

# 'International Dance' Tomorrow Night

## Clothes, Contest Set Atmosphere

An 'International Dance' presented by the International Club and sponsored by the Associated Men Students will be held tomorrow in the Cafeteria from 9 to 12 PM.

Music for the three hour event will be provided by the Rakes Progress, formerly called the Vibrants.

"This should be an excellent dance," said Hector Herrera, International Club president. "It will give students a refreshing break from regular school activities and provide an excellent chance to socialize."

### Casual Dress

He encouraged everyone who has nothing planned for the evening to attend.

Dress for the dance will be casual attire with men wearing regular school clothes and women wearing capris if they wish.

For those students who would like to "set the pace" for the coming Clovis Rodeo, a special option to wear western attire will be recognized.

### Clothes Contest

A western clothes contest will be held during the dance to select the best dressed man and woman. Both will receive a gift "to fit the occasion."

Tickets, which will be required at the door, may be obtained from 10 AM to 1 PM today and tomorrow in the cafeteria upon presentation of a student body card informed Jeff Lewis, dance chairman.

### Chance To Meet

"Don't be afraid to come to this dance stag," said Herrera. "There's going to be a lot of people attending which will give you a better chance to meet them."

Members making up the committee for the dance are Lewis, Herrera, and Reza Sheikhzadeh. The AMS club members will help in putting up decorations.

## Board Votes To Relocate Headquarters

The State Center Junior College District will move its administrative offices from 924 North Van Ness Ave. to 487 West Shaw Ave.

"The lease for the Van Ness offices will expire June 30," said Superintendent Stuart M. White, "and the offices are already crowded. An assistant superintendent will be joining the staff."

The new offices will contain 5,000 square feet of space compared with 2,000 square feet in the present offices.

### Five Year Lease

White said the lease offer is for five years for an annual rental of \$19,500.

The board of trustees passed the new office measure by a vote of four to two. Opposing the vote were Jack L. Hammerberg and Walter G. Martin.

Martin was opposed to a lease of more than three years.

Hammerberg said that the administration should put up with present facilities until the district can afford to build its own building rather than renting.

### Buying Time

White commented that classrooms were needed and that by renting the district would be buying time until the district finances were straightened out. By the end of five years White said that he thinks the district could afford to build its own administration building.

LISA HOBBS, noted San Francisco newspaper reporter and author of "I Saw Red China," a current best-seller, will speak before the student body Monday at noon.

## Lisa Hobbs Sets Monday Lecture

By PAUL SULLIVAN, JR.

Lisa Hobbs, the first United States staff reporter to enter Red China in nearly 10 years will lecture on life inside Red China in FCC's auditorium at noon Apr. 25.

Miss Hobbs, presently a staff member of the San Francisco Examiner, visited Red China in the summer of 1965. She entered Red China at the Lo Wu-Shumchun bridge in Hong Kong.

### Facts Of Living

During her 4,000 mile trip of 21 days, Miss Hobbs had a chance to record what she saw, heard and experienced. As a reporter she has observed the daily facts of life in China: food, clothing, homes, jobs, religion and crime. Communications in the form of newspapers, radio and television; education under the present communist regime and propaganda in relation to education, art, literature, entertainment and the theater.

### Chinese Population

China presently contains one-fourth of the total world population. Historians have noted that even if China were to lose half of its present population it would still have a population greater than all the Western powers combined.

Miss Hobbs has been a U.S. reporter for the past five years and lives in San Francisco with her husband and two children.

She is also the author of a book, I Saw Red China. Publication began in January.

Miss Hobbs will also lecture at 8 PM in the Fresno County Schools' Auditorium on Apr. 25.

The auditorium is located at 2314 Mariposa St., across from the Fresno Police Department. Both lectures are being sponsored by

## AMS Plans Car Show Wednesday

The Associated Men Students' Autorama will feature 50 Fresno area cars, including custom made, sports and antiques.

It will be held Wednesday, from 9 AM to 5 PM in the technical and industrial parking lot by University Avenue.

Custom motorcycles will also be on exhibit.

The Inn Mates, a local band, composed of Tim Wright, Phil Goodwin, Jon Simons and Jerry Privett, will provide the entertainment during the noon hour. Free soft drinks will be served at this time.

Hank Yostmeyer, FCC freshman, is the committee chairman.

Committee members include Mike McNally, Mike Lawless, Ed Reid, Mark Powers and Jim Daly.

"I certainly hope all students will attend this activity," said Ron Winter, AMS president. "I think it will be something everyone can enjoy."

Carl Rustigan, shop instructor, is the AMS sponsor.

No admission will be charged.

## Bradshaw Favors State JC Board

By SPENCER KENDIG

Junior colleges need a statewide board to give them proper representation in Sacramento. This is the opinion of Dr. Archie Bradshaw, president of FCC.

"I believe in a strong centralized plan for representing the junior colleges," Dr. Bradshaw said. "It should be similar to the Board of Regents for the University of California and the board of trustees for the state colleges."

Dr. Bradshaw proposed, in answering a questionnaire that members of a junior college board should be chosen either by the governor or by two educational associations representing junior colleges, the California Junior Col-

lege Association and the California School Board Association.

### Funds For Construction

"This would insure a balanced selection of board members, hopefully including businessmen, lawyers, educators and representatives of labor and agriculture," Bradshaw said.

He said that a strong state board of junior colleges could take steps to make corrections in the distribution of state funds used for the construction of JC facilities.

### \$50 Million Allocated

"Of the \$200 million provided for educational facilities by Proposition 2, \$50 million was allocated for junior college construction," Dr. Bradshaw said.

"However, by order of the State Department of Finance, junior colleges have to match funds to receive their share of the money while state colleges and universities get their share with no strings attached."

## Johnson Sees 'New Impetus' In Auditorium

The \$73,000 remodeling job on the FCC Auditorium will give new impetus to the drama department.

This is the opinion of Frederick Johnson, head of the department. He said the department has been forced to use the Social Hall for plays because of the poor acoustics in the Auditorium.

Johnson said the first of next year's two major productions will be a musical produced in conjunction with the music department. He said the drama department will also do a one-act play due to the popularity of this year's play.

The remodeling job will improve the acoustics as well as the comfort with cushion seats, and air conditioning will also be added.

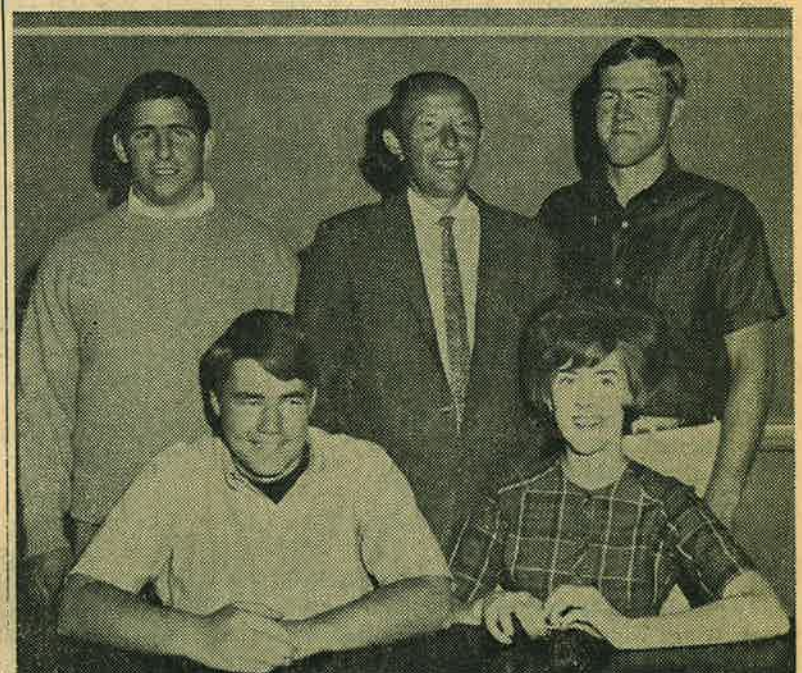

Johnson feels that these improvements will help to increase the attendance. He said only about 7 per cent of FCC students have attended dramatic productions in the past.

## New Classes Scheduled

John McCuen, dean of instruction, reported that there will be a number of new classes offered Fresno City College students next fall.

McCuen said there will be two additional classes opened in Building Technology as well as three others in Electronics.

Other new classes will be offered in English, police science and secretarial science.

DEBATERS. Franz Weinschenk, FCC debate squad coach (center), is surrounded by four squad members who will be competing in a debate tourney tomorrow and Saturday at Sacramento State College. Seated (L to R): John Black and Dolores Dade. Standing: Tim Mancini, Weinschenk and John

## Disagreement Arises Over Grading System

Despite the increasing number of colleges and universities which have switched from the letter-grade system to the new pass and fail system, there are still many educators today who are reluctant to abandon the old system.

And it is not really surprising when one considers the procedures under which the new system operates.

The fact that his grade (pass or fail) might be determined from the results of a few oral and written examinations would seem to be a major disadvantage for the student.

Under this new system, the instructor could judge the student according to what he has learned and what the instructor feels he should know in consideration of the knowledge of his fellow students.

Unfortunately, some instructors use only a few, comprehensive tests to determine student grades. What this amounts to is that the student either has to pass the tests or suffer the consequences and fail the course.

Is this a fair and valid method for measuring a student's knowledge? Some say that it is. Too many students, they say, are more concerned with earning good grades than with achieving a good education. The proponents of the pass or fail system feel the elimination of numerical grades relieves much of this pressure on students to earn high grades and that it therefore allows students more time to concentrate upon achieving good, liberal educations. Furthermore, they contend that such a system permits a closer relationship between the students and the faculty.

Few can deny that this system is designed with good intentions. To be sure, a good education is indeed far more important than just good grades. And a better two-way communication system is vitally needed.

But until the new pass or fail system provides some more accurate means for determining a student's true academic ability, there will still be many educators who will rather fight for the old grading system than switch to the new method.

### Culture Notes

## Brigadoon Comes To UOP, Yarborough To Fresno

By NELLIE BONILLA

Folksinger Glenn Yarborough will present a concert at 8:30 PM May 7 in the Roosevelt High School auditorium.

## Tree Dies, UD Mourns

By LYNNE OKAMOTO

University of Denver—the green thumb of Mrs. Lyndon B. Johnson did not plant a healthy sapling pine oak. "Glenn Davis, manager of Plants and Services, announced that the sapling pine oak tree planted by the First Lady died after an illness of several months."

Mrs. Johnson planted the tree last Sept. in the Harper's Humanities Garden.

The rapid changes in temperature caused the young tree to die.

Compton College—a bit of Hawaii will be brought to Compton College as the AWS and Usherettes plan a Hawaiian Day for the students.

"Everyone is encouraged to wear Hawaiian clothing including the faculty," said Jeanne Okine, president of AWS. Plans for the day include a tug-o-war, tricycle and surf-skate contests.

A hula for men students only and a pie-eating contest are scheduled. Other contests are the most beautiful Hawaiian costume of coeds and the funniest outfit of men students.

A dance will be held later with Hawaiian entertainment.

will be comedian Murray Roman and the Stanyon Street Quartet.

The Fresno State College Popular Arts Committee will sponsor the concert.

Tickets for concert are \$3, \$3.50 and \$4. They may be purchased at the Hockett-Cowan Music Co. box office.

### Brigadoon

Brigadoon, Lerner and Loewe's musical about a mystical village in the Scottish highlands will be presented Apr. 29 to 30 at 8:30 PM in the Pacific College Amphitheater.

The Pacific College music department will present the musical along with Roosevelt and McLane high school groups.

Tickets may be reserved by calling Pacific College at 251-7194. They are also being sold at the Hockett-Cowan box office.

### Personality Painting

Portraits by Ethel A. Voorsanger will be shown at the Fresno Arts Center, 3033 East Yale Ave., through May 8.

Mrs. Voorsanger said that her approach toward the person is painting usually depends on his personality. She is a member of the San Francisco Women Artists.

### San Francisco Ceramists

Ceramists Win Ng and Spaulding Taylor, both of San Francisco, will exhibit their works in l'Entrepreneur Gallery until May 16.

Ceramic bottles, pots, compotes, platters, enamel on copper pieces and few large sculptures will be shown.

The gallery will be open from 11 AM to 5 PM daily and until 9 PM on Fridays.

# Two Year Old Division Offers Two Degrees

The Fresno City College Mathematics, Science and Engineering Division is only in its second year of service to students. The division was previously part of the Letters, Arts and Science Division.

James P. Collins, dean of the division, said that his division offers two degrees, the associate in arts and the associate in science.

They are four-semester programs with high academic standards, requiring more depth in the major with some general education courses postponed until the upper division. There is also an engineering technician program which provides an AS major for technical and industrial students.

### Registered Nurses

The registered nursing program is also offered under this division.

Collins said that an effort is under way to determine the needs of students enrolling in the various division classes. Many liberal arts students who are not transfer students are admitted into the

mathematics, science and engineering courses.

### Lower Division Credit

He said this creates difficulties for the staff in administering to the needs of the qualified transfer students.

He said the division provides courses equal to the lower division courses in four-year colleges. Students are prepared thoroughly for further work in state colleges and universities.

Most of the FCC courses in mathematics, science and engineering would be classified as liberal arts courses in a four-year college. Collins said a course that is a stepping stone to a student's major is not to be counted as a liberal arts course. He explained that required courses for a major are not liberal arts courses, but courses in addition to the requirements are considered liberal arts courses.

Fewer students take more advanced courses that are offered, partly because some students transfer to Fresno State College

and others are employed by local industry before they complete their work for a degree.

### Functions Of A JC

The functions of a junior college, he said, are to provide terminal, liberal arts, four-year college lower division and general education courses and adequate guidance and orientation.

"I like to think of the junior college as having many of the characteristics common to an excellent clinic," Collins said.

Students are entitled to be tested and diagnosed thoroughly, and through guidance they are placed in classes best suited to their needs, Collins said.

"If we could only identify the transfer students and the terminal students early enough, we could service them adequately," Collins said. He said that a strong student should build well while he has the opportunity.

In Collins' estimation the remedial program should remain but under continued study and re-appraisal.

Norvel Caywood counsels Kathy Dunlevy for the fall semester.

## Troop Has Reaped Rewards

By SANDRA DRALE

Gulliver's travels may have been longer, but they couldn't be any more rewarding than the travels of The Farce of the Worthy Master Pierre Patelin, the drama department's touring play.

During the year the play has visited 11 high schools in the State Center Junior College District. Last week the group took its longest trip to Chowchilla High School, 37 miles away.

In order to perform at an assembly at 9 AM, the cast and crew members left FCC at 6:30 AM.

### Hour And A Half

When the group arrives at a school, it takes an hour and a half to set up the scenery and put on make-up.

"At Chowchilla we performed in a gym with a portable stage," Frederick Johnson, drama instructor, said. "It is the second time the cast has performed in a gym."

Johnson noted that there are three reasons why the department decided to present the one-act play.

### Alive Audience

"Primarily it offered the students a chance to perform for a live audience," he said. "It is also a way of showing high school students what we offer in the drama department and encourage them to take courses."

He explained that the third reason was generally to promote live theater and that it is difficult for the high schools to get good assemblies.

"We have received thank-you letters from the principals of several high schools. Kerman and Washington Union High Schools also wanted us to come, but we couldn't fit them in."

"This type of experience is marvelous training for drama students. There are several weeks between shows, and they must rehearse continually to keep the show alive," he explained.

A vocal ensemble from the FCC Harold Thompson, and Douglas Melikian.

music department accompanied the play on several of the trips.

## 'Dumb' Umpires Are Getting An Education

By ANN COX

In spring a young man's thoughts turn to baseball, as the saying goes. And any thought of baseball must include that frequent object of the fan's attention—the umpire.

Umpires and various other sports officials don't suddenly appear at the beginning of the sports season, however. They must learn to do their job.

Fifteen FCC men students are learning the officiating trade in Coach Irwin C. Ginsburg's officiating class, Physical Education 54, Tuesdays and Thursdays at noon in McLane Hall 207. The students are also learning how to officiate at track meets, swimming events and tennis matches.

The student officials also supervise Little League games and junior high school games occasionally.

Students participating in the sports officiating program are John Bese, Joe Binatena, Mark Bogdanovich, Forest Dean, Dennis Deliddo, Richard Gorubec, Rod Hicks, James Mendoza, Felix Mislang, Dennis Pettineli, Juddy Reasoner, Dave Rickerd, Peter Santos,

# Bookstore Facilities To Triple In Fall Of '66

By THOMAS ARRIET

The Fresno City College Bookstore now under reconstruction will be three times larger than the present facility.

Mrs. Jewel Detttinger, bookstore manager, said it will include 375 square feet of office space, 4,100 square feet of purchase area and 1,650 square feet of storage.

A new record room will be 108 square feet. Two dressing rooms and a clothing area will be 940 square feet.

The present bookstore will be remodeled for use as an office and a stock room.

The present entrance will be walled except for a ticket window where students can resell used books.

## Porch

The porch of the Student Center will be extended and enclosed. The entrance to the new bookstore will be on the west side of the Student Center.

Students in wheelchairs will be able to enter by means of a ramp leading to the entrance.

"Four cash registers will be in operation at all times. Four additional registers will be used during the early semester rush," Mrs. Detttinger said.

## Supplies Increase

Space will be provided along the north wall for reference books and other titles printed in paperback. Art supplies will increase in variety.

A record room and two dressing rooms will be among the new facilities. A selection of classical and the latest best selling stereo records will be in stock. The new record room will also carry sheet music.

Gym socks and sweat pants will be available as well as gym trunks, shirts and sweat shirts now carried.

R. J. Ecklund Construction Company of Fresno is under contract to remodel the bookstore.

# Lifeguards Take Test

The lifeguard test for interested students will be held at Millerton Lake State Recreation Area of the Beaches and Parks Division.

Lee Bergthold, lifeguard supervisor, said that the test will be held on May 7, beginning at 8 am and lasting most of the day.

He said that the test is for high school graduates only. Testing and hiring will be on a competitive basis for new and returning candidates.

Appointments are made on the basis of highest qualifying scores. There are eight positions to be filled.

Scores are derived from:

1. 1,000 meter swim (50 points)
2. First aid and lifesaving techniques (20 points)
3. 1,000 meter run (10 points)
4. Experience and qualifications appraisal (10 points)
5. Education and personal fitness evaluation (10 points)

Bergthold said a lifeguard should know water safety skills and be physically fit. The division's job is two-fold: (1) to minimize liability risks by hiring individuals physically and aquatically fit and (2) to provide a fair and equal opportunity to all qualified applicants.

Hourly wages for the jobs range from \$2.80 to \$3.09.

For further information contact Bergthold at 291-3788 or at Millerton Lake.

## Club News

# FCC Marketing Club To Merge With Educators

The Fresno City College Marketing Club voted to merge with the Distributive Education Clubs of America.

Asked why the two clubs are being combined, Dr. Gilbert M. Peart, adviser of the Marketing Club said, there is usually a greater interest when a college club is affiliated with a state chapter of a nationwide club.

He said a constitution must first be submitted and approved before the combining of the clubs is official.

## History

DECA is a program which began in 1948 and is designed to provide leadership training for students preparing for retailing and wholesaling jobs.

Throughout the year DECA has many district and state leadership conferences, and each spring there is a national leadership conference.

At a recent state leadership conference in Long Beach FCC student Dennis Netzley was elected vice president of the central region of California. This makes Netzley eligible to attend the national conference in Chicago Apr. 28-30.

DECA is backed by some of the largest retail organizations in the U.S.

"This club will be open to those FCC students who are presently taking or have completed the merchandising field experience class," said Dr. Peart.

## Latin American Club

The Latin American Club, a Spanish culture group, will have a car wash Saturday from 9 AM to 6 PM at the corner of Kings Canyon Road and Fowler Avenue. The charge will be \$1 per car.

Club members will discuss the May 5 Mexican food sale at their meeting today at noon in Cafeteria Committee Room B.

## AGS

Alpha Gamma Sigma, honor society, and the Associated Women Students will meet today at noon in Cafeteria Committee Room A and the Student Lounge.

AMS will meet tomorrow in Cafeteria Committee Room A and B.

"Bids for the spring formal will be available beginning May 2 in the foyer of the Cafeteria from 10 AM to 1 PM," said Ron Winter, club president.

# Visitors To View Campus

An open campus will be held Wednesday from 10 AM to 3 PM as part of Public Schools Week.

Mayors of local cities, members of the county board of supervisors and members of the Fresno City Council will tour the Fresno City College campus.

At 11 AM the group will attend a demonstration of stenography in Administration 200. A band concert will be held at noon in the area between the Cafeteria and Student Center.

Following the concert, a luncheon for the visitors will be held in Committee Room A and B of the Cafeteria.

A demonstration on modern dance and gymnastics will be given at 1 PM, and a debate between FCC and FSC debate teams is scheduled for 2 PM. The topic will be Resolved: That law enforcement agencies be given greater freedom in the investigation and prosecution of crime.

The last event of the day will be an autorama at 2 PM between Technical 100 and Technical 200.

On the same day six FCC students will attend An Invitation to Teaching—World of the Teacher.

College and high school students interested in becoming teachers will tour three schools, the Instructional Material Center and attend a luncheon.

The event is being conducted by the Unified School District.

# FCC Schedules Placement Tests

Prospective FCC students are urged by John Ryska, FCC counselor to submit application forms for the fall semester as soon as possible.

Examination dates are assigned on the basis of the date of application, and the sooner the application is received the sooner the student can take placement tests.

"The examination scheduled for Saturday is completely booked," said John Ryska, chairman of the FCC Placement Test Committee. "and the one scheduled for May 14 is almost filled."

Other tests are scheduled for May 21 and June 16.

Application forms may be obtained from high school counselors or from the FCC admissions office. They may be requested by mail.

The tests, which are free of charge, are not for the purpose of admission. They are designed to determine the prospective student's level and capacities in certain basic subjects.

Enrollment information may be obtained by phoning the FCC Counseling Center at 264-4721, extensions 38 or 39.

# Golfers To Face Reedley Linkmen

Fresno City College golfers, currently preparing themselves for their last two games of the Valley Conference circuit, will face Reedley Junior College tomorrow in a non league encounter at 1 PM on the Tigers' home course.

Coach Hans Wiedenhofer has given the Rams a good chance to win tomorrow's match mainly on improvement made during their last few games.

**Shows Improvement**  
"The team has shown considerable improvement," Wiedenhofer said. "With Reedley resting near the bottom of their league, I don't expect too much trouble in beating them."

The Rams, who are currently tied for fifth place in the league with Sacramento City College, will have a chance to jump into fourth place Tuesday when they meet the Panthers at 1 PM on the SCC course.

**Strengthens Team**  
With the recent addition of Bill Parks to the team, Wiendenhofer has expressed optimism in reversing the results of their last meeting.

"I think we will provide a much closer game this time," he said. "Since the addition of Parks, the team has played much better. We could pull an upset."

**Starting Lineup**  
The starting lineup for both games will find Rich Richards leading the attack and followed by Tom Shropshire, Parks, Roger Stiles and John Winstead.

In last Tuesday's triangular meet with Modesto Junior College and San Joaquin Delta College, the Rams lost to Delta 404-424 but pulled out a victory over Modesto 424-433.

**Heads Attack**  
Richards led the FCC attack over Modesto with an 18 hole score of 78 and was closely followed by Winstead's 81.

Shropshire, who usually finished in the 70's, dropped to 93 behind teammate Parks, 83, and Stiles, 89.

The loss drops Modesto to the bottom of the league with an 0-7 record.

The Rams will play their last Valley Conference dual meet Mar. 3 when they meet COS.

# AMS Bowlers Head League

The Associated Men Students' bowling team is currently leading the field at the halfway mark of the Fresno City College spring semester bowling league.

By downing the Sandbaggers 2-1 last Thursday, the AMS team moved into a one game lead over the Pinspotters, who lost two matches in their three-game series to the Alleycats.

The AMS team is made up of Dave Drzwiecki, who leads the field with an average of 185; Ron Winter, 165; Edie Reids, 161; and Gary Brinkley, 160.

Among the throng of spirited contenders is Caroline Wesley Cooper, who will reach her 67th birthday "sometime this year."

Winter, AMS president, said Mrs. Cooper is a welcome participant in the league because "she keeps all of us trying just a little bit harder."

The league meets every Thursday at 4 PM in Mid State Bowl.

# Ram-Delta Tilt To End VC Season

By TED HILLIARD

Easy times are ahead for the FCC trackmen when they meet San Joaquin Delta College tomorrow in their last dual conference meet of the season. The 3 o'clock meet will be held in Stockton.

Ram cindermen are undefeated in all competition this season, and a win over Delta would cinch a perfect league record.

**Should Win**  
All indications are in favor of the Rams winning the meet. Delta is in the cellar in league standings, and FCC has a winning record of 4-0. The Rams captured first place in the Valley Conference Relays March 12 with 84 points, and Delta came in last with a mere 10.

Delta has a good half-miler, Chester Fields, and Coach Erwin Ginsburg expects him to provide a battle for Raul Perez. Fields took third in the state meet last year with a half-mile time of 1:51.

**Provide Opposition**  
Delta may also be a stiff opponent in the discus and high jump, according to Ginsburg.

"Except for these three events," he said, "we shouldn't have any trouble, and this meet will give some of the boys a chance for a breather."

Two school records fell before Ram runners Saturday at Berkeley when FCC defeated Sacramento City College and the University of California frosh in a combined three-way and Valley Conference meet.

**Breaks Record**  
Raul Perez broke his own and the school's record with a 1:50.8 half-mile score.

Pete Santos ran in the mile and half mile, setting a 4:12 mark in the mile run.

The three-way meet ended with FCC 86, SCC 82, and UC 42. The Rams topped the conference action with Sacramento 95-41.

# Baseball Team To Play Panthers

Fresno City College's baseball team will host the front running Panthers of Sacramento City College Saturday at John Eulless Park in a Valley Conference doubleheader set for 12:30 pm.

Coaches Len Bourdet and Fred Bartels will probably start their pitching ace Bert Bandy, who has registered five straight wins.

"These games could be very close," said Bourdet. "If the team can keep up the pace it has set in the last few games, we will definitely have a chance to win both games. Pitching will be a major factor in the outcome."

**Goes Distance**  
In notching his fifth straight win Bandy allowed the Mustangs of San Joaquin Delta College just two hits as he went the full nine innings.

The Rams first marked the scoreboard when Bandy singled in the third inning, moved to second on a wild pitch, and raced home on Jerry Robison's single.

**Scores Again**  
They added another run in the seventh when Ernie Coppo walked and went to third on Ken Papi's single and scored on Dennis Pettinelli's second hit of the game.

In the ninth inning the Rams padded their 2-0 lead as Bill Brown got on first base by a hit pitch, advanced to second via a sacrifice by Coppo, went to third on Bandy's third single and scored on Pettinelli's third single. The Rams won the opener 3-0.

**Cargill Wins**  
In the nightcap, Len Cargill allowed three hits in winning his second VC game this season.

Catcher Craig Friebe broke the scoreless game when his sacrifice fly in the fourth gave the Rams a 1-0 lead. Ned Andreoni added two more runs to the score when he doubled off the left field wall, scoring Pettinelli and John Lung. SJDC scored their only run of

COACH LEN BOURDET

the day in the sixth inning when losing pitcher Ed Thorpe doubled and later scored on the two groundouts.

In the seventh the Rams added frosting to the victory when they added another tally to their score as Lung walked, advanced to second on a wild pitch and scored on Brown's single, making the score 4-1.

Cargill and Friebe; Thorpe and Equisa.							

# FOOTLOOSE AND FANCY-FREE?

Or just at loose ends? There's a big difference, you know.

Like the difference between the guy with a pie-in-the-sky scheme to get rich quick, and the man with a plan for financial security.

Or the difference between a savings plan that's hale and hearty as long as you are, and a life insurance program that keeps going strong even when you can't.

Life insurance is one investment you can make today that's guaranteed to take the strife out of life years from now. That might be worth more, from the very beginning, than you put into it. That could be worth as much, at any time, as you planned to put into it in a lifetime. And the sooner you start, the less it costs.

Got some loose ends that need pulling together? We're specialists at it... especially for young people.

# Rams Soon To Have Renovated Ball Park

John M. Eulless Ball Park will have a new look next spring when Fresno City College opens its 1967 baseball season.

The State Center Junior College District Board of Trustees approved a proposal to rebuild Eulless Park and authorized architect Maurice J. Metz to proceed with tentative plans for

the district contribution before construction can start on phase-one of the new concrete facility. If this amount is not raised, the board said it will build a simpler bleacher-seat facility for FCC.

The board allocated \$160,000 from Civic Center taxes for the rebuilding project. Half of this amount is being collected this year and the other half next year.

About \$210,000 will be required to complete phase-one, including some \$50,000 from outside sources. The board has been informed by the Greater Fresno Youth Foundation that it is willing to provide the remaining funds needed to complete phase-one. The GF-YF sponsors the Fresno Giants' professional baseball team, which plays its California League home games in Eulless Park.

The board has made it clear that some group—whether it be the GF-YF or any other community organization—will have to provide the necessary \$50,000 to match
