

SONGS FOR FCC FOLK—Richard and Jim, an ex-service man and a Harvard graduate who will entertain at Saturday night's annual Ramburger Roundup. They have appeared on the national club circuit and in Europe. Their hometown is Gadsden, Ala.

## Folksingers Highlight Ramburger Roundup

The Ramburger Roundup will be held Saturday night on the FCC lawn between the Student Center and the Cafeteria. Tickets are on sale in the Cafeteria foyer from 10 AM to 2 PM, and will not be available at the Ramburger Roundup. Admission is 25 cents with student body card and 50 cents for guests.

## Ten Students Make All A's

Ten full time students made straight A's during the spring semester of 1966. Three of the 10 students made straight A's both fall and spring semesters.

The 10 students are William Araujo, Chris R. Bordagaray, Donald W. Forrester, Broadus D. Keele, Marilyn A. McClain, Milton L. May, Harold A. Nielsen.

To qualify for the Dean's List, a student must take a minimum of 12 units including physical education. He must have a grade point average of 3.3 (lowered to 3.0 this fall semester) with no grade lower than a C.

The Dean's List for the spring semester consists of 151 students — six less than the previous semester.

The students who qualified for the Dean's List are as follows: James R. Adams, Felix S. Alston, Lynette Anderson, William Araujo, Robert J. Basila, Joan M. Beebe, Bruce W. (Continued on Page 3)

The admission fee helps pay for the entertainment, Miss Doris Deakins, dean of women, explained.

Ramburgers, baked beans, potato salad, ice cream and soft drinks will be served from 4:30 PM to 7 PM. Faculty members will serve dinner.

There will be entertainment by Richard and Jim, a folk singing group from Gadsden, Ala. They have appeared in clubs from coast to coast and in Europe.

Various campus organizations will have booths set up on the lawn where students will be able to get information about campus clubs and service organizations. The Inter-Club Council will present a prize to the club with the best participation.

After the dinner and entertainment there will be a march to Ratcliffe Stadium for the football game with San Jose City College.

Casual sports wear will be the dress for the Ramburger Roundup and women are allowed to wear capris.

VOL. XXI

FRESNO, CALIFORNIA, THURSDAY, SEPT. 29, 1966

NUMBER 2

## Near Blind Asks For Reader

What's college like for a visually handicapped person? Ask Robert (Bob) Fowler.

He is carrying 11 1/2 units in his third semester at FCC. He takes notes with a tape recorder and later copies his notes in braille at about 100 words per minute. He is considering either English or philosophy as a major.

Right now Bob is looking for someone to read his lessons for him and give him tests on campus. The job will require two to three hours a day. "It could be one of the easiest jobs in the world, but it requires patience," Bob said. He prefers a guy and he must be prompt. The pay is \$1.30 an hour. The reading will mostly be from the newspaper and English, and Bob pointed out that the reader "... doesn't need to be a brain." If interested, phone Bob in the evening at 264-0406. He lives at 653 E. Floradora Ave.

### Partial Sight

Bob was born blind due to German measles, but four operations brought him some sight.

He enjoys movies, swimming, TV and bowling. "It sounds kind of funny, but you don't need sight to bowl." He knows a totally blind guy with bowled a 240 game.

But Bob's main pleasure is music. He was in two musicals at Roosevelt High School before he graduated in 1965.

### Music Fan

He also likes to play popular music on the organ.

Although he said it did sound kind of funny, he either wants to be a minister or form his own band.

His dream is to get an entire Bible in braille. He now has the New Testament which is four volumes, but the Old Testament is another 18 volumes.

## 13 High School Students

## Fresno CC Continues Honor Program

Fresno City College will continue the honor program again this semester which allows outstanding high school students to gain college credits, stated John McCuen, dean of instruction.

Students participating in this program receive three units

of credit and are graded in the same manner as regular college students. Courses offered are psychology, mathematics, history, Russian, anthropology and sociology.

"Unfortunately, due to the increased enrollment at FCC," he explained, "the number of students participating in this program is greatly restricted."

"I have a firm belief," he continued, "in the high school honors program, and I am as discouraged as anyone else that we do have such a space limitation."

There are 13 students from city and county high schools enrolled in this program at FCC.

They include Karen Uphold, Ronald Brix, Louise Strauss and Henry Georgner from Fresno High School and Melinda Oliver and Richard Ford, Jr., from Bullard High School.

Also attending under this program are Pamela Johnson, and Linda Bennett of McLane High School; Leslie Pease and Karla Hullender of San Joaquin Memorial High School; and Jim Lemon, Rick Holland and Henry Zavala of Fowler High School.

This program has been going on at FCC for approximately six years, McCuen said.

## FCC Has Work Aid

Students who can show that employment earnings are necessary for the completion of their education are now eligible for the FCC Work-Study Program.

The work-study program, as Mrs. Dorothy Ediger of the FCC Placement Center explained, is a new program devised to financially aid students from low income families or who need financial aid to continue their schooling.

This program makes campus jobs available to eligible students who can earn \$1.25 an hour for a maximum of 15 hours a week.

Merle Martin, dean of students, estimates that there are between 50-60 jobs available, most of which do require some office skills.

To be eligible a student must maintain at least a C average with a minimum of nine units.

This program receives 90 percent of its financial support from the federal government and 10 percent from the college district.

Martin said that besides giving financial aid the program also gives experience in applying for work and being interviewed.

Applications and information may be obtained in the Placement Center in Technical and Industrial 100.

In cases where applying students are from low income families, a confidential financial report must be filed as part of the eligibility requirement.

## Buildings Should Be Phased Out In Ten Years

# FCC's Oldest Structures Still Safe For Class

By PAUL SULLIVAN, Jr.  
Editor-in-Chief

The oldest buildings on FCC's campus, the Administration Building, and others such as McLane Hall that were built prior to 1933 are still safe to occupy and will remain in use.

This is the opinion of H. Wayne Taul, a structural engineer who completed an extensive structural survey of the FCC buildings. He inspected the Administration Building and its two wings, including the Auditorium; McLane Hall; the Library and the old Gymnasium, which is directly behind the Cafeteria.

"These buildings are safe to occupy for 10 years provided the tile roofs are replaced with a composition material. I am not worried at all about them (the buildings), but repair the presidium arch in the Auditorium, and I'll feel better," Taul said.

### Proposed Repairs

Some of the repairs that Taul proposed included strengthening the arch in the Auditorium to a

stress of 24 tons, replacing roofing materials on the buildings inspected and replacing the brick chimneys on the Library with metal ones.

The Auditorium will remain closed until it is repaired. Garland Peed, an assistant superintendent of the State Center Junior College District, said that the district will wait to repair the buildings after Taul's final report is filed in about two months.

"We'll get together with Taul and map out a plan for all phases of building safety at one time, so we don't waste any money," Peed said.

### Library

Taul stressed in his report that the Library is the only building that is worth rehabilitating economically.

"The older ones ought to be phased out in a maximum of 10 years," he said.

The report also mentioned as potentially dangerous the smoke stack on the old Gymnasium. Peed

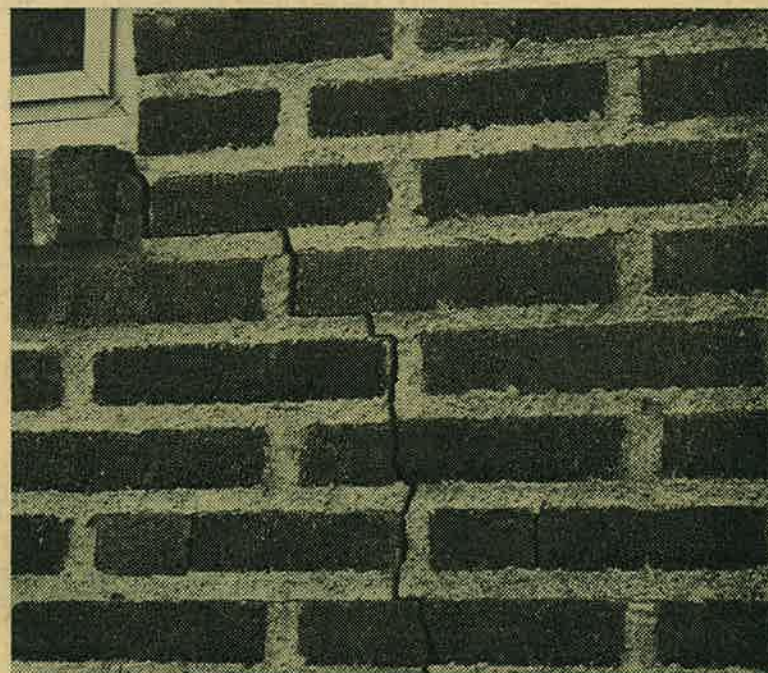

said that immediate remedial action is being taken. An area 10 feet from the building is to be kept clear at all times. This will remove some parking spaces behind the Cafeteria, but no other immediate changes are foreseen by Peed.

### Strong Bricks

Tests were conducted upon the strength of the bricks used in the Auditorium, and these bricks were found to be twice as strong as the bricks used in construction today.

"It took a great deal of effort to dislodge one of the bricks," Taul said.

In discussing the fact that some of the buildings will have to be phased out in 10 years, Taul mentioned that the FCC property was too valuable to accommodate structures of two stories or less. This led to speculation by Taul that at sometime in the future, because of rising land values, multi-storied buildings will rise on FCC's campus.

THE SIGN OF AGE—One of the cracks in the Auditorium wall which led to its closing. The building will be safe to use after it is repaired at which time it will be reopened. All other older buildings on FCC's campus were also inspected. Winston Photo

### Editorial

## Campus Growth Calls For Advanced Plans

With the enrollment at FCC gradually reaching its physical limits of accommodating students, the board of trustees has commissioned architect David H. Horn to develop a master plan for possible construction.

The master plan is to include an increase of land area bounded by McKinley Avenue on the south, Blackstone Avenue on the east, Maroa and College Avenues on the west and Yale Avenue on the north.

The board has stressed that this is a plan and that no immediate program to buy up property is imminent.

It is gratifying to see the forward look of the board in regards to future construction. Certainly it is a step in the right direction to meet the needs of students who are now in the lower grades and will enroll at FCC in future years.

However, in the recent report of a structural engineer strongly suggesting that some of our present buildings be phased out, perhaps it would be wise for the board to give one of his suggestions much consideration for the judicious use of the property already at the district's disposal.

The engineer noted the rising value of land and hinted that it would be wiser to go up rather than out.

Considering the rising cost of land, labor and materials due to inflation, this might well be the answer.

Needless to say, FCC in its present form could not be abandoned while multi-storied buildings are erected, but perhaps a compromise might be reached. There might be a lateral expansion to a limited degree, as will undoubtedly be needed, and possibly along with it a building program which will literally go up. Colleges throughout the East have had to do this.

There is also the problem of obtaining the needed land. Property owners have always been loath to give up their land even though the offered price is consistent with the market value.

Lurking elsewhere in the background is the problem of financing such an undertaking. Certainly taxes may have to be raised in some degree or a bond issue floated or both.

We need the expansion badly, and it is heartening to see that our trustees are aware of it. It is even more heartening to know they are doing something about it. Perhaps the consideration of going up as opposed to out will solve some problems.

Editor-in-Chief

## Campus Police Inaugurate Second Year Of Citations

It was Monday, Oct. 3 — 8:03 AM. The "vet's" bumper was dented. The curb was drenched with red.

"What happened, Fred?"

"Dunno, guiss he was in a hurry."

"Sad, isn't it?"

"Yup."

"How'd it happen, bud? Gimme the facts, bud, jist the facts."

"Dunno officer, guiss I jist don't see too well."

"Sorry, bud. Gotta do this. Ya can't park here."

Only the names are changed to protect the guilty . . . from ridicule. The first violator of the school year had just been cited.

This could happen Monday when the FCC Campus Patrol begins its second year of operation.

### 35 Enrolled

Thirty-five police science majors are enrolled in the campus patrol class. The class consists of a one hour lecture and six hours of laboratory per week. Richard Cleland, associate dean of students, said the class is geared to training the men for positions in law enforcement.

Fifteen men are administrators and 20 are actual patrolmen. Officers are Capt. Ernest Duran, Administrative Lt. John Herring and Field Lt. Robert Johansen. Their

office is in Technical and Industrial 500.

Patrolmen's duties include issuing parking citations, offering aid in event of accident, reporting speeders, checking buildings, once in a while reporting disorderly conduct and patrolling school events with the Fresno City Police.

### Report Numbers

Since they don't issue moving citations, they report speeders' license numbers to Cleland. He advises the speeder to either correct the problem or drop out.

The \$1 parking fines must be paid to the finance office within five school days. If the fine isn't paid it doubles and after 10 days it becomes delinquent. The student then may face Cleland and disciplinary action.

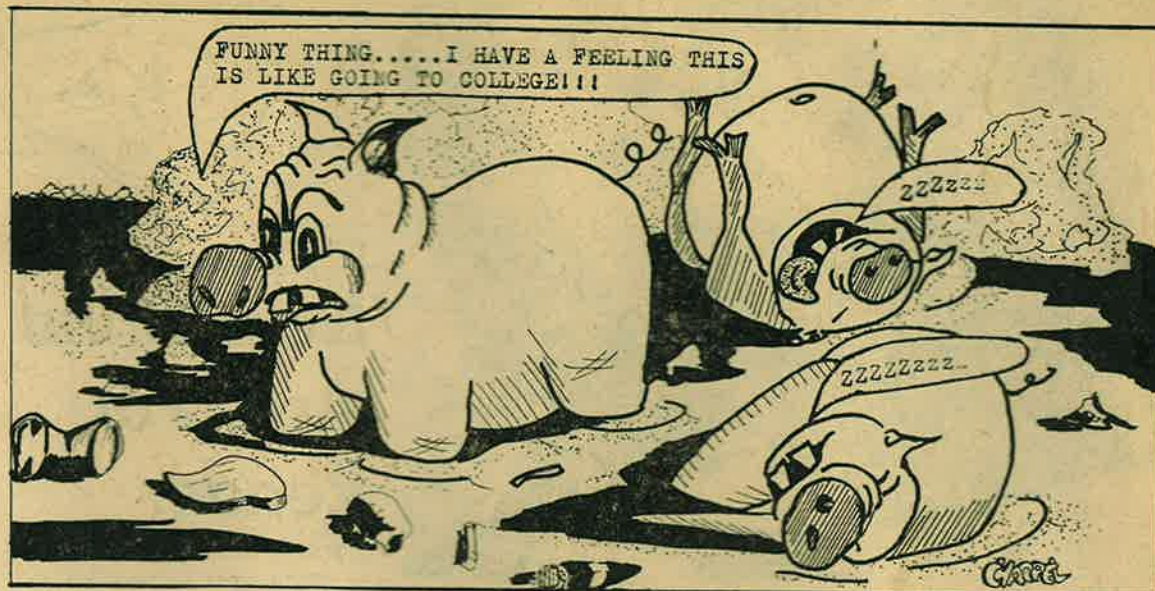

### Spent Hours

Last year 18 patrolmen collectively spent 2,100 hours on patrol and participated in three arrests. They reported an average of 10 incidents, which includes accidents and speeders, per week.

"They've done a remarkable job. It would be chaos without them," Cleland said.

Cleland summarized their work by saying, "They have been well accepted by students, which is a commendation to both the students and patrolmen."

## Collegians Choose 'Ideal'

### Students, Teachers Questioned

**QUESTION TO STUDENTS:** In your opinion, what constitutes the "ideal teacher"?

Linda Van Archer, freshman, social welfare major:

"One who can get along with the students but still hold order in a class. One who prepares you well for a test."

Hector E. Herrera, sophomore, business administration major:

"A teacher who's young, with enthusiastic ideas. One who doesn't use old-fashioned type of teaching. An "ideal teacher" has advanced techniques."

Duane Scott, sophomore, music major:

"A person who shares more the ideas and opinions of the class. A person who doesn't strictly go by the book. A teacher who has his own ideas and opinions."

**QUESTION TO FACULTY:** In your opinion, what constitutes the "ideal student"?

Conrad M. Discont, English, speech instructor:

"An ideal student is one who has a fairly definite idea of what he can use his education for. He is one who is willing to examine new possibilities that at first appear to conflict with the ideas he already has. Finally, he is one who will study to achieve what he wants."

James P. Collins, associate dean of mathematics, science, and engineering division:

"An ideal student would be one who didn't really have to worry about working on the outside. He is one who would give his full attention to his responsibilities as a student. Most of our students do not qualify under this ideal."

Mrs. Helen Cates, English instructor:

"He is one who is interested in finding out what life is all about, both from the standpoint of studies and outside activities."

## FSC Professor Evaluates World-Wide Journalism

Dr. John Duke, professor of journalism at Fresno State College, gave an FCC class a worldwide view of journalism Friday.

As guest speaker for a mass communications class of 46 students, he described various types of newspapers abroad as compared to American dailies.

Dr. Duke compared worldwide newspapers of today with the American press in content, circulation, typography and makeup.

"Language, writing style, type and paper may differ," he said, "but we've all got the same problems."

For example, he spoke of the commonly untrained "stringer" newsman familiar to many editors.

"The temporary reporter uneducated in the ways of 'who, what, why, when and where' misses important points; doesn't know what real news is, stresses minor details and is inaccurate, among other things, yet we need stringers very much."

### News Censorship

Dr. Duke said, in an interview after the lecture, that one problem no longer prominent in America is strict censorship of news and limited freedom of the press.

"I would like to add that Americans of today are very fortunate in this respect, though our rights to criticize, to report and have free access to news are constantly being challenged."

Dr. Duke is no stranger to world traveling. In 1962 he toured Europe and has been to many other countries previously.

A personal collection of newspapers that he passed around the class dates back to the 1940's.

### Editors Rate

"Overseas editors and critics rate the U.S. newspapers as being more or less a sensational type of press compared with Japanese,

DR. JOHN DUKE

Korean or Indian newspapers," Duke said.

"However," he continued, "the U.S. newspapers are fairly large in size, content and pages but lack in circulation compared to some foreign dailies such as the London Daily Express, which prints an estimated 4,000,000 copies versus the New York Daily News, which prints approximately 2,000,000 copies."

He added that Americans print and read a lot more advertising per page and that Associated Press and United Press International are generally used worldwide.

"After visiting different countries, you find their personality is printed in the papers."

## Club News

# ICC Open To All FCC Clubs

Inter-Club Council held their first meeting last Thursday in the Student Lounge. Presiding at the meeting was Richard Machado, student body vice-president.

Seven ICC representatives present and the clubs they represented were Cheri Franklin, Delta Psi Omega; Kathy Turkot, International Club and People to People; James T. Adair, Campus Religion Club and the Campus Philosophical Club; Steve Mattos, Technical and Industry Club; Kelly E. Bates, Phi Beta Lambda; Jim Blocker, Associated Men Students; and Tina Gyer, Associated Women Students.

Mrs. Sara Dougherty, ICC adviser, said that all members are urged to take part in club activities so they will have a voice in the student affairs on campus.

## AGS

Alpha Gamma Sigma, an honor society, will meet Friday, Oct. 7, in Conference Room B of the Cafeteria.

All first semester students who hold life membership in the California Scholarship Federation are eligible to become associate members. Preparations will be made for election of officers at the next meeting.

## DECA

DECA, Distributive Education Clubs of America, designed to develop future leaders for marketing and distribution, held an executive state board meeting last Friday, Saturday and Sunday at the Hyatt Chalet in Fresno.

The adviser, Dr. Gilbert Peart, said that state DECA officers and coordinators throughout the state who attended the leadership training.

## 300 Veterans Attend FCC

Fresno City College has nearly 300 students attending under the new G.I. education bill, according to Joe R. Kelly, associate dean of admissions and records.

The veterans' education bill, which went into effect June 2, 1966, was signed into law by President Johnson on Mar. 6, 1966.

Eligibility for benefits under the new bill requires at least 181 days of active duty since Jan. 31, 1955 and that the veteran was not dishonorably discharged. If a veteran served less than 181 days of active duty and has a service connected disability, he is also eligible. National Guardsmen and Army Reservists who served on active duty in a six month program are not eligible.

A veteran's scholastic program must be approved by the Veterans Administration. The time limit for assistance has been set at 36 months, which covers four school years of nine months each. The veteran may apply for assistance any time within eight years after his discharge.

ing conference planned future activities and their state convention. The convention will be held at the Napa Junior College in February.

Acting as officers until elections are held are Dennis Netzley, president; Rick Richards, vice president; Terry Lee Ryan, secretary; Dena Smith, treasurer; Cynthia Stephanian, historian; and Robert Hanoian, Inter-Club Council representative.

## 40 FCC Coeds 'Find' Dormitory

In the past two years some women students have "discovered" a private dormitory on the approved housing list that has become known as Fresno City College's "own" dormitory although not associated with the college in any way.

This dormitory was originally an extremely battered looking fraternity house at the site of 1509 North Maroa Ave. It was purchased and redecorated as a site for the housing of women students who would be attending FCC.

Last year the dormitory was officially opened to the students and was christened Collegian Hall, according to Miss Doris Deakins, dean of women and part owner of the dorm. Students seemed to like the idea of a dorm near the campus, and consequently the dormitory is a success.

This year there are 40 women students at Collegian Hall. These coeds represent not only Califor-

nia and the United States but two foreign countries.

Most of the women are from Los Banos and surrounding towns around Fresno, however there are five from Hawaii, one coed from Guam and another from Japan.

Kathy Nunes, on the cheerleader at FCC and a resident at the hall, stated that the advantage of living in a dorm is "you learn the value of group living and meet new girls from all over the world."

The Japanese resident of Collegian Hall, Kayoko Yamamoto, explained that her reason for being in the dormitory was because she wanted to learn to speak English more easily and to "learn how to be an American student."

One of the students from Hawaii, Arlene Yap, was originally planning to get an apartment but decided that dormitory life offered more to her in the amount of friendships with other girls her own age.

THE PEP SQUAD includes, from top to bottom, Wylene Powers, Rosemary Woods, Judi Fish, Mary Jane Coronado, Cathy Engstrom and Jannett Orndoff. Not in picture are Dorothy Escobedo and Patty Hathaway.

Yazijian Photo

## Newspaper Reveals Staff

His journalism experience began in high school but was interrupted when he worked at a radio station and served time in the army. This is Sullivan's fourth semester on the staff and has worked his way from reporter to editor-in-chief.

Heading some of the various jobs on the staff are Jay York, managing editor; Spencer Kendig, editorial page editor; Nellie Bonia, news editor; Ted Hilliard, sports editor; Mary Morris, city editor; Linda Garrett, copy editor; and Linda Yazijian, photo editor.

Business manager on the staff is Mary Young, assisted by Carolyn Bradley. Theresa Barretta carries out the duties of advertising manager while Gloria Rodriguez and Rita Johnson act as club news editor and editorial assistant, respectively.

Dennis Marks, head photographer, is aided by Wayne Duke, Dennis Koyangi, Jim Walker and Vera Winston. Assisting James Chappel, head cartoonist, is Duane Mitchell, Susan Cooper and David SaIsedo.

The reporting staff includes Beverly Anderson, David Anderson, Diana Vechkoff, Kenneth Farrar, Sandra Henson, Linda Garrett, Marsha Martin, Mary Morris, Bill Peyton, Paul Smith, Mark Worsham, Rita Johnson, John Young, Mary Young, Terry Stone, Charlotte Hackett, Scott Davis, Marilyn Thronebery, Ann Panzarella, Henry Lozano and Ed Hughes.

# Wiedenhoefer To Head NLSF Golf Clinics

Hans Wiedenhoefer, FCC director of athletics, has been named to direct three golf instruction clinics sponsored by the National Lifetime Sports Foundation.

NLSF, a privately endowed organization, is headed by Bud Wilkinson, former Oklahoma football coach and more recent expert on ABC television's college football Game of the Week.

## Hudson Returns After Knee Injury

Coach Clare Slaughter will be looking to first string quarterback Ron Hudson for a smoother offense when the Ram football team meets San Jose City College 8 PM Saturday at McLane Stadium.

The Rams didn't have Hudson's services in Saturday's Los Angeles City College conflict, due to a knee injury he received in the Diablo Valley game.

It is said that the best offense is a good defense, and LACC proved it right by shocking visiting FCC 16-7 in last week's non-conference action.

### Replaced By Olson

Ron Olson replaced Hudson for the LACC meet, but was unable to duplicate Hudson's passing artistry.

With just 1:16 left in the first quarter, the Cubs took a gift of two points when Olson's lateral went over fullback Stan Bauer's head from the six yard line and into and out of the end zone for an automatic safety.

The Rams' one touchdown was completely unexpected with 5:30 left in the second quarter.

### Weldon Blocks Punt

Defensive end Jamie Weldon slammed through the line to block the Cubs' punt. The ball was then scooped up by defensive tackle Jack Green, who charged 17 yards for a TD.

Bob Garcia added the extra point for a 7-2 FCC lead.

Third string Ram quarterback Bruce Hawkins was tackled by Otis Washington behind his own goal line for the Cubs' second safety with 6:10 left in the third quarter.

After the Rams kicked off from their 20, the Cubs came back to score in eight plays when quarterback Chet Francisco passed 12 yards to split end Winston Phillips.

The final score of the game came in the last 40 seconds, when LACC's alert Al Raciuc picked off one of Hawkins' passes and ran 27 yards for a TD. The kick was blocked, and the game ended 16-7.

### Scoring summary:

FCC ..... 0 7 0 0—7  
LACC ..... 2 0 8 6—16  
LACC—Safety (by Gamble)  
FCC—Green 17 blocked punt (Garcia kick)  
LACC—Safety (Washington)  
LACC—Phillips 12 pass from Francisco (kick failed)  
LACC—Raciuc 27 pass interception (kick failed)

Wiedenhoefer runs his first clinic starting today in Gearhart, Ore., a seaside resort west of Portland. Selected teachers from all over Oregon will be attending his three-day clinic.

Next will be the Northern California clinic from Oct. 20-22, to be held in San Leandro and a Southern California clinic from Oct. 27-29.

The site for the Southern California session is yet undetermined.

Wilkinson said the NLSF is interested in increasing sports participation among people of all ages.

The focus of the foundation programs will be on "lifetime" or "transfer" sports which can be played by people throughout their entire lives. Tennis, golf, bowling, badminton and archery are examples of the kind of sports to be promoted.

HANS WIEDENHOEFER

## AMS Bowlers Seek Campus Competition

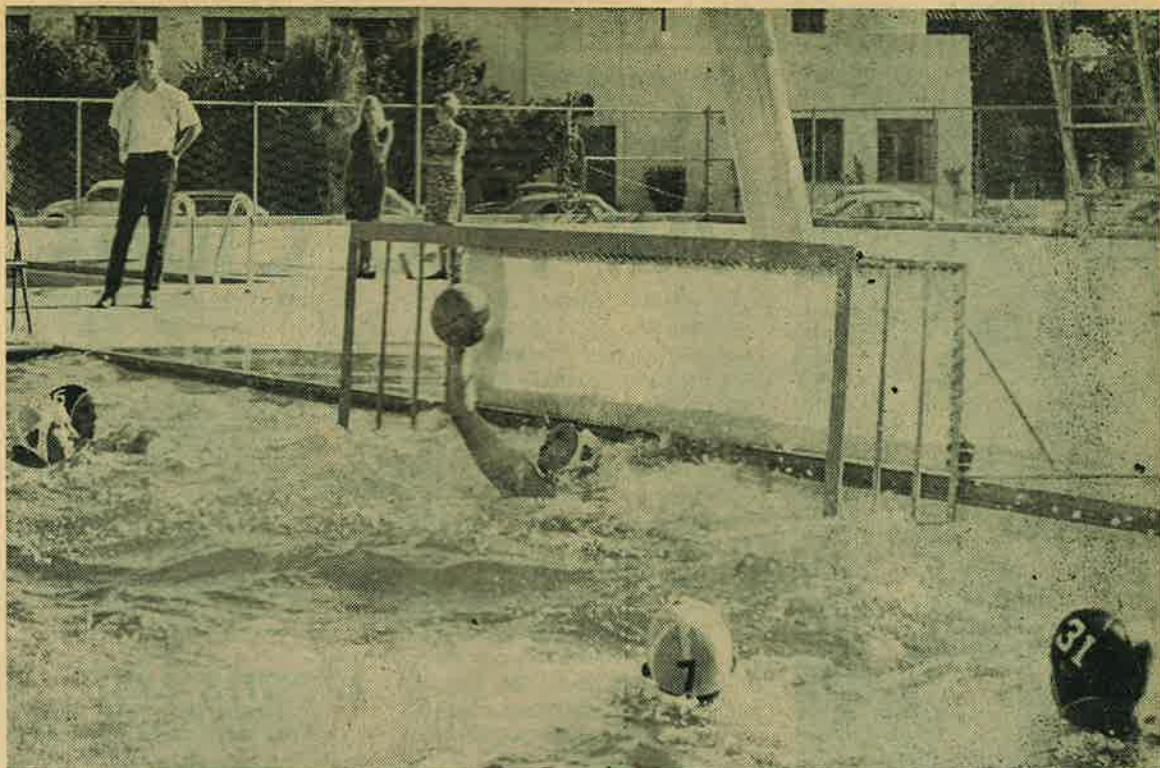

All campus clubs are invited by Jim Blocker, Associated Men Students' president, to form a bowling team to compete against the AMS team.

Blocker said this campus-wide league is also open to any individual student who wants to start a team.

The league meets at Mid-State Bowl on Thursdays at 4 PM, beginning today.

The winning team will receive a trophy which will be placed in the school trophy case and which will be engraved with the names of the team members.

Lane cost is \$1.25 per person per day.

WATER POLO: Fresno State College JV goalie blocks attempted goal by Ram aquaman Scott Holmes (helmet 31). In their home meet of Sept. 22, the Rams topped the FSC JV squad with a score of 21-11. The Ram swimmers' 13-12 victory over Bakersfield Tuesday made for a 5-3 season record. Friday at 4 PM Coach Stephens' team will host Cabrillo College at the FCC pool. The Rams lost by a 13-15 edge in their first match with Bakersfield Sept. 20, then took vengeance with another equally tight game Tuesday. In the first quarter of Tuesday's encounter the Gades led 4-0. The score held close until half time, which ended with a 5-5 tie. The Rams then came through in the last quarter with five goals to Bakersfield's one, giving them the one winning point. Coach Stephens' aqua squad participated in the 12-team second annual Cabrillo Invitational Tournament last weekend, winning three of five games for runnerup honors in the consolation bracket. FCC topped West Valley College 12-9 in the first test, paced by five goals each from Holmes and Bob Grimm. Then the Rams had the misfortune to draw defending champion Foothill College in the second round, losing 17-7.

## FCC Ball Park Will Be Rebuilt By April, 1967

The John Eulless Park, FCC and Fresno Giant home baseball diamond, will be rebuilt from "the ground up," according to Garland P. Peed, an assistant superintendent of the State Center Junior College District.

Demolition of the existing structure (built in 1941) has been approved by the district's board of trustees.

### Three Phases

Peed said that the new structure will be completed in three phases of construction. This work plus a fourth phase (lights) will complete the new ball park.

Most of the new construction is incorporated into the initial phase, which will begin with the completion of the demolition of the existing structure on Dec. 15. The end of Phase 1 is expected to come in early April 1967, in time for the beginning of the college baseball season.

The cost of the initial phase is being met by \$160,000 from the junior college district, \$20,000 from a drive sponsored by the Greater Youth Foundation and \$30,000 from the Fresno City Council.

### Many Improvements

The new park will innovate many improvements, including bigger and better concession facilities, concrete grandstand benches and modernized dressing facilities.

The park will remain the property of the State Center Junior College District and will continue to be the site of all FCC and Fresno Giant home games.

## Harriers Will Participate In Six-Way Preliminary

Coach Bob Fries will get an idea as to how his Ram harriers will rate in Valley Conference action when the team travels to Modesto at 4 PM tomorrow to participate in the Conference Preliminary Meet.

ANDY HANSEN

The purpose of the meet is to help evaluate the strength of the six teams in the Valley Conference.

Friday's dual with Los Angeles Valley College was cancelled at the last minute, and the Rams' season opener amounted only to inter-class running.

Veteran Wayne Van Dillian drove up from Woodlake to give leading runner Pete Santos a good battle and a tie for first.

### Good Showing

Santos and freshman Andy Hansen both made good showing in the race, and Fries expects them to stand out in the Modesto meet.

The 880 was an even 2:40, and at the end of the first mile the time was 5:18. When the race was half over Santos was leading Van Dillian by a few yards, and freshman Andy Hansen made it a three-man race.

### Van Dillian Takes Lead

Van Dillian took the lead at the two mile mark, but Santos dogged him through the next mile, giving up five to ten yards. Santos then made an effort in the final 100 yards and closed within a yard at the wire.

Andy Hansen, the first freshman to finish, looked strong throughout the race and finished with a fine time for his first three mile outing.

Billy Wilson, former Fresno High School runner who stayed out a year to get married, finished third.

Fourth place Frank Luna is showing signs of conditioning. Coach Fries expects him to be one of the Rams' front runners this season.

Konon, one of Roosevelt High School's all time best distance men, finished fifth in the race.

John Garcia (just married) and Alton Durst (20 lbs. overweight), returning veterans, took seventh and eighth.

## House of Samples

### FOR THE LATEST IN WOMEN'S APPAREL

**ATTENTION GIRLS** — With the presentation of your student body card we will give you 15% OFF on all sweaters and skirts.

**HOUSE OF SAMPLES** is giving you an opportunity to complete your winter wardrobe at a tremendous savings.

**Hurry while selection is complete. Offer expires Oct. 8, 1966.**

Sizes 5 thru 16. Lay-Away Plan available, and open Fri. Nites 'til 9:00.
