“Will everything in the Epstein Files be released?”

Compiled by Sara Cisneros

Roberto Hernandez
Welding Major

“I would say they’re gonna keep certain things classified, if there’s things that will affect people in a major way,” Hernandez said. “I think that they’ll kind of filter it to not scare people.

Betty Vega
Music Major

“I think that there’s a good chance that in the time that the government was shut down, that what gets released will be scrubbed of information that could be implication on the current government,” Vega said.

Abran Reyna
Undecided Major

“I feel like they would release people’s names that don’t really matter, don’t have public motions or anything,” Reyna said.

Aj Barnett
Art Major

“When we live in a political society, we want everything to be told straight up how it is, but they’re not going to, and that’s a real shame, honestly,” Barnett said.
