

SAT Test Forms Now Available

Students wishing to take the Scholastic Aptitude Test may obtain application blanks and other necessary information in the Counseling Center, Room 118 of the Administration Building.

The SAT test takes three hours, and the first of a series will be administered on Saturday, Dec. 4, 1965. Four others are scheduled in 1966, Saturday, June 8, Saturday, Mar. 5; Saturday, May 7, and Saturday, July 9.

Fees for the test will be \$4.50. The last day to register is Nov. 6, for the December test. Any registration made after Nov. 8 will be fined a penalty of \$2.50. The closing date is Nov. 20.

Ability

The SAT is a three hour examination used to measure a student's ability in both mathematical and verbal skills. The verbal sections measures the ability to understand relationships of words and the ability of the student to comprehend what is being read.

The mathematical section tests a person's skill in the ability to reason with symbols and to apply these symbols to the problems.

In addition to the SAT, California is offering a special test for students applying for scholarships. The California Scholarship Commission is giving this special test.

Purpose

The purpose of this test is to award scholarships to qualifying students. These scholarships are made possible through funds appropriated by the legislature.

The test will be given on Nov. 6, and will be free.

Registration deadline is this Saturday, Oct. 9, and any late registrations will have to pay a penalty of \$2.50.

John Ryska is the counselor in charge of the tests. Application blanks and other information is available in the Counseling Center.

Town Hall Lectures Underway

Literature, The Arts and Communism was the topic of a lecture presented by Dr. Helmut R. Boeninger, first guest speaker of the San Joaquin Valley Town Hall.

The lecture was given yesterday morning in the Fox Wilson Theatre.

Dr. Boeninger, an associate professor of Germanic languages at Stanford University, discussed the fate of the intellectual under a socialistic type of government.

A native of Germany, Dr. Boeninger was director of Stanford's campus at Stuttgart, Germany for three years. He had access to special archives in the ministry at Bonn, the capital of West Germany.

Single student admissions to the remaining 6 scheduled lectures is 35 cents per person per lecture. Nonstudent tickets are \$7 a person, and luncheon tickets are \$2.25.

Presiding at the Area 5 conference are, from left, Ron Primavera, president; Larry Todd, parliamentarian, and Marie Cabrera, secretary.

Student JC Group Simplifies Constitution

The California Junior College Student Government Association, meeting last Saturday morning for its fall conference at Fresno City College, passed three resolutions designed to simplify the operations of student government.

Nine junior colleges were represented at the meeting at the Area 5 conference. The schools in addition to Fresno included Allan Hancock Junior College, Bakersfield College, Cuesta Junior College, Coalinga Junior College, Porterville Junior College, Reedley College, Taft Junior College and the College of the Sequoias.

CJCSGA conferences are held on a bi-annual basis. The spring conference will be held at Porterville Junior College.

Resolution One called for the revision of the present CJCSGA Area 5 constitution. It was resolved that a new constitution, proposed by the president's workshop, be accepted by Area 5 member schools and put into effect by Oct. 23, 1965. The workshop consists of all student body presidents from each of the nine member schools.

Make Easier

Resolution Two, designed to offset the many difficulties of the host school in planning area conferences, proposed that an instruction booklet on staging conferences be printed. The conference resolved that host schools shall record all procedures and operations in planning an area conference. This information, it was decided, would be transformed into an instruction booklet.

Each college hosting area conferences in the future will also be required to revise this booklet and to forward it to the succeeding host schools.

New Film

The third resolution proposed by the conference was that the CJCSGA finance a documentary film based on the proceedings of student government. This resolution concluded that there is insufficient understanding in the community of the role of student government and proposed that this role be clarified.

The conference was supervised by Kenneth C. Clark, Fresno City College student council adviser.

Ron Primavera, associated student body president presided over the Area 5 conference and Steve Noxon, associated student body vice president, headed the FCC delegation.

RJC Gets Play Offer

Janice Holmes, the student council's commissioner of oral arts, said at the student council meeting last week that the drama department is willing to send its play, Pierre Patelin, to Reedley Junior College.

This cultural gesture towards Reedley College might include a performance by the FCC choir.

Holmes' offer was discussed by the Student Council. However, no decision was made.

The proposal to send the play to Reedley will again be brought up at next Tuesday's student council meeting. If passed, a notice would be sent to Reedley.

Seeks Perplexing Answers

Hibler Probes Mental Problems

By LOUIS BELL

Now that the excitement of opening school activities has calmed and people are getting into the swing of things, many Fresno City College students may be wondering what will happen to them during the semester ahead.

In a special interview with Edward Hibler, president of the Fresno Mental Health Association and psychology instructor at FCC, the Rampage sought answers to some of the questions that might come up.

"According to a poll which I have conducted in some of my classes," said Hibler, "students consider pressure the major problem they face in college."

"This pressure," he continued, "comes a great deal from trying to get good grades, working part time or dating."

Hibler said that how well a person adjusts to these pressures will determine, to a large extent, how happy he will be in later life.

CJCA Convention Adjourns Today

Today is the last day of the California Junior College Association convention at the Fresno Hacienda Motel.

Delegates to the convention totaled nearly 500 and represented 75 junior colleges.

Delegates have spent the last three days discussing the convention theme of Unfinished Business: Continuing Challenges for the California Junior College.

Registration Extended Extra Day

Monday will be the last chance for Fresno City College students to register cars. Stickers will be available in Room 128 of the Administration Building.

"Although last Friday was the deadline, we have set aside this one day for late registration," explained Richard Cleland, dean of men.

He stated that policing of the parking area on University Avenue will not begin until the campus patrol has begun to function.

"When policing begins, those students without car stickers will be given fines," noted Cleland. "The fines will be handled through my office. Students will have to appear before me."

Earl Pugsley, coordinator of police science, stated that the campus patrol will begin operation in approximately one month.

Darryl Kahn, car sticker committee chairman, said that plans call for a contest to be held next semester to select new car sticker designs.

"Students will be asked to submit drawings of stickers using the Ram as the focal point," explained Kahn. "There will be three winners. A different design will be used for the next three years."

"After that we will use different color schemes to change the appearance of the stickers," he added.

Special Sessions

This week's convention was made up of five different sessions. Three of the sessions were held on Wednesday and dealt with, Research Needs and Opportunities to Implement More Realistically the Open Door Policy, The California Junior College at the Crossroads.

Dr. Archie Bradshaw, president of FCC, presided over yesterday's conference luncheon and speech.

Others Are

Other FCC faculty members in attendance were Robert Kelly, dean of the evening college, John McCuen, dean of instruction, Franz Weinschenk, president of the Faculty Senate; Joe Kelly, educational advisor; Timothy Welch, public information officer and Mrs. Betty Anderson, financial secretary.

Highlight of the convention was last night's panel moderated by Roger W. Heyns, chancellor of the University of California at Berkeley.

Discussion Topic

The panel topic was Collegiate Student Unrest: What Are the Implications for the Junior College?

Other panel members were Louis G. Conlan, president of San Francisco City College, Ronald F. Eberhart of Merritt College; Charles H. Haight, College of San Mateo and Arleigh Williams, University of California at Berkeley.

EDWARD HIBLER

"It takes a lot of time and pain to get to know yourself well enough to adjust or compensate for these pressures," he commented. "For some people it takes on-

ly a short time, for others adjustment never comes."

When asked if it is normal for a student, when burdened down by homework or term papers, to have doubts about his ability as a student or about his success in later life, Hibler said it was quite normal.

"In fact," he added, "it has become so normal that it is now routine. Many times, however, it is usually not as bad as they think."

He cited the extra work required by college tends to make them exaggerate their burdens.

Concerning grades, Hibler said that if a person gets an F on his first test it usually has a direct bearing on the outcome of the class.

"If a person receives an F it could be an indication that his general grade at the semester's end will be low. 'However,' he added, 'it sometimes acts as a trigger for some students and they start working harder.'

Administration Requests Unheeded In Cafeteria

Requests by the administration for students to clean up after themselves in the Fresno City College Cafeteria have gone unheeded. A look around the cafeteria during any hour of the day will reveal coffee cups, trays, glasses and paper cluttered everywhere.

Threats during the past four weeks to close the cafeteria so that a work committee could catch up with the mess have been completely ignored.

Even thoughts of raising food prices if students continued to disregard procedures failed to lift an eyebrow.

Dr. Archie Bradshaw, president of FCC, said of the cafeteria, "In the beginning, I enjoyed showing visitors or friends of the college these excellent facilities. Now, when visitors come, I try to steer them away because of the unsanitary and untidy conditions."

In four weeks students have transformed what was once a major focal point at FCC into a stigma.

Now is the time for action.

If the students at this college want to act like junior and senior high school students the administration and student council should treat them as such.

The student council should work out a policy whereby students not cooperating with cafeteria procedures be denied cafeteria privileges for a period of time.

If that fails, perhaps that administration could close the cafeteria for one week.

Data Processing Hits FCC With A 'Boom'

By DENNIS MCCARTHY

Five years ago the Fresno City College business division opened its new data processing facilities for student instruction.

Today those facilities accommodate some 158 students. Small wonder Gervase A. Eckenrod, FCC associate dean of the business division, considers the program that introduced data processing to the college a "boom-ing success."

Main Problem

"Our main problem is lack of room," he said. "Right now we are operating four nights a week at capacity, and our day classes are accommodating a near full offering of students."

This equipment includes the keypunch, sorter, collator, accounting machine, interpreter and re-producer.

Began In 1961

The data processing program was initiated at Fresno City College in September of 1961. Carl Wolgemuth, who had been teaching data processing at Reedley College, was transferred to FCC to teach the program's first two courses.

He was also selected as the first coordinator of the program. Wolgemuth no longer teaches at FCC.

Eckenrod credits the United States government with helping make the FCC data processing program a reality.

Federal Grant

"We received a federal grant under the National Defense and Education Act, whereby the federal government matched funds with the college. The money we received from this enabled us to purchase the equipment from the local International Business and Machine Corporation distributor here in Fresno."

"The majority of those who sign up for our course do so to get a general knowledge of data processing," he said. "They want this knowledge so that when they go into business they will know how the system operates."

Eliminate Jobs

When asked about the possibility that data processing would eliminate a large number of jobs,

Eckenrod admitted that it would. But he also added that the need for more information concerning the system would create new jobs.

"Because we train students on an operational level," said Eckenrod, "persons who learn to operate machines do not encounter much difficulty if transferred to a different machine. This is one advantage of the data processing system."

Catalog

The Fresno City College catalog lists five courses in data processing, beginning with an introductory course on the history and development of the system. To be eligible for the other data processing courses a student must achieve an acceptable score on a specified aptitude test. Experience in book-keeping or accounting is also required.

Data processing majors enrolled in the data systems cooperative field experience course (Data Processing 53A) receive on the job experience in local business data processing installations.

Cake Wins, Gets Cream

Mary Anders, FCC sophomore, won 16 pounds of butter when her entry in the white cake division at the Fresno District Fair took first place.

She also placed second in the contest including the winners of each division.

This was the first time Miss Anders had made this cake, or entered the District Fair.

Miss Anders, a home economics major, plans to transfer to Fresno State College. After graduation she plans to teach home economics in junior or senior high school.

Employees From Early Days Stay Through Years

Two custodians have the longest service record of FCC non-teaching employees. Both have worked for the Fresno Unified School System for over 26 years.

Actually Delton (Del or Delbert) Speaks is the senior employee. He was hired in June, 1938, one month before Jay Karl.

Truck Driver

Speaks began as a truck driver with the automotive repair shop. After two years he was transferred to Edison High School. From there he came to Fresno Junior College in Sept., 1949.

He has no definite plans about retirement yet but wants to tour America if possible.

Karl started with Fresno Technical High School. He remained

Jay Karl

Delton Speaks

at the O Street campus when Fresno Junior College took it over in 1948.

Retirement

He plans to retire in July, 1967 and make frequent trips to the coast.

Both men think that today's college students are more serious about their education.

Until July 1964, both worked for the Fresno Unified School System. Edison High School, Fresno Technical High School and Fresno Junior College were all members of this system. At that time Fresno City College became a member of the State Center Junior College District.

Unidentified Mascot Revealed To Readers

At tomorrow night's football game the Ram mascot will come running out and help spark FCC's school spirit. Many people will be wondering who is behind the costume.

She is Marsha Pearl, a sophomore, with a teaching major at FCC. To become the Ram mascot, Miss Pearl had only to fit the costume. She said that her job as mascot is "great" and keeps her busy during the games.

This is the first year that Miss. Pearl has taken the job of the Ram mascot.

Quite Warm

Miss Pearl said that the costume becomes quite warm because of the type of material. The costume is made of Persian wool and is one year old.

The Ram head she wears was made by the Fresno City College Art Department. The head is made of papier mache, which adds to the warmth of the costume.

Voted On

FCC President Archie Bradshaw said that the mascot got its start in 1949. He commented that at the time, the name Ram was voted on by the student body because they wanted a different name than those of surrounding schools.

The Los Angeles Rams were only in their organization stage when the student council decided on the Ram mascot, said Dr. Bradshaw. He stated that in the beginning the idea of a live ram was used and is still used occasionally.

FCC's Rampage news editor, Sandra Dralle (left) joins a discussion of the junior college newspaper with delegates from Foothill College, California and Auburn University, Alabama. Moderator for the group was Miss Jean Stevens (second from right), Sacramento City College advisor. Miss Dralle attended the annual Associated Collegiate Press Convention in San Francisco accompanied by six Rampage staff members and Phil Smith, advisor.

Instructors Coin FCC Alma Mater

College songs are a tradition passed from one class to another. FCC's alma mater was written expressly for the school by two of its instructors.

Noel D. Frodsham, a history instructor, wrote the lyrics, and Dr. Lucile Williams, a retired psychology, sociology and music instructor, composed the tune.

The student body acquired the music in 1951 and sponsored a contest to get the words. Frodsham, who likes to "dabble with verse," wrote the winning lyrics:

Beneath the high Sierras
Here arched by blue above
Hail to thee our alma mater
Memory may we always love
Tho years may pass we'll not forget
The red and white ne're fail

Fresno CC may it still prevail
Hail! Hail! Hail!

With the meter already determined by the music, Frodsham wrote the words while in his office at FCC.

He said that the proximity of FCC to the Sierras and his love for the outdoors inspired the first two lines.

Commenting more specifically on the second line, he said that the sky was blue in 1951, but that if he were to rewrite it today, he would honestly change it to "Here arched by smog above."

In 1958 the next to last line was changed to accommodate the revision of the school's name from Fresno Junior College to Fresno City College.

Television Donated For Student Enjoyment

Philanthropic spirit penetrated FCC's campus Tuesday when an 18 inch portable television was donated for use in the student lounge by a member of the student body, Henry (Hank) Yostmeyer.

Yostmeyer made the donation because he felt that the television would increase the enjoyment of the lounge for a greater number of students.

Student Center

The student lounge is on the second floor of the student center. "Before installation," Yostmeyer said, "the electronics department is going to check the set for proper operation."

Yostmeyer, a first year student, is majoring in business administration and describes himself as "an outdoor enthusiast."

He is originally from New York City but has lived in Clovis for the past eight years.

Transfer

His first three years of high school were spent at San Joaquin Memorial and in his senior year Yostmeyer transferred to Clovis High School. He graduated from Clovis High School in June of 1965.

Following his completion of two years at FCC Yostmeyer hopes to transfer to Notre Dame University.

College Acquires Girl's Dormitory

By SPENCER KENDIG

Collegian Hall, the first privately owned dormitory for FCC women students, is rated a successful necessity by Miss Doris Deakins, dean of women and co-founder of the hall.

"Our residents seem to be very happy there, and they say the food is tremendous," she said.

The hall was opened this fall by Miss Deakins and Mr. and Mrs. Merle Martin, the dean of students, who purchased the old Sigma Chi fraternity house at 1509 North Maroa Ave. and remodeled it for housing 38 girls. Presently 33 girls aged 18 to 23 are residents.

Housing Problem

"With the growth of the campus," added Miss Deakins, there are not enough homes to house students within walking distance, which is approximately 10 blocks. We felt there was a shortage of housing and supervised housing especially."

Miss Deakins hopes the possibility of additional housing for men and women will be considered by private enterprise or by the

State Center Junior College district.

"There is a need for additional men's housing, particularly in the area of room and board," she said.

Make Adjustment

Mrs. Ethel Thornton, full-time house mother for the hall, feels the girls have made a good adjustment to dormitory life. Mrs. Thornton said, "there is no demerit system for breaking house rules. Enforcement is achieved through the girl's own cooperation."

Mrs. Thornton pointed out that most of the house rules were formulated by a five-member council headed by Pat Maginnes, an FCC freshman.

"We are beginning to draw the girls together with the council and its leadership in getting them to work as a team," she added.

Listed among house rules is the deadline for arriving home at 11 PM Sunday through Thursday and 2 AM on Friday and Saturday.

"No matter how hard you try, dormitory life is not home life. When you start group living there is a complete readjustment to be made."

Residents agreed with Mrs. Thornton on the value of regulations.

"Rules are not hard to adjust to," said Susan Dougherty, an FCC freshman. "They are beneficial in helping us cooperate with each other."

Patty Weaver considers the cuisine of Mrs. Marie Robertson, the cook, to be excellent with a very good selection.

"We have our own dorm doctor," joked Karen Enochs. "Kay Yamamoto, our foreign resident from Japan, makes up traditional Japanese home remedies for us everytime we get sick."

The girls all agreed that they couldn't have asked for a better house mother.

Cafeteria Problem

FCC Students Propose Solutions

"What is your solution to the mess in the coffee shop?"

"What action would you take to remedy the solution?"

These were a number of questions asked of students who eat in the coffee shop. Here are their comments:

Ellen McFarland, home economics major: "Everyone who buys something should take their own trays to the machine instead of everyone picking up after them. The coffee shop should be open and the snack bar closed."

John Kazanian, business ad-

ministrations major: "The student government should put a few people in charge to supervise the students so that they will pick up their trays."

Anna Camaroda, secretarial science major: "The students should keep the coffee shop clean because it's their school. The students are lacking responsibility."

Ron Uyeno, auto mechanic major: "The student leaders should patrol the area of the coffee shop. If anything else does not work, then close the coffee shop for a semester."

Ellen Guyette, business major:

"The coffee shop is just a hang-out, and the kids just do not care about keeping it clean. Someone should announce more often that the coffee shop will close in 10 minutes. Then after the kids get the hang of it they will clean the place more often."

Nick Eroklia, electronics major: "Tell the people to grow up. The students should have already learned to bus their own dishes. They should close down the coffee shop for three days to a week. If this does not work the prices should be raised."

Women's Group Seeks Workers

Volunteer jobs in the Fresno area are available to Fresno City College students, Mrs. W. J. Wyatt, Jr., executive secretary of the Fresno Volunteer Bureau, said.

Jobs range from assisting preschool teachers to staffing study halls at Fresno's community centers.

The Volunteer Bureau is a non profit organization sponsored by the Junior League, the National Council of Jewish Women and is a service of the Fresno Community Council. It is located in the Red Cross Building at 2844 Fresno Streets.

Fresno Orchestra Begins Concerts

The Fresno Philharmonic Orchestra has announced that this season's opening concerts will be presented tonight and tomorrow night.

The concerts, under the direction of Paul Vermel, will be held in the Roosevelt High School Auditorium.

Single tickets for the opening concerts went on sale this week. Tickets may be purchased at Coffee's box office on the mall or the Philharmonic's office in Fig Garden Village.

Tickets may be reserved by calling 227-3869 or 227-2839. Prices of single tickets are \$3.50, \$2.50 and \$1.50. They will also be sold at the door on performance night.

Auto Division

FCC Receives Equipment Donation

The automotive mechanics division of Fresno City College has received \$800 worth of equipment this year for use by students.

Joseph Woodman, automotive mechanics and tune-up instructor, said the equipment was donated by the General Motors Training Center of San Leandro, Calif., where he has attended summer school the past two years.

Equipment

The equipment includes one automobile engine and stand with all special tools needed for its assembly and disassembly, two alternator generators, two voltage reg-

ulators, two distributors, one power steering unit, one power steering pump and one power brake unit.

The summer school session, said Woodman, is for two weeks starting the third week in June and is under the auspices of San Jose State College. Students attend classes eight hours a day five days a week.

The equipment donated to FCC was first seen by Woodman on display at the school two years ago. He applied for the equipment at that time.

Surprised

"I was really surprised when I got the letter saying that FCC was to get the equipment," he said. "I had forgotten all about it."

Woodman has taught at FCC since 1946. He asked the Rampage to express his sincerest appreciation to the General Motors Training Center for the donation of the equipment.

FCC Bowler's Competition Underway

Two teams are tied for first place in the Associated Men Students bowling league competition.

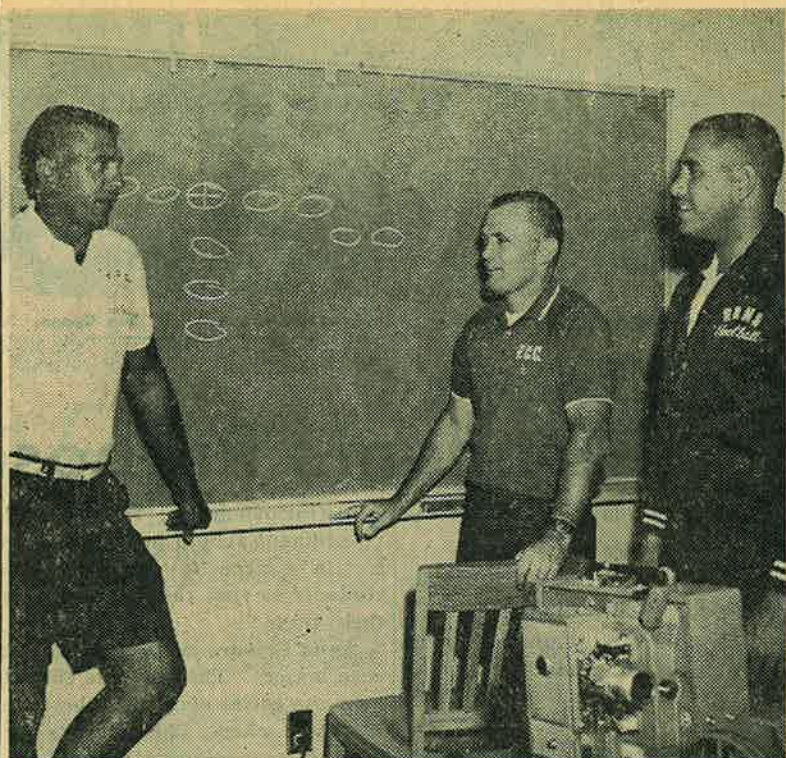

The Sandbaggers and the AMS bowlers have pulled ahead of the other eight competing teams by striking up a 5-1 record. League play has been in effect two weeks and will continue until the first part of January.

Trophies will be presented at the end of the fall semester to the champion team and to four individuals. The man and woman maintaining the highest game average will receive two of the trophies. The other two will go to the highest single game scores for men and women.

Participating teams in the league were formed by both clubs and individuals. Club teams are Phi Beta Lambda, Marketing club, Associated Women Students, AMS and Collegian Hall. Individual teams are the Misfits, the Sandbaggers, the Strikers, the Pinspotters, and the Surf Riders.

Don Perry, AMS president, said that individual team membership is closed, but club members can contact their teams to see about possible openings.

The league bowls at Mid State lanes every Thursday at 4 PM.

Head Coach Clare Slaughter and assistants Bill Musick and Bob Dinaberg go over strategy for tomorrow night's game against ARJC.

Cross Country Team Eyes Invitational Win

Fresno City College Ram harriers will leave today for Walnut, Calif., to participate in the Mount San Antonio College invitational cross country meet.

The invitational meet will get underway at 4 PM on the Mt. SAC three mile course.

"This is probably the biggest meet in California," stated Coach Bob Fries. "Over 3,000 entries have been submitted. This could well be the largest meet in the country."

Seven Rams Enter

Seven men representing FCC will be entered in the meet.

They are John Garcia, Ben Mendiola, Larry Stocks, Steve Garcia, Frank Luna and Alton Durst.

Teams representing high schools through universities will participate in the meet which will be broken into two divisions: large and small school competition.

FCC Victory

Last week's Valley Conference dual meet with Sacramento City College saw the Rams run up a 21-26 point victory for their second straight conference victory.

Ram harriers placed in the meet were Garcia, first, 16:06; Mendiola, second, 16:07; Stocks, fifth, 16:16; Garcia, sixth, 16:25; Luna, seventh, 16:27; Durst, ninth, 16:38; Dunagan, thirteenth, 16:59 and Castillas, fourteenth, 17:01.

Ram Matmen Set Practice

Coach Hans Wiedenhofer, Fresno City College wrestling coach, announced that Monday will be the official start of the wrestling practice.

Returning FCC lettermen are Freddie Contreras (155), Bob Johansen and Jim Kalina (123), George Peverill (130), Ron Lott, (145), Rodger McClaughry (177), Bill Author (191) and heavy-weight Ben Brase.

Ram-ARJC Battle Set For Ratcliffe

By VERNON PETERS
Rampage Sports Editor

The Fresno City College Ram football team, reeling from a 12 to 8 loss to Modesto Junior College last Friday, will host the Beavers of American River Junior College at 8 PM tomorrow night in Ratcliffe Stadium.

Both teams will be looking for their first Valley Conference

win in the game which will feature one of the league's most explosive offenses against the league's second best defense.

ARJC Moves Ball

In six games this season ARJC has averaged 355 yards in total offense while the Ram defense has allowed an average of only 189 yards.

ARJC will enter the game with a 3-1-1 record while the Rams' record stands at 3-3. The Beavers played to a 19 to 19 tie with College of the Sequoias last weekend.

The Ram defensive backfield will have its work cut out for them as the Beavers' quarterback Bruce Lee likes to pass about 50 per cent of the time.

This season Lee has attempted 144 passes and completed 75 for 946 total yards and eight touchdowns.

All-League Halfback

Also in the ARJC backfield is 1964 all-conference halfback Dennis Stephens. Stephens has carried

the ball 75 times this season for 368 yards, a 4.9 yard average.

Judging from the Rams' performance in Modesto last Friday, the Ram offense is long overdue to put forth a winning effort. The FCC defense has played consistently rugged football all season.

Against Modesto the Ram offense sputtered along until the closing seconds of each half.

The only FCC score came with 10 seconds left in the game as Jess Ruelas flipped a short pass to Fred Figueroa who broke loose for a 73 yard pass-run touchdown play.

The Rams came to life in the first half with only 41 seconds left. Ruelas combined with split end Ernie Nolte for two spectacular aerial gains, but the clock ran out with FCC on the eight yard line.

The play of FCC's defensive unit was more impressive as it limited Modesto only five first downs and a total of 105 yards gained both rushing and passing.

Scoring summary:

FCC 0 0 0 8—8

MJC 6 0 0 6—12

MJC—Brimm 1 yard (kick for PAT wide)

MJC — Howard 13 yard pass from Silva (pass for PAT failed)

FCC—Figueroa 73 pass from Ruelas (Ruelas passed to Sturgill for PAT)

Hoopsters Turn Out

The Fresno City College basketball team has been working out the past several weeks in preparation for the coming season.

The Rams have a 23 game schedule beginning with Bakersfield College Nov. 26. FCC will also play in invitational tournaments at Bakersfield, Modesto and Hancock Colleges.

There are 17 candidates out for the team. Among these are returning lettermen Bob Lee, Ken Delpit and Paul White.

First-year men out for the team include Don Slade and John Rouanzian, both all-metro selections as high school players; Hart Polk, who played under Toomazian at Edison High School; John Krug, a transfer student from Indiana and the tallest member of the team at 6 foot 7 inches and the Sanders twins, Floyd and Lloyd, from Sanger.

Other newcomers include Jack Redford, Andy Wulf, Bruce Smith, Ranison Kennedy, Larry Gomez, Howard Akin, Lauren Bary and Buddy Tackett.

individuality

We can't draw a profile of our most successful agents. They defy generalization.

But some things about them do stand out in common. A strong sense of purpose. Enthusiasm about their work.

Especially clear is the fact that they all derive great satisfaction from working independently in a service field.

If the opportunity to work and build on your own ability appeals to you, you should investigate our Campus Internship Program for careers in life insurance.

Training—as well as income—starts now, while you're at college, allowing you to make a proper career decision before graduation.

Call us for an interview; we'll be glad to give you the details.

Conference Battles Loom For Water Polo Squad

Coach Gene Stephens will send his Fresno City College water polo team against a couple of tough Sacramento teams this weekend in the FCC pool.

The Rams will take on American River Junior College tomorrow afternoon at 4 PM. The visiting Beavers, who are currently 4-1 in Valley Conference action, are the defending league champions.

Sacramento City College moves

into town Saturday morning to meet the Rams in a game scheduled for 10 AM. The Panthers own a 2-3 Valley Conference record.

The Rams won their first Valley Conference game of the season last weekend, beating Modesto College 14 to 12. Bob Grimm led the Ram scoring with four field goals and teammates Jay Huneke and John Winstead added three.
