### Book signup service begins

Spring is in the air, and so is the question of where to get the text-books one needs for the spring semester.

With money often in question one may need to buy used books. Where to find them without having to check all the posters may have been answered by the new system of book registration offered by the FCC Bookstore.

The book registration system went into effect towards the close of the fall semester, and according to Jewel Dettinger, manager of the bookstore, it is working out well.

The service is designed to end the use of posters fo selling books, and to make it easier for student to locate the books they need with the least possible trouble.

Though the service has been advertised for the past few weeks, some students have continued to post their books on the walls and bulletin boards in an attempt to sell them faster.

Another porblem cited by some students is the number of books listed under "An" or "The" which makes it harder to find the books they need.

Fresno, California

Feb. 8, 1973

## White to retire in June

Stuart M. White, superintendent of the State Center Community College District since its format-

ion in 1964, has submitted his resignation effective June 30.

White, 60, a veteran of 38 years in public education and 20 years in community college education, was serving the third year of a four-year contract with the district.

He told the trustees in his letter of resignation:

"This action on my part is not due to any lessening of the challenge, desire or satisfaction that comes from being able to serve as your superintendent and to share in what we hope has been a good community college district and educational program serving the needs of our communities. However, it appears to be a right time for both the district and myself to make this decision."

The board accepted the resignation "with profound regret and deep gratitude for your efforts" and instructed the administration to appoint a selection committee as soon as possible and begin the

search for a successor.

White became the first superintendent of the two-campus district after it was created by a vote of the residents of 17 high school districts in November, 1963. He was president of Fresno City College, then a part of the Fresno Unified School District, from 1953 until 1964 and before that was principal of Edison High School for seven years.

During White's tenure as superintendent, day enrollment at the district's two campuses rose from 5,868 in 1965 to 9,374 in 1972. Combined day and evening enrollment at the Reedley and Fresno campuses grew from 7,797 to 16,456 during the same period. The percentage of high school graduates in the district who chose to enter one of the two district campuses grew from 37.1 per cent in 1964 to 49,6 per cent in the fall of 1972.

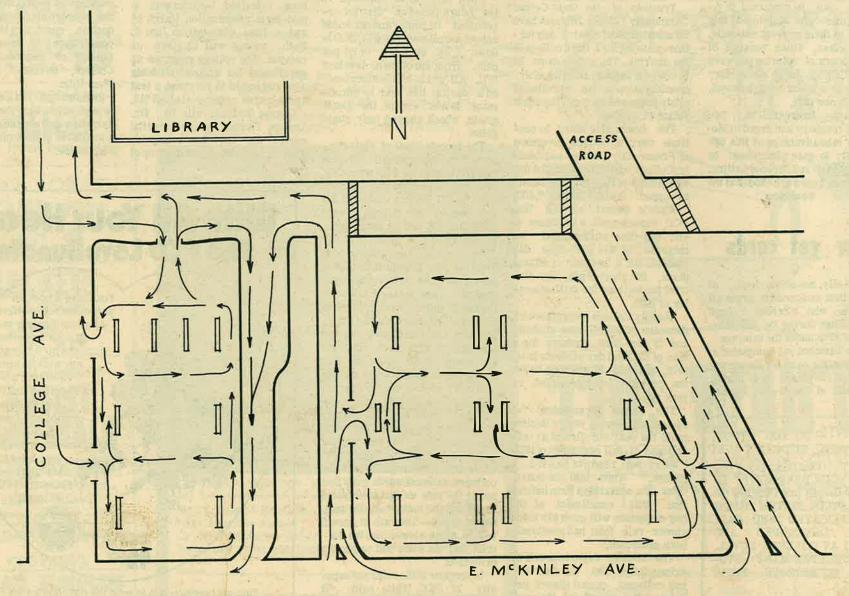

Active in education at the state and national levels as well as locally, White is a past president and vice president of the California Junior College Association and served six years on the state group's board of directors.

He also served as chairman of the California Education Coordinating Committee and as chairman of the facilities committee of the state Coordinating Council for Higher Education during the period the state group studied the need for additional campuses for the University of California and the state colleges.

He was also a member of the legislative committee of the American Association of Junior Colleges, the California Board of Vocational Nurse Examiners, and the California Junior College Committee on Relations with Schools.

White is a graduate of Fresno State University (1935) and holds a master's degree from the University of Southern California. He was born in Lindsay and taught school in Bakersfield, Avenal, and Lemoore before joining the staff as a science and mathematics teacher at Edison High School in 1940. He became principal at Edison in 1946.

Torres, Ruthardt, Pauls, Mesler and Toshiyuki

### Orchestra stars night shine tomorrow

The FCC music department will play host to the Northern California Community College Honor Orchestra Festival Friday. Guy Taylor, musical director of the Fresno Philharmonic Orchestra will be on the podium conducting the ninth annual concert-festival.

musicians partici-Student pating in the festival are from nine Northern California Communtiy Colleges -- Bakersfield, Canada, De Anza, Diablo, Valley, Foothill, FCC, Lassen, College of San Mateo and Sierra.

FCC students to play in tomorrow evening's concert include Naomi Toshiyuki and Tony Mesler, flute; Connie Pauls and Kathleen Dorsey, viola; Jeff Torres, second violin, and Robinette Ruthardt, clarinet.

Alex Molnar, FCC orchestra director and festival chariman, said the annual festivals were organized nine years ago to give students the opportunity and experience of performing under the direction of an accomplished conductor--this year, Taylor.

Concert music selected by Yaylor for the Friday evening program includes Mozart's Over-ture to the "Marriage of Figaro," Ives' "The Universal Question," Brahm's Fourth Symphony, Fourth Movement, and Stravinski's "Lullaby" and a Finale from the "Firebird Suite."

The festival will also include an on-campus rehearsal, with the evening concert to be held at the Fresno Convention Center Theater at  $\theta$  p.m. Admission is free and the public is invited.

### **Tutors** sought

Tutoring for college credit is offered under Education 59-A this semester. Instructor Bruce Morris can be contacted in A-207 by those who wish to add this course to their present schedule.

The class, which consists of three hours of tutoring per week at FCC, a local elementary school, or a junior or high school, is worth one unit.

Students interested in becoming teachers are urged by Morris to take advantage of this opportunity to gain experience by working in a real school setting. The three hours are chosen at the wenience. studen

### New vet cards

Joe Kelly, associate dean of admissions and records, urges all veterans who attended Fresno City College during the fall semester of 1972 under the veterans bill who have not yet completed a new veteran's card for the spring semester, to please do so during the week of Feb 5-9 at Window A-110.

STUDENTS: DO YOU STUDY, AND STUDY, BUT CAN'T GET DECENT GRADES? DO YOU BEAT YOUR BRAINS OUT" TO NO AVAIL? IF SO, THIS IS FOR YOU: A STUDY SYSTEM THAT IS UNCOMPLICATED AND EASY TO USE. DEVELOPED AND TESTED AT COLLEGE LEVEL, IT HAS HELPED MANY STU-DENTS TO IMPROVE THEIR GRADES.

Send \$2.00 to Study Systems, P.O. Box 555, Coeur d'Alene, Idaho, 83814. Your passport to better grades will be sent to you post

## No third campus

Trustees of the State Center Community College District have terminated indefinitely any further planning for a third college in the district. The action came at th board's January meeting after consideration of an enrollment study prepared by Superintendent Sutart M. White.

The board also voted to continue current building programs at Fresno City College and ReedleyCollege and agreed that the day enrollment ceiling for FCC should be upped from 7,200 to 7,800.

White's report showed that FCC experienced a decrease of 415 full-time students and an increase of 346 part-time day students for a net loss of 69 students, 187 short of previous district projections for falll semester of 1973.

Reedley College experienced a decrease of 126 full-time students and 12 part-time students for a loss of 138 total day students from 1972, and fell 36 students below the growth level projected a year ago.

The report documented second successive yearly decline from the peak enrollment at both colleges of fall semester of 1971. "We're not ready to say it's a change," White told the board. "But it's certainly a firm indication that enrollment at the two campuses will grow at a much slower rate than had previously been predicted."

The 31-page report showed by extrapolation that the district's two colleges cannot expect any apprecialbe growth in the numberof high school graduates in the district until at least 1977-78. Nearly 50 per cent of the high school graduates enroll at one or the two campuses.

Little help can be expected in the future based on district enrollment in public and parochial school enrollment in the SCCCD is down 1,706 students, or 1.5 per cent, from enrollment levels of 1971. All grade levels experienced a decline this year in enrollment levels except the fourth grade, which showed only slight

The income level of state support, based on weekly student contact hours, is also declining, the report pointed out. From a high of 117,000 at FCC and 35,816 at Reedley the figures were 180,000 at CC and 33,482 at Reedley for 1972.

On e phenomenon affecting the level of district foundation support from the state is that fewer students are taking a full-time load of 15 units. "We actually have about the same number of students physically on campus as we had last year," White said, "but they are taking fewer units and the state bases its aid on the number of weekly student contact hours." Part ime enrollment at Fresno campus is up sharply from levels projected a few years ago, according to the report.

summarizing the report White said he was "convinced the colleges will continue to grow, but not at the rate we had anticipated based on the history of the past seven years -- the rate of growth will be much slower than the district and the state had originally projected."

In regard to the enlarged capacity of FCC, White said "It appears now that Fresno City College, because of slower growth and students taking fewer units, will be able to accmmodate all who desire enrollment through

## President's welcome

As A.S.B. president, it is my pleasure and privilege to greet this spring students both new and old to our campus. It is my sincere hope that as satudents we all can meet the challenge of academic life with success.

I also hope that as college students you will participate fully in all student activities which will be sponsored by your student government. We feel that participation in student activities is as vital to your complete education as your class work. Becoming a part of the system and understanding it requires involvement on your part.

The goal of your Student Senate for spring of '73 is to keep you aware of what is going on on campus and make you aware of your

Associated Student Body functions on campus sponsored for you by

student government. Make good use of your Associated Student body card and it will benefit you.

I personally welcome all studemts to drop by the ASB office whenever you have any questions, suggestions or complaints about the way your student government is operating.

William R. Neads **ASB President** 

### Art history course offered

6:30 a.m. Monday, Wednesdays ity colleges. Dr. Tierney has and Fridays. The station is KMJtv, Channel 24, Fresno.

The sponsors are Fresno City College and four other community colleges who have fomed the Central Valley Consortium of Community Colleges to present a televised art history course beginning Feb. 7.

Art 25, a three-unit course, explores man's artisticachievements from the Paleolithic era through the Gothic period. It covers architecture, schulpture, painting and other minor arts of Western civilizations with a brief survey of early arts of Eastern civilizations.

The course will include 44 halfhour televised lectures with a mid-term examination March 24 and a final examination June 2. Both exams will be given on campus. The college requires no enrollment fee although students are requested to purchase a text and a course syllabus at about \$17.

Course lecturer will be Dr. Lennox Tierney, who created the series for the Los Angeles Television Consortium made up of

The focus is art. The time is 22 Southern California communmore than 20 years experience as an art historian, lecturer, photographer and author. He was awarded an Emmy in 1967 for a television course in art history.

FCC campus coordinator will be Walter Witt, an art history in-structor. Witt will be available to students who have any questions or problems during the semester.

The course is being sponsored by the Central Valley Consortium to provide high-quality instruction at a reasonable cost to residents of the State Center Community College District. Franz Weinschenk, dean of

humanities, said that a single college is unable toapproach the level of professionalism and standard of program attainable by the consortium because production costs are too high. The consortium includes FCC, College of Sequoias, Merced College, Reedley College and West Hills.

Registration will remain open through Feb. 14. Further registration and course information is available at the humanities division office.

## Student health plan offered

A low cost accident and sickness medical expense plan is now available to all students. It provides benefits for medical, surgical, and hospital expenses.

Coverage is 24 hours a day, whether on campus or off. The enrollment period limited to 30 days from the beginning of the semester.

For further information and applications contact college nurse Margaret McBride at the Health Center, A-136.

### Space prof slates talk

Space expert C, Stuart Bowyer will discuss X-Ray astronomy at a special FCC lecture 8 to 10 p.m. Friday in McLane Hall, Room 200. The talk, sponsored by the Central Valley Astronomers, is free and public.

Dr. Bowyer, a professor at the University of California, Berkley designed spaceship recording instruments used during orbit. He is largely responsible for interpreting the results detected by the first X-ray equipment used in obtaining information through galaxy observation.

Frank Williams

## FCC's 6-2 'giant' is leading scorer

Frank Williams, better known around basketball courts as "Captain Sky," is the leader of the FCC cagers in pursuit of COS and the Valley Conference title.

Frank may well be the smallest college center at 6-2 but through 18 games this year he is the biggest scorer and second highest rebounder in the state.

"Captain Sky" got his nickname from a couple of his teammates, and Coach Toomasian joined in the chorus which is now popular all around campus.

"Your jaw muscles are usually the strongest muscles in your body," says Williams. "I guess my body they're my legs." His strong legs enable him to leap over the rim for shots and rebounds, a difficult feat for a man only 6-2. Those strong legs can easily press 680 pounds in workouts.

Williams, a P.E. major, has played basketball since high school. He was also moved up from junior varisty football to varsity on the Edison championship team of 1969.

"I went out for track, but just couldn't keep it up," Williams said. "I play a little baseball too, but nothing organized. My sport is basketball". Basketball is the only sport Williams is participating in at FCC.

He would like to be a high school coach after finishing school. But should the chance at big college basketball come up, Frank will think hard on a choice between coaching and playing.

"I'd love to go to the pros, but it's a long step away," said Captain Sky. "Coach (Toomasian) thinks I'll get a lot of offers after the season's over; I hope he's right." By the way he's been performing, there should be no doubt his phone will be ringing regularly.

Captain Sky feels the Rams still have a chance at the conference title, mainly because of their schedule, with five of the last seven league games at home. They are 4-4 at this writing.

"If we win all our games at home, we difinitely can win it all," said the confident Williams. "You have to win at home to win a title, and it's all up to us, we've got the chance."

Williams also feels the team will be stronger when he gets more helpon rebounds. "I need more help on the boards. Del White has helped a lot, but

Bill Hibner and John Alexander

### Hibner jumps well in SF

Two of Fresno City College's top track prospects, John Alexander and Bill Hibner, have been or will be participating in some excellent early season competition.

Hibner, a freshman triple jumper from McLane, competed Jan. 26 at the Examiner Indoor Meet in San Francisco. Hibner leaped 45-5 to quality for the finals then jumped 46-5 3/4 for fifth place. He missed placing third by 1/4 inch.

Alexander, a Harry Coffee Blanket award winner in track at Hoover two years ago, attended Prairie View A&M in Texas last year. The lanky sophomore will represent the Red and White at the Athens indoor Meet Feb. 10 in

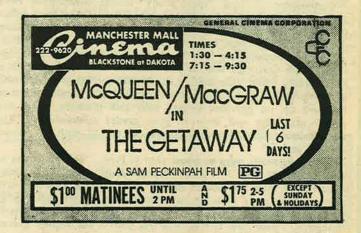

Oakland.

Alexander qualified for the 60 yard high hurdles by taking first place in both his qualifying heats in identical clockings of 7.6 seconds.

Alexander burned two clockings of 7.3 seconds in the 60 highs and 14.0 seconds in the 120 highs last year at Prairie View before suffering an injury.

FCC assistant track coach Ken Dose considers Alexander's start to be better than that of Jerry Wilson, a former Ram high hurdler who captured two state JC titles and an NCAA championship last year.

Alexander also played defensove back on the Rams' 1972 state Championship footballteam.

## Signups down from year

It drops when it's supposed to go up and it goes up when it's supposed to drop, but this semester theenrollment at FCC fooled everyone because it and almost exactly what is was expected to

Final spring enrollment figures at Fresno City Collegeare expected to show a decline of about 2.6 per cent or 179 day students form the spring enrollment levels of a year ago.

Some 6,816 students had signed up for day classes as of the close of registration Feb. 1, Registration officer Allyn Gerard expects 180 to 200 more students to enroll this week for a total spring day student enrollment of about 6,900.

Gerard pointed out, however, that the college was operating from a smaller base enrollment during fall semester of 1972 so the normal fall-to -spring attrition rate would mean a smaller number of students in the spring. Fall enrollment of day studnets was down 69 students from the enrollment levels of fall 1971.

College President Clyde Mc-Cully reviewed the enrollment trend at recent faculty meeting. His figures showed full-time day students (carrying 12 units or more) totalled 5,520 in fall 1971, but declined 415 students to 5,105 last fall.

Part-time day enrollment, in contrast, grew by 346 students to 2,485 in 1972 as compared 2,139 in the fall of 1971. Total day enrollment for the two years was 7,659 in 1971 and 7,590 at the beginning of fall semester, 1972.

McCully said the pattern reflects a tendency of students to take less than full-time instructional loads. "The average student load in 1965-66 was 15.3 hours," he said. "In 1970-71 this had declined to 14.6."

Enrollment figures for the evdivision, up 34 per last fall from the pervious fall semester, are not yet

The experience of the leveling off of enrollment, the cline, and the tendency of students to take fewer units not unique to FCC. The trend is state-wide among community colleges, and national in scope. Only a handful of California's 96 community colleges reported any enrollment gain this year.

Continuing instability of the labor market, the ending of draft responsibilities for young males, disenchantment with the baccalaureate degree as an educational objective, and the easing of admission requirements by fouryear colleges, also facing declining enrollments, have been cited as reasons for the slackening of enrollment growth at most institutions of higher education.

The decline in enrollment and the dip in the number of students taking full corse loads will have budget implications for the college, McCully said. State support of each college is based on weekly student contact hours. WSCH at Fresno City College declined from a high of 117,000 in 1970-71 to 113,640 in 1971-72, and 108,455 last fall. Both FCC and the state are

projecting amodest increase in total dayenrollment for the 1973-74 college year and a corresposnding leveling off of the WSCH figure at about 115,000.

McCully told the staff these realities will affect the staffing flexibility of the institution and result in less hiring of part-time faculty and continued assignment of some regular day instructors to evening class duties as a part of their regular work load.

He also reported that the college is completing a thorough review of all programs and that those showing an established record of low enrollment will be carefully evaluated. The opportunity to add new programs calling for increased staff and funds will be limited if the enrollment stabilizes or continues to decline, he said,

### Williams

(From Page 3)

he' still getting back in shape from football. But we need to be to good teams, both offensively and defensively."

The Rams have two important home games coming up this week --Saturday night against American River and Tuesday night agisnst league-leading COS. The COS game is a "must win" for the Rams to remain in contention, if they got by Sacramento last

### Herum tops Sac tourney

An FCC student earned the title "Best Debater" at the Governor Cup Debate Tournament on Feb. 2-3.

Steve Herum complied the highest effective speaker rating among approximately 250 students competing in the debate held at California State University, Sacramento. The tournament drew students from 35 universities and colleges here on the west coast and in the midwest.

Herum and his partner have a Z-1 record so far this year and have yet to be defeated by a CSUF debate team.

The debate and speech tournament spring schedule:

Feb. 9-10 -- California State university, Fresno, Invitational. Feb. 23-23 -- Merced Individual Events Tournament.

March 16-17 -- Santa Rosa Invitational.

March 30-31 -- Fresno City Pentathlon,

April 6-8 -- California Community College State Championship.

April 16-21 -- National Community College Finals, Gattlinberg, Tenn.

### LOSE 20 POUNDS IN TWO WEEKS!

Famous U.S. Women Ski Team Diet

During the non-snow off season the U.S. Women's Alpine Ski Team members go on the "Ski Team" diet to lose 20 pounds in two weeks. That's right — 20 pounds in 14 days! The basis of the diet is chemical food action and was devised by a famous Colorado physician especially for the U.S. Ski Team. Normal energy is maintained (very important!) while reducing. You keep "full" — no starvation — because the diet is designed that way! It's a diet that is easy to follow whether you work, travel or stay at home.

This is, honestly, a fantastically successful diet. If it weren't, the U.S. Women's Ski Team wouldn't be permitted to use it! Right? So, give same break the U.S. Team gets. Lose weight the scientific, proven way. Even it you've tried all the other diets, you owe it to yourself to try the U.S. Women's Ski Team Diet. That is, if you really do want to lose 20 pounds in two weeks. Order today. Tear this out as a reminder.

Send only \$2.00 (\$2.25 for Rush Service) - cash is O.K. - to Information Sources Co., P.O. Box 982, Dept. ST. Carpinteria, Calif. 93013. Don't order unless you expect to lose 20 pounds in two weeks! Because that's what the Ski Team Diet will do!

## What is wrong with FCC?

In the past the student body government has acted in good faith and did what they thought YOU wanted. This semester we are giving you the chance to tell us exactly what you want. SO DO IT! If you don't tell us what you want - STOP COMPLAINING

Tear out and put in RED suggestion box' or bring to A.S.B. office Rm 205 student center
