "We have 50 routing envelopes in our office carried by students who couldn't get their classes and gave up."

The top day enrollment is 4,700 versus 4,154 for the fall of 1964 while night enrollment totals 2,800 to 2,600 for last year.

Deadline for enrolling in day classes was Sept. 8 while the cut-off point for night classes was Sept. 14.

An increase of 8 per cent enrollment in evening classes was not attributed to the "draft scare" by Robert M. Kelly, dean of night instruction.

"Most people taking night classes are taking only one or two courses," stated the Dean. "This has little effect on the draft since they are taking less than a full load as defined by the military."

As the deadline for enrollment neared, Alvin E. Perkins, FCC counselor, noted that students took everything and anything available to gain admission and avoid the draft.

"Applicants said they wanted 12 units and they didn't care what it consisted of. Some took mathematics 41 and 42 (slide rule) plus bookkeeping machine operation and nursing."

Perkins thinks that most students were successful in obtaining a reasonable program.

Enrollment proceedings were held for day and night classes in the cafeteria from Aug. 16 to Sept. 2. The 2,000 returning FCC students were given priority in obtaining early line cards.

Last minute enrollment was held in the auditorium last week to handle conflicts and errors in class schedules.

Supervisors Discuss JC Enrollment

State Center Junior College District board members met in the library last Thursday evening to discuss ways of dealing with the district's mushrooming enrollment.

The day school enrollment of 4,649, an increase of nearly 500 over last fall's enrollment, demands immediate action.

The meeting was called as a result of a "Space Adequacy Survey" by Supt. Stuart M. White. It was he who recommended seeking advice from Dr. Elwood H. Lehman, a junior college planner with the state department of education.

White brought five plans before the board. Of these, he recommended the first which provides for a maximum enrollment of 6,000 at FCC, 3,500 at Reedley College and a third campus to handle up to 5,000. This plan would require the acquisition of 43 acres — 11 for buildings and 32 to be used for parking facilities.

When the question of financing arose, Lehman recommended a bond issue as the least expensive plan. Both he and White advised the board to plan at least 25 years ahead, taking into account a projected enrollment of 15,000 students in ten years.

Don Perry, Kay Niroli, Jim Shipman and Jim Pacini, Ramburger Round-up committee members, enjoy themselves during a free moment.

FCC Faculty Enlarges With New Positions

The faculty of Fresno City College has been increased by 33 new members this semester, bringing the faculty to a strength of 180 members. Of the new staff, 21 members are filling newly added positions, to cope with the demands of the greatly increased enrollment.

Prominent among the new faculty members are Allen H. Miller of the biology department and Dr. Lucille Allen of the Counseling staff.

From Australia

Miller, who is an exchange teacher from New South Wales, is taking the place of Dean Peffer who is presently filling Mr. Miller's post in New South Wales.

Dr. Allen, who has a doctorate in student relations has joined

FCC's counseling department. Dr. Allen was formerly with Stanford University as the dean of women.

New Faculty

Other new faculty members and their posts are Mrs. Mary H. Anderson, English; Fred W. Bartels, physical education; Paul M. Bruns, chemistry; Mrs. Norma Carperter, home economics; Mrs. Thelma L. Davy, English; David Dickie, mechanical technology; Robert L. Dinaberg, physical education; Alden K. Edgar, secretarial science; Gonzalo Estrada, English; Richard Hanson, psychology and sociology; Alfred J. Herrera, assistant librarian; Laurene J. Huff, business administration; Ronald M. Knaus, biology; Rodney L. Krueger, art; Vivian Latondresse, registered nursing education; Theolore A. Locker, English; Philip McElroy, history; James A. McHenry, biology; Theodore Moranda, history; William D. Musick, physical education; Albert C. Odahl, business; John R. Peterson, mathematics, physics, and engineering; James K. Piper, English; Earl Pugsley, police science; Eric Rasmussen, counseling; John Ryska, counseling; Dorothy E. Turner, registered nursing education; Carl Waddle, Spanish; Mrs. Georgene Wiedenhofer, physical education; Orlien Willoughby, business administration; and Charles Wright, speech.

Archie Bradshaw, Fresno City College president, conducted the first faculty meeting of the year Sept. 1. The new members were introduced and a luncheon followed the meeting. Bradshaw also introduced members of the administration.

Faculty To Cater At Ram Barbecue

Ramburger Round-up, Fresno City College's first social event of the school year, will invade the campus Saturday from 4:30 to 12 PM.

The annual festivity, which finds the faculty catering to students, will feature an added attraction to the already long list of activities.

This year's Round-up will feature a march to Ratcliffe Stadium to watch the Ram football team kick off its home season against Los Angeles City College.

"This will be one of the biggest student functions of the year," commented Don Perry, co-chairman for the event. "Everyone is invited to come."

He estimated 2,000 students will attend the event.

"Emphasis on the Round-up will be to meet other people," warned Perry. "If you take a date, you will only be cutting down on your chances. Many will come stag."

Dress for the day will be casual school attire.

The barbecue, which gets the activities underway, will be held between the Cafeteria and the Student Union. Faculty chefs will start serving at 4:30 PM.

Food and refreshments for the funfare will include barbecue beef Ramburgers, potato salad, pork and beans, coffee, milk, soft drinks and ice cream.

Entertainment during the barbecue will be provided by the Dillards, a folk singing quartet composed of Douglas and Rodney Dillard, Dean Webb and Mitchell Jayne.

During the Round-up, students will get a chance to meet the student body leaders, the pep girls and yell leaders and will be introduced to the extra-curricular activities of the college.

After the game all will meet back in the Social Hall and patio for a 10:30 to 12 PM dance featuring the Legends which will bring the evening's activities to an end.

Members on the Ramburger Round-up committee include Jim Shipman, facilities and co-chairman; Myra Aten, food; Perry, entertainment; Ron Winter, tickets; Pat Lane and Kay Niroli, publicity; Edith Hughes, booths; Carol Andrews and Miss Doris Deakins, personnel.

Deadline Set For Stickers

By Oct. 22, automobiles parked on the Fresno City College campus will sport a new look. This will be parking stickers.

Richard Cleland, dean of men, said, "They must be obtained by every student driving or parking an automobile on campus properly."

The permit is to be placed in the lower right-hand corner of the front windshield. To obtain them, students must fill out applications and return them to Cleland's office, Room 128 of the Administration Building.

The ruling is part of the new policy on the operation of motor vehicles on campus put forth by the State Center Junior College District Board of Trustees.

Students not acquiring the permit by Oct. 22 will not be allowed to drive or park on campus. The ruling will be enforced by the city police, who, as part of the new policy, will enforce all aspects of the California Vehicle Code on the college campus.

President Notes Semester Woes

Archie Bradshaw, Fresno City College president, will be faced with many problems during the semester.

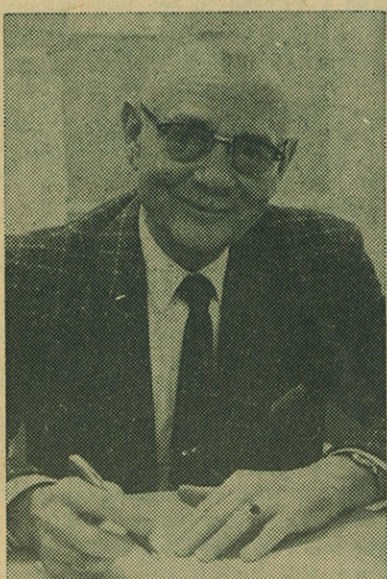

Among them are how to solve the inadequate parking facilities and the need for additional classrooms.

With the increased enrollment, Bradshaw said the main problem to be faced will be the parking problem.

"Right now there are over 4,600 day students at FCC," he said. "If 74 to 78 per cent of them drive cars it is easily seen there will be an acute parking problem. Many students can expect to walk six blocks to school."

The other major problem to be faced in the near future is the need for additional classrooms and teachers.

"The building needs are becoming acute," Bradshaw explained. "For six thousand students (including the night students) there will be a need for two additional buildings, one being a math, sci-

ARCHIE BRADSHAW

ence and engineering building and the other a letters and arts building that will double as a theater-auditorium.

"McLane Hall and the Admin-

istration Building need to be remodeled and the library facilities should be extended."

He estimated the total cost for additional buildings and repairs would run to \$3,860,000.

In a price breakdown for the needed improvements, Bradshaw gave the following account:

"The landsite would be \$550,000 with parking facilities running up to \$3,160,000. This would also include the cost of land, lighting, paving and landscaping.

"Beside the need for more classrooms," Bradshaw added, "there will also be a need for more instructors to go along with the classrooms.

"Another of the problems facing us," he said, "will be the expansion of more general education courses to meet the needs of transfer and degree requirements.

"However, before anything can be done, we will have to wait for the money and time."

Draft, Possible Explanation For Enrollment Increase

A few weeks ago, President Johnson announced his decision to accelerate the selective service to include all physically fit single males between the ages of 19 and 25.

Minutes after the Johnson "draft scare," thousands of shocked eligible bachelors grabbed their favorite girls and rushed off to the nearest justice of the peace in a frantic effort to beat the President's midnight deadline.

Some were fortunate enough to make it. Most, however, were not. In a desperation attempt, they turned to their last hope of refuge: college!

Because the higher academic admission requirement of the state colleges and universities prevented their entrance, many of them flocked to the junior colleges with less rigid entrance standards and inexpensive tuition fees.

What resulted from all this, at least at FCC, was a large increase in enrollment, an increase far greater than had been expected. It is realized that more students are attending college because of the greater increase in population but this in itself does not account for the great college boom. The facilities have now become cramped.

Ron Primavera Discusses FCC Cafeteria Condition

This space is usually reserved for a welcome message from the Associated Student Body President. This semester I will take this opportunity to deliver a message other than welcome to Fresno City College.

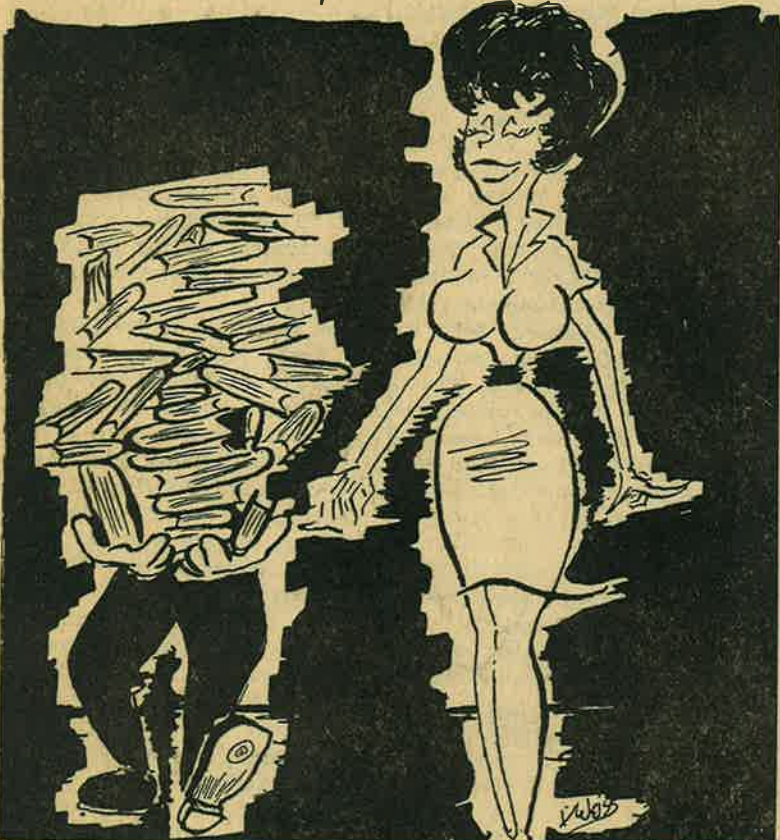

For some student's information this is a junior college not a junior high school. You are college students, not junior high school students.

The condition of the cafeteria is uncalled for. That is a \$1.2 million dollar building that is run for you and by you. The money that is used to operate the cafeteria is **your** money. Therefore by treating the cafeteria properly you are protecting a personal investment. Do you treat your car, your home, and your other belongings as you do your cafeteria? I doubt it!

Grow up people! You are to be the leaders of tomorrow. How will you lead when you can't follow? Show the world that America's changing student is changing for the better not the worse.

Ron Primavera
Student Body President

SHE ONLY HAS ONE CLASS, BUT SHE WANTS HIM TO FEEL USEFUL

Town Hall To Grant Discounts

The San Joaquin Valley Town Hall is offering a student discount for its 1965-66 series of lectures. Any student who holds a student body card will be admitted to the lectures for 35 cents for each program, to start at 10:30 a.m. at the Fox Wilson Theater.

Dr. Helmut R. Boeninger, a student of modern German culture, will speak Oct. 27 on The Fate of the Intellectual Under Communism.

Martha Roundtree, political writer and commentator, will speak Jan. 19 on The Press: Its Freedoms and the Danger It Faces Today. She is the producer of a daily National Broadcasting Company radio program, Leave It to the Girls, and is editor of Ammunition, a weekly newsletter.

Humor In History

The third speaker, Stringfellow Barr, whose topic is Let's Join the Human Race, is known for his ability to add humor to matters such as history, education and literature. He is scheduled to speak on Feb. 23.

On March 16 Simeon Booker will lecture on After Civil Rights, What? He now serves as Washington and White House correspondent for Ebony, Jet, Tan and Negro Digest.

Eisenhower Aide

Dr. Arthur Larson will speak on Practical Programs for Peace Mar. 23. He was undersecretary of labor and as director of the U.S. Information Service under the Eisenhower administration.

The sixth speaker, Dr. Robert A. Scalapino, is a member of the political science department of the University of California at Berkeley. For many years he has traveled throughout Asia and Africa.

His topic Apr. 13 will be What Chance for Democracy in the Afro-Asian World?

The Town Hall series will close May 3 with a lecture by Joseph C. Harsh, a 34-year veteran of news reporting experience.

New Editors, Staff Chosen

The Rampage, FCC's weekly newspaper, will begin publication today with the largest staff in its history. The staff includes 40 editors and staff members.

Fall semester editors are Louis Bell, editor-in-chief; Dennis McCarthy, managing editor; Paul Sullivan Jr., city editor; Kathy Moulthrop, feature editor; Sandy Dralle, news editor; and Vern Peters, sports editor.

Other editors are Sandy McClurg, copy editor; and Lori Lawson, club news editor.

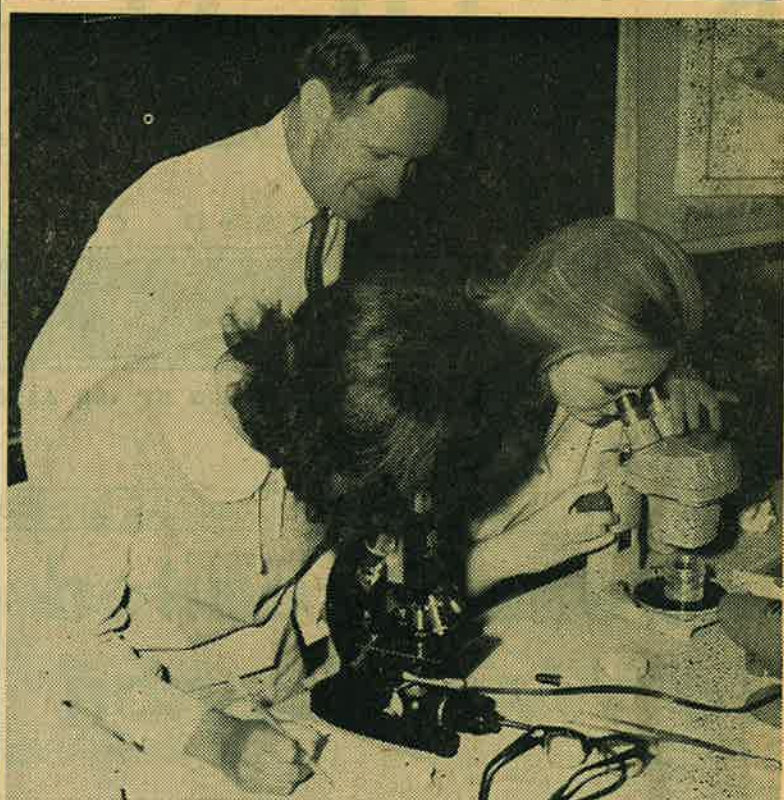

The reporting staff includes Gary Jepson, Thomas Arriet, Barbara Gnagy, Nancy Gomez, Kathy Hammond, Wayne Heple, Vivian Johnson, Spencer Kendig, Dana Mount, Lynne Okamoto and Elberta Hurst.

Also reporting are Mary Ann Poor, Daniel Sharum, Julia Torres, David York, Nellie Bonilla, Jo Rene Miller, Grant Sims, Tyree Verner and Howard Saiki.

The business staff includes Helen Rohrig, Stephen Davis, Laurence Morrison, Richard Hill, Rudy Wagner, Judy Speegle, Lydia Banuelos, Linda Yazigian, Anna Epp, Sharon May, Dennis Johnson, cartoonist; and Thomas Sovulewski, photographer.

Phil Smith is the Rampage adviser.

Free copies of the paper will be distributed Thursday afternoons in the cafeteria, Student Center, gymnasium, Administration Building and McLane Hall.

Australian exchange instructor, Allen Miller, helps Karen Bays and Marie Tobay with biology work. Miller is teaching at FCC on a Fulbright Fellowship.

Australian Instructor Here On Fulbright

After waiting for three years Allen Miller has arrived in America as an exchange instructor under the Fulbright Teaching Fellowship program.

Miller, a native of New South Wales, Australia, will teach biology at FCC this year. He is taking the place of Dean B.

Peffer, FCC biology instructor who is spending the coming year teaching in Australia.

Not only have they exchanged jobs, but homes as well. Miller commented that the difference in houses is "not very great . . . they're all so flat here." There is more air conditioning and central heating here, while in Australia it is considered to be a luxury.

Miller's family will join him shortly and remain here until he returns to Australia in August of next year.

Before coming here he taught in the city of Annidale, Australia. He received his degree in education at Sidney University and did post graduate work at the University of New England, also in Annidale.

As to any great differences between the students of Australia and America Miller has found few except, he said, "The accent, of course and the boys look a bit different here, shorter hair. Surprisingly there is little difference in the girls."

"The United States and Australia are similar in many respects," said Miller. "That is one of the reasons I chose to come."

"Another reason is that the United States leads us in many fields of science and education, and I wanted to see how science teaching is done in the colleges and schools of America."

Yearbook Dropped For Magazine

A new look in the Fresno City College Ram for 1966. A 96-page soft cover magazine will show the activities of the students on the FCC campus. The former hard back is being replaced.

The new Ram will be both picturesque and imaginative, according to Tim Welch, faculty adviser. It will be released by subscription in September, 1966, to the student body. September issuance will permit the Ram staff to cover the entire school year.

This new look, according to Welch, is becoming increasingly popular among the 70 public junior colleges in California. It is estimated that 25 to 30 per cent have already made the change.

Teacher Relates Summer Travels

Mrs. Flo H. Brenninger, an instructor of English and speech at FCC, spent her summer at Oxford University in England, studying the history of the English language from 1870 to the present.

Mrs. Brenninger, whose studies were conducted at Exeter College of Oxford University said, "Between Oxford University, where I studied, and Cambridge University there are nearly 30 small colleges. The colleges in England don't operate on a semester basis and have no grading system."

International Flavor

Commenting further on the scholastic differences Mrs. Brenninger said, "The students there study under a tutor and attend lectures at their discretion. Not only was their method somewhat different, but an international flavor was ever present because of people from all over the world."

Moving away from the topic of her studies, Mrs. Brenninger said, "The rooms we stayed in are very old and at one time they were occupied by famous men. One of the rooms had the desk that Johnson once used."

English Dictionary

"Johnson, you know, was the man responsible for one of the first dictionaries. Things like this made my stay much more romantic."

Mrs. Brenninger said that the British carry camp chairs, gas burners and tea pots in their cars. Whenever they find a nice spot in the countryside, they stop for tea and have a picnic.

Inexpensive Travel

A person can spend the night in England for as little as 50 cents. He usually would stay in a bed and breakfast hotel, which is really a boarding house. Many of the British travel this way because they get a chance to meet more people.

Mrs. Brenninger enjoyed her summer in England very much and emphasized that, "Every American should study in Europe."

The line of students leading from the bookstore is evidence of the overcrowded conditions at city college. Seven thousand-five hundred students have registered for fall semester classes. The bookstore hopes to relieve the pressure by moving the store to the old cafeteria during the semester.

Criminology Division To Organize Patrol

The police science department has presented a paper, proposing the organization, the utilization, and the function of a campus police unit at Fresno City College.

The unit is organized as a four semester class limited to police science majors. The class is open to students through application and is limited to 10 students for the fall semester.

The application form asks for personal background, records of employment, military background, record clearances by local, state and federal agencies and a complete physical examination administered at the student's expense.

Patrol Duties

The principal functions of the force are traffic control and order at campus activities. Typical duties of the campus policemen are issuance of citations to traffic offenders on campus grounds, the

policing of crowds and traffic at athletic events, the supervision of the parking lot and campus grounds at large social or community gatherings, the patrol of campus on weekend evenings, the provision upon request of security for valuable display items, the preliminary investigation of on-campus incidents, the provision of direction and information when large gatherings of persons unfamiliar with the campus are present, the activity of security officer in the book store during registration.

Funds which will be necessary to initiate this program are being sought from the student council. The reasoning behind the request for money from the student body treasury is that since the program is being established for the order and protection of the student body, it is fitting that the initial funds for the program come from the student body.

Initial Expenses

The initial loan will be spent for the purchase of a jeep or a three-wheeled Cushman scooter and other equipment necessary for a well equipped policeman. This loan would be repaid through the collection of fines for traffic offenses.

The campus police unit has been approved by the administration of the college. In order to insure an efficiently run program, a campus police commission will be established.

The campus police unit will become operative later this semester.

Members Appointed To Council

The Student Council completed their second meeting of the semester Tuesday. These appointments were made: Phil Nava, representative at large; Judy Evert, commissioner of scholarship; and Terry Eville, commissioner of assemblies.

New committee members are finance, Myra Aten, Al Fox; blazers, Miss Aten; constitution, Jim Pacini, Darryl Kahn, Suzanne Moxley; by-laws, Pat Lane, Buddy Tackett, Nancy Bryant; elections, Joyce Miles, Jeff Grant, Shirley Munson.

It was resolved that the cigarette machine located in the student center be repaired and moved to the cafeteria foyer.

New Appointments

At last week's Sept. 14 meeting these appointments took place: Commissioners; Shirley Munson, student welfare; Jim Pacini, athletics; Paul Sullivan Jr., publications; Kay Niori, publicity; Gary McCurry, Ram spirit; Edie Miles, elections.

New representatives at large are Jim Melikian, Kahn and Jeff Grant. The student body treasurer is Linda Wood, Don Perry is AMS president.

Ron Primavera was elected Area Five president of the State Center Junior Council District by general consent of the council.

Conference Electors

Officers of the 34th Central California Junior College Student Government Association Area Five Conference, to be held here Oct. 23, are, Vice President Lynn Irons; Treasurer, Myra Aten, Secretary Mary Cabera.

Kenneth C. Clark, an FCC psychology instructor, is the new Student Council advisor. Clark is taking the place of Joe King, who retired from the post after 17 years.

He stated: "Thank goodness, we have a group of fine people to work with. Mr. King is helping in every way possible."

The 39th biannual California Junior College Student Government Association conference at Palm Springs Apr. 22-24 was dedicated to King after "17 years and 34 conferences of service."

Supervisor Sets Talk On Law Enforcement

Resolved: That Law enforcement agencies be given greater freedom in the investigation and prosecution of crime, the intercollegiate debate topics of the year, is the topic chosen for presentation by three guest speakers of the Fresno City College debating class.

Fresno County Supervisor Jefferson Haesly will give his presentation Monday. Speakers who have already presented their views on the subject are Capt. Alfred Ellis of the Fresno City Police Department and William C. Daly, assistant district attorney of Fresno County.

All FCC students and faculty members are invited to attend Haesly's presentation in Room 218 in McLane Hall at 10 AM on Monday.

Unruh To Head Education Group

A 10 man joint committee established by the 1965 California Legislature to investigate possible changes in California's Master Plan for Higher Education met for the first time early this month in Sacramento.

The committee members, who represent major geological areas in California, elected Assembly Speaker Jesse Unruh as their chairman. Unruh's resolution was the spark that created this committee.

Notes Purpose

He stressed, that although it was established after the recent student demonstrations at Berkeley, its formation was not a direct result of these disturbances. The entire state college and university system will be investigated.

The committee's aim is to select an executive director for the study.

"We need a man who can command the respect of the state educators as well as the resources of state government," said Unruh.

National Figure

"Our selection must be a person with nationwide repute, and in order to insure a completely objective study he should not be closely identified with higher education in California."

"The people of California have a vital concern in the work of this body. Years ago California embarked upon the most ambitious experiment in public higher education ever attempted. Yearly, the Legislature appropriates over half a billion dollars for higher education alone, while more than 300,000 students are educated on 26 campuses spread throughout the state."

State Membership

Assembly members of the committee include Speaker Unruh (D-Inglewood); Assembly Speaker Pro Tempore Carlos Bee (D-Hayward); James Mills (D-San Diego), the chairman of the Assembly Rules Committee; Robert Stevens (R-Santa Monica); and

Gordon Duffy (R-Hanford, Kings County).

Senate Members of the committee include Senate President Pro Tempore Hugh M. Burns (D-Fresno); Albert L. Rodda (D-Sacramento); Eugene McAteer (D-San Francisco); John Holmdahl (D-Oakland); and Donald Grunsky (R-Watsonville).

Campus Corner

By LORI LAWSON

Many club activities are offered to the FCC student. Among them are the International Club, the Campus Religious Association, and Alpha Gamma Sigma.

The International Club is open to all students who are interested in strengthening foreign relations and meeting students from other countries and cultures.

The Campus Religious Association offers to the students of all religions a chance to discuss with others the differences in the religions of present-day society. The association will also show films dealing with the problems of a modern society.

The first film, "Tangled World," will be shown today at noon in room 158 of the Administration Building.

Alpha Gamma Sigma is the FCC scholastic honor society. To become a member a student must achieve a 3.0 scholastic average and must have no grades of D or lower.

The Campus Corner is requesting the sponsors and officers of all clubs to appoint publicity chairmen. This would enable the Rampage to give better publicity coverage to all the clubs on campus.

Today at noon a luncheon was given for the club advisers and officers of Fresno City College. The luncheon, the first in two years, was held in Committee Room A in the cafeteria.

Twenty-eight clubs were represented and seven new club advisers were introduced. The new advisers' and sponsors' handbook was given to the representatives of each club. One purpose of the handbook is to explain procedures in dealing with FCC administration and how to operate a club properly and efficiently.

Dependents Receiving Extension

Fresno City College students who were receiving benefits that ended when they became 18 may now be able to again receive these benefits after filing an application with the district social security office.

Under the recent 1965 amendment to the Social Security Act the age limit for children's monthly benefits has been extended from the age of 18 to 22 for full-time students. Benefits are payable to students whose parents have retired, died or become disabled.

Withholdings

The change in the social security law is retroactive to Jan. 1965. If a student was under 22 in any month since last January and attended school during any of those months, he might be eligible to receive some benefits.

The social security law permits a student to earn up to \$1200 per year without any deductions. Should the student's gross earnings exceed \$1200 per year, prorated benefit deductions are made.

Details

Any City College student desiring further information regarding the change in the social security law may contact the local district office of social security.

All inquiries regarding eligibility, payment and applications may be taken care of through the district office. The office is located at 650 North Fulton St., telephone 266-8071.

Rams Rip SJCC For 24-13 Victory

The Ram defensive backfield shows itself to be aggressive during practice sessions as they prepare for this Saturday's game against the Cubs of Los Angeles City College. It was this type of action that enabled them to win their season opener.

Huneke Leads Water Polo Team To First Win

The Fresno City College water polo team will have its home opener this afternoon as the Rams take on the Fresno State College Junior Varsity at 3 PM in the local pool. The Rams got off to a poor seasonal start last Friday as the Jaguars of San Jose City College drubbed the Rams by the score of 24-6.

The Rams pulled themselves together the next day as they scored a near shutout against the Cabrillo College Seahawks of Santa Cruz in taking a 19-1 victory for their first win of the year.

Jay Huneke, an outstanding freshman from Roosevelt High, paced the Rams to victory with eight goals and received help from the veteran Mike Garrison, who chipped in five.

Coach Stephens, with four returning lettermen and a banner crop of freshmen, is confident that this year's water polo team can better the 1964 season record of four wins and 10 losses.

The team is still five short of having a complete 22-man roster. Coach Stephens is anxious to have any interested students contact him.

Returning for their second season are lettermen Mike Garrison, who is also a team captain; Dick McMath, Tracy Terzian and Tom Gross.

Harriers Eye First Meet In Reedley

The Fresno City College harriers, under the direction of new coach Bob Fries, will travel to Reedley College tomorrow to tangle with the Panthers at 4 PM on their grueling two and a half mile cross country course.

Coach Fries comes to FCC with an outstanding record. In nine years at Fresno High School, his cross country teams won valley championships five times.

Fries evaluated the potential of this year's Ram harriers. "The team is really looking good," he said. "We have four returning lettermen and six freshmen who have been doing a fine job. We should be real tough this year. I think we'll hold our own against the strongest teams in the league."

The leather-lunged harriers have been working out daily at Roeding Park and various golf courses to get in shape for the coming season. The workouts usually include about six miles of running, often with Coach Fries leading the pack.

The returning lettermen are Steve Garcia from Edison, a 9:41 two-miler who placed sixth in last year's Northern California Championships; Larry Stocks from Roosevelt, a 9:45 two-miler; John Begue also from Roosevelt, 4:23 in the mile; and Phil Martin from New Mexico.

First year men are John Garcia, Roosevelt; Alton Durst, Lorton; Ben Meniola, Central; Frank Lima, Roosevelt; and Leonard Casillas, San Joaquin Memorial.

Ratcliffe Stadium Site Of FCC-LACC Grid Tilt

Fresno City College football for 1965 makes its home debut Saturday night as the Ram eleven, fresh from a 24-13 triumph over the San Jose City College Jaguars, meet the Cubs of Los Angeles City College at 8 PM in Ratcliffe Stadium. The victory in San Jose was gratifying for head football

Coach Clare Slaughter and his first year assistants, Bob Dingberg and Bill Musick. Slaughter stated that there is no time to rest on last week's laurels though, for "from here on out the road is uphill all the way."

This week the freshman-dominated Rams face a more formidable opponent in LACC.

The Cub's line-up is filled with returning lettermen, many of whom participated in last year's 25-8 victory over FCC. It was the first of the two defeats the Rams absorbed during their 1964 championship season.

The win over SJCC was triggered by the aggressive play of the FCC defense and the hard running of veteran fullback Fred Figueroa.

The Ram defensive secondary, led by second-year cornerback Mark Bogdanovich, picked off five Jaguar aeriels. Bogdanovich put the Rams on the scoreboard for the first time in 1965 as he returned the first of his two interceptions 90 yards for a touchdown.

Fresno's offense against San Jose was centered about the fury of veteran Fred Figueroa. The 207 pound fullback smashed the Jaguar line repeatedly as he ground out 101 yards in 30 carries and scored two touchdowns.

Los Angeles City College is blessed with six 240 pound or better linemen who alternate as the four men making up the middle defensive wall.

The Ram eleven will have their work cut out for them Saturday night, but Coach Slaughter stated "the Rams will be there to play winning football."

Intramurals Directed By Tackett

Intramural sports at Fresno City College for the fall semester will be developed under the direction of Buddy Tackett.

Tackett was appointed to this position last Thursday by Don Perry, president of the Associated Men Students.

The intramural sports program was initiated last spring in an effort to promote and improve school spirit. Despite apparent student interest the program barely got off the ground due to the introduction of the program at mid-semester.

The program for this fall is slated to involve basketball and volleyball.

Jim Pacini, commissioner of athletics at FCC, stated that the program is open to all FCC students, men and women. The AMS officers are hopeful that all campus clubs and organizations will participate.

Individuals who are not active in any campus organizations are eligible for the program too. All that is necessary are nine students willing to form a team.

Last year the Latin Club won the abbreviated season championship. As representatives of FCC, the Latin Club team traveled to Reedley to meet the winners of Reedley College's intramural program.

Anyone interested in joining the intramural program should contact either Tackett, Pacini or Perry in the student body office.

Grid, Hoop Games To Be Broadcast

A local radio station has come to the rescue of those Fresno City College football and basketball fans who are unable to follow the Rams in person.

The station's live, play-by-play coverage began with the broadcast of last Saturday's FCC-San Jose City College football game which was the season opener.

Scheduled for the coming weeks are the broadcast of seven more grid contests, and beginning in December the station will cover 17 FCC hoop games.

Only one football game will not be broadcast. That will be on the evening of Oct. 23 when the Rams are hosted by the Modesto College Pirates.

individuality

We can't draw a profile of our most successful agents. They defy generalization.

But some things about them do stand out common. A strong sense of purpose. Enthusiasm about their work.

Especially clear is the fact that they all derive great satisfaction from working independently in a service field.

If the opportunity to work and build on your own ability appeals to you, you should investigate our Campus Internship Program for careers in life insurance.

Training—as well as income—starts now. While you're at college, allowing you to make a proper career decision before graduation. Call us for an interview, we'll be glad to give you the details.
